Chad >

Hey Chad, saw the 12 unit acquisition, nice!

We have a super exciting launch coming up so I want to share this with you...

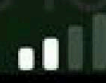

I think you know about the real estate tokenization company we have been building. We recently crossed the \$100M tokenized mark and achieved Federal licensing to launch the first SEC Regulated Marketplace exclusively for tokenized real estate! Think NASDAQ or Coinbase for real estate investments. A lot of my network has been asking how they can get involved. We decided to create a Reg CF offering on Wefunder (crowdfunding) so our supporters could own some equity in the company! Super exciting launch coming. I thought you might be interested in checking it out. Reg CF has super flexible terms. We are in a special friends and family reservation period before we share with the public. Happy to hop on a call to chat about it as well. You can check out the details here:

Hey ,
I think you know about the real estate tokenization company my team and I have been building. We recently crossed the \$100M tokenized mark! A lot of my network has been asking how they can get involved so, we decided to create a Reg CF offering (crowdfunding) for equity in the company! Here is a recording to a live event we did recently that I thought you would find exciting!

We are in a special friends and family reservation period before we share with the public. Happy to hop on a call to chat about it as well. Or if you want to just go straight to the page, you can check out the details here:

Topic

WEBINAR - The Future of Real Estate Investing: Tokenized Ownership on a Regulated Marketplace

Date & Time: Nov 19, 2025 05:00 PM

Description: Discover How REtokens is Transforming the \$20 Trillion Real Estate Market

Join CEO Tyler Vinson for an exclusive deep dive into our WeFunder investment campaign, the success we've had to-date and our vision for the future. Learn why our first-ever SEC-registered marketplace design exclusively for tokenized real estate represents a once-in-a-decade opportunity.

Date: Wednesday, November 19th

Time: 8 pm EST | 6 pm MST | 5 pm PST

Duration: 30 minutes + Q&A

Format: Live Zoom Webinar

Cost: Free (Friends & Family Exclusive)

Tyler will cover:

- What we've built (FINRA-licensed broker-dealer, SEC-regulated ATS)
- The massive market opportunity (\$4 trillion by 2030)
- Our financials and projections
- Investment terms and how to participate
- Live Q&A - ask anything

REtokens is raising \$5 million on Wefunder to scale the REtokens marketplace to be the Coinbase for Real Estate.

Before we open to the public, we're giving friends and family the opportunity to invest on Early Bird terms - but only through December 31st.

This is your chance to understand the opportunity, ask questions directly to the founder, and decide if REtokens is the right opportunity for you.

CONFIRMATION EMAIL

Building the Nasdaq for Real Estate: Invest in REtokens on WeFunder

November 5, 2025 2 Minute Read

For the last few months, we've been preparing to launch something called an equity crowdfunding campaign on WeFunder (<https://wefunder.com/retokens>). Equity crowdfunding isn't like Kickstarter where you'd be buying a CD or T-shirt or something in advance and we use the money to produce it. Equity crowdfunding allows you to actually become an investor and shareholder alongside people who professionally invest in startups. Read this article to learn more.

Carmen Williams

It's official—we are live on WeFunder, and we're inviting you to be part of transforming the real estate industry with real estate tokenization.

REtokens is building the Nasdaq for real estate investing with the first SEC-registered secondary marketplace designed exclusively for tokenized real estate. We're not just building another platform—we're unlocking an entire asset class that's been locked away from everyday investors for far too long.

[I hear from Tyler Vinson, CEO of REtokens | Watch Video](#)

Why This Matters

For decades, real estate investment has been plagued by liquidity, high barriers to entry, and limited access. We're changing that. Through blockchain technology and our compliant marketplace ecosystem, we're transforming traditionally illiquid real estate assets into flexible, tradable tokens, creating potential for more liquidity and global reach.

Our exclusive real estate focus means we're not spreading ourselves thin across multiple asset classes. We're building specialized expertise, creating tailored solutions, and fostering a community of serious real estate investors—all within a fully SEC-registered marketplace backed by FINRA broker-dealer services.

What We're Building

Think of REtokens as a digital real estate exchange where global investors can access, trade, and manage tokenized real estate on their time. We provide the complete solution—from tokenization through secondary market trading—all backed by institutional-grade security and regulatory excellence.

This isn't just about technology. It's about democratizing real estate investment and making ownership accessible to everyone, regardless of net worth or location.

About Carmen Williams

Carmen is the CEO for REtokens USA and has over 25 years of business and marketing leadership experience. She also has a passion for real estate (owning her real estate, lender or agent point) and has dabbled in real estate investing. She's now leading tokenization education for REtokens.
