RISK FACTORS

Risks Related to the Company’s Business and Industry

We have limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

We were originally formed as a limited liability company under the laws of California on November 23, 2022. Accordingly, we have no history upon which an evaluation of our prospects and future performance can be made. Our proposed operations are subject to all business risks associated with a new enterprise. The likelihood of our creation of a viable business must be

considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the inception of a business, operation in a competitive industry, and the continued development of advertising, promotions, and a corresponding client base. We anticipate that our operating expenses will increase for the near future. There can be no assurances that we will ever operate profitably. You should consider the Company's business, operations and prospects in light of the risks, expenses and challenges faced as an early-stage company.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Taylor Timario, Mason Timario, Devan Timario, and Jennifer Timario who are CEO, COO, CFO and Secretary of the Company, respectively. The Company has or intends to enter into employment agreements with Taylor Timario, Mason Timario, Devan Timario, and Jennifer Timario although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of Taylor Timario, Mason Timario, Devan Timario, and Jennifer Timario or any member of the board of directors or executive officer could harm the Company's business, financial condition, cash flow and results of operations.

The Company intends to use the proceeds from the Offering for unspecified working capital.

This means that the Company has ultimate discretion to use the proceeds as it sees fit and has chosen not to set forth any specific uses for you to evaluate. The net proceeds from this Offering will be used for the purposes, which our management deems to be in our best interests in order to address changed circumstances or opportunities. As a result of the foregoing, our success will be substantially dependent upon our discretion and judgment with respect to application and allocation of the net proceeds of this Offering. The Company may choose to use the proceeds in a manner that you do not agree with and you will have no recourse. A use of proceeds that does not further the Company's business and goals could harm the Company and its operations and ultimately cause an Investor to lose all or a portion of his or her investment.

We have not prepared any audited financial statements.

Therefore, you have no audited financial information regarding the Company's capitalization or assets or liabilities on which to make your investment decision. If you feel the information provided is insufficient, you should not invest in the Company.

We are subject to income taxes as well as non-income based taxes, such as payroll, sales, use, value-added, net worth, property and goods and services taxes, in the U.S.

Significant judgment is required in determining our provision for income taxes and other tax liabilities. In the ordinary course of our business, there are many transactions and calculations where the ultimate tax determination is uncertain. Although we believe that our tax estimates are reasonable: (i) there is no assurance that the final determination of tax audits or tax disputes will not be different from what is reflected in our income tax provisions, expense amounts for non-income based taxes and accruals and (ii) any material differences could have an adverse effect on our financial position and results of operations in the period or periods for which determination is made.

The Company's business operations may be materially adversely affected by a pandemic such as the Coronavirus (COVID-19) outbreak.

In December 2019, a novel strain of coronavirus was reported to have surfaced in Wuhan, China, which spread throughout other parts of the world, including the United States. On January 30, 2020, the World Health Organization declared the outbreak of the coronavirus disease (COVID-19) a “Public Health Emergency of International Concern.” On January 31, 2020, U.S. Health and Human Services Secretary Alex M. Azar II declared a public health emergency for the United States to aid the U.S. healthcare community in responding to COVID-19, and on March 11, 2020 the World Health Organization characterized the outbreak as a “pandemic.” COVID-19 resulted in a widespread health crisis that adversely affected the economies and financial markets worldwide. The Company’s business could be materially and adversely affected. The extent to which COVID-19 impacts the Company’s business will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions to contain COVID-19 or treat its impact, among others. If the disruptions posed by COVID-19 or other matters of global concern continue for an extended period of time, the Company’s operations may be materially adversely affected.

We face risks related to health epidemics and other outbreaks, which could significantly disrupt the Company’s operations and could have a material adverse impact on us.

The outbreak of pandemics and epidemics could materially and adversely affect the Company’s business, financial condition, and results of operations. If a pandemic occurs in areas in which we have material operations or sales, the Company’s business activities originating from affected areas, including sales, materials, and supply chain related activities, could be adversely affected. Disruptive activities could include the temporary closure of facilities used in the Company’s supply chain processes, restrictions on the export or shipment of products necessary to run the Company’s business, business closures in impacted areas, and restrictions on the Company’s employees’ or consultants’ ability to travel and to meet with customers, vendors or other business relationships. The extent to which a pandemic or other health outbreak impacts the Company’s results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of a virus and the actions to contain it or treat its impact, among others. Pandemics can also result in social, economic, and labor instability which may adversely impact the Company’s business.

If the Company’s employees or employees of any of the Company’s vendors, suppliers or customers become ill or are quarantined and in either or both events are therefore unable to work, the Company’s operations could be subject to disruption. The extent to which a pandemic affects the Company’s results will depend on future developments that are highly uncertain and cannot be predicted.

We face risks relating to public health conditions such as the COVID-19 pandemic, which could adversely affect the Company’s customers, business, and results of operations.

Our business and prospects could be materially adversely affected by the COVID-19 pandemic or recurrences of that or any other such disease in the future. Material adverse effects from COVID-19 and similar occurrences could result in numerous known and currently unknown ways including from quarantines and lockdowns which impair the Company’s business including: marketing and sales efforts, supply chain, etc. If the Company purchases materials from suppliers in affected areas, the Company may not be able to procure such products in a timely manner. The effects of a pandemic can place travel restrictions on key personnel which could have a material impact on the

business. In addition, a significant outbreak of contagious diseases in the human population could result in a widespread health crisis that could adversely affect the economies and financial markets of many countries, resulting in an economic downturn that could reduce the demand for the Company's products and impair the Company's business prospects including as a result of being unable to raise additional capital on acceptable terms to us, if at all.

Our future cash flow is dependent on the performance of our tenants.

We are subject to risks that financial distress, default or bankruptcy of our tenants may lead to vacancy at our properties or disruption in rent receipts as a result of partial payment or nonpayment of rent or that expiring leases may not be renewed. Under unfavorable general economic conditions, such as poor consumer sentiment, inflation, inclement weather or natural disaster, there can be no assurance that our tenants' level of sales and financial performance generally will not be adversely affected, which in turn, could negatively impact our rental revenues.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Taylor Timario, Mason Timario, Devan Timario, and Jennifer Timario. The Company has or intends to enter into employment agreements with Taylor Timario, Mason Timario, Devan Timario, and Jennifer Timario although there can be no assurance that it will do so or that they will continue to be employed by the Company for a particular period of time. The loss of Taylor Timario, Mason Timario, Devan Timario, and Jennifer Timario or any member of the board of directors or executive officer could harm the Company's business and results of operations.

Investors in the Company's homes/properties may finance their acquisition with mortgage financing.

Housing/Property demand is adversely affected by reduced availability of mortgage financing and factors that increase the upfront or monthly cost of financing a home such as increases in interest rates, insurance premiums, or limitations on mortgage interest deductibility. The recent decrease in the willingness and ability of lenders to make home mortgage loans, the tightening of lending standards, greater down payment requirements and the limitation of financing product options, have made it more difficult for homebuyers to obtain acceptable financing. Any substantial increase in short-term and/or long-term mortgage interest rates or unavailability of mortgage financing may adversely affect the ability of prospective buyers to obtain financing for the Company's homes/properties, as well as adversely affect the ability of prospective homebuyers to sell their current homes. A disruption in the credit markets and/or the curtailed availability of mortgage financing may adversely affect our business and results of operations.

Failure to attract and retain qualified personnel at a reasonable cost could jeopardize our competitive position.

As our industry is characterized by high demand and intense competition for talent, we may need to offer higher compensation and other benefits in order to attract and retain quality sales, technical and other operational personnel in the future. We compete with other companies engaged in online real estate services and internet-related businesses and with print media for qualified personnel. We have, from time to time in the past, experienced, and we expect in the future to continue to experience, difficulty in hiring and retaining highly skilled employees with appropriate qualifications. We must hire and train qualified managerial and other employees on a timely basis

to keep pace with our rapid growth while maintaining consistent quality of services across our operations in various geographic locations. We must provide continued training to our managerial and other employees so that they are equipped with up-to-date knowledge of various aspects of our operations and can meet our demand for high-quality services. If we fail to do so, the quality of our services may decline. We cannot assure you we will be able to attract or retain the quality personnel that we need to achieve our business objectives.

The former decline in economic conditions and disruptions to markets could cause us to suffer operating losses, adversely affect our liquidity, and create other business problems for us.

The global and U.S. economies experienced significant declines in 2008 and 2009 from which they have not fully recovered. The real estate and other markets suffered unprecedented disruptions, causing many major institutions to fail or require government intervention to avoid failure, which placed severe pressure on liquidity and asset values. These conditions were brought about largely by the erosion of U.S. and global credit markets, including a significant and rapid deterioration of the mortgage lending and related real estate markets. While there have been indications of a partial recovery we could experience significant losses, resulting primarily from significant provisions for credit losses and impairment charges resulting in substantial decreases in the net carrying value of our assets as a consequence of the difficult economic environment. Economic conditions or the real estate and other markets generally may not fully recover in the near term, in which case we could experience losses and write-downs of assets, and could face capital and liquidity constraints and other business challenges.

We are subject to risks that affect the retail environment, including adverse weather conditions and natural disasters, which could negatively affect consumer spending and adversely affect the sales of our retail tenants.

This could have an unfavorable effect on our operations and our ability to attract new retail tenants. For example, frequent or unusually intense inclement weather or natural disasters could prevent customers from reaching our tenants, reducing their profitability and harming our business. Similarly non-seasonal weather could inhibit our tenant's ability to determine consumer demand, reducing their profitability and harming our business.

Our business operations are susceptible to, and could be significantly affected by, adverse weather conditions and natural disasters that could cause significant damage to our properties.

Although we intend to obtain insurance for our properties, our insurance may not be adequate to cover business interruption or losses resulting from adverse weather or natural disasters. In addition, our insurance policies may include substantial self-insurance portions and significant deductibles and co-payments for such events, and recent hurricanes in the United States have affected the availability and price of such insurance. As a result, we may incur significant costs in the event of adverse weather conditions and natural disasters. If we experience a loss that is uninsured or which exceeds our policy limits, we could incur significant costs and lose the capital invested in the damaged properties, as well as the anticipated future cash flows from those properties. In addition, if the damaged properties are subject to recourse indebtedness, we would continue to be liable for the indebtedness, even if these properties were irreparably damaged. In addition, certain of our properties may not be able to be rebuilt to their existing

height or size at their existing location under current land-use laws and policies. In the event that we experience a substantial or comprehensive loss of one of our properties, we may not be able to rebuild such property to its existing specifications and otherwise may have to upgrade such property to meet current code requirements.

Our business is dependent on perceptions by retailers and shoppers of the convenience and attractiveness of our retail properties, and our inability to maintain a positive perception may adversely affect our revenues.

We are dependent on perceptions by retailers or shoppers of the safety, convenience and attractiveness of our retail properties. If retailers and shoppers perceive competing retail properties and other retailing options to be more convenient or of a higher quality, our revenues may be adversely affected.

General economic conditions could have an adverse effect on our business and results of operations.

Our business is sensitive to general economic conditions, both nationally and locally, as well as international economic conditions. General poor economic conditions and the resulting effect of non-existent or slow rates of growth in the markets in which we operate could have an adverse effect on the demand for our real estate business. These poor economic conditions include higher unemployment, inflation, deflation, increased commodity costs, decreases in consumer demand, changes in buying patterns, a weakened dollar, higher transportation and fuel costs, higher consumer debt levels, higher tax rates and other changes in tax laws or other economic factors that may affect commercial and residential real estate. Specifically, high national or regional unemployment may arrest or delay any significant recovery of the residential real estate markets in which we operate, which could adversely affect the demand for our real estate assets.

Uninsured losses may adversely affect our business.

We, or in certain instances, tenants of our properties, carry property and liability insurance policies with respect to the properties. This coverage has policy specifications and insured limits customarily carried for similar properties. However, certain types of losses (such as from earthquakes and floods) may be either uninsurable or not economically insurable. Further, certain properties are located in areas that are subject to earthquake activity and floods. Should a property sustain damage as a result of an earthquake or flood, we may incur losses due to insurance deductibles, co-payments on insured losses or uninsured losses. Additionally, we have elected to obtain insurance coverage for "certified acts of terrorism" as defined in the Terrorism Risk Insurance Act of 2002, as amended and reauthorized to date; however, our policies of insurance may not provide coverage for other acts of terrorism. Any losses from such other acts of terrorism might be uninsured. Should an uninsured loss occur, we could lose some or all of our capital investment, cash flow and anticipated profits related to one or more properties. This could have an adverse effect on our business and results of operations.

Market Fluctuations in Rental Rates and Occupancy Could Adversely Affect Our Operations.

As leases turn over, our ability to re-lease the space to existing or new tenants at rates equal to or greater than those realized historically may be impacted by, among other things, the economic conditions of the market in which a property is located, the availability of competing space (including sublease space offered by tenants who have vacated space in competing buildings prior to the expiration of their lease term), and the level of improvements which may be required at the property. We cannot be assured that the rental rates we obtain in the future will be equal to or greater than those obtained under existing contractual commitments. If we cannot lease all or substantially all of the expiring space at our properties promptly, or if the rental rates are significantly lower than expected, then our results of operations could be negatively impacted.

Our failure to effectively develop and operate mixed-use properties could have an adverse effect on us, including our cash flows, results of operations and growth prospects.

Our business strategy depends significantly on our ability to leverage our extensive experience in completing and operating large, complex, mixed-use public/private projects. Our revenues depend significantly on our ability to develop and manage properties with both commercial and residential aspects and to integrate the two in a seamless ecosystem. In addition, we must attract and partner with state and local government agencies to undertake public/private development projects with us. Our ability to obtain new work depends on successful prior and existing projects. If we fail to maintain a track record of success, it could have a material adverse effect on our growth prospects.

We may obtain only limited warranties when we purchase a property and would have only limited recourse in the event our due diligence did not identify any issues that lower the value of our property.

The seller of a property often sells such property in its "as is" condition on a "where is" basis and "with all faults" without any warranties of merchantability or fitness for a particular use or purpose. In addition, purchase and sale agreements may contain only limited warranties, representations and indemnifications that will only survive for a limited period after the closing. The purchase of properties with limited warranties increases the risk that we may lose some or all of our invested capital in the property, as well as the loss of rental revenue from that property, which could negatively affect our business and the value of your investment.

To date, we have not generated revenue and do not foresee generating any revenue in the near future.

We are a startup Company and our business model currently focuses on purchasing properties under market value and building a diversified portfolio rather than generating revenue. While we intend to generate revenue in the future, we cannot assure you when or if we will be successful in doing so. We rely on external financing to fund our operations. We anticipate, based on our current proposed plans and assumptions relating to our operations (including the timetable of, and costs associated with our business) that, if the Minimum Amount is raised in this Offering, it will be sufficient to satisfy our contemplated cash requirements through approximately allowing us to engage in at least one property to be able to open escrow, assuming that we do not accelerate the development of other opportunities available to us, engage in an extraordinary transaction or otherwise face unexpected events, costs or contingencies, any of which could affect our cash requirements.

An Officer/Director of the Company filed for personal bankruptcies.

Jennifer Timario, the Company's Director and Secretary, filed for Chapter 7 Bankruptcy in 1999 and in 2010. The bankruptcies have since been discharged.

Risks Related to the Securities

The Securities will not be freely tradable until one year from the initial purchase date. Although the Securities may be tradable under federal securities law, state securities regulations may apply and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Prospective investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

A majority of the Company is owned by a small number of owners.

Prior to the Offering the Company's current owners of 20% or more beneficially own up to 55.0% of the Company. Subject to any fiduciary duties owed to our other owners or investors under Delaware law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals

that are subject to owner approval.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

The Company has the right to end the Offering early.

The Company may also end the Offering early. If the Offering reaches the Minimum Amount after 30 calendar days but before the Offering deadline, the Company can end the Offering with five business days' notice. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

The Company has the right to conduct multiple closings during the Offering.

If the Company meets certain terms and conditions an intermediate close of the Offering can occur, which will allow the Company to draw down on a portion of the proceeds of the Offering committed and captured during the relevant period. The Company may choose to continue the Offering thereafter. Purchasers should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Purchasers previously closed upon will not have the right to re-confirm their investment as it will be deemed completed.

Material changes to the Offering will cancel pending investments unless you reconfirm your commitment.

Material changes to an offering include but are not limited to: a change in minimum offering amount, change in the security price (except as otherwise described in this Form C with respect to participation in tranches with at discounted prices), change in management, material change to financial information, etc. If an issuer makes a material change to the offering terms or other information disclosed Investors will be given five (5) business days to reconfirm their investment commitment. If Investors do not reconfirm, their investment will be cancelled and the funds will be returned.

There is no present market for the Securities and we have arbitrarily set the price.

We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

Your ownership of the shares of stock will be subject to dilution.

Owners of do not have preemptive rights. If the Company conducts subsequent Offerings of or Securities convertible into , issues shares pursuant to a compensation or distribution reinvestment plan or otherwise issues additional shares, investors who purchase shares in this Offering who do not participate in those other stock issuances will experience dilution in their percentage ownership of the Company's outstanding shares. Furthermore, shareholders may experience a dilution in the value of their shares depending on the terms and pricing of any future share issuances (including the shares being sold in this Offering) and the value of the Company's assets at the time of issuance.

The Securities will be equity interests in the Company and will not constitute indebtedness.

The Securities will rank junior to all existing and future indebtedness and other non-equity claims on the Company with respect to assets available to satisfy claims on the Company, including in a liquidation of the Company. Additionally, unlike indebtedness, for which principal and interest would customarily be payable on specified due dates, there will be no specified payments of dividends with respect to the Securities and dividends are payable only if, when and as authorized and declared by the Company and depend on, among other matters, the Company's historical and projected results of operations, liquidity, cash flows, capital levels, financial condition, debt service requirements and other cash needs, financing covenants, applicable state law, federal and state regulatory prohibitions and other restrictions and any other factors the Company's board of directors deems relevant at the time. In addition, the terms of the Securities will not limit the amount of debt or other obligations the Company may incur in the future. Accordingly, the Company may incur substantial amounts of additional debt and other obligations that will rank senior to the Securities.

There can be no assurance that we will ever provide liquidity to Purchasers through either a sale of the Company or a registration of the Securities.

There can be no assurance that any form of merger, combination, or sale of the Company will take place, or that any merger, combination, or sale would provide liquidity for Purchasers. Furthermore, we may be unable to register the Securities for resale by Purchasers for legal, commercial, regulatory, market-related or other reasons. In the event that we are unable to effect a registration, Purchasers could be unable to sell their Securities unless an exemption from registration is available.

The Company does not anticipate paying any cash dividends for the foreseeable future.

The Company currently intends to retain future earnings, if any, for the foreseeable future, to repay indebtedness and to support its business. The Company does not intend in the foreseeable future to pay any dividends to holders of its shares of .

The Securities in this Offering are Non-Voting and have no protective provisions.

The Securities in this Offering are non-voting and have no protective provisions. As such, you will not be afforded protection, by any provision of the Securities or as a stockholder, in the event of a transaction that may adversely affect you, including a reorganization, restructuring, merger or other similar transaction involving the Company. If there is a "liquidation event," or "change of control" for the Company, the Securities being offered do not provide you with any protection. In addition, there are no provisions attached to the Securities in the Offering that would permit you to require the Company to repurchase the Securities in the event of a takeover, recapitalization or

similar transaction involving the Company.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Company or to receive financial or other information from the Company, other than as required by law. Other security holders of the Company may have such rights. Regulation CF requires only the provision of an annual report on Form C and no additional information. Additionally, there are numerous methods by which the Company can terminate annual report obligations, resulting in limited to no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Company such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things. In addition, the Company is not currently subject to the reporting requirements of the Exchange Act. Therefore, Investors may not have access to information to which they would have access if the investment were made in a publicly held company whose offering was issued under the Exchange Act, and who is subject to the reporting regulations provided by the Exchange Act.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each prospective Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

The Company must receive commitments from investors in an amount totaling the Minimum Amount by January 31, 2025 (the "Offering Deadline") in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Minimum Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned to potential investors without interest or deductions.
