Hi Mark,

I want to personally thank you for being a strong supporter of our [Vitalize Angels WeFunder campaign](#). Each contribution is greatly appreciated and helps us in building a company that is addressing a major pain point for almost every organization.

👉 → 📌 **Call to Action:** We are at **\$48,288** of our **\$58,888** Minimum Viable Fundraising Target to make our Vitalize Angels campaign a success. We've already secured commitments from funds focused on the intersection of AI & Future of Work (First Row, Crossout Ventures, FullCircle, 27V & The Fund), and we have 4 funds in active late-stage discussions, so we're on track to close on our final commitments by April 14th and hit our \$1m target. We'd love more than anything to make Vitalize Angels a dedicated line on our cap table.

👉 Can you help us with one of the following?

- Committing **\$1,000** to our round. Every \$1,000 goes a long way to helping us achieve our target. [Invest via WeFunder](#)
- Share this email with others in your network: If every committed investor on our campaign currently shared with 1 other person who contributed \$1,000, we would easily hit our goal. 🙌

🔗 Reminders:

- 📌 **What is Logoi building?** Logoi is building the knowledge extraction & validation engine to address the billion dollar problem companies face around siloed knowledge and knowledge leak when employees exit.
- 👤 **Who is Logoi?** A seasoned team of PhD-level experts with founder backgrounds in product development & language analysis (Sara & Allen), coupled with a growth marketer (Matt), who grew multiple Silicon Valley startups (3 exits, 2 \$1B+). We are part of the Berkeley-Skydeck, Stanford-StarX & Techstars communities as well.
- 🗣️ **Why now?** It's hard to not hear something in the news every day about Generative AI, and beyond the hype, it **will transform knowledge worker industries in massive ways**. We leverage LLMs, but we are not a GPT-hype company. We understand what LLMs can do and what they can't, and we're building Logoi to address the gaps in their capabilities. We have a growing waitlist of over 75 companies who realize what we're doing is fundamentally different, and they are eager to see how we can automate their knowledge transfer needs.
- 😊 **But is now the right time?** Looming recession, SVB collapse...uncertain times indeed, but I'm no stranger to leading through a crisis. I was Executive Director of Hees Digital the day COVID shut down in-person instruction. We not only kept quality instruction alive during this difficult time, my team was recognized as **Team of the Year** for their efforts. I also launched our phase 1 research at Logoi, and we maintained a lean average burn rate of \$9k/mo, making our \$225K angel round last for 2+ years.

In case you missed it, [here is a link to our Vitalize pitch](#). Also, I'm always happy to jump on a 15-min call to connect 1:1 and answer any remaining questions you might have.

Thank you again,

—
