(D) The Company's Business and Business Plan

Our Mission

Eat Real Bread.

- When we started selling our products at the Farmer's markets, we had the idea that we will have to change people's minds about what they know as "bread". We are talking about the ones you buy at supermarkets filled with chemicals and additives.
- We wanted people to understand that real bread only needs 4 ingredients - unbleached high quality flour, water, salt, and time.
- We wanted to introduce our customers to a type of bread using sourdough or natural leaven where the dough rises for a long period of time to allow the bacteria to break down the gluten up to a point where bread will be easy to digest.
- We wanted to bring back the glory days of bread when it was a staple in our dinner tables because it was made responsibly and it was nothing like the soft, no crust, zero flavor, chemical-laden mass produced thing we all got used to eating as bread over the years.

Intended Use of Funds

Construction is currently underway at our new location, and we are seeking funds to purchase equipment and put the finishing touches on the space. We are almost 90% done with

construction and will soon need to purchase our baking equipment.

- We will be using the funds to purchase large equipment such as a dough mixer, dough sheeter and additional refrigeration. This will help us become more efficient and consistent with our production.
- We will also use some of the money to complete the installation of our electric deck oven. This oven is perfect for producing our rustic sourdough loaves, flaky croissants and kouignettes, and our thin-crust pizzas.

Our Location

Our space at 12146 South St. in the City of Artesia is currently under construction and will be the perfect spot to serve our existing community and reach new customers.

- Located near the Los Cerritos mall and the busy dine-out spots in the area.
- Our spot is perfect for a quick grab of coffee and pastries in the morning before going to work or school. During lunch, we will have slices of NY-style thin crust pizzas available.
- We believe that we are unique despite having a few specialty coffee shops in the area since we are the only business making everything in-house from dough to finished product.
- Everything is handmade and baked in small batches to keep everything fresh and we think that the community will truly appreciate that.

Our Story

As artisan bread bakers, we have sold bread and pastries at the farmers markets for years. We pioneered the passing of the Cottage Food Law in California in 2012 because we believed that small business owners like us deserved to have a platform and means to offer our handmade products to consumers.

- We banded with like-minded bread bakers in Los Angeles, raised funds by selling our breads and pizzas and lobbied the City Council to pass a Cottage Food bill.
- We joined our very first farmer's market in Anaheim in the summer of 2013. Soon after, we were able to join bigger markets with busier crowds at the Playa Vista Farmer's market and Newport beach.
- We bake as much as our limited space and equipment will allow us so we can serve as much as we could to our customers even if it means zero sleep during weekends but seeing our customers happy makes it all worthwhile.

Recognition

Our Carrot sourdough with cranberries and walnuts and Jalapeno-Cheddar demi-baguette were featured by the Orange County Magazine as part of their Breaking Bread series together with some of the top bakeries in OC.

Meet Bakeshack

We were founded in the summer of 2013. During this time, the Cottage Food Law had just been passed, which allowed home-bakers and artisans to offer their products to consumers through the Farmer's markets. We were passionate about making NY-style thin crust pizza but the law

only allowed us to sell our sourdough breads and pastries. We believed that there was no other vendor selling our style of breads and pastries so we decided to go ahead and take the leap in our home-based bakery. We started strong and got really positive feedback from customers. This allowed us to join bigger markets during the weekend and reach even more customers who truly supported us from the beginning. Working with limited capacity and equipment, we kept working and tried our best to produce as much as we could to accommodate the growing demand for our products.

After building a community of support at farmers markets for the past 10 years, we've reached our production capacity so we are building our first location in the City of Artesia. This location will allow us to increase our production capacity and serve our growing community. This will also allow us to offer even more products like our NY-style pizzas and other specialty pastry items.

If you do not affirmatively choose to invest, then your commitment will be cancelled, your funds will be returned to you, and you will not receive any securities.

(L) Price of the Securities

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as “Notes.” The Notes are being offered at their face amount. For example, you will pay \$1,000 for a Note with a face amount of \$1,000.

(M) Terms of the Securities

Overview

The Company is offering “securities” in the form of revenue sharing notes, which we refer to as the “Notes.” The Terms of the Notes are set forth in the Revenue Share Agreement accompanying this Form C in Appendix A. Copies of the Note and Revenue Sharing Agreement are attached to this Form C.

Summary of Terms

Revenue Percentage ¹	2.0 - 4.0% ²
Payment Deadline	2028-12-31
Maximum Payment Multiple ³ - Early Investors - All Other Investors	1.7 X 1.5 X
Sharing Start Date	The first day after disbursement that the company has revenues greater than one (\$1) dollar
First Payment Date	The last day of the calendar quarter ending not less than 90 days after the Sharing Start Date
Seniority	Subordinated
Securitization	Unsecured
Accrual Rate	4.13%

¹ as defined in the note agreement included in Appendix A

² The rate of revenue sharing is calculated on a linear scale with a minimum rate of 2.0% and a maximum rate of 4.0% and is rounded to the nearest 1/10th percent. The final rate is based on the amount raised and is calculated after the offering has successfully closed. As the amount raised in the offering increases, the rate of revenue sharing increases. For example, a hypothetical offering could result in the following revenue sharing percentages, depending on the amount raised:

Amount Raised	Revenue Sharing Percentage
\$30,000	2.0%
\$37,500	2.5%
\$45,000	3.0%
\$52,500	3.5%
\$60,000	4.0%

³ To reward early participation, the investors who contribute the first \$10,000.0 raised in the offering will receive a 1.7x cap. Investors who contribute after \$10,000.0 has been raised in the offering will receive a 1.5x cap.

Your Right to Payments under the Note

Your right to payments under the Note is set forth in the Note, together with a separate document

called the Revenue Sharing Agreement. Copies of the Note and Revenue Sharing Agreement are attached to this Form C. Additionally, general terms are outlined below and in the Company's offering page.

Obligation to Contribute Capital

Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company. However, under some circumstances you could be required by law to return some or all of a distribution you receive from the Company.

No Right to Transfer

You should plan to hold the Notes until maturity. The Notes will be illiquid (meaning you might not be able to sell them) for at least four reasons:

- The Revenue Sharing Agreement prohibits the sale or other transfer of Notes without the Company's consent.
- If you want to sell your Note the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.
- Even if a sale were permitted, there is no ready market for Notes, as there would be for a publicly-traded stock.
- By law, for a period of one year you won't be allowed to transfer the Investor Shares except (i) to the Company itself, (ii) to an "accredited" investor, (iii) to a family or trust, or (iii) in a public offering of the Company's shares.

Security

The Notes are not secured by any assets of the Company or any assets of persons associated with the Company.

Modification of Terms of Notes

The terms of the Notes and the Revenue Sharing Agreement may be modified or amended with the consent of Investors holding 50% of the Notes, measured by the total amount outstanding under each Note.

Other Classes of Securities

Name of Security	Limited Liability Company Interests
Number of Shares Outstanding	N/A
Describe Voting Rights of These Securities, Including Any Limitations on Voting Rights	N/A
How these securities differ from the revenue sharing notes being offered to investors	Limited Liability Company Interests are an equity interest, whereas Revenue Sharing Notes are a debt obligation of the Company.

Dilution of Rights

The Company has the right to create additional classes of securities, both equity securities and debt securities (e.g., other classes of promissory notes). Some of these additional classes of securities could have rights that are superior to those of the Notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

The People Who Control the Company

Each of these people owns 20% or more of the total voting power of the Company:

Name of Holder	% of Voting Power (Prior to Offering)
Marlon Gokim	90%

How the Exercise of Voting Rights Could Affect You

You will receive payments with respect to your Note only if the Company makes enough money to pay you, or, if the Company does not make enough money to pay you, if there is enough value in the collateral the Company pledged as security for the Notes.

The people with voting rights control the Company and make all the decisions about running its business. If they make good business decisions, it is more likely you will be paid. If they make poor business decisions, it is less likely you will be paid. For example, if they hire too many people and/or try to expand too quickly, the business could be harmed. The people with voting rights could also decide to file for bankruptcy protection, making it more difficult for you to be paid.

How the Notes are Being Valued

The Notes are being valued at their face value. We don't anticipate that we'll ever need to place a value on the Notes in the future.

(N) The Funding Portal

The Company is offering its securities through MainVest, Inc., which is a "Funding Portal" licensed by the Securities and Exchange Commission and FINRA. MainVest Inc.'s Central Index Key (CIK) number is 0001746059, their SEC File number is 007-00162, and their Central Registration Depository (CRD) number is 298384.

(O) Compensation of the Funding Portal

Upon successful funding of the Offering, the Funding Portal will receive as the "Revenue Securement Fee"; 4.5% of the amount of the Offering raised by In-Network Users of the Platform plus 9.0% of the amount of the Offering raised by all other investors. "In-Network Users" means a user of Mainvest.com who who have utilized the Company's specified in-network link on the Site.
