🚀 Exciting News from OKOM WRKS LABS! 🚀

We are thrilled to announce the launch of our community round to support our research residency at the prestigious Autodesk Tech Center in Boston! 🏢

OKOM WRKS LABS, PBC, is dedicated to pushing the boundaries of innovation and research in mycelium based composites (MBC). Our residency at Autodesk Tech Center will provide us with an unparalleled opportunity to collaborate with leading minds, access cutting-edge technology, and bring our groundbreaking ideas to life.

Why This Matters:

- ◆ Innovation: Your support will enable us to explore new frontiers in MBCs, driving impactful change and technological advancement.
- ◆ Community: This round is not just about funding; it's about building a community of forward-thinkers and change-makers.
- ◆ Impact: Together, we can create solutions that address real-world challenges and make a difference.

How You Can Get Involved:

Invest: Join our mission by investing in this community round.

Share: Help us spread the word by sharing this post with your network.

Engage: Follow our journey and stay updated on our progress and milestones.

We believe that the future of innovation lies in collaboration and community. Let's build it together!

To learn more and join us on this exciting journey, visit our campaign page on WeFunder.

okom wrks is launching a crowdfunding campaign on WeFunder! Help us spread the word by sharing with your networks! This crowdfunding capaign will help us with materials and equipment needed to hit the ground running during our upcoming research residency at the Autodesk Tech Center in Boston.

The Autodesk Research Residency program will give a huge boost to our R&D efforts. We will begin working out of the Autodesk Tech Center in Boston starting September 2024. This state of the art facility and group of experts will help to derisk our path to commercialization by providing cutting edge fabrication tools, digital design expertise, and educational opportunities. Our 12 month residency will allow us to work alongside Autodesk mentors who will help us design and build the machines and processes we need to provide value to our future licensees.

To learn more aabout the details of our campaign and to join our growing list of community supporters please visit our WeFunder campaign page at:

Exciting News Alert!

We are thrilled to share that we've been accepted into the Autodesk Research Residency Program! For the next 12 months, we'll be stationed at the Autodesk Tech Center in Boston, focusing on automating our mycelium based composite (MBC) process. The highlight? We'll be constructing the first-ever fully freestanding mycelium based composite structure!

Imagine load-bearing walls, interior partitions, and roof panels—all crafted from MBC.

To support this groundbreaking endeavor, we've launched a crowdfunding campaign on WeFunder. Your investment, starting from \$100, can help us cover material and equipment costs. Every contribution counts!

If investing isn't your thing, simply spreading the word by sharing this post or engaging with our content can make a huge difference. Let's make this innovative project a reality together!
