RISK FACTORS

Risks Related to the Company's Business and Industry

To date, we have generated some revenue, we are planning to create additional revenue after the movie is released in North America in the near future and therefore rely on external financing.

We are an experienced production Company and our business model currently focuses specifically on preparing for the production, marketing, and distribution of the feature documentary film *Blind Ambition*. While we intend to generate revenue in the future, we cannot assure you when or if we will be able to do so.

We rely on external financing to meet operational needs. We anticipate, based on our current proposed plans and assumptions relating to our operations (including the timetable of, and costs associated with new product development) that, if the Minimum Amount is raised in this Offering, it will be sufficient to satisfy our contemplated cash requirements through approximately the pre-production period, assuming that we do not accelerate the development of other opportunities available to us, engage in an extraordinary transaction or otherwise face unexpected events, costs or contingencies, any of which could affect our cash requirements.

We may have difficulty obtaining additional funding and we cannot assure you that additional capital will be available to us when needed, if at all, or if available, will be obtained on terms acceptable to us. If we raise additional funds by issuing additional debt securities, such debt instruments may provide for rights, preferences or privileges senior to the Securities. In addition, the terms of the debt securities issued could impose significant restrictions on our operations. If we raise additional funds through collaborations and licensing arrangements, we might be required to relinquish significant rights to our technologies or product candidates, or grant licenses on terms that are not favorable to us. If adequate funds are not available, we may have to delay, scale back, or eliminate some of our operations or our research development and commercialization activities. Under these circumstances, if the Company is unable to acquire additional capital or is required to raise it on terms that are less satisfactory than desired, it may have a material adverse effect on its financial condition.

The Company does not have the ability to market and distribute *Blind Ambition* without hiring distributors and sub-distributors.

Without engaging distributors and sub-distributors, the Company does not have the ability to execute a marketing campaign and distribution of the film. If we are unable to identify and hire the appropriate parties, we will not be able to successfully execute our business plan. Distributors and sub-distributors may choose not to engage with the Company at their discretion.

The Company may prematurely abandon *Blind Ambition* marketing and distribution.

Blind Ambition distribution may be abandoned by the Company at any stage if further expenditures do not appear commercially feasible. This would result in a loss of some or all of the funds previously expended on the operations and ongoing expenses of the Company, as the case may be, including funds expended in connection with the marketing and distribution of *Blind Ambition*. Abandonment of *Blind Ambition* at any stage would have a material adverse impact on the Company and would likely cause investors to lose their entire investment in the movie.

The development and commercialization of a feature film is highly competitive.

We face competition with respect to the motion picture we seek to distribute. Our competitors include major film productions and related companies worldwide. Many of our competitors have significantly greater financial, technical, and human resources than we have and superior expertise in research and development and marketing and this may be better equipped than us to develop and commercialize a feature film. These competitors also compete with us in recruiting and retaining qualified distributors and other related groups.

The Company's success depends on the successful distribution of a single film and the Company is unable to diversify its investment to reduce risk of failure.

No assurances can be given that the Company's management team will be able to successfully develop and make arrangements for the distribution of Blind Ambition. The distribution and marketing of Blind Ambition is subject to numerous uncertainties, including financing requirements, personnel availability and the release schedule of competing films. There may be additional problems that could adversely affect the Company's profitability, including public taste, competition for theaters, motion pictures, advertising costs, uncertainty with respect to release dates and the failure of other parties to fulfill their contractual obligations and other contingencies. No assurance can be given that the Company will be able to successfully distribute or realize any revenue from the film Blind Ambition. Failure to distribute or realize any such revenues will have a material adverse effect on the Company's business, operating results and financial condition.

We depend on third-party service providers and outsource providers for a variety of services and we outsource a number of our non-core functions and operations.

We rely on third-party distributors and sub-distributors to execute the distribution and sales. If outsourcing services are interrupted or not performed or the performance is poor, this could impact the overall quality and success of the film.

Hiring sub-distributors and sub-distributors may decrease profits.

The Company intends to hire distributors and sub-distributors for domestic and international distribution. These agreements generally provide that the distributors and sub-distributors are entitled to share in the profits of Blind Ambition. Such an agreement would reduce the amount of profits to the Company from Blind Ambition.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of an approved product and revenues from sales, as well as the inherent business risks associated with our company and present and future market conditions. Our business currently does not generate any sales and future sources of revenue may not be sufficient to meet our future capital requirements. We may require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of, or eliminate one, or more of our research, development, or

commercialization programs, product launches, or marketing efforts, any of which may materially harm our business, financial condition, and results of operations.

The development and commercialization of our films is highly competitive.

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing films and thus may be better equipped than us to develop and commercialize films. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early-stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize films more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our film will achieve initial market acceptance and our ability to generate meaningful additional revenues from our products.

As a producer of films, our business depends on developing and maintaining close and productive relationships with our vendors.

We depend on our vendors to sell us quality products at favorable prices. Many factors outside our control, including, without limitation, raw material shortages, inadequate manufacturing capacity, labor disputes, transportation disruptions or weather conditions, could adversely affect our vendors' ability to deliver to us quality merchandise at favorable prices in a timely manner. Furthermore, financial or operational difficulties with a particular vendor could cause that vendor to increase the cost of the products or decrease the quality of the products we purchase from it. Vendor consolidation could also limit the number of suppliers from which we may purchase products and could materially affect the prices we pay for these products. We would suffer an adverse impact if our vendors limit or cancel the return privileges that currently protect us from inventory obsolescence.

In general, demand for our products and services is highly correlated with general economic conditions.

A substantial portion of our revenue is derived from discretionary spending by individuals, which typically falls during times of economic instability. Declines in economic conditions in the U.S. or in other countries in which we operate may adversely impact our consolidated financial results. Because such declines in demand are difficult to predict, we or the industry may have increased excess capacity as a result. An increase in excess capacity may result in declines in prices for our products and services.

Our international operations could be affected by currency fluctuations, capital and exchange controls, expropriation and other restrictive government actions, changes in intellectual property legal protections and remedies, trade regulations and procedures and actions affecting approval, production, pricing, and marketing of, reimbursement for and access to

our products, as well as by political unrest, unstable governments and legal systems and inter-governmental disputes.

Any of these changes could adversely affect our business. Many emerging markets have experienced growth rates in excess of the world's largest markets, leading to an increased contribution to the industry's global performance. There is no assurance that these countries will continue to sustain these growth rates. In addition, some emerging market countries may be particularly vulnerable to periods of financial instability or significant currency fluctuations or may have limited resources for healthcare spending, which can adversely affect our results.

The Company's success depends on the experience and skill of its managers, its executive officers and key employees.

In particular, the Company is dependent on Adam Morse, the 100% owner of the Blind Ambition Feature LLC and the only Manager of the Company. The loss of Adam Morse could harm the Company's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on Adam Morse in order to conduct its operations and execute its business plan, however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of Adam Morse dies or becomes disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such a person could negatively affect the Company and its operations.

Potential need for Licenses.

While not anticipated, the Company may need to acquire federal, state, and/or local licenses/permits to complete the work yet to be done with respect to the distribution and marketing of the film.

Additional Offerings.

The company may need to raise additional funds through the sale and issuance of additional securities with rights that may be better than those in this offering.

We are subject to income taxes as well as non-income-based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in both the U.S. and various foreign jurisdictions.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will

not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

Changes in employment laws or regulations could harm our performance.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws include minimum wage requirements, overtime pay, healthcare reform and the implementation of the Patient Protection and Affordable Care Act, unemployment tax rates, workers' compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, increased tax reporting and tax payment requirements for employees who receive tips, a reduction in the number of states that allow tips to be credited toward minimum wage requirements, changing regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act.

The Company's business operations may be materially adversely affected by a pandemic such as the Coronavirus (COVID-19) outbreak.

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which spread throughout other parts of the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a "Public Health Emergency of International Concern." On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a "pandemic." COVID-19 resulted in a widespread health crisis that adversely affected the economies and financial markets worldwide. The Company's business could be materially and adversely affected. The extent to which COVID-19 impacts the Company's business will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other matters of

global concern continue for an extended period of time, the Company's operations may be materially adversely affected.

We face risks related to health epidemics and other outbreaks, which could significantly disrupt the Company's operations and could have a material adverse impact on us.

The outbreak of pandemics and epidemics could materially and adversely affect the Company's business, financial condition, and results of operations. If a pandemic occurs in areas in which we have material operations or sales, the Company's business activities originating from affected areas, including sales, materials, and supply chain related activities, could be adversely affected. Disruptive activities could include the temporary closure of facilities used in the Company's supply chain processes, restrictions on the export or shipment of products necessary to run the Company's business, business closures in impacted areas, and restrictions on the Company's employees' or consultants' ability to travel and to meet with customers, vendors or other business relationships. The extent to which a pandemic or other health outbreak impacts the Company's results will depend on future developments, which are highly uncertain and cannot be predicted, including new information that may emerge concerning the severity of a virus and the actions to contain it or treat its impact, among others. Pandemics can also result in social, economic, and labor instability which may adversely impact the Company's business.

If the Company's employees or employees of any of the Company's vendors, suppliers or customers become ill or are quarantined and in either or both events are therefore unable to work, the Company's operations could be subject to disruption. The extent to which a pandemic affects the Company's results will depend on future developments that are highly uncertain and cannot be predicted.

We face risks relating to public health conditions such as the COVID-19 pandemic, which could adversely affect the Company's customers, business, and results of operations.

Our business and prospects could be materially adversely affected by the COVID-19 pandemic or recurrences of that or any other such disease in the future. Material adverse effects from COVID-19 and similar occurrences could result in numerous known and currently unknown ways including quarantines and lockdowns which impair the Company's business including: marketing and sales efforts, supply chain, etc. In the event that a quarantine or increased restrictions are put in place, there is a chance that theaters may be negatively impacted by this type of action. Blind Ambition's main revenue projections rely heavily on its performance in theaters, therefore if theaters are closed, there would most likely be significant negative financial consequences for the Company. If the Company purchases materials from suppliers in affected areas, the Company may not be able to procure such products in a timely manner. The effects of a pandemic can place travel restrictions on key personnel which could have a material impact on the business. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could reduce the demand for the Company's products and impair the Company's business prospects including as a result of being unable to raise additional capital on acceptable terms to us, if at all.

Changes in government regulation could adversely impact our business.

The cable/media/television/internet/entertainment industry is subject to extensive legislation and regulation at the federal and local levels and, in some instances, at the state level. Additionally, our film is also subject to regulation, and additional regulation is under consideration. Many aspects of such regulation are currently the subject of judicial and administrative proceedings, legislative and administrative proposals, and lobbying efforts by us and our competitors. Legislation under consideration could entirely rewrite our principal regulatory statute, and the FCC and/or Congress may attempt to change the classification of or change the way that our film is regulated and/or change the framework under which broadcast signals are carried, remove the copyright compulsory license and changing rights and obligations of our competitors. We expect that court actions and regulatory proceedings will continue to refine our rights and obligations under applicable federal, state and local laws, which cannot be predicted. Modifications to existing requirements or imposition of new requirements or limitations could have an adverse impact on our business.

Net neutrality could have an adverse impact on our business and results of operations.

On February 26, 2015, the United States FCC ruled in favor of net neutrality by reclassifying Internet broadband access as a telecommunications service and thus applying Title II of the Communications Act of 1934 to Internet service providers. On June 11, 2018, the FCC's Restoring Internet Freedom Order took effect, effectively repealing the 2015 net neutrality ruling. On April 10, 2019, the U.S. House of Representatives passed the Save the Internet Act of 2019, which would restore net neutrality; the Act is awaiting U.S. Senate floor action as of the date of this document.

Net neutrality could hurt the Company's ability to reach a wide audience through the streaming platforms to which it intends to distribute its products, which could adversely affect our business and results of operations.

We may not be able to adapt to new content distribution platforms and to changes in consumer behavior resulting from these new technologies.

We must successfully adapt to technological advances in our industry, including the emergence of alternative distribution platforms. Our ability to exploit new distribution platforms and viewing technologies will affect our ability to maintain or grow our business and may increase our capital expenditures. Additionally, we must adapt to changing consumer behavior driven by advances such as DVRs, video-on-demand, online based content delivery, Blu-ray™ players, game consoles and mobile devices. Such changes may impact the revenue we are able to generate from our traditional distribution methods by decreasing the viewership of our networks on cable and other MVPD systems. If we fail to adapt our distribution methods and content to emerging technologies, our appeal to our targeted audiences might decline and there would be a materially adverse effect on our business and results of operations.

New technologies may make our products and services obsolete or unneeded.

New and emerging technological advances, such as mobile computing devices that allow consumers to obtain information and view content may adversely impact or eliminate the demand for our products and services. The increasing availability of content on such devices, the improved video quality of the content on such devices and faster wireless delivery speeds may make individuals less likely to purchase our services. Our success can depend on new product development. The entertainment and communications industry is ever-changing as new technologies are introduced. Advances in technology, such as new video formats, downloading or alternative methods of product delivery and distribution channels, such as the Internet, or certain changes in consumer behavior driven by these or other technologies and methods of delivery, could have a negative effect on our business. These changes could lower cost barriers for our competitors desiring to enter into, or expand their presence in, the interactive services business. Increased competition may adversely affect our business and results of operations.

We face risks relating to competition for the leisure time and discretionary spending of audiences, which has intensified in part due to advances in technology and changes in consumer expectations and behavior.

Our business is subject to risks relating to increasing competition for the leisure time and discretionary spending of consumers. We compete with all other sources of entertainment and information delivery. Technological advancements, such as new video formats and Internet streaming and downloading of programming that can be viewed on televisions, computers and mobile devices have increased the number of entertainment and information delivery choices available to consumers and intensified the challenges posed by audience fragmentation. The increasing number of choices available to audiences, including low-cost or free choices, could negatively impact not only consumer demand for our products and services, but also advertisers' willingness to purchase advertising from us. Our failure to effectively anticipate or adapt to new technologies and changes in consumer expectations and behavior could significantly adversely affect our competitive position and its business and results of operations.

Piracy of the Company's content may decrease the revenues received from the sale of our content and adversely affect our businesses.

The piracy of our content, products and other intellectual property poses significant challenges for us. Technological developments, such as the proliferation of cloud-based storage and streaming, increased broadband Internet speed and penetration and increased speed of mobile data transmission have made it easier to create, transmit, distribute and store high quality unauthorized copies of content in unprotected digital formats, which has in turn encouraged the creation of highly scalable businesses that facilitate, and in many instances financially benefit from, such piracy. Piracy is particularly prevalent in many parts of the world that lack effective copyright and technical legal protections or enforcement measures, and illegitimate operators based in these parts of the world can attract viewers from anywhere in the world. The proliferation of unauthorized copies and piracy of the Company's content, products and intellectual property or the products it licenses from others could result in a reduction of the revenues that the Company receives from the legitimate sale, licensing and distribution of its content and products. The Company devotes substantial resources to protecting its content,

products and intellectual property, but there can be no assurance that the Company's efforts to enforce its rights and combat piracy will be successful.

Our success depends on consumer acceptance of our content and we may be adversely affected if our content fails to achieve sufficient consumer acceptance or if the costs to create or acquire content increase.

We create media and entertainment content, the success of which depends substantially on consumer tastes and preferences that change in often unpredictable ways. The success of these businesses depends on our ability to complete the full production cycle and create a final product that meets the changing preferences of the broad domestic and international consumer market. We have invested, and will continue to invest, substantial amounts in our content, including in the production of original content, before learning the extent to which it would earn consumer acceptance.

We also obtain a significant portion of our content from third parties, such as movie studios, television production companies, sports organizations, freelance writers, photographers and other suppliers. Competition for popular content is intense, and we may have to increase the price we are willing to pay or be outbid by our competitors for popular content. Entering into or renewing contracts for such programming rights or acquiring additional rights may result in significantly increased costs. There can be no assurance that revenue from these contracts will exceed our cost for the rights, as well as the other costs of producing and distributing the content. If our content does not achieve sufficient consumer acceptance, or if we cannot obtain or retain rights to popular content on acceptable terms, or at all, our businesses may be adversely affected.

Our business could be adversely affected if there is a decline in advertising spending.

A decline in the economic prospects of advertisers or the economy in general could cause current or prospective advertisers to spend less on advertising or spend their advertising dollars in other media. Advertising expenditures also could be negatively affected by (i) increasing audience fragmentation caused by increased availability of alternative forms of leisure and entertainment activities; (ii) the increased use of digital video recorders to skip advertisements; (iii) pressure from public interest groups to reduce or eliminate advertising of certain products; (iv) new laws and regulations that prohibit or restrict certain types of advertisements; and (v) natural disasters, extreme weather, acts of terrorism, political uncertainty or hostilities, because there may be uninterrupted news coverage of such events that disrupts regular ad placement. In addition, advertisers' willingness to purchase advertising time from the Company may be adversely affected by a decline in users/customers/audience ratings for our content. Finally, if the television ratings system is not changed so that it captures the viewership of programming through digital video recorders, VOD and mobile devices, advertisers may not be willing to pay advertising rates based on the increasing viewership that occurs after the initial airing of a program and on digital platforms.

We derive substantial revenues from the sale of advertising, and a decrease in overall advertising expenditures could lead to a reduction in the amount of advertising that companies are willing to purchase and the price at which they purchase it.

Expenditures by advertisers tend to be cyclical and have become less predictable in recent years, reflecting domestic and global economic conditions. If the economic prospects of advertisers or current economic conditions worsen, such conditions could alter current or prospective advertisers' spending priorities. In particular, advertisers in certain industries that are more susceptible to weakness in domestic and global economic conditions, such as beauty, fashion and retail and food, account for a significant portion of our advertising revenues, and weakness in these industries could have a disproportionate negative impact on our advertising revenues. Declines in consumer spending on advertisers' products due to weak economic conditions could also indirectly negatively impact our advertising revenues, as advertisers may not perceive as much value from advertising if consumers are purchasing fewer of their products or services. As a result, our advertising revenues are less predictable.

The company might fail to get A-list support

Given the manager's efforts in partnering up with A-list celebrities, it is still possible that such celebrities might not respond to the manager's demand.

Risks Related to the Securities

The Securities are not freely tradable.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be affected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulations applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company, or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all

Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

The Company is owned by one owner.

The Company is currently owned by one (1) members on a 100% basis, with Adam Morse holding a 100% stake. Adam Morse has full control of the Company without input from investors in this Offering, including the election of officers or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Adam Morse may have interests that are different from yours. For example, he may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, Adam Morse could use his voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval. As an investor in debt, you have no vote in the management of the Company.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

There is no present market for the Securities.

We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

There can be no assurance that we will ever provide liquidity to Purchasers through either a sale of the Company or a registration of the Securities.

There can be no assurance that any form of merger, combination, or sale of the Company will take place, or that any merger, combination, or sale would provide liquidity for Purchasers. Furthermore, we may be unable to register the Securities for resale by Purchasers for legal, commercial, regulatory, market-related or other reasons. In the event that we are unable to effect a registration, Purchasers could be unable to sell their Securities unless an exemption from registration is available.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions, and more than thirty (30) days remain before the Offering Deadline, an intermediate close of the Offering can occur, which will allow the Company to draw down on a portion of the proceeds of the offering committed and captured during the relevant period. The Company may choose to continue the Offering thereafter. Purchasers should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Purchasers previously closed upon will not have the right to re-confirm their investment as it will be deemed completed.

The Company has the right to end the Offering early.

The Company may also end the Offering early; if the Offering reaches its Minimum Offering Amount after 30-calendar days but before the Offering Deadline, the Company can end the Offering with five business days' notice. This means your failure to participate in the Offering in a timely manner may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

The goal of the Company is to produce the film, hire distributors, and execute the Print and Advertising strategy of the film for distribution and marketing in domestic and international markets.

The film is currently in pre-production with some of the footage showing Adam's life already in place. Pre-production is the stage for the movie to begin fundraising efforts and planning the

main elements of the production such as the shooting schedule, creative direction, cast and the team. The Company won't start hiring any cast or crew members until the minimum amount is raised.

The Company will generate revenue through, among other things, the successful distribution of the film to theaters across the world and particularly in the US. Subsequently, there may be additional revenue streams generated from on-demand purchases, streaming, and DVD.

Business Plan

The Company is in a unique position in that Blind Ambition is a well-crafted story that has a transmedia component of licensing opportunities to toys, games, comic books, tv series, VR, etc. Blind Ambition Feature LLC has already invested the capital required to develop the storyline into a full fledged documentary movie. The movie will seek collaboration with A-list celebrities to support the marketing strategy.

In return for the Company's efforts, it will receive a portion of global net receipts of the film subject to the distribution and related payment rights set forth in the operating agreement.

FINANCIAL INFORMATION

Please see the financial information listed on the cover page of this Form C and attached hereto in addition to the following information. Financial statements are attached hereto as Exhibit A.

Operations

While we have generated some revenue, they are not enough to cover our expenses, which include: 1. General business operations and related expenses including legal and accounting costs, 2. Repayment of debt and interest, and 3. Intermediary fees. We do not anticipate generating revenue until Q4 2024.

The Company intends to achieve profitability in the next 48 months with the following steps: 1. Leverage capital to fund print and advertising for the pre-release of the film Blind Ambition 2. Execute a successful release of the film Blind Ambition, and subsequently generate revenue from gross profits from the film 3. Maintain streamlined, low-cost operations to improve margins.

Liquidity and Capital Resources

We plan to use the proceeds as set forth above under "Use of Proceeds", which is an indispensable element of our business strategy.

The Company currently has no resources to begin pre-production and no liquidity. Therefore, all of the proceeds will be used to start the production and finish it. The total budget for the movie is \$5,000,000. However, more capital availability can open new opportunities to increase value i.e. a-list celebrity deals.

The financial statements are an important part of this Form C and should be reviewed in their entirety. The financial statements of the Company are attached hereto as Exhibit A.

THE OFFERING AND THE SECURITIES

The Offering

The Company is offering up to 5,000 Units of Equity (the “Securities”) for up to \$5,000,000.00 (the “Maximum Amount”). The Company has the right to extend the Offering Deadline at its discretion. The Securities don’t have any voting rights. The terms of this Offering may only be modified as permitted under the securities laws, specifically, under Reg CF. The rights of holders of the Securities is a right of payment under the Operating Agreement (attached to this Form C) and are subject to the rights of “priority returns”, as described below. Additionally, the rights of holders of the Securities may be materially limited, diluted or qualified by future issuances of securities by the Company, although no such issuances are currently contemplated by the Company.

The proceeds from the sale of the Units will be used to produce and distribute the feature-length movie *Blind Ambition*.

The Company will cause Collected Gross Receipts to be distributed to the Investor on a pro-rata basis and, with respect to Net Profits, as more fully described in the Operating Agreement with each recipient being paid in an order established under such Schedule. The Units will be behind any senior loan as position in the profit waterfall.

The Net Profit participation rights transferred hereunder shall be determined at the rate of fifty percent (50%) of one hundred percent (100%) of the Net Profits of the Picture for each one million US dollars (\$5,000,000.00 USD) invested hereunder (e.g., an investment of \$1,000,000.00 USD would entitle such Investor to ten percent (10%) of the Net Profits of the Picture; an investment of \$500,000.00 USD would entitle such Investor to five percent (5%) of the Net Profits of the Picture; an investment of \$100,000.00 USD would entitle such Investor to one percent (1%) of the Net Profits of the Picture).

After the repayment of the Senior Loan, the Gross Receipts derived from the Picture will be distributed to Investors on a pro-rata basis until each Investor has received its respective Investor Contribution plus a Priority Return of twenty percent (20%). Investors will also be entitled to “Investor Adjusted Net Profits” of the Picture, as set forth in the Company’s Operating Agreement in Exhibit A, in proportion to each Investor’s Equity Interest. Regardless of any new entries to the cap table, Investors will protect second position in the profit waterfall.

The price of the Securities does not necessarily bear any relationship to the asset value, net worth, revenues, or other established criteria of value, and should not be considered indicative of the actual value of the Securities.

The Units offered are not capital equity units and do not represent ownership in the Company. Ownership in the Company is held as indicated under “Capitalization” above. The Units represent equity ownership in the company.

In order to purchase the Securities, you must make a commitment to purchase by completing the Subscription Agreement. Purchaser funds will be held in escrow with North Capital Private Securities Corporation until the Minimum Amount of investments is reached. Purchasers may cancel an investment commitment until 48 hours prior to the Offering Deadline or the Closing, whichever comes first, using the cancellation mechanism provided by the Intermediary. If you do not cancel an investment commitment before the 48-hour period prior to the offering deadline, you will receive securities in exchange for his or her investment. The Company will notify Purchasers when the Minimum Amount has been reached. If the Company reaches the Minimum Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after reaching the Minimum Amount and providing notice to the Purchasers. If any material change (other than reaching the Minimum Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Purchasers and receive reconfirmations from Purchasers who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser’s investment commitment will be canceled, and the committed funds will be returned without interest or deductions. If a Purchaser does not cancel an investment commitment before the Minimum Amount is reached, the funds will be released to the Company upon closing of the Offering and the Purchaser will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing and the Purchaser will receive Securities via Electronic Certificate/PDF in exchange for his or her investment as soon as practicable thereafter.

In the event that \$50,000 in investments is committed and received by the Escrow Agent and more than thirty (30) days remain before the Offering Deadline, the Company may conduct the first of multiple closings of the Offering (an “Intermediate Close”), provided all investors receive notice that an Intermediate Close will occur and funds will be released to the Company, at least five (5) business days prior to the Intermediate Close (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Investors who committed on or before such notice will have until 48 hours before the Intermediate Close to cancel their investment commitment. In the event the Company does conduct the first of multiple closes, the Company agrees to only withdraw \$50,000 from escrow and will only conduct the Intermediate Close if more than thirty (30) days remain before the Offering Deadline.

Potential Impact of Owner’s Exercise of Rights

Prior to the Offering the Company’s current owners of 20% or more beneficially own 100.0% of the Company. Subject to any fiduciary duties owed to our other owners or investors under California law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company’s management and policies. The concentration of ownership could delay or prevent a change in control of the

Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval. The owners of the Company hold debt interests that are in line *pari passu* with the holders of the Securities.

Purchasers of the Securities will be minority owners with no voting rights. Risks inherent in investment include actions taken by the Company that may limit, restrict or dilute the value of the Securities, including, without limitation, additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. If the Company rejects all or a portion of any subscription, the applicable prospective Purchaser's funds will be returned without interest or deduction.

The price of the Securities was determined arbitrarily. The minimum amount that a Purchaser may invest in the Offering is \$1,000.

Independent Auditor's Report

November 1, 2023
To: Board of Directors of Blind Ambition Feature LLC
Attn: Adam Morse, President
Re: Inception Financial Statement Audit – Blind Ambition Feature LLC

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Blind Ambition Feature LLC, which comprise the balance sheet as of the date of inception on September 20, 2023, and the related statements of income, changes in stockholders' equity, and cash flows for the date then ended, and the related notes to the financial statements. In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Blind Ambition Feature LLC as of the date of inception on September 20, 2023, and the results of its operations and its cash flows for the date then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Blind Ambition Feature LLC and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Blind Ambition Feature LLC's ability to continue as a going concern.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are

appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Blind Ambition Feature LLC's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Blind Ambition Feature LLC's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Sincerely,

TaxDrop LLC

BLIND AMBITION FEATURE LLC
NOTES TO FINANCIAL STATEMENTS
AS OF SEPTEMBER 30, 2023 (INCEPTION)
(AUDITED)

NOTE 1 – NATURE OF OPERATIONS

Blind Ambition Feature LLC (which may be referred to as the “Company”, “we,” “us,” or “our”) was registered in Delaware on September 20, 2023. The Company will produce a feature-length documentary film following the personal and professional journey of the world’s first award-winning blind filmmaker and actor, Adam Morse.

Since inception, the Company has relied on contributions from owners to fund its operations. The Company will likely incur losses prior to generating positive retained earnings. During the next twelve months, the Company intends to fund its operations with funding from capital raises, (See Note 5), if and when such funds can be realized.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America (“US GAAP”). Any reference in these notes to applicable guidance is meant to refer to U.S. GAAP as found in the Accounting Standards Codification (“ASC”) and Accounting Standards Updates (“ASU”) of the Financial Accounting Standards Board (“FASB”).

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make certain estimates and assumptions that affect the amounts reported in the financial statements and footnotes thereto. Actual results could materially differ from these estimates. It is reasonably possible that changes in estimates will occur in the near term.

Risks and Uncertainties

The Company has a limited operating history. The Company’s business and operations are sensitive to general business and economic conditions in the United States. A host of factors beyond the Company’s control could cause fluctuations in these conditions. Adverse conditions may include recession, downturn or otherwise, local competition or changes in consumer taste. These adverse conditions could affect the Company’s financial condition and the results of its operations.

Cash and Cash Equivalents

The Company considers short-term, highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents.

Fixed Assets

Property and equipment are recorded at cost. Expenditures for renewals and improvements that significantly add to the productive capacity or extend the useful life of an asset are capitalized. Expenditures for maintenance and repairs are charged to expense. When equipment is retired or sold, the cost and related accumulated depreciation are eliminated from the accounts and the resultant gain or loss is reflected in the income statement.

Depreciation is provided using the straight-line method, based on useful lives of the assets.

The Company reviews the carrying value of property and equipment for impairment whenever events and circumstances indicate that the carrying value of an asset may not be recoverable from the estimated future cash flows expected to result from its use and eventual disposition. In cases where undiscounted expected future cash flows are less than the carrying value, an impairment loss is recognized equal to an amount by which the carrying value exceeds the fair value of assets. The factors considered by management in performing this assessment include current operating

BLIND AMBITION FEATURE LLC

(AUDITED)

results, trends and prospects, the manner in which the property is used, and the effects of obsolescence, demand, competition, and other economic factors. Based on this assessment there was no impairment as of September 20, 2023 as the Company had no fixed assets.

Fair Value Measurements

US GAAP defines fair value as the price that would be received to sell an asset or be paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price) and such principles also establish a fair value hierarchy that prioritizes the inputs used to measure fair value using the following definitions (from highest to lowest priority):

- Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.
- Level 2 – Observable inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data by correlation or other means.
- Level 3 – Prices or valuation techniques requiring inputs that are both significant to the fair value measurement and unobservable.

There were no assets or liabilities requiring fair value measurement as of September 20, 2023.

Income Taxes

Income taxes are provided for the tax effects of transactions reporting in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of receivables, property and equipment, intangible assets, and accrued expenses for financial and income tax reporting. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized.

There were no deferred tax assets or liabilities as of September 20, 2023.

The Company evaluates its tax positions that have been taken or are expected to be taken on income tax returns to determine if an accrual is necessary for uncertain tax positions.

Revenue Recognition

The Company is pre-revenue and has not made any sales or received consideration for any future sales as of September 20, 2023.

Organizational Costs

In accordance with FASB ASC 720, organizational costs, including accounting fees, legal fee, and costs of incorporation, are expensed as incurred.

Advertising

The Company expenses advertising costs as they are incurred.
