Robert Zimmerman

Co-Founder at Nestment
Hercules, California, United States

Summary

Rob Zimmerman is an industry-leading expert in web development and a true trailblazer in the field. With a deep understanding of Full Stack programming and a wealth of experience in designing and architecting web solutions, Rob stands at the forefront of innovation in the digital world.

Zimmerman's journey in the tech industry is marked by significant milestones. Following his education at Cal State East Bay, he embarked on his professional journey as a web engineer. His career progressed further, holding positions as a Senior Software Development Engineer playing pivotal roles, and making impactful contributions in various organizations like Enwoven and Tesla. Throughout his career, Rob has been a driving force behind numerous transformative projects.

Today, Rob proudly is the Co-founder and Director of Engineering at Nestment, where they are passionately driving forward the company's vision to open the door to homes, ownership, and wealth for a new generation through their co-buying platform that makes it easy for groups of friends and family to purchase real estate together.
