THE LOOK

What's the Ask?

We are finishing the production of the Black Sands Anime. We are 70% complete and want to sprint to the finish line instead of wait on distribution deals to fund the rest of the production.

This leaves an opportunity for our fans to own an even larger share of the profits should this film be successful.

FINAL STATEMENT

As the CEO of the production, I pride myself in never failing. For years, Black Sands has done everything they said they would do and always looked out for our investors. This is the chance to not only succeed, but put actual wealth into the hands of our community. It's time to break the wheel and forge our own future.

As I have said for years, **NO MORE SLAVE STORIES, TIME FOR KINGS!**
