Who We Are

The Modern Rose is a fresh, avant-garde café featuring a distinguished, barista-induced coffeehouse using locally-roasted coffee, and over 60 organic teas. The photogenic menu extends

to include eclectic, delicious, and fresh items for breakfast, lunch and afternoon. The Modern Rose has established itself as a local leader in the Café space in both Broward and Palm Beach counties, FL, and a social media following of over 13,000.

The Modern Rose has already undergone one expansion in early 2021 in its current space. This fundraising campaign is to help us finish the project of moving the flagship location 6 doors down in the same plaza to a space just larger than twice the size, with a kitchen four times the size and full capabilities, allowing us to launch the entirety of The Modern Rose concept, including beer and wine.

Award-winning mixologist/owner/operator Emilio Dominguez, and his wife, Jimena, have combined to create a new, refreshing café/restaurant model with classic Mexican coastal cuisine cooking as a flavorful addition to the coffeehouse. Management intends to springboard off its rapid success of the Modern Rose model in the next generation of locations by deploying an all-day café model featuring exotic food and cocktail menus. The expanded model intends to generate multiple revenue streams through a diversity of time-targeted markets that move the revenue needle past the current day time café market, adding evening programming, tapas, rosés from around the world, making The Modern Rose a destination dining experience, any time of day.

Highlights

- The original Modern Rose was established in 2017 in Deerfield Beach, FL.
- In 2019, the Dominguez family purchased the fledgling business and brought in a fresh new business model and physical renovation.
- Within two years they built the company into a premier restaurant and café with a recognized brand.
- The small physical layout overachieved from a revenue perspective, consistently generating more than 1,200% revenue growth.
- Currently generating over \$1,150 of sales per square foot, per year; we anticipate this number to increase by 50% with the addition of bottomless mimosa brunches, alcohol menu, unique Low-ABV cocktail menu, expanded food menu.
- After expanding the flagship location, the Modern Rose brand successfully launched in downtown Delray Beach.
- Over \$3.1MM in annual revenues have been generated through the regular service of over 340 clients each day at a 23.55 profit margin.
- The additional of full kitchen and alcohol sales will have an enormous impact on revenues and are projected to account for 60% of future gross revenues.
- The financial model predicts an ROI of 93% after year 5, which could be substantially higher with revenues from acquisitions.
- Strategic locations to come soon in Palm Beach County, FL which attract a high tourist population to further sales.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	0.4 - 1.7% ²
Payment Deadline	2028-12-31
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.6 x 1.4 x
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	4.13%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 0.4% and a maximum rate of 1.7% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$30,000	0.4%
\$53,500	0.7%
\$77,000	1.0%
\$100,500	1.4%
\$124,000	1.7%

³ To reward early participation, the investors who contribute the first \$25,000.0 raised in the offering will receive a 1.6x cap. Investors who contribute after \$25,000.0 has been raised in the offering will receive a 1.4x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document

called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Name of Security	Limited Liability Company Interests
Number of Shares Outstanding	N/A
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	N/A
How these securities differ from the revenue sharing notes being offered to investors	Limited Liability Company Interests are an equity interest, whereas Revenue Sharing Notes are a debt obligation of the Company.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Emilio Dominguez	100%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA.
