Specialties: Strategic planning; corporate formation; mergers and acquisitions; business development; business plan compilation; reverse mergers; equity and debt structure and financing; augmentation of management; capital restructuring; joint ventures; and procurement of channel partners.

Experience

Sofpulse

Chief Executive Officer

January 2023 - Present (2 years 9 months)

Raleigh, North Carolina, United States

SofPulse, Inc. as a commercial developer and distributor in the medical device industry is in a unique position in the global healthcare market.

SofPulse, Inc. has an FDA Clearance and is clinically proven for treating post-operative pain and edema

without the use of harmful drugs! Moreover, we have ongoing clinical studies...

We are currently launching into the VA/DOD market and providing our Veterans stream-lined

logistics and supply management with our goal to make SofPulse® the standard care for postoperative pain.

Additionally, Sofpulse has received a TFDA in Taiwan, a pre-Market approval, August 2023, and has a Sales and Strategic Partnership Agreement with Evermed Medical Enterprise Ltd., a leading medical device distributor in Taiwan, ROC (Republic of China) to distribute SofPulse® medical devices in Taiwan.

Endonovo Therapeutics, Inc.

CEO

September 2011 - Present (14 years 1 month)

Endonovo Therapeutics, Inc. (OTCQB: ENDV) is a biotechnology company developing non-invasive electromagnetic therapies designed to extend and enhance the human life by regenerating tissues and organs that have become injured or damaged by disease and age. Endonovo is developing therapies for various inflammatory, autoimmune and degenerative diseases using Time-Varying Electromagnetic Fields (TVEMF). The Company's business model includes the international licensing of its stem cell mobilization and expansion technologies and the development of non-invasive electromagnetic therapies.

IP Resources International, Inc.

Chief Executive Officer

September 2011 - Present (14 years 1 month)

Woodland Hills, CA

IP Resources International, Inc., a wholly owned subsidiary of Endonovo Therapeutics, Inc. (OTCQB: ENDV) acquires licenses to compelling technologies and products and commercializes them by forming joint ventures with international corporations and through sub-licensing on a territory-by-territory basis.

Technologies are commercialized in the United States and territories including Brazil, Russia, India, China and the European Union. IP Resources' goal is to maximize the value of patents by fully commercializing them internationally and shortening the time to market for innovative technologies and products. IP Resources primarily targets market-ready technologies that have broad applications in international markets and have strong, defensible patents in healthcare, clean energy, internet and mobile devices.
