"It is with the greatest enthusiasm that I act as Lead Investor for NineOneSix. I believe unequivocally in their mission to enable entrepreneurs to do what they do best: to tend to their businesses. By enabling the business owner to focus on their core mission, and not on administrative, legal, operational, and technical issues, NineOneSix becomes an indispensable partner and force multiplier to help launch an enterprise. It is difficult to imagine a more valuable asset to the entrepreneur."

Potential \$1M Pool for Funding Businesses

(Estimate available based on successful Reg CF and Reg D capital raise of \$2.4 million. Additional funding may be available through other sources in the future.)

By investing NineOneSix Systems, Inc. using a SAFE with a cap, you are able to lock in the maximum price you will pay at the first equity round

more to earn in the maximum price you will pay at the next equity round or at the sale of the company. As our revenue and profitability grow, so does the value of your investment. If we conduct an IPO, you may be able to make a 5X, 10X, 50X return on your investment. Example: You purchase a SAFE at a \$24M cap and it converts into preferred stock at the next funding round. The company grows from a \$24M valuation to a \$100M valuation and you're investment increases 4X (not taking into account dilution from issuance of further equity).
