Allconnect, Inc.
Founder & Vice Chairman
June 1998 - September 2017 (19 years 4 months)
Atlanta, Georgia

Lee served as CEO and/or executive Chairman from the company's inception (1998) through July of 2004. By 2004, the company had achieved a dominant market position, emerging from a crowded, well funded field of competition and earned a rank of #73 on the Inc.500 (2005 for 2001-2004 performance). Key responsibilities included consumer experience design and execution, business model/strategy design and execution, building the management team, major distribution and content partnership negotiation, and raising institutional capital. Allconnect investors included Nth Power Technologies (San Francisco), Maveron (Seattle), Covestco (London), and SE Interactive (RTP - NC). Allconnect sold for over \$100 million to Red Ventures in 2017. Lee was an active board member serving continuously from company founding through the exit.
