Email #1: Pre-marketing (Awareness & Hook)

Subject: [Name], Invest in Papumba: Help Revolutionize Education for Future Generations! 🌟

Hello [redacted],

We're about to launch a Community Round – what does that mean?

This means we're letting our customers and biggest supporters become investors in Papumba for a minimum investment of \$100. We decided to host a Community Round for Papumba on Wefunder to share the upside of our success with the people who know us best: our family, friends, and customers. You are our foundation.

We're inviting you to become an investor in Papumba before we open this investing round up to the public—giving you priority access before we open to the public + VCs and sell out. Instead of limiting the benefits of our growth to a select few affluent investors, we believe in empowering our valued customers by offering them an opportunity to share in our success.

Our Community Round is about building a network of people who share our mission and values. The great thing about Wefunder is that it allows anyone—whether or not they're accredited—to become an angel investor in our company.

We're launching in 2 days. Will you join us?

Keep an eye out tomorrow for details on how to get involved!

Email #2: Pre-marketing (Consideration & Addressing Objections)

Subject: Why should you invest in our Community Round?

Hello [REDACTED],

Yesterday, we introduced you to the concept of a Community Round and invited you to invest in Papumba's when it goes live on March **tomorrow**.

You may think, "Ok, I can invest in Papumba, but why should I, and how does that work?" Below we've outlined some answers to your possible questions and concerns to make you feel as comfortable with the process as possible:

- Why should you invest? Investing in startups can earn significant returns, though investing shouldn't be solely about that. To invest in something as risky as a startup, you should feel something extra beyond just the business model. You're investing because you believe in our product, our founder, and our future, and you want to be instrumental to our growth and success. You should only invest as much money as you are comfortable losing.
- Is my money safe? How does this work? Your investment will be made through Wefunder, an SEC-regulated platform that always keeps your money safe. Payment options include bank transfers (US only), checks (for \$1000+ investments), credit cards, Apple Pay, Google Pay, or wire transfer (international investors only). Check out all of the info on investing [here](#).
- Is it ok to invest a small amount? Absolutely! Even \$100 can make a difference. \$100 invested in Airbnb, in the beginning would leave you with \$1.24M today (that's an extreme example, and not all investments will turn out this way)!
- What if I'm an international investor? Wefunder can accept investments from anywhere other than Quebec, Alberta, and Ontario. Check out the investment process for international investors [here](#).

We're launching the private stage of our Wefunder round **tomorrow**, so keep an eye out for the announcement email, so you don't miss out on the special bonus reserved for the first investors!
