Gebsta,

Please register and sign-up for an account with WeFunder for my European soccer team project.

<https://wefunder.com/signup>

This takes 10-15 minutes.

Once you have registered, please choose to invest in FMCF

<https://wefunder.com/fmcf>

The maximum amount allowed will be \$2,200. Your credit card will not be charged.

This is a *non-binding* commitment that will only be released to our company in the event that sufficient funds are raised AND you provide additional consent to invest officially.

What questions will the average investor have? I need to develop a FAQ and could definitely use your help...
