

Thank you to everyone who participated in the private launch of our Community Investment Round. The response has been truly incredible! We're now opening this opportunity to the public!

We're raising funds to build a platform to help independent craft beverages stay independent, as opposed to selling to multinationals or closing because of the current challenges in our industry.

To fund this new platform, we were inspired by the Green Bay Packers' community ownership model. We're introducing a similar concept and are selling stock to the public for the first time in 24 years through [Wefunder](#).

We invite you to review this opportunity to own a piece of brewing history!

We are 'testing the waters' to gauge investor interest in an offering under Regulation Crowdfunding. No money or other consideration is being solicited. If sent, it will not be accepted. No offer to buy securities will be accepted. No part of the purchase price will be received until a Form C is filed and only through Wefunder's platform. Any indication of interest involves no obligation or commitment of any kind.

Thank you for your interest in supporting independent business!

Naomi, Eric & Noel Wallace

We appreciate you standing up for independent business in our community, like Left Hand Brewing, through signing our investor interest form.

You can now own a piece of Left Hand and brewing history by purchasing stock with a \$500-\$25K investment through [Wefunder](#). The money raised will support our development of a consolidation platform for other independent craft beverage companies that don't want to sell out to multinationals or close their doors.

We invite you to visit our [Wefunder](#) page and learn more about the details of this opportunity and to reserve your investment. Together, we will significantly support independent businesses in our community!

Cheers,
Eric Wallace
