

HICH is building a locally rooted, driver-aligned rideshare platform designed to deliver reliable, affordable transportation while treating drivers as long-term partners and not disposable labor. Our model focuses on transparency, sustainability, and filling the reliability gaps left by national platforms, starting in Minnesota and scaling thoughtfully.

Below is a set of materials to help you get familiar with HICH. Please feel free to share these with friends or colleagues who may be interested in learning more about what we're building.
