(D) The Company's Business and Business Plan

Our Story

We started out in a small, tiny 100 square-foot diner in Malden, which we still currently operate as takeout and delivery only. After going viral during the pandemic, our sales doubled, which led us to our dream of opening a second location in the Back Bay area in Boston. We expanded to one of the busiest and most well-known historic districts on Newbury St, Boston. Crazy Good Kitchen is not just a restaurant, we sell homemade indulge-worthy burgers and fried chicken sandwiches that our customers want to share their experience with their close circle of friends and family. After visiting the Miami food scene, we realized Crazy Good Kitchen belonged there. Our goal is to bring quality, crazy good burgers, fried chicken sandwiches, and shakes to the Miami area.

Investment Opportunity

We are looking for investors to help expand our company, building out a third location in Miami, FL in the Lincoln Eatery Food Hub in South Beach. At this location, we will benefit by increasing our exposure to a top 10 burger market in the country.

Considering all of our limitations in Malden diner; size, storage space, no liquor license, etc. We are still able to generate \$1.5 million USD in annual gross revenue. Our Newbury location has also been very successful in generating over 2.7 million USD in gross annual revenue in 2022 - this year we project over 3 million USD in gross annual revenue. Using that as a base model, we've projected sales at our Miami location to be in line with that of Malden given the similarities in size and sales volume.

Offerings

Smashed burgers, chicken sandwiches, milkshakes in the Boston area.

Crazy Good Kitchen's first location is a successful diner in Malden, Massachusetts. It is one of the states most historic diners, opening in 1930. We have been operating successfully for over four years now.

We have a unique partnership with our vendors for quality USDA prime meat cuts, which we grind in-house, along with dairy products that we use to make the milkshakes. In addition, our thick smashed burger style concept is unique to our region. We've already identified a loyal customer base in the Miami area through our marketing, social media following, and reputation for having amazing comfort food. SERVING BURGERS, SHAKES & FROZEN TREATS THAT TASTE, SO CRAZY GOOD!

Why You Should Invest

Experienced Founders - Our founders, Tony DeSouza and Selma Da Silva, have spent eleven years

in the milkshake industry. The team at Crazy Good Kitchen have since expanded their menu to include one of a kind burger recipe that embody a messy, crazy-like thick smash burger full of flavor in our homemade sauce recipes.

- Prime location sourced in tourist and beach area in South Beach; one of the (if not the) most visited areas in all of Miami;
- Partnership opportunities with other local vendors drive increased demand;
- Projected revenue of over \$1.5 million in first year of operations;
- Revenue structure drives high margins due to low cost of sales;

Competitive Advantage - Crazy Good Kitchen, marking our first burger location in Florida following its spotlight on Food Network's Cheat Day USA. We are the only burger diner in the area that serves thick smashed burgers and produce in-house ground beef patties and crazy delicious milkshakes that are trending in places like New York City and Los Angeles.

Key Performance Indicators - Newbury Street

- Average Monthly Revenue: \$250,000.00
- Average Ticket Size: \$40.00
- Gross Profit Margin: 70%
- Sales per Square Foot: \$600.00
- Sales per Employee: \$400.00

From the Founder

“We are very excited for you to be a part of Crazy Good Kitchen’s next chapter. We love being a part of communities in the Greater Boston area and now we look forward to expanding to our Miami location. We plan to become a neighborhood mainstay in our third location where everyone is welcome.”

If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as

“Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	1.5 - 3.1% ²
Payment Deadline	2031-12-31
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.6 x 1.5 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	3.52%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 1.5% and a maximum rate of 3.1% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$60,000	1.5%
\$76,000	1.9%
\$92,000	2.3%
\$108,000	2.7%
\$124,000	3.1%

³ To reward early participation, the investors who contribute the first \$100,000.0 raised in the offering will receive a 1.6x cap. Investors who contribute after \$100,000.0 has been raised in the offering will receive a 1.5x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document

called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Name of Security	Limited Liability Company Interests
Number of Shares Outstanding	N/A
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	N/A
How these securities differ from the revenue sharing notes being offered to investors	Limited Liability Company Interests are an equity interest, whereas Revenue Sharing Notes are a debt obligation of the Company.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Selma Desouza	50%
JOSE DESOUZA	50%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA.
