## Why invest in collectible assets?

Crowdfunding allows investors to own shares in rare and high-value collectible assets that they are passionate about. This differs from purchasing collectibles outright. With Regulation CF Offerings, you aren't buying products or merch. You are buying fractional ownership in valuable collectibles, giving you the opportunity to benefit as their value appreciates over time.

## How much can I invest?

Investors other than accredited investors are limited in the amounts they are allowed to invest in all Regulation Crowdfunding offerings (on this site and elsewhere) over the course of a 12-month period: If either of an investor's annual income or net worth is less than \$124,000, then the investor's investment limit \$2,500, or 5 percent of the greater of the investor's annual income or net worth, whichever is greater. If both an investor's annual income and net worth are \$124,000 or higher, then the investor's limit is 10 percent of the greater of their annual income or net worth, or \$124,000 whichever is greater. Accredited investors are not limited in the amount they can invest.

This site is operated by Dalmore Group, LLC (“Dalmore Group”), which is a registered broker-dealer, and member of FINRA | SIPC, located at 530 7th Avenue, Suite 902, New York, NY 10018, please check our background on FINRA’s **BrokerCheck**. All securities-related activity is conducted by Dalmore Group, LLC (“Dalmore Group”). Dalmore Group does not make investment recommendations and no communication, through this website or in any other medium should be construed as a recommendation for any security offered on or off this investment platform.

Equity crowdfunding investments in private placements, and start-up investments in particular, are speculative and involve a high degree of risk and those investors who cannot afford to lose their entire investment should not invest in start-ups. Companies seeking startup investments through equity crowdfunding tend to be in earlier stages of development and their business model, products and services may not yet be fully developed, operational or tested in the public marketplace.

There is no guarantee that the stated valuation and other terms are accurate or in agreement with the market or industry valuations. Additionally, investors may receive illiquid and/or restricted stock that may be subject to holding period requirements and/or liquidity concerns. In the most sensible investment strategy for start-up investing, start-ups should only be part of your overall investment portfolio.

Further, the start-up portion of your portfolio may include a balanced portfolio of different start-ups. Investments in startups are highly illiquid and those investors who cannot hold an investment for the long term (at least 5-7 years) should not invest. Dalmore Group does not provide custody services in connection any investments made through the platform.
