THE OFFERING AND THE SECURITIES

The Offering

The Issuer is offering a minimum amount of \$50,000 (the “**Target Offering Amount**”) and up to a maximum amount of \$1,235,000 (the “**Maximum Offering Amount**”) of SAFE (Simple Agreement for Future Equity) (the “**Securities**”) on a best efforts basis as described in this Form C/A (this “**Offering**”). The Minimum Individual Purchase Amount is \$200 and the Maximum Individual Purchase Amount is \$124,000. The Issuer reserves the right to amend the Minimum Individual Purchase Amount and Maximum Individual Purchase Amount, in its sole discretion. In particular, the Issuer may elect to participate in one of the Intermediary’s special investment programs and may offer alternative Minimum Individual Purchase Amounts and Maximum Individual Purchase Amounts to Investors participating in such programs without notice. The Issuer must raise an amount equal to or greater than the Target Offering Amount by September 20, 2024 (the “**Offering Deadline**”). Unless the Issuer receives investment commitments, which are fully paid for and meet all other requirements set by this Offering, in an amount not less than the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be canceled and all committed funds will be returned.

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Issuer’s asset value, net worth, revenues or other objective established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities, you must make a commitment to purchase by completing the purchase process hosted by the **Intermediary** (as defined above), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Issuer are required to correct any errors or omissions made by the Investor.**

Investor funds will be held in escrow with a qualified third party escrow agent meeting the requirements of Regulation CF (“**Escrow Agent**”) until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment until up to 48 hours prior to the Offering Deadline or an intermediate close, using the cancellation mechanism provided by the Intermediary. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds. If the Investor does not cancel an investment commitment before the 48-hour period prior to the Offering Deadline, the funds will be released to the Issuer and the Investor will receive their Securities.**

The Issuer will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Issuer reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Issuer continues to meet or exceed the Target Offering Amount on the date of the expedited Offering Deadline.

The Deal Page

A description of our products, services and business plan can be found on the Issuer’s profile page on the Intermediary’s website under <https://republic.com/jet-shark> (the “**Deal Page**”). The Deal Page can be used by prospective Investors to ask the Issuer questions and for the Issuer to post immaterial updates to this Form C/A as well as make general announcements. You should view the Deal Page at the time you consider making an investment commitment. Updates on the status of this Offering can also be found on the Deal Page.

Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Issuer will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor’s investment commitment will be canceled and the committed funds will be returned without interest or deductions.

Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Issuer designates pursuant to Rule 304(b) of Regulation CF, the Issuer may conduct the first of multiple closings of the Offering early, *provided* (i) the early closing date must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment commitments). Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before such early closing date.

If the Issuer conducts an initial closing (the “**Initial Closing**”), the Issuer agrees to only withdraw seventy percent (70%) of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Issuer may only conduct another close (a “**Subsequent Closing**”) before the Offering Deadline if the amount of investment commitments made as of the date of such Subsequent Closing exceeds two times the Target Offering Amount as of the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Issuer upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Issuer has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Issuer until they are accepted by the Issuer, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Issuer rejects all or a portion of any investment commitment, the applicable prospective Investor’s funds will be returned without interest or deduction.

The Securities

We request that you please review this Form C/A and the Instrument attached as Exhibit B, in conjunction with the following summary information.

Not Currently Equity Interests

The Securities are not currently equity interests in the Issuer and merely provide a right to receive equity at some point in the future upon the occurrence of certain events (which may or may not occur).

Dividends and/or Distributions

The Securities do not entitle Investors to any dividends.

Nominee

The Nominee (as defined below) will act on behalf of the Investors as their agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of Securities or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Securities, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee’s sole discretion, to take custody of any securities acquired upon conversion of the Securities. The Nominee will take direction from a pre-disclosed party selected by the Issuer and designated below on any matter in which affects the Investors’ economic rights. The Nominee is not a fiduciary to the Investors and the Investors agree to indemnify the Nominee per the terms of the Security.

Conversion

Upon the next sale (or series of related sales) by the Issuer of its Capital Stock to one or more third parties resulting in gross proceeds to the Issuer of not less than \$1,000,000 cash and cash equivalent (each an “**Equity Financing**”), the Securities are convertible into shares of the securities issued in said Equity Financing, as follows.

Conversion Upon the Equity Financing (Early Investors)

Upon an Equity Financing,, each investor who invests during the first tranche of the Offering, which includes the initial purchases amounting up to and including the sum of \$250,000.00 (collectively, “**Early Investors**”), will receive the number of securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the “**Purchase Amount**”) by (a) or (b) immediately below:

(a) the quotient of \$7,500,000 (“**Valuation Cap for Early Investors**”) divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) shares of capital stock reserved for future issuance under any equity incentive or similar plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, “**SAFEs**”), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or **SAFEs**;

OR

(b) if the pre-money valuation of the Issuer immediately prior to the First Equity Financing is less than or equal to the Valuation Cap for Early Investors, the lowest price per share of the securities sold in such Equity Financing.

Such conversion price shall be deemed the “**Equity Financing Price for Early Investors**”.

Conversion Upon the Equity Financing (Standard Investors)

Upon an Equity Financing, each investor who invests during the second tranche of the Offering, which includes all purchases from \$250,000.01 to \$1,235,000.00 (collectively, “**Standard Investors**”), will receive the number of securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the “**Purchase Amount**”) by (a) or (b) immediately below:

(a) the quotient of \$10,000,000 (“**Valuation Cap for Standard Investors**”) divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) shares of capital stock reserved for future issuance under any equity incentive or similar plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, “**SAFEs**”), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or **SAFEs**;

OR

(b) if the pre-money valuation of the Issuer immediately prior to the First Equity Financing is less than or equal to the Valuation Cap for Standard Investors, the lowest price per share of the securities sold in such Equity Financing.

Such conversion price shall be deemed the “**Equity Financing Price for Standard Investors**”.

Conversion Upon a Liquidity Event (Early Investors)

For Early Investors, in the case of the Issuer's undergoing an **IPO** (as defined below) of its Capital Stock (as defined in the Security), a **Direct Listing** (as defined below) or a **Change of Control** (as defined below) of the Issuer (all of these events, a "**Liquidity Event**"), the Investor will receive a cash payment equal to the greater of (1) the Purchase Amount (or a lesser amount as described below) (the "**Cash-Out Amount**") or (2) the amount payable on the number of shares of Common Stock equal to the Purchase Amount (or a lesser amount as described below) divided by the quotient of (a) \$7,500,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Issuer's capital stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (w) shares of capital stock reserved for future issuance under any equity incentive or similar plan; (x) any SAFEs; (y) convertible promissory notes; and (z) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or SAFEs (such quotient, the "**Liquidity Price**").

Conversion Upon a Liquidity Event Prior to an Equity Financing (Standard Investors)

For Standard Investors, in the case of the Issuer's undergoing an **IPO** (as defined below) of its Capital Stock (as defined in the Security), a **Direct Listing** (as defined below) or a **Change of Control** (as defined below) of the Issuer (all of these events, a "**Liquidity Event**"), the Investor will receive a cash payment equal to the greater of (1) the Purchase Amount (or a lesser amount as described below) (the "**Cash-Out Amount**") or (2) the amount payable on the number of shares of Common Stock equal to the Purchase Amount (or a lesser amount as described below) divided by the quotient of (a) \$10,000,000 divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Issuer's capital stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (w) shares of capital stock reserved for future issuance under any equity incentive or similar plan; (x) any SAFEs; (y) convertible promissory notes; and (z) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or SAFEs (such quotient, the "**Liquidity Price**").

In connection with the Cash Out Amount, the Purchase Amount (or a lesser amount as described below) will be due and payable by the Issuer to the Investor immediately prior to, or concurrent with, the consummation of the Liquidity Event. If there are not enough funds to pay the Investors and the holders of other SAFEs in full, then all of the Issuer's available funds will be distributed with equal priority and pro rata among the Investors in proportion to their Purchase Amounts.

"**Change of Control**" as used above, means (i) a transaction or series of related transactions in which any person or group becomes the beneficial owner of more than fifty percent (50%) of the outstanding voting securities entitled to elect the Issuer's board of directors, (ii) any reorganization, merger or consolidation of the Issuer, in which the outstanding voting security holders of the Issuer fail to retain at least a majority of such voting securities following such transaction or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Issuer.

"**Direct Listing**" means the Issuer's initial listing of its Common Stock (other than shares of Common Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Issuer with the SEC that registers units of existing Capital Stock of the Issuer for resale, as approved by the Issuer's board of directors. For the avoidance of doubt, a Direct Listing will not be deemed to be an underwritten offering and will not involve any underwriting services.

"**IPO**" as used above, means: (A) the completion of an underwritten initial public offering of Capital Stock by the Issuer pursuant to: (I) a final prospectus for which a receipt is issued by a securities commission of the United States or of a province of Canada, or (II) a registration statement which has been filed with the United States Securities and Exchange Commission and is declared effective to enable the sale of Capital Stock by the Issuer to the public, which in each case results in such equity securities being listed and posted for trading or quoted on a recognized exchange; (B) the Issuer's initial listing of its Capital Stock (other than shares of Capital Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Issuer with the SEC that registers shares of existing capital stock of the Issuer for resale, as approved by the Issuer's board of directors, where such listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services; or (C) the completion of a reverse merger or take-over whereby an entity (I) whose securities are listed and posted for trading or quoted on a recognized exchange, or (II) is a reporting issuer in the United States or the equivalent in any foreign jurisdiction, acquires all of the issued and outstanding Capital Stock of the Issuer.

If the Issuer's board of directors determines in good faith that delivery of Capital Stock to the Investor pursuant to the Liquidity Event paragraphs above would violate applicable law, rule or regulation, then the Issuer shall deliver to Investor in lieu thereof, a cash payment equal to the fair market value of such Capital Stock, as determined in good faith by the Issuer's board of directors (or other applicable governing body if the Issuer is a limited liability company).

Dissolution

If there is a **Dissolution Event** (as defined below) or a Liquidity Event before the Securities terminate, the Issuer will distribute all proceeds legally available for distribution with the following priority: (i) junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock); (ii) on par with payments for other SAFEs, whether this Series or otherwise, and/or Preferred Stock, and if the applicable proceeds are insufficient to permit full payments to the Investor and such other SAFEs and/or Preferred Stock holders, the applicable proceeds will be distributed pro rata to the Investor and such other SAFEs and/or Preferred Stock holders in proportion to the full payments that would otherwise be due; and (iii) all holders of Common Stock.

A "**Dissolution Event**" means (i) a voluntary termination of operations by the Issuer, (ii) a general assignment for the benefit of the Issuer's creditors or (iii) any other liquidation, dissolution or winding up of the Issuer (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate (without relieving the Issuer of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur of: (i) the issuance of Capital Stock to the Investor pursuant to the conversion provisions of the SAFE agreement or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Voting and Control

Neither the Securities **nor the securities issuable upon the conversion** of the Securities have voting rights unless otherwise provided for by the Issuer. In addition, to facilitate the Offering SAFE Investors being able to act together and cast a vote as a group, to the extent any securities acquired upon conversion of the Securities confer the holder with voting rights (whether provided by the Issuer's governing documents or by law), the Nominee (as defined above) will act on behalf of the holders as agent and proxy in all respects. The Nominee will vote consistently at the direction of the largest holder of the Securities (provided such holder is a current or former SAFE holder or their transferee) and subsequently, the largest holder of the securities acquired upon conversion of the Securities (the "**Nominee Designee**").

The Issuer does not have any voting agreements in place.

The Issuer does not have any shareholder or equity holder agreements in place.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity issuances and other events will dilute the ownership percentage that Investors may eventually have in the Issuer.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (1) to the Issuer; (2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act; (3) as part of an IPO; or (4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Each Investor should be aware that although the Securities may legally be able to be transferred, there is no guarantee that another party will be willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any capital stock into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Issuer with an opinion of counsel reasonably satisfactory to the Issuer stating that a registration statement is not necessary to effect such transfer.

Furthermore, upon the event of an IPO, the capital stock into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distributee, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the Terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services.

Other Material Terms

- The Issuer does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Issuer cannot determine if it currently has enough capital stock authorized to issue upon the conversion of the Securities, because the amount of capital stock to be issued is based on the occurrence of future events.

COMMISSION AND FEES

Cash Commission

At the conclusion of the Offering, the Issuer shall pay the Intermediary the greater of (A) a fee of six percent (6%) of the dollar amount raised in the Offering or (B) a cash fee of twelve thousand dollars (\$12,000.00).

Other Compensation

The Intermediary will also receive compensation in the form of the Securities equal to two percent (2%) of the total number of the Securities sold in the Offering. The total number of Securities outstanding after the Offering is subject to increase in an amount equal to the Intermediary's fee of two percent (2%) of the Securities issued in this Offering.

RISK FACTORS

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C/A. In addition to the risks specified below, the Issuer is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Issuer's Business and Industry

We have a limited operating history upon which you can evaluate our performance, and accordingly, our prospects must be considered in light of the risks that any new company encounters.

The Issuer is still in an early phase and we are just beginning to implement our business plan. There can be no assurance that we will ever operate profitably. The likelihood of our success should be considered in light of the problems, expenses, difficulties, complications and delays usually encountered by early stage companies. The Issuer may not be successful in attaining the objectives necessary for it to overcome these risks and uncertainties.

Global crises and geopolitical events, including without limitation, COVID-19 can have a significant effect on our business operations and revenue projections.

A significant outbreak of contagious diseases, such as COVID-19, in the human population could result in a widespread health crisis. Additionally, geopolitical events, such as wars or conflicts, could result in global disruptions to supplies, political uncertainty and displacement. Each of these crises could adversely affect the economies and financial markets of many countries, including the United States where we principally operate, resulting in an economic downturn that could reduce the demand for our products and services and impair our business prospects, including as a result of being unable to raise additional capital on acceptable terms, if at all.

The amount of capital the Issuer is attempting to raise in this Offering may not be enough to sustain the Issuer's current business plan.

In order to achieve the Issuer's near and long-term goals, the Issuer may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Issuer will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of revenues from sales, as well as the inherent business risks associated with the Issuer and present and future market conditions. Additionally, our future sources of revenue may not be sufficient to meet our future capital requirements. As such, we may require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

The Issuer's product is still in development and may not ever reach commercialization or such commercialization may be delayed.

The Issuer's product is still in the development stage. There is no guarantee that it will ever receive required governmental and other approvals required to sell its products commercially or reach the commercial sales stage. Although the Issuer's Founder has launched and commercialized other semi-submersible vessels, commercial sales for the Issuer's products may not occur or such approvals or sales may be significantly delayed. If the Issuer is unable to commercialize its products or such commercialization is delayed, it will have a material impact on our business, financial condition and results of operations.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

We rely on other companies to provide components and services for our products.

We depend on suppliers and contractors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if suppliers or contractors do not provide the agreed-upon supplies or perform the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our products may be adversely impacted if companies to whom we delegate manufacture of major components or subsystems for our products, or from whom we acquire such items, do not provide components which meet required specifications and perform to our, and our customers', expectations. Our suppliers may also be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two contractors or suppliers for a particular component. Our products may utilize custom components available from only one source. Continued availability of those components at acceptable prices, or at all, may be affected for any number of reasons, including if those suppliers decide to concentrate on the production of common components instead of components customized to meet our requirements. The supply of components for a new or existing product could be delayed or constrained, or a key manufacturing vendor could delay shipments of completed products to us adversely affecting our business and results of operations.

We rely on various intellectual property rights, including trademarks, in order to operate our business.

The Issuer relies on certain intellectual property rights to operate its business. The Issuer's intellectual property rights may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our intellectual property rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

The Issuer's success depends on the experience and skill of its executive officers and key personnel.

We are dependent on our executive officers and key personnel. These persons may not devote their full time and attention to the matters of the Issuer. The loss of all or any of our executive officers and key personnel could harm the Issuer's business, financial condition, cash flow and results of operations.

Although dependent on certain key personnel, the Issuer does not have any key person life insurance policies on any such people.

We are dependent on certain key personnel in order to conduct our operations and execute our business plan, however, the Issuer has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Issuer will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Issuer and our operations. We have no way to guarantee key personnel will stay with the Issuer, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

In order for the Issuer to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining highly qualified personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management and other personnel to develop additional expertise. We face intense competition for personnel, making recruitment time-consuming and expensive. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us, which could further delay or disrupt our product development and growth plans.

We need to rapidly and successfully develop and introduce new products in a competitive, demanding and rapidly changing environment.

To succeed, we must continually improve, refresh and expand our product and service offerings to include newer features, functionality or solutions, and keep pace with changes in the industry. Shortened product life cycles due to changing customer demands and competitive pressures may impact the pace at which we must introduce new products or implement new functions or solutions. In addition, bringing new products or solutions to the market entails a costly and lengthy process, and requires us to accurately anticipate changing customer needs and trends. We must continue to respond to changing market demands and trends or our business operations may be adversely affected.

The development and commercialization of our products is highly competitive.

We may face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors may include major companies worldwide. Many of those competitors could have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved products and thus may be better equipped than us to develop and commercialize products. These competitors also may compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our products will achieve initial market acceptance, and our ability to generate meaningful additional revenues from our products.

We face various risks as an e-commerce retailer.

As part of our growth strategy, we will have to make significant investments to build our e-commerce business. We may require additional capital in the future to sustain or grow our e-commerce business. Business risks related to our e-commerce business include our inability to keep pace with rapid technological change, failure in our security procedures or operational controls, failure or inadequacy in our systems or labor resource levels to effectively process customer orders in a timely manner, government regulation and legal uncertainties with respect to e-commerce, and collection of sales or other taxes by one or more states or foreign jurisdictions. If any of these risks materialize, they could have an adverse effect on our business. In addition, we may face competition in the future, from new retailers who enter the market. Our failure to positively differentiate our product and services offerings or customer experience from these new internet retailers could have a material adverse effect on our business, financial condition and results of operations.

Consumer desires for luxury and unique boats and vessels are continually changing and are extremely difficult to predict.

The Issuer's product offering is unique and will be sold as a luxury item to most purchasers. As such, the Issuer's product may not be accepted by consumers, may be impacted due to changes in consumer tastes or could be impacted by changes in the economy which may restrict luxury purchases. Consumer acceptance and the resulting success of new products will be one of the keys to the success of the Issuer's business plan. There can be no assurance that the Issuer will succeed in the development of its products or any new products or that these products will achieve market acceptance or generate meaningful revenue for the Issuer.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets, and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

We have not prepared any audited financial statements.

The financial statements attached as Exhibit A to this Form C/A have been "reviewed" only and such financial statements have not been verified with outside evidence as to management's amounts and disclosures. Additionally, tests on internal controls have not been conducted. Therefore, you will have no audited financial information regarding the Issuer's capitalization or assets or liabilities on which to make your investment decision.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

We may face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including "bugs" and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulation are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations, or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers' or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

The Issuer is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Issuer may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) issuer, the Issuer is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Issuer's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Issuer of such compliance could be substantial and could have a material adverse effect on the Issuer's results of operations.

Changes in federal, state or local laws and government regulation could adversely impact our business.

The Issuer is subject to legislation and regulation at the federal and local levels and, in some instances, at the state level. New laws and regulations may impose new and significant disclosure obligations and other operational, marketing and compliance-related obligations and requirements, which may lead to additional costs, risks of non-compliance, and diversion of our management's time and attention from strategic initiatives. Additionally, federal, state and local legislators or regulators may change current laws or regulations which could adversely impact our business. Further, court actions or regulatory proceedings could also change our rights and obligations under applicable federal, state and local laws, which cannot be predicted. Modifications to existing requirements or imposition of new requirements or limitations could have an adverse impact on our business.

We operate in a highly regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

We are also subject to a wide range of federal, state, and local laws and regulations. In particular, the Issuer's products will be required to be certified by the United States Coast Guard and also to comply with the standards of the American Boat and Yachting Council. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease and desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we may incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

Risks Related to the Offering

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C/A is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C/A, nor any document or literature related to this Offering.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C/A and the accompanying exhibits.

The Issuer's management may have broad discretion in how the Issuer uses the net proceeds of the Offering.

Unless the Issuer has agreed to a specific use of the proceeds from the Offering, the Issuer's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

Because the Offering consists of two separate tranches, a single investor may receive different SAFEs with different terms, depending on the timing of its investment commitment.

The Offering is divided into separate tranches for early investors and standard investors. "Early Investors," which include investors who invest during the first tranche of the Offering, which includes the initial purchases amounting up to and including a sum of \$250,000.00, will receive a SAFE with preferential terms, namely a reduced pre-money valuation cap (\$8,000,000 instead of \$10,000,000). A SAFE with different terms will be issued to "Standard Investors," or investors who invest during the second tranche of the Offering, which includes all purchases from \$250,000.01 to \$1,235,000. Accordingly, a single investor may be issued two different SAFEs with different terms, depending on the timing of the investor's investment commitment.

The Intermediary Fees paid by the Issuer are subject to change depending on the success of the Offering.

At the conclusion of the Offering, the Issuer shall pay the Intermediary the greater of (A) a fee of six percent (6%) of the dollar amount raised in the Offering or (B) a cash fee of twelve thousand dollars (\$12,000.00). The compensation paid by the Issuer to the Intermediary may impact how the Issuer uses the net proceeds of the Offering.

The Issuer has the right to limit individual Investor commitment amounts based on the Issuer's determination of an Investor's sophistication.

The Issuer may prevent any Investor from committing more than a certain amount in this Offering based on the Issuer's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Issuer's determination and not in line with relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Issuer's determination.

The Issuer has the right to extend the Offering Deadline.

The Issuer may extend the Offering Deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Issuer attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Issuer extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Issuer receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Issuer receives the Target Offering Amount, at which time it will be released to the Issuer to be used as set forth herein. Upon or shortly after the release of such funds to the Issuer, the Securities will be issued and distributed to you.

The Issuer may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Issuer can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Issuer may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Issuer has the right to conduct multiple closings during the Offering.

If the Issuer meets certain terms and conditions, an intermediate close (also known as a rolling close) of the Offering can occur, which will allow the Issuer to draw down on seventy percent (70%) of Investor proceeds committed and captured in the Offering during the relevant period. The Issuer may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

Risks Related to the Securities

Investors will not have voting rights, even upon conversion of the Securities and will grant a third-party nominee broad power and authority to act on their behalf.

In connection with investing in this Offering to purchase a SAFE (Simple Agreement for Future Equity) investors will designate Republic Investment Services LLC (f/k/a NextSeed Services, LLC) (the “**Nominee**”) to act on their behalf as agent and proxy in all respects. The Nominee will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of the Securities or any securities acquired upon their conversion, to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Securities, and as part of the conversion process the Nominee has the authority to open an account in the name of a qualified custodian, of the Nominee’s sole discretion, to take custody of any securities acquired upon conversion of the Securities. Thus, by participating in the Offering, investors will grant broad discretion to a third party (the Nominee and its agents) to take various actions on their behalf, and investors will essentially not be able to vote upon matters related to the governance and affairs of the Issuer nor take or effect actions that might otherwise be available to holders of the Securities and any securities acquired upon their conversion. Investors should not participate in the Offering unless he, she or it is willing to waive or assign certain rights that might otherwise be afforded to a holder of the Securities to the Nominee and grant broad authority to the Nominee to take certain actions on behalf of the investor, including changing title to the Security.

The Securities will not be freely tradable under the Securities Act until one year from when the securities are issued. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Issuer. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distribute, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the Terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services.

The Issuer is owned by its CEO and Founder and he will exercise voting control.

Prior to the Offering, one individual, Robert Innes, the Issuer’s CEO and Founder, beneficially owns all of the Issuer’s outstanding equity. Subject to any fiduciary duties owed to other stockholders or investors under Delaware law, Mr. Innes will be able to exercise significant influence over matters requiring stockholder approval, including the election of directors and approval of significant Company transactions, and will have significant control over the Issuer’s management and policies. As such, Mr. Innes’ interests may be different than yours. For example, he may support

proposals and actions with which you may disagree. This concentration of ownership could delay or prevent a change in control of the Issuer or otherwise discourage a potential acquirer from attempting to obtain control of the Issuer, which in turn could reduce the price potential investors are willing to pay for the Issuer. In addition, Mr. Innes could use his voting influence to maintain the Issuer's existing management, delay or prevent changes in control of the Issuer, issue additional securities which may dilute you, repurchase securities of the Issuer, enter into transactions with related parties or support or reject other management and board proposals that are subject to stockholder approval.

Investors will not become equity holders until the Issuer decides to convert the Securities or until there is a change of control or sale of substantially all of the Issuer's assets. The Investor may never directly hold equity in the Issuer.

Investors will not have an ownership claim to the Issuer or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Issuer. Investors will not become equity holders of the Issuer unless the Issuer receives a future round of financing great enough to trigger a conversion and the Issuer elects to convert the Securities. The Issuer is under no obligation to convert the Securities. In certain instances, such as a sale of the Issuer or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Issuer. Further, the Investor may never become an equity holder, merely a beneficial owner of an equity interest, should the Issuer or the Nominee decide to move the SAFE or the securities issuable thereto into a custodial relationship.

Investors will not have voting rights, even upon conversion of the Securities.

Investors will not have the right to vote upon matters of the Issuer even if and when their Securities are converted (the occurrence of which cannot be guaranteed). Under the terms of the Securities, a third-party designated by the Issuer will exercise voting control over the Securities. Upon conversion, the Securities will **continue** to be voted in line with the designee identified or pursuant to a voting agreement related to the equity securities the Security is converted into. For example, if the Securities are converted in connection with an offering of Series B Preferred Stock, Investors would directly or beneficially receive securities in the form of shares of Series B-CF Preferred Stock and such shares would be required to be subject to the terms of the Securities that allows a designee to vote their shares of Series B-CF Preferred Stock consistent with the terms of the Security. Thus, Investors will essentially never be able to vote upon any matters of the Issuer unless otherwise provided for by the Issuer.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Issuer or to receive financial or other information from the Issuer, other than as required by law. Other security holders of the Issuer may have such rights. Regulation CF requires only the provision of an annual report on Form C/A and no additional information. Additionally, there are numerous methods by which the Issuer can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Issuer such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in "default" and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any "default" provisions upon which Investors will be able to demand repayment of their investment. The Issuer has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited to the amount of cash available to the Issuer.

The Issuer may never elect to convert the Securities or undergo a liquidity event and Investors may have to hold the Securities indefinitely.

The Issuer may never conduct a future equity financing or elect to convert the Securities if such future equity financing does occur. In addition, the Issuer may never undergo a liquidity event such as a sale of the Issuer or an initial public offering. If neither the conversion of the Securities nor a liquidity event occurs, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. If a transfer, resale, assignment or distribution of the Security should occur

prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distribute, as relevant, will be required to sign a new Nominee Rider (as defined in the Security) and provide personally identifiable information to the Nominee sufficient to establish a custodial account at a later date and time. Under the terms of the Securities, the Nominee has the right to place shares received from the conversion of the Security into a custodial relationship with a qualified third party and have said Nominee be listed as the holder of record. In this case, Investors will only have a beneficial interest in the equity securities derived from the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the custodian and Republic Investment Services. The Securities are not equity interests, have no ownership rights, have no rights to the Issuer's assets or profits and have no voting rights or ability to direct the Issuer or its actions.

Any equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent equity financings.

The Issuer's equity securities will be subject to dilution. The Issuer intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor's control and economic interests in the Issuer.

The amount of additional financing needed by the Issuer will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Issuer with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Issuer's needs, the Issuer may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Issuer. There can be no assurance that the Issuer will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

Any equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued by the Issuer at the time of conversion.

In the event the Issuer decides to exercise the conversion right, the Issuer will convert the Securities into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the First Equity Financing Price (as defined in the SAFE agreement) shall have only such preferences, rights, and protections in proportion to the First Equity Financing Price and not in proportion to the price per share paid by new investors receiving the equity securities. Upon conversion of the Securities, the Issuer may not provide the holders of such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Issuer.

The forgoing paragraph is only a summary of a portion of the conversion feature of the Securities; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the SAFE agreement, which is attached as [Exhibit B](#).

There is no present market for the Securities and we have arbitrarily set the price.

The offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our asset value, net worth, revenues or other established criteria of value. We cannot guarantee that the Securities can be resold at the offering price or at any other price.

In the event of the dissolution or bankruptcy of the Issuer, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Issuer, the holders of the Securities that have not been converted will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred stock, have been paid in full. No holders of any of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Issuer.

While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their purchase amount upon the occurrence of certain events, if the Issuer does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Securities, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Securities, this right cannot be guaranteed if the Issuer does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C/A and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C/A, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

BUSINESS

Description of the Business

Jet Shark Inc. is developing and building a new semi-submersible vessel for the recreational and commercial market. These vessels are intended for sale through a global dealership network.

The business of the Issuer was originally developed in 2018 and operated by the Issuer's CEO and Founder, Robert Innes, outside of a formal entity first under the CEO's name and later as "Robert Innes DBA The Jet Shark". The Issuer was subsequently formed on December 19, 2023 as a Delaware corporation. On December 31, 2023, Robert Innes assigned the assets of Robert Innes DBA The Jet Shark to the Issuer. The Issuer is headquartered and qualified to conduct business in California. The Issuer intends to sell its products through the internet throughout the United States and internationally.

Business Plan

The Issuer's all new semi-submersible vessel provides a unique experience of diving below the water's surface in a spacious, user-friendly vessel. The Q Model Jet Shark, the Issuer's first offering, offers seating for four adults inside, a climate-controlled, watertight cockpit with large panoramic windows. The vessel can also be operated with its two large gull-wing doors fully open so it can be used like a conventional boat on nice sunny days. Future models will accommodate up to six occupants inside while offering a number of different trim levels and power plant options. The Issuer's product is still in its development phase and require additional testing and certification before production can occur. The Issuer has designed and built two Q Model Jet Shark vessels with the first model being the initial prototype that has been tested over the last two years. The second model is the pre-production prototype and is expected to be completed in the next three months. The Issuer has also built molds, tooling and jigs to build and sell the first beta models.

The Issuer plans to launch and significantly expand its business by investing in technology and product development, building its infrastructure and obtaining required governmental approvals, and through sales and marketing. The capital we raise here will empower us to further our product development, hire additional team members and grow out our infrastructure and increase sales and marketing efforts as we work to aggressively launch and expand our business.

NOTES TO FINANCIAL STATEMENTS

FOR YEAR ENDED TO DECEMBER 31, 2023 AND DECEMBER 31, 2022

1. NATURE OF OPERATIONS

Jet Shark Inc. was officially established on December 19, 2023, in the state of Delaware. Before its incorporation, the company operated as a sole proprietorship under the DBA 'The Jet Shark'. The financial statements of Jet Shark, Inc. (which may be referred to as the "Company", "we", "us", or "our") are prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP"). The Company's headquarters are located in Redding, California.

The Company is developing watercraft for the recreational and commercial markets. The manufacturer's suggested retail price for these boats is estimated between \$250,000-\$300,000. As of today, no income has been made. When these boats are ready for sale, they will primarily be sold through dealers and dealerships.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accounting and reporting policies of the Company conform to accounting principles generally accepted in the United States of America ("US GAAP"). The Company has adopted the calendar year as its basis of reporting.

Use of Estimates

The preparation of financial statements in conformity with United States GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash in banks. The Company's cash is deposited in demand accounts at financial institutions that management believes are creditworthy. The Company's cash and cash equivalents in bank deposit accounts, at times, may exceed federally insured limits. As of December 31, 2023 and December 31, 2022, the Company's cash and cash equivalents did not exceed FDIC insured limits.

Property and Equipment

Property and equipment are stated at cost. Normal repairs and maintenance costs are charged to earnings as incurred and additions and major improvements are capitalized. The cost of assets retired or otherwise disposed of and the related depreciation are eliminated from the accounts in the period of disposal and the resulting gain or loss is credited or charged to earnings.

Depreciation is computed over the estimated useful lives of the related asset type or term of the operating lease using the straight-line method for financial statement purposes. The estimated service lives for property and equipment is as follows:

<u>Category</u>	<u>Useful Life</u>
Molds & Tooling	5 years

JET SHARK INC.**NOTES TO FINANCIAL STATEMENTS****FOR YEAR ENDED TO DECEMBER 31, 2023 AND DECEMBER 31, 2022**

Income Taxes

Jet Shark Inc. is a C corporation for income tax purposes. The Company accounts for income taxes under the liability method, and deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying values of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. A valuation allowance is provided on deferred tax assets if it is determined that it is more likely than not that the deferred tax asset will not be realized. The Company records interest, net of any applicable related income tax benefit, on potential income tax contingencies as a component of income tax expense. The Company records tax positions taken or expected to be taken in a tax return based upon the amount that is more likely than not to be realized or paid, including in connection with the resolution of any related appeals or other legal processes. Accordingly, the Company recognizes liabilities for certain unrecognized tax benefits based on the amounts that are more likely than not to be settled with the relevant taxing authority. The Company recognizes interest and/or penalties related to unrecognized tax benefits as a component of income tax expense.

Concentration of Credit Risk

The Company maintains its cash with a major financial institution located in the United States of America which it believes to be creditworthy. Balances are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times, the Company may maintain balances in excess of the federally insured limits.

Revenue Recognition

The Company is currently pre-revenue and will follow the provisions and the disclosure requirements described in ASU 2014-09 also referred to as Topic 606. Revenue recognition, according to Topic 606, is determined using the following steps:

- 1) Identification of the contract, or contracts, with the customer: the Company determines the existence of a contract with a customer when the contract is mutually approved; the rights of each party in relation to the services to be transferred can be identified, the payment terms for the services can be identified, the customer has the capacity and intention to pay and the contract has commercial substance.
- 2) Identification of performance obligations in the contract: performance obligations consist of a promised in a contract (written or oral) with a customer to transfer to the customer either a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same and that have the same pattern of transfer to the customer.
- 3) Recognition of revenue when, or how, a performance obligation is met: revenues are recognized when or as control of the promised goods or services is transferred to customers.

The Company will earn revenue from the boat sales. When these boats are ready for sale, they will primarily be sold through dealers and dealerships.

Advertising and Promotion

Advertising and promotional costs are expensed as incurred. Advertising and promotional expenses for the years ended December 31, 2023, and December 31, 2022 amounted to \$844 and \$0, which is included in sales and marketing expenses.

JET SHARK INC.

NOTES TO FINANCIAL STATEMENTS

FOR YEAR ENDED TO DECEMBER 31, 2023 AND DECEMBER 31, 2022

Fair Value of Financial Instruments

The carrying value of the Company's financial instruments included in current assets and current liabilities (such as cash and cash equivalents, restricted cash and cash equivalents, accounts receivable, accounts payable, and accrued expenses approximate fair value due to the short-term nature of such instruments).

The inputs used to measure fair value are based on a hierarchy that prioritizes observable and unobservable inputs used in valuation techniques. These levels, in order of highest to lowest priority, are described below:

Level 1—Quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical assets or liabilities.

Level 2—Observable prices that are based on inputs not quoted on active markets but corroborated by market data.

Level 3—Unobservable inputs reflecting the Company's assumptions, consistent with reasonably available assumptions made by other market participants. These valuations require significant judgment.

Subsequent Events

The Company considers events or transactions that occur after the balance sheet date, but prior to the issuance of the financial statements to provide additional evidence relative to certain estimates or to identify matters that require additional disclosure. Subsequent events have been evaluated through February 23, 2024, which is the date the financial statements were issued.

Recently Issued and Adopted Accounting Pronouncements

The FASB issues ASUs to amend the authoritative literature in ASC. There have been a number of ASUs to date, including those above, that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

3. INVENTORY

8. COMMITMENTS AND CONTINGENCIES

Contingencies

The Company's operations are subject to a variety of local and state regulations. Failure to comply with one or more of those regulations could result in fines, restrictions on its operations, or losses of permits that could result in the Company ceasing operations.

Litigation and Claims

From time to time, the Company may be involved in litigation relating to claims arising out of operations in the normal course of business. NOTES TO FINANCIAL STATEMENTS

FOR YEAR ENDED TO DECEMBER 31, 2023 AND DECEMBER 31, 2022

9. SUBSEQUENT EVENTS

The Company has evaluated subsequent events for the period from December 31, 2023 through February 23, 2024, which is the date the financial statements were available to be issued.

There have been no other events or transactions during this time which would have a material effect on these financial statements.

10. GOING CONCERN

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has a net operating loss of \$69,724, an operating cash flow loss of \$519,724, and does not have available funds in its business bank account on December 31, 2023. These factors normally raise substantial doubt about the Company's ability to continue as a going concern.

The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results.

Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. During the next twelve months, the Company intends to fund its operations through debt and/or equity financing.

There are no assurances that management will be able to raise capital on terms acceptable to the Company. If it is unable to obtain sufficient amounts of additional capital, it may be required to reduce the scope of its planned development, which could harm its business, financial condition, and operating results. The accompanying financial statements do not include any adjustments that might result from these uncertainties.

SAFE
(Simple Agreement for Future Equity)

Series 2024

THIS CERTIFIES THAT in exchange for the payment by [Investor Name] (the “**Investor**”, and together with all other Series 2024 SAFE holders, the “**Investors**”) of \$[Purchase Amount] (the “**Purchase Amount**”) on or about [Date of SAFE], Jet Shark Inc., a Delaware corporation (the “**Issuer**”), hereby issues to the Investor the right to certain shares of the Issuer’s Capital Stock, subject to the terms set forth below.

The “**Pre-Money Valuation Cap**” is \$7,500,000 for each investor who invests during the first tranche of the Offering, which includes the initial subscriptions amounting up to and including a sum of \$250,000.00 (“**Early Investors**”) and \$10,000,000 for each investor who invests during the second tranche of the Offering, which includes all subscriptions from \$250,000.01 USD to \$1,235,000.00 USD (“**Standard Investors**”).

1. Events

(a) **Equity Financing.** If an Equity Financing occurs before this instrument terminates in accordance with Sections 1(b)-(d) the Issuer shall promptly notify the Investor of the closing, or anticipated closing, of the Equity Financing and issue to the Investor a number of shares of the Capital Stock (whether Preferred Stock or another class issued by the Issuer) sold in the Equity Financing, subject to the terms of this Section 1(a). The number of shares of Capital Stock shall equal the quotient obtained by dividing (x) the Purchase Amount by (y) the **Equity Financing Price** for Early Investors or Standard Investors, as applicable (as defined below).

(b) **Liquidity Event.** If there is a Liquidity Event before the termination of this SAFE (whether pursuant to Section 1(a), (c) or (d)), the holder of this SAFE will automatically be entitled (subject to the liquidation priority set forth below) to receive a portion of Proceeds, due and payable to the holder of this SAFE immediately prior to, or concurrent with, the consummation of such Liquidity Event, equal to

the **greater of** (1) the Purchase Amount (or a lesser amount as described below) (the “**Cash-Out Amount**”) or (2) the amount payable on the number of shares of Common Stock equal to the Purchase Amount (or a lesser amount as described below) divided by the Liquidity Price (the “**Conversion Amount**”).

Notwithstanding the foregoing, if the Issuer’s board of directors determines in good faith that delivery of Capital Stock to the holder of this SAFE pursuant to this Section 1(b) would violate applicable law, rule or regulation, then the Issuer shall deliver to the holder of this SAFE in lieu thereof, a cash payment equal to the fair market value of such Capital Stock, as determined in good faith by the Issuer’s board of directors.

(c) **Dissolution Event.** If there is a Dissolution Event (defined below) before termination of this SAFE, this SAFE’s holder will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds equal to the Cash-Out Amount, due and payable to the holder of this SAFE immediately before the consummation of the Dissolution Event.

(d) **Liquidation Priority.** In a Liquidity Event or Dissolution Event, this SAFE is intended to operate like standard non-participating Preferred Stock. The holder of this SAFE’s right to receive its Cash-Out Amount is:

(i) Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);

(ii) On par with payments for other SAFEs, whether this Series or otherwise, and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other SAFEs and/or Preferred Stock holders, the applicable Proceeds will be distributed pro rata to the Investor and such other SAFEs and/or Preferred Stock holders in proportion to the full payments that would otherwise be due; and

(iii) Senior to payments for Common Stock.

The holder of this SAFE’s rights to receive their Conversion Amount is (A) on par with payments for Common Stock and other SAFEs and/or Preferred Stock who are also receiving Conversion Amounts or Proceeds on a similar as-converted to Common Stock basis, and (B) junior to payments described in clauses (i) and (ii) above (in the latter case, to the extent such payments are Cash-Out Amounts or similar liquidation preferences).

(e) **Termination.** This SAFE will automatically terminate (without relieving the Issuer or holder of this SAFE of any obligations arising from a prior breach of or non-compliance with this instrument) upon the earlier to occur: (i) the issuance of Capital Stock to the holder of this SAFE pursuant to Section 1(a); or (ii) the payment, or setting aside for payment, of amounts due to the holder of this SAFE pursuant to Section 1(b) or Section 1(c) as subject to Section 1(d).

(f) The Issuer is (i) not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act, (ii) not an investment company as defined in Section 3 of the Investment Company Act of 1940 (the “ICA”), and is not excluded from the definition of investment company by Section 3(b) or Section 3(c) of the ICA, (iii) not disqualified from selling securities under Rule 503(a) of Reg. CF, (iv) not barred from selling securities under Section 4(a)(6) of the Securities Act due to a failure to make timely annual report filings, (v) not planning to engage in a merger or acquisition with an unidentified company or companies, and (vi) organized under, and subject to, the laws of a state or territory of the United States or the District of Columbia.

(g) The Issuer has, or will shortly after the issuance of this instrument, engage a transfer agent registered with the U.S. Securities and Exchange Commission to act as the sole registrar and transfer agent for the Issuer with respect to the SAFE.

4. **Investor Representations, Warranties, and Covenants**

The Investor represents, warrants and covenants to the Issuer, the Issuer’s representatives and agents, and Intermediary, as follows:

(a) The Investor has full legal capacity, power and authority to execute and deliver this SAFE and to perform its obligations hereunder. This SAFE constitutes a valid and binding obligation of the Investor, enforceable per its terms, except as limited by bankruptcy, insolvency or other laws of general application relating to or affecting the enforcement of creditors’ rights generally and general principles of equity.

(b) The Investor has been advised that this instrument and the underlying securities (collectively, the “**Securities**”) have not been registered under the Securities Act or any state securities laws and are offered and sold hereby pursuant to Section 4(a)(6) of the Securities Act. The Investor understands that the Securities may be resold or otherwise transferred unless they are registered under the Securities Act and applicable state securities laws or pursuant to Rule 501 of Reg. CF, in which case certain state transfer restrictions may apply.

(c) The Investor understands that the Securities have not been, and will not be, registered under the Securities Act or any state securities laws, by reason of specific exemptions under the provisions thereof which depend upon, among other things, the bona fide nature of the investment intent and the accuracy of each Investor’s representations as expressed herein.

(d) The Investor acknowledges, and is purchasing the Securities in compliance with, the investment limitations set forth in Rule 100(a)(2) of Reg. CF, promulgated under Section 4(a)(6)(B) of the Securities Act.

(e) The Investor acknowledges that the Investor has received all the information the Investor has requested from the Issuer and the Investor considers necessary or appropriate for deciding whether to acquire this instrument and the underlying securities, and the Investor represents that the Investor has had an opportunity to ask questions and receive answers from the Issuer regarding the terms and conditions of the Securities and to obtain any additional information necessary to verify the accuracy of the information given to the Investor. In deciding to purchase the Securities, the Investor is not relying on the advice or recommendations of the Issuer or of the Intermediary and the Investor has made its own independent decision that an investment in the Securities is suitable and appropriate for the Investor. The Investor understands that no federal or state agency has passed upon the merits or risks of an investment in the Securities or made any finding or determination concerning the fairness or advisability of this investment.

(f) The Investor understands and acknowledges that the Securities provide the Investor with no voting, information or inspection rights, aside from any disclosure requirements the Issuer is required to make under relevant securities regulations.

(g) The Investor understands that no public market now exists for any of the securities issued by the Issuer, and that the Issuer has made no assurances that a public market will ever exist for the Securities acquired by the Investor hereunder.

(h) The Investor is not (i) a citizen or resident of a geographic area in which the purchase of or holding of the Securities, or any securities convertible or issuable therefrom, is prohibited by applicable law, decree, regulation, treaty, or administrative act, (ii) a citizen or resident of, or located in, a geographic area that is subject to U.S. or other applicable sanctions or embargoes, or (iii) an individual, or an individual employed by or associated with an entity, identified on the U.S. Department of Commerce's Denied Persons or Entity List, the U.S. Department of Treasury's Specially Designated Nationals List, the U.S. Department of State's Debarred Parties List or other applicable sanctions lists. Investor hereby represents and agrees that if Investor's country of residence or other circumstances change such that the above representations are no longer accurate, Investor will immediately notify Issuer. Investor further represents and warrants that it will not knowingly sell or otherwise transfer any interest in the Securities, or any securities convertible or issuable therefrom, to a party subject to U.S. or other applicable sanctions.

(i) If the Investor is not a United States person (as defined by Section 7701(a)(30) of the Internal Revenue Code of 1986, as amended), the Investor hereby represents that it has satisfied itself as to the full observance of the laws of its jurisdiction in connection with any invitation, purchase and payment for, and continued ownership of, its beneficial interest in the Securities, or any securities convertible or issuable therefrom, will not violate any applicable securities or other laws of the Investor's jurisdiction, including (i) the legal requirements within its jurisdiction for the purchase of its beneficial interest in the Securities, or any securities convertible or issuable therefrom; (ii) any foreign exchange restrictions applicable to such purchase; (iii) any governmental or other consents that may need to be obtained; and (iv) the income tax and other tax consequences, if any, that may be relevant to the purchase, holding, conversion, redemption, sale, or transfer of its beneficial interest in the Securities, or any securities convertible or issuable therefrom. The Investor acknowledges that the Issuer has taken no action in foreign jurisdictions with respect to the Securities, or any securities convertible or issuable therefrom, (and the Investor's beneficial interest therein) and the underlying securities.

(j) If the Investor is a corporate entity: (i) such corporate entity is duly incorporated, validly existing and in good standing under the laws of the state of its incorporation, and has the power and authority to enter into this SAFE; (ii) the execution, delivery and performance by the Investor of the SAFE is within the power of the Investor and has been duly authorized by all necessary actions on the part of the Investor; (iii) to the knowledge of the Investor, it is not in violation of its current charter or bylaws, any material statute, rule or regulation applicable to the Investor; and (iv) the performance of the SAFE does not and

will not violate any material judgment, statute, rule or regulation applicable to the Investor; result in the acceleration of any material indenture or contract to which the Investor is a party or by which it is bound, or otherwise result in the creation or imposition of any lien upon the Purchase Amount.

(k) The Investor further acknowledges that it has read, understood, and had ample opportunity to ask the Issuer questions about its business plans, “Risk Factors,” and all other information presented in the Offering Documents.

(l) The Investor represents that the Investor understands the substantial likelihood that the Investor will suffer a **TOTAL LOSS** of all capital invested, and that Investor is prepared to bear the risk of such total loss.

(m) Investor has reviewed the Exhibit A- Nominee Rider and Waiver and will execute such contemporaneously with this SAFE, such contemporaneous execution being a condition precedent to the Issuer’s acceptance of this SAFE.

(n) This SAFE has been duly authorized, executed and delivered by the Investor and, upon due authorization, execution and delivery by the Issuer, will constitute the valid and legally binding agreement of the Investor enforceable in accordance with its terms against the Investor, except as such enforceability may be limited by (i) bankruptcy, insolvency, reorganization, fraudulent conveyance, moratorium or other laws of general application relating to or affecting the enforcement of creditors’ rights and remedies, as from time to time in effect; (ii) application of equitable principles (regardless of whether such enforceability is considered in a proceeding in equity or at law); and (iii) considerations of public policy or the effect of applicable law relating to fiduciary duties.

5. **Transfer Restrictions.**

(a) The Investor hereby agrees that during the Lock-up Period it will not, without the prior written consent of the managing underwriter: (A) lend; offer; pledge; sell; contract to sell; sell any option or contract to purchase; purchase any option or contract to sell; grant any option, right, or warrant to purchase; or otherwise transfer or dispose of, directly or indirectly, any shares of Capital Stock or any securities convertible into or exercisable or exchangeable (directly or indirectly) for Capital Stock (whether such shares or any such securities are then owned by the Investor or are thereafter acquired); or (B) enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of such securities; whether any such transaction described in clause (A) or (B) above is to be settled by delivery of Capital Stock or other securities, in cash, or otherwise.

(b) The foregoing provisions of Section 5(a) will: (x) apply only to the IPO and will not apply to the sale of any of the Issuer’s Capital Stock issued to an underwriter pursuant to an underwriting agreement; (y) not apply to the transfer of any Issuer’s Capital Stock to any trust for the direct or indirect benefit of the Investor or the immediate family of the Investor, provided that the trustee of the trust agrees to be bound in writing by the restrictions set forth herein, and provided further that any such transfer will not involve a disposition for value; and (z) be applicable to the Investor only if all officers and directors of the Issuer are subject to the same restrictions and the Issuer uses commercially reasonable efforts to obtain a similar agreement from all members individually owning more than 5% of the outstanding Capital Stock or any securities convertible into or exercisable or exchangeable (directly or indirectly) for Capital Stock. Notwithstanding anything herein to the contrary, the underwriters in connection with the IPO are intended third-party beneficiaries of Section 5(a) and will have the right, power and authority to enforce the provisions hereof as though they were a party hereto. The Investor further agrees to execute such agreements as may be reasonably requested by the underwriters in connection with the IPO that are consistent with Section 5(a) or that are necessary to give further effect thereto.

(c) In order to enforce the foregoing covenant, the Issuer may impose stop transfer instructions with respect to the Investor's registrable securities of the Issuer (and the Issuer securities of every other person subject to the foregoing restriction) until the end of the Lock-up Period. The Investor agrees that a legend reading substantially as follows will be placed on all certificates representing all of the Investor's registrable securities of the Issuer (and the securities of the Issuer held by every other person subject to the restriction contained in Section 5(a)):

THE SECURITIES REPRESENTED BY THIS CERTIFICATE ARE SUBJECT TO A LOCK-UP PERIOD BEGINNING ON THE EFFECTIVE DATE OF THE ISSUER'S REGISTRATION STATEMENT FILED UNDER THE SECURITIES ACT OF 1933, AS AMENDED, AS SET FORTH IN AN AGREEMENT BETWEEN THE ISSUER AND THE ORIGINAL HOLDER OF THESE SECURITIES, A COPY OF WHICH MAY BE OBTAINED AT THE ISSUER'S PRINCIPAL OFFICE. SUCH LOCK-UP PERIOD IS BINDING ON TRANSFEREES OF THESE SECURITIES.

(d) Without in any way limiting the representations and warranties set forth in Section 4 above, the Investor further agrees not to make any disposition of all or any portion of this instrument or the underlying securities unless and until the transferee has agreed in writing for the benefit of the Issuer to make the representations and warranties set out in Section 4 and the undertaking set out in Section 5(a) and:

(i) There is then in effect a registration statement under the Securities Act covering such proposed disposition and such disposition is made in accordance with such registration statement; or

(ii) The Investor shall have notified the Issuer of the proposed disposition and shall have furnished the Issuer with a detailed statement of the circumstances surrounding the proposed disposition and, if reasonably requested by the Issuer, the Investor shall have furnished the Issuer with an opinion of counsel reasonably satisfactory to the Issuer that such disposition will not require registration of such shares under the Securities Act.

(e) If the Investor intends to transfer the SAFE ("**Transfer**") the party accepting transfer ("**Transferee**") must pass and continue to comply with the Nominee's (and any applicable affiliate's) know your customer ("**KYC**") and anti-money laundering ("**AML**") policies and execute a Nominee Rider and Waiver, substantially provided in the form of Exhibit A contemporaneously and in connection with the Transfer. The Investor understands that the Transferee's failure to pass the requisite KYC and AML procedures or to execute Exhibit A contemporaneously with the Transfer will render the Transfer void, null, unenforceable, and the Transferee will be unable to redeem their security.

(f) The Investor understands and agrees that the Issuer will place the legend set forth below or a similar legend on any book entry or other forms of notation evidencing this SAFE and any certificates evidencing the underlying securities, together with any other legends that may be required by state or federal securities laws, the Issuer's organizational documents, any other agreement between the Investor and the Issuer or any agreement between the Investor and any third party:

THIS INSTRUMENT HAS BEEN ISSUED PURSUANT TO SECTION 4(A)(6) OF THE SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), AND NEITHER IT NOR ANY SECURITIES ISSUABLE PURSUANT HERETO HAVE BEEN REGISTERED UNDER THE SECURITIES ACT OR THE SECURITIES LAWS OF ANY STATE. THESE SECURITIES MAY NOT BE OFFERED, SOLD OR OTHERWISE TRANSFERRED, PLEDGED OR HYPOTHECATED

EXCEPT AS PERMITTED BY RULE 501 OF REGULATION CROWDFUNDING UNDER THE SECURITIES ACT AND APPLICABLE STATE SECURITIES LAWS OR PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT OR EXEMPTION THEREFROM.

6. Tokenization and Fractionalization

(a) The Issuer has the right, but not the obligation, to mint and distribute to, or for the benefit of, the Investor, digital tokens (“**Tokens**”) on a blockchain network, which may serve as a digital representation of, or economic arrangement to, the Securities or as a technological means of providing a transfer instruction to the Issuer or an entitlement order to a securities intermediary holding this SAFE on behalf of others. The Tokens, if issued, may embody certain rights, preferences, privileges, and restrictions of the respective Securities to which they relate or may provide the means to give such instructions or entitlement orders. If applicable, the Tokens may be issued in whole or fractional parts, in the Issuer’s sole discretion.

(b) The Securities, whether in the form of Tokens or otherwise, may be issued in whole or fractional parts, in the Issuer's sole discretion.

7. Miscellaneous

(c) The Investor agrees to execute the Nominee Rider and Waiver, attached hereto as Exhibit A, contemporaneously and in connection with the purchase of this SAFE. The Investor agrees and understands that the Investor’s failure to execute Exhibit A contemporaneously with this SAFE will render the SAFE void, null and unenforceable.

(d) The Investor agrees to take any and all actions determined in good faith by the Issuer’s board of directors or equivalent governance body to be advisable to reorganize the Securities.

(e) Any provision of this instrument may be amended, waived or modified only upon the written consent of either (i) the Issuer and Investor, or (ii) the Issuer and the majority of the Investors (calculated based on the Purchase Amount of each Investors SAFE). Any notice required or permitted by this instrument will be deemed sufficient when delivered personally or by overnight courier or sent by email to the relevant address listed on the signature page, or 48 hours after being deposited in the U.S. mail as certified or registered mail with postage prepaid, addressed to the party to be notified at such party’s address listed on the signature page, as subsequently modified by written notice.

(f) The Investor is not entitled, as a holder of this instrument, to vote or receive dividends or be deemed the holder of Capital Stock for any purpose, nor will anything contained herein be construed to confer on the Investor, as such, any of the rights of a member of the Issuer or any right to vote for the election of directors or upon any matter submitted to members at any meeting thereof, or to give or withhold consent to any corporate action or to receive notice of meetings, or to receive purchase rights or otherwise until shares have been issued upon the terms described herein.

(g) Neither this instrument nor the rights contained herein may be assigned, by operation of law or otherwise, by either party without the prior written consent of the Issuer and the Investor; *provided, however*, that this instrument and/or the rights contained herein may be assigned without the Issuer’s

consent by the Investor to any other entity who directly or indirectly, controls, is controlled by or is under common control with the Investor, including, without limitation, any general partner, managing member, officer or director of the Investor, or any venture capital fund now or hereafter existing which is controlled by one or more general partners or managing members of, or shares the same management company with, the Investor; and *provided, further*, that the Issuer may assign the Securities in whole, without the consent of the Investor, in connection with a reincorporation to change the Issuer's domicile.

(h) In the event any one or more of the terms or provisions of this instrument is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the terms or provisions of this instrument operate or would prospectively operate to invalidate this instrument, then such term(s) or provision(s) only will be deemed null and void and will not affect any other term or provision of this instrument and the remaining terms and provisions of this instrument will remain operative and in full force and effect and will not be affected, prejudiced, or disturbed thereby.

(i) The Custodian designated through this SAFE and related Omnibus Nominee Agreement entered into between the Investor and Custodian (defined below in Exhibit A) shall be considered the legal record holder of the Securities, including Capital Stock.

(j) All rights and obligations hereunder will be governed by the laws of the State of Delaware, without regard to the conflicts of law provisions of such jurisdiction.

(k) Any dispute, controversy or claim arising out of, relating to or in connection with this instrument, including the breach or validity thereof, shall be determined by final and binding arbitration administered by the American Arbitration Association (the "AAA") under its Commercial Arbitration Rules and Mediation Procedures ("**Commercial Rules**"). The award rendered by the arbitrator shall be final, non-appealable and binding on the parties and may be entered and enforced in any court having jurisdiction. There shall be one arbitrator agreed to by the parties within twenty (20) days of receipt by respondent of the request for arbitration or, in default thereof, appointed by the AAA in accordance with its Commercial Rules. The place of arbitration shall be Redding, California. Except as may be required by law or to protect a legal right, neither a party nor the arbitrator may disclose the existence, content or results of any arbitration without the prior written consent of the other parties.

(l) The parties acknowledge and agree that for United States federal and state income tax purposes only this SAFE is, and at all times has been, intended to be characterized as stock, and more particularly as common stock for purposes of Sections 304, 305, 306, 354, 368, 1036 and 1202 of the Internal Revenue Code of 1986, as amended. Accordingly, the parties agree to treat this SAFE consistent with the foregoing intent for all United States federal and state income tax purposes (including, without limitation, on their respective tax returns or other informational statements).

IN WITNESS WHEREOF, the undersigned have caused this instrument to be duly executed and delivered.

J: We are here with the Jet Shark. The Jet Shark is basically a fighter jet on the water. It's got a Corvette motor. It's air conditioned and everything. This is one of the coolest boats I have ever seen in my life! I don't know if I should call it a boat or a submarine but here's the designer, Robert.

R: Hey, nice to meet you, thanks for coming! This is the Cadillac of submersible watercraft. We've got four cushy seats, there's suspension, we've got an air conditioned cockpit. We've got all electro-hydraulic controls by Bansbach. These are our dive planes and effectively they suck the whole boat underwater because this boat is not like a submarine. It's positively buoyant so the only way that you dive is to basically force it underwater using a lot of horsepower and the moment you lose power, it just instantly pops to the surface. If I want to go into a dive, I'm going to put them down like this. If I want to roll, I can do them independently like ailerons on a plane. I also have elevators and vectored jet thrust at the back so yeah, you can do some pretty crazy tricks with these things!

J: Guys, look at this we are in the Jet Shark and I'm telling you this feels like a fighter jet. This thing is incredible!

R: So, we've got full electronic instrumentation. It's a full glass cockpit as you can see. I've got a snorkel camera up on top so even when we're in a dive, we can see what's underwater you know. This is how it will jump out like that.

J: No matter what, even when we're underwater we're just going to see blue right here through the canopy?

R: Correct. We're always going to have an upward view so we can look ahead and we also have a rear-facing camera as well. A lot of these are going to be geared towards commercial operations where a trained pilot will take people for rides. So, right now this is a four-seater but we'll also have a five-seater and a six-seater.

J: Right, okay so on Yachts everything like that?

R: We're getting a lot of interest from yacht owners, you know as a tender or just a toy to play around in, and the cool thing is you don't, you know people say, oh it's going to be claustrophobic, but we can drive it like this full speed with canopies wide open. If you want to get crazy you just close down these canopies like this, pull it down, latch it, and then we'll actually inflate the pneumatic seals and that keeps all of the water out.

J: We just took a look at the cockpit, now we're going to take a look at the power plant. Robert show us what.

R: So, here's the heart of the Beast. This is a 6.2 L Kodiak Marine, V8. It's basically a marinized version of a Corvette engine. This one will put out about 430 horsepower. The next one we're building though, actually has a supercharged 575 horsepower engine!

J: And then there's your, ah, this is your intake snorkel here?

R: Yeah, so there's actually an air intake on the top of the snorkel and then you have, ah, cameras and FLIR system up on the top so you can see where you're going in day and night. You cannot dive deeper than that air intake because the engine will start to lose power and then it'll automatically return to the surface.

YouTube CNET – This Jet Shark Can ‘Fly’ Underwater

(TRANSCRIPT)

Intro

What looks like a James Bond getaway vehicle and can fly underwater?

Feast your eyes on the Jet Shark. It's still in the Prototype phase for now but we spoke to its founder and Creator to learn more about how it works, how much it'll cost and when and where you might get a chance to try one.

[Music]

Seabreacher wings and forward propulsion to fly underwater. If the Jet Shark's underwater cruising capabilities look familiar you might have seen its creators previous work within the space, Seabreacher, a company he co-founded back in 1997. You know they look like dolphins, sharks, killer whales and sailfish. Basically we'll build whatever a customer wants. We've delivered about 170 of those throughout the world. They're all custom built to order. Rob took the lessons he'd learned and customer feedback he'd received with the Seabreacher and applied it to the development of his next project, the Jet Shark. Right now it's a four-seater boat. Jet Shark later models go up to about six seater. Basically you can launch and retrieve it just like any regular boat. One of the more user-friendly changes from the Seabreacher involves the vehicle's controls. The Seabreacher is super fun to drive but it's quite a difficult boat to drive. It's a very visceral experience. You know you are basically controlling a lot of different mechanisms because it pitches, rolls and is more like an aircraft than a boat because the Jet Shark's a lot bigger. It's a lot harder to manipulate those controls, especially in water. You'll sort of have a joystick kind of like in a computer game simulator and that will then go through a computer processor and then power the control systems. There's two sets of controls up front so that as new pilots learn the ropes

they can control different parts of the watercraft. The vessel is also much larger than its predecessor. It's about three times the volume of the Seabreacher so getting that big point underwater required a lot more complex system to get it sorted out. So yeah, there's no parts in common between my original Seabreacher and the new Jet Shark. If the Seabreacher was a race car then the Jet Shark is sort of like a GT car. The prototype has a top speed of 45 miles per hour but Rob tells me that the production models will reach speeds of up to 50 or 60 miles per hour depending on the engine. To keep passengers safe it also has sensors like radar to keep tabs on any obstacles that may be nearby.

Price wise we're trying to keep the price to about two hundred thousand dollars as the starting point. Once you start getting into the carbon fiber Hull and the supercharged engine and some of the bells and whistles will probably get closer to three hundred thousand. The Recreational Use market Rob's envisioning for the Jet Shark mainly involves recreational use in tourist destinations with crystal clear water. You'll have a pilot that will take passengers for rides on the surface and then dip underwater and Jump free, sort of like an underwater roller coaster ride. There's still some regulatory hurdles and fundraising that needs to happen to get the Jet Shark to the commercial phase. It is registered as an inboard power boat. The Jet Shark you can basically own just like a regular boat. You don't need any special licensing for it so we'd like to see the commercial operations start doing beta testing end of this year and early next year and then would like to start delivering you know the first batch of boats end of 2024.

Would you like to ride in a Jet Shark? Let us know down in the comments. As always thanks so much for watching. I'm your host Jesse Oral. See you next time with the fam.
