- **Broadcasting Rights:** Revenue generated from selling the broadcasting rights to networks and streaming platforms globally.
- **Sponsorships and Partnerships:** Brand integrations and collaborations with relevant brands will not only help with funding production but also open cross-promotion opportunities.
- **Home Media and Digital Sales:** Profits also come from DVD sales and digital downloads, capitalizing on the demand for home viewing.

We are confident that Black Sands will not only be a profitable venture but also a significant contributor to the evolution of the animation industry.

The path to ROI

Recoupment Waterfall

The recoupment plan for the Black Sands anime is designed to ensure the project's sustainability and profitability. Our plan is as follows:

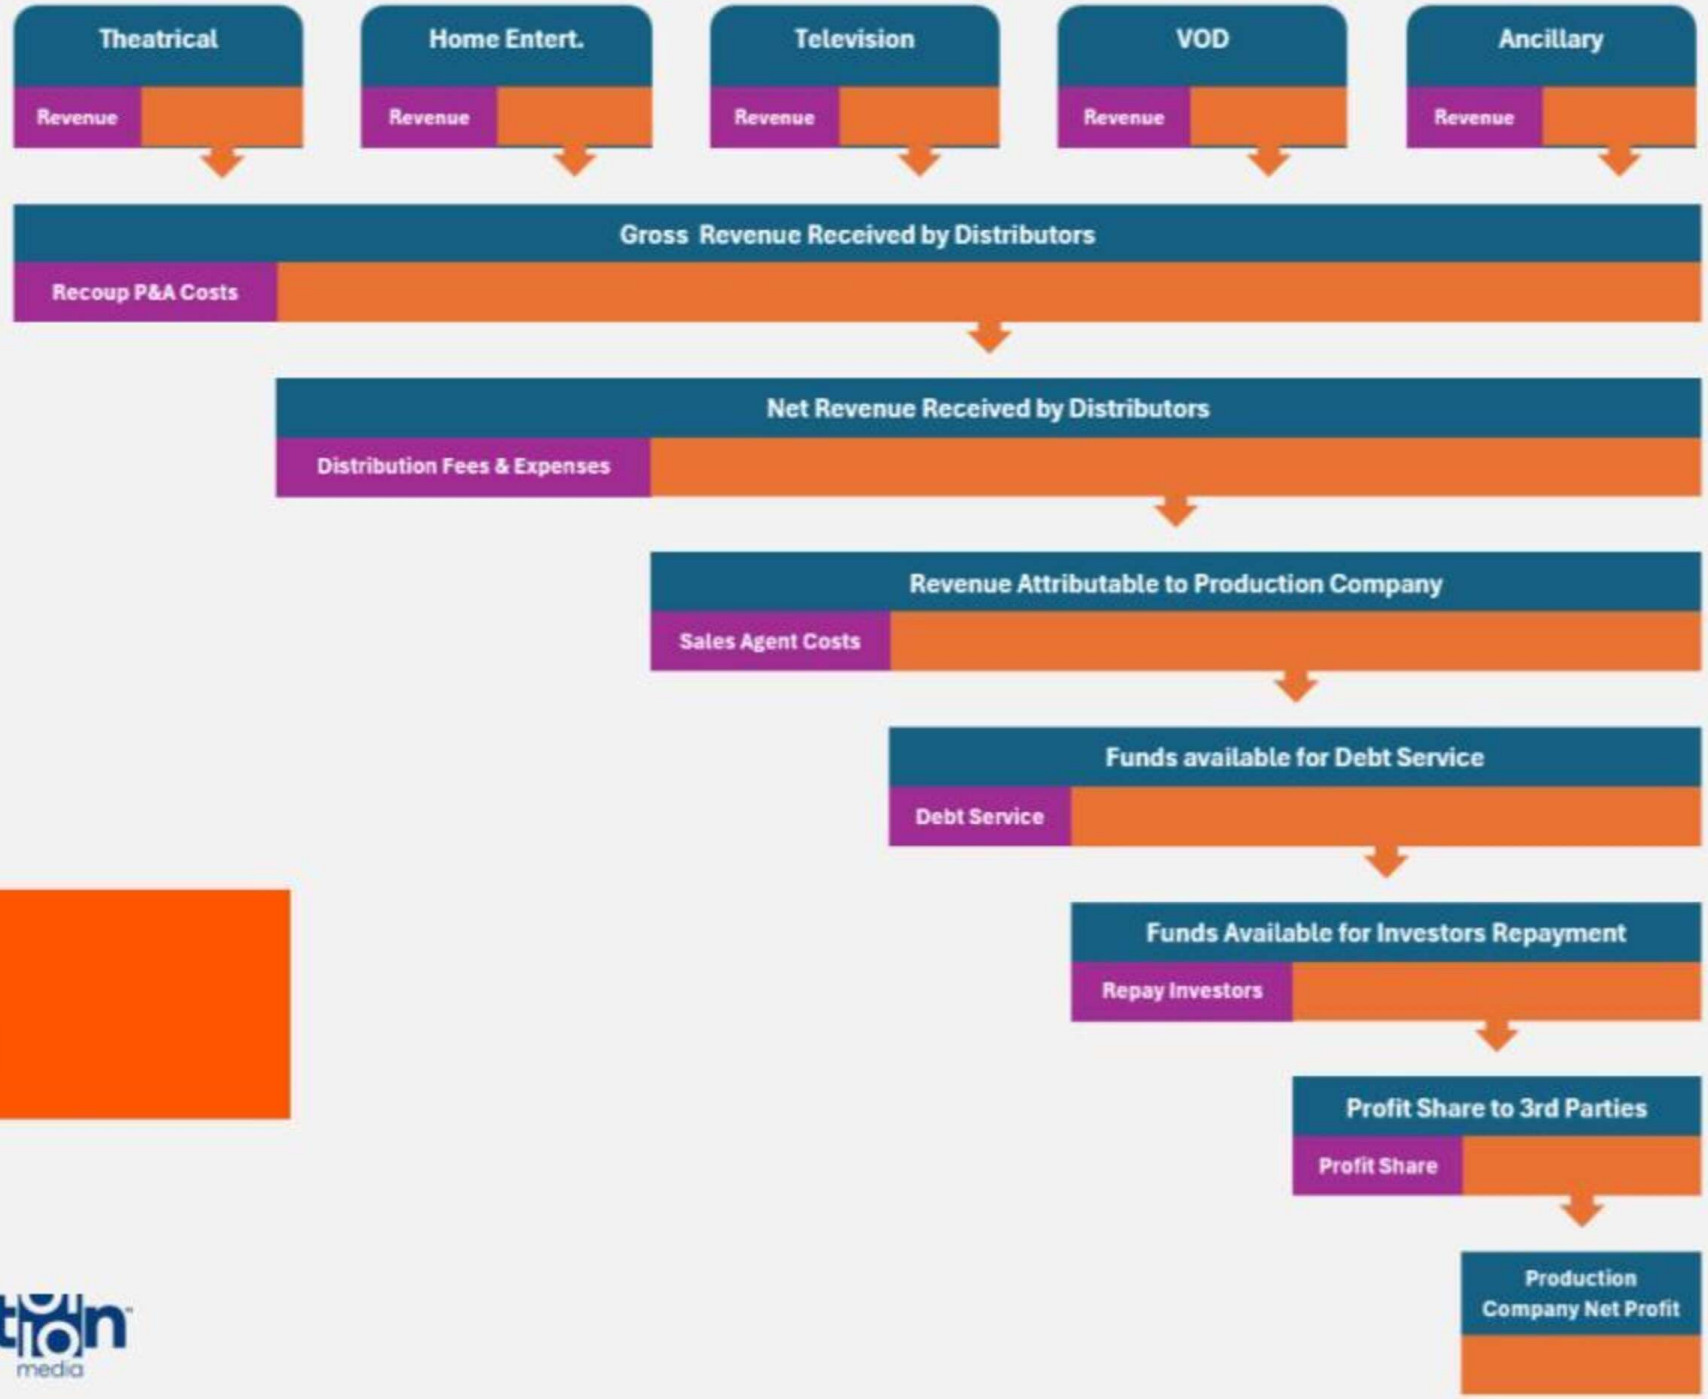

Producer and Investor Funding: We are funding development and a significant part of production, leveraging the Black Sands Tribe to fully finance the film without any debt or loans, ultimately aiming to enhance returns for investors.

Pre-Sales of Broadcasting Rights: Plan to boost revenue by pre-selling broadcasting rights to networks and streaming platforms, securing funds and building a dedicated audience.

Government Grants and Tax Incentives: We are exploring opportunities for grants and tax incentives available for film and animation production.
