"Since 2021, I have invested in dozens of independent films. I believe "Manhattan Transfer" is the most exciting concept I've ever encountered for a science fiction series that can be told over several seasons. Our exceptional cast of Casper Van Dien with a stellar ensemble of Star Trek veterans, including Walter Koenig, Doug Jones, John Billingsley, Tim Russ and Dominic Keating is second to none. There are unlimited stories to tell with this unique concept, and I am thrilled to be a major part of it"

Our Team

Ethan H. Calk Writer/Producer

Co-writer of two episodes of Star Trek: Deep Space Nine, co-writer/co-producer of Star Trek: Of Gods and Men, Star Trek: Renegades, Cozmo's

Manhattan Transfer - new streaming series

**ALIENS HAVE
ABDUCTED MANHATTAN**

A massive alien ship "abducts" Manhattan, leaving captive New Yorkers to navigate their extraordinary new circumstances. The series will explore how both ordinary and extraordinary individuals cope with this mind-bending scenario. It blends classic science fiction elements with a sense of wonder and

ingenuity.

THE NEXT SCI-FI PHENOMENON

From the creative team that brought you *Star Trek: Of Gods and Men*, *Star Trek: Renegades*, *Renegades: The Requiem* and *InAlienable* comes a compelling new streaming series -- "Manhattan Transfer." It is based on the best-selling novel by John E. Stith.

Our new streaming series will tell multiple stories of how everyday and extraordinary people react to these crazy new circumstances -- from the mayor to the ordinary guy on the street, from the top minds in business and science to the street-smart loners, from the celebrities to the mobsters in the seedy underworld.

How will we discover what the aliens have in store for us? Will we be able to communicate with our captors? How will we get off this alien ship?

And, perhaps most importantly, how will people and society function when they're cut off from the rest of the world?

OUTSTANDING INVESTMENT OPPORTUNITIES

Manhattan Transfer is your opportunity to become a part of a project with the potential to become the next big sci-fi phenomenon! We are looking to raise \$1.2 million to fund the pilot.

Early Bird Investors in our project will not only secure 130% of their principal investment up front as revenue is generated, but they will also benefit from a substantial 50% share of the profits from the pilot episode! Regular Investors will secure 120% of their principal plus the 50% share of the profits.

Our goal is to have a streaming service (Netflix, Hulu, Amazon, Paramount Plus, Apple TV, etc.) or cable channel (SyFy, AMC, FX, etc.) pick up the pilot and fund the series. Depending on the licensing rights sold to one of these services, an investment of \$50,000 could return over \$240,000!

Investment return

Our Revenue Participation Agreement

130/120%

As the revenue comes in, investors will first receive 130% (early bird*) or 120% (regular) of their principal investment

50%

After their 130/120% return, investors will receive their share of 50% of the profits made from the pilot episode

*early bird are investors in the first \$600,000

Hypothetical Investment Returns

Total Budget = \$1,200,000

Hypothetical Investment = \$50,000

Scenario 1
Licensing rights sold for \$3M
Early Bird Investment Return = \$95,076
Regular Investment Return = \$92,574

Scenario 2
Licensing rights sold for \$6M
Early Bird Investment Return = \$157,626
Regular Investment Return = \$155,124

Scenario 3
Licensing rights sold for \$10M
Early Bird Investment Return = \$241,026
Regular Investment Return = \$238,524

From the creator:

"When I first picked up John Stith's novel "Manhattan Transfer," I immediately fell in love with it! It is science fiction at its best - the perfect "what if?" scenario full of a sense of wonder like few other novels I read.

I immediately thought this would make an excellent science fiction series. However, at the time, broadcast and cable shows were off limits to "outsider" independent producers like me. So, I put it on a back burner, but I still revisited the possibilities of creating this series from time to time.

Fast forward to today, where there are countless cable channels and streaming services. And the one thing they all have in common - they need programming!

So, now is the perfect time to bring "Manhattan Transfer" to life! There are so many stories to tell with a premise like this: how vastly disparate people can come to work together, utilizing science and creativity to solve what will be a nearly impossible scenario. Can people put aside their differences for a common goal? Can they put aside their own needs for the needs of the many? And can they function as a society when their society collapses?

These are just some of the captivating questions that we can explore in this series. With an ensemble cast of exceptional actors, we can bring this compelling story to life - with your generous help! Thank you!"

-Sky Conway, Creator/Producer/Writer

A STELLAR CAST
