Hey William,

This is an invitation for you to be a part of a revolutionary company that is redefining sustainability.

[Handprint.tech](#)

We have known the founders personally for years now. They have inspired Pangea and our community to go beyond sustainability, and towards regenerating the planet.

Now it's our opportunity to give back!

We are going to help them launch their first crowdfunding round, and our community will be the **very first people** to see their campaign.

We are 'testing the waters' to gauge investor interest in an offering under Regulation Crowdfunding. No money or other consideration is being solicited. If sent, it will not be accepted. No offer to buy securities will be accepted. No part of the purchase price will be received until a Form C is filed and only through Wefunder's platform. Any indication of interest involves no obligation or commitment of any kind.

The world has been laser-focused on carbon footprints for far too long.

But it's time to break free from the guilt and the fraudulent claims.

Our friends at [Handprint.tech](#) are fixing the broken carbon credit system with nature credits.

Your Handprint is a science-based solution to restoring ecosystems.

Here's how Handprint fixes the broken carbon credit system:

1. Satellite imaging to guarantee the ecosystems stay protected
2. Prioritizing the most critical ecosystems for planetary health
3. Addresses all of Earth's systems, not just the atmosphere

Our community is so amazing! So far 1 out of every 16 people who review [Handprint.tech](#) have joined their company and mission.
