Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

RISK FACTORS

8. Discuss the material factors that make an investment in the issuer speculative or risky:

A crowdfunding investment involves risk. Investors should not invest any funds unless they can afford to lose the entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

Beauty Right Back Corp was incorporated in February 2025 and has an extremely limited operating history upon which investors can evaluate our business model, prospects, and likelihood of success. Licensed To Glow operates in the competitive beauty and wellness membership marketplace, and we have not yet demonstrated that our business model is sustainable or scalable over time. Our limited track record makes it difficult to assess our ability to attract and retain members, maintain relationships with salon partners, or achieve profitability. Investors should be aware that companies with limited operating histories face heightened risks of business failure, and there is no assurance that we will be able to successfully execute our business plan or achieve our growth objectives.

Licensed To Glow's membership platform is entirely dependent on our ability to establish, maintain, and expand relationships with salons, spas, and other beauty service providers who offer discounted services to our members. We have no control over these third-party providers, and they may terminate their relationships with us at any time, reduce the discounts they offer, limit appointment availability for our members, or fail to maintain quality standards. If we are unable to maintain an adequate network of service providers in key geographic markets, or if providers choose to work with competing platforms, our value proposition to members would be significantly diminished. Additionally, any negative experiences members have with service providers could damage our reputation and lead to member cancellations, even if such issues are beyond our direct control. Our business could be materially harmed if we lose access to popular or strategically important salon partners.

Our success depends substantially on the continued services and performance of our small team of five employees and our founders. With such a limited team, each person plays a critical role in operations, partner relationships, member services, and business development. The loss of any key employee could create significant operational disruptions and may be difficult to remedy given our early stage and limited resources. We face intense competition for qualified personnel in the New York market, and we may not be able to attract, integrate, or retain additional qualified personnel in the future. We do not maintain key person life insurance on any of our employees or founders. If we lose the services of key personnel and cannot find suitable replacements in a timely manner, our business, financial condition, and results of operations could be materially adversely affected.

A significant portion of our planned use of proceeds will be allocated to paid social media advertising on platforms such as TikTok and Meta, content production, and influencer partnerships. This marketing strategy carries substantial risks and uncertainties. The cost of customer acquisition through these channels may be higher than anticipated, and we may not be able to acquire members at a cost that allows for profitable unit economics. Social media platforms frequently change their algorithms, advertising policies, and pricing structures, which could reduce the effectiveness of our campaigns or increase our costs. Additionally, our reliance on influencer marketing exposes us to risks related to influencer behavior, authenticity concerns, and changing consumer attitudes toward influencer recommendations. If our marketing efforts fail to generate sufficient member sign-ups, or if the lifetime value of acquired members is lower than our acquisition costs, our business model may not be viable and we may be unable to achieve profitability.

The beauty and wellness membership and discount marketplace is highly competitive, with numerous established competitors including

ClassPass, Groupon, and various regional and national beauty membership programs. Many of our competitors have significantly greater financial resources, larger member bases, more established relationships with service providers, stronger brand recognition, and more extensive marketing capabilities than we do. Additionally, the barriers to entry in our market are relatively low, and new competitors can enter the market with relative ease. Large technology platforms or established beauty retailers could launch competing services and leverage their existing customer bases and resources to gain market share rapidly. We may be forced to reduce our membership prices or increase the discounts we offer to remain competitive, which could make it difficult or impossible to achieve profitability. If we are unable to differentiate our service and compete effectively, our business and prospects will be materially harmed.

We have incurred losses since inception and expect to continue incurring significant losses for the foreseeable future as we invest in member acquisition, expand our service provider network, hire additional personnel, and scale our operations. Our business model involves offering discounted beauty services to members, which creates margin pressure and requires substantial member volume to achieve profitability. We cannot assure investors that we will ever achieve profitability or, if we do achieve profitability, that we will be able to sustain it. Our ability to achieve profitability depends on numerous factors, many of which are beyond our control, including our ability to attract and retain members at acceptable costs, negotiate favorable terms with service providers, manage our operating expenses, and achieve sufficient scale. If we are unable to achieve and sustain profitability, the value of your investment could decline significantly or become worthless.

We will require substantial additional capital beyond the proceeds of this offering to fully develop our business, expand into new markets, scale our marketing efforts, and achieve profitability. We have no commitments or arrangements for additional financing, and we cannot assure you that additional financing will be available on acceptable terms, or at all. Our ability to obtain additional financing will depend on numerous factors, including our business prospects, results of operations, the state of capital markets, and investor sentiment toward our industry. If we are unable to obtain additional capital when needed, we may be forced to significantly curtail our growth plans, reduce our marketing spend, delay or abandon expansion into new markets, reduce our workforce, or cease operations entirely. Any additional equity financing would result in dilution to existing investors, and debt financing, if available, may contain restrictive covenants that limit our operational flexibility.

We intend to conduct additional equity financings in the future to fund our operations and growth. The issuance of additional equity securities will have a dilutive effect on existing investors' ownership percentage in the company. We may need to issue equity securities at valuations that are lower than the valuation at which you are investing, which would result in even greater dilution. The securities being offered in this offering do not contain anti-dilution protections or preemptive rights, meaning investors have no contractual protection against dilution and no right to participate in future financing rounds to maintain their ownership percentage. As we raise additional capital, your ownership interest in the company will decrease, potentially significantly, and the rights and preferences of securities issued in future financings may be superior to the rights of the securities you are purchasing in this offering.

Licensed To Glow's business depends on consumers' willingness and ability to spend money on discretionary beauty and wellness services such as blowouts, nail services, and salon treatments. During economic downturns, recessions, or periods of economic uncertainty, consumers typically reduce spending on discretionary items and services, including beauty treatments. Even though our membership model is designed to make beauty services more affordable, consumers may cancel memberships and reduce or eliminate spending on beauty services altogether during difficult economic times. Additionally, inflation, rising costs of living, and other macroeconomic factors could reduce disposable income available for beauty services. Any sustained reduction in consumer spending on beauty services would materially harm our ability to attract and retain members, which would adversely affect our revenue, business prospects, and financial condition.

Our growth strategy depends on our ability to expand beyond our initial markets into new geographic areas. Successfully entering new markets requires establishing relationships with local service providers, building brand awareness, adapting our marketing strategies to local preferences, and competing with established local and national competitors. Each new market presents unique challenges, including different competitive dynamics, consumer preferences, regulatory requirements, and operational considerations. We may not be able to identify suitable service provider partners in new markets, or we may find that our business model does not resonate with consumers in certain geographic areas. Expansion efforts require significant capital investment and management attention, and unsuccessful expansion attempts could result in substantial losses and divert resources from our existing markets. If we are unable to successfully expand geographically, our growth prospects and ability to achieve profitability will be limited.

Our business is subject to numerous federal, state, and local laws and regulations, including consumer protection laws, advertising and marketing regulations, data privacy laws such as the California Consumer Privacy Act and similar state laws, payment processing regulations, and laws governing membership and subscription services. We collect, store, and process personal information from our members, including payment information and service preferences, which subjects us to data privacy and security obligations. Compliance with these laws and regulations is complex and costly, and the regulatory landscape is constantly evolving. New laws or regulations, or new interpretations of existing laws, could require us to modify our business practices, implement new compliance measures, or restrict certain aspects of our operations. Failure to comply with applicable laws and regulations could result in significant fines, penalties, litigation, reputational harm, or restrictions on our ability to conduct business. We may also face claims from members, service providers, or others alleging violations of consumer protection laws, breach of contract, or other legal violations, which could be costly to defend and could result in significant liability.

Our business depends on our technology platform and our ability to securely collect, store, and process sensitive member information, including personal data and payment information. We face ongoing threats from cybercriminals, including phishing attacks, ransomware, data breaches, and other security incidents. A successful cyberattack or data breach could result in unauthorized access to or disclosure of member information, payment card data, or other confidential information. Such an incident could result in significant costs to investigate and remediate, legal liability, regulatory penalties, loss of member trust, reputational damage, and loss of business. We may also experience system outages, technical failures, or other disruptions that prevent members from accessing our platform or booking services. As a small company with limited resources, we may not have implemented enterprise-grade security measures, and we may lack the resources to adequately respond to and recover from a significant security incident. Any significant cybersecurity incident or system failure could materially harm our business, financial condition, and reputation.

Our success depends in part on our ability to protect our brand, proprietary business processes, and other intellectual property. We rely primarily on trade secrets, proprietary know-how, and confidential information to protect our business model, marketing strategies, and operational processes. However, our business model and approach to beauty service memberships may be relatively easy for competitors to replicate, and we may have limited ability to prevent others from copying our approach. We may not have registered trademarks for all of our branding elements, and we may face challenges enforcing any intellectual property rights we do have, particularly against larger competitors with greater resources. Additionally, we could face claims from others alleging that we have infringed their intellectual property rights, including trademarks, copyrights, or business methods. Defending against such claims could be costly and time-consuming, and an adverse outcome could require us to pay damages, cease using certain branding or business practices, or obtain expensive licenses. Our inability to adequately protect our intellectual property, or intellectual property claims against us, could materially harm our competitive position and business prospects.

An investment in Licensed To Glow is highly speculative and involves a high degree of risk. You should invest only if you can afford to lose your entire investment. We are an early-stage company with a limited operating history, no proven track record of success, and significant uncertainty regarding our ability to execute our business plan and achieve profitability. The likelihood of success must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the expansion of an early-stage business and the competitive environment in which we operate. We may not be successful in our efforts, and we may never generate significant revenue or achieve profitability. If we fail to successfully execute our business plan, your investment could become worthless and you could lose your entire investment.

There is currently no public market for the securities being offered, and we do not expect that a public market will ever develop. The securities have not been registered under the Securities Act of 1933 or any state securities laws, and they may not be sold or transferred except in compliance with registration requirements or pursuant to an applicable exemption from registration. Even if you are able to find a willing buyer for your securities, you will not be able to sell them unless the sale is registered or exempt from registration. Additionally, the securities are subject to a one-year holding period during which they cannot be transferred except in very limited circumstances. You should be prepared to hold your investment for an indefinite period of time, potentially for the life of the company. The lack of liquidity means you will not be able to access your invested capital even if you have an urgent need for funds or if the company's performance deteriorates. You should not invest unless you can afford to hold the investment indefinitely and can bear the risk of losing your entire investment.

In connection with this offering, the founder has designated themselves as the lead investor who will sign documents and make decisions on behalf of all investors in the special purpose vehicle. This arrangement creates a significant and inherent conflict of interest because the founder has interests both as an operator and decision-maker for the company and as the representative of investor interests. These interests may not always align, and in many situations, what is best for the company and its founders may not be what is best for investors. For example, the founder may have access to material non-public information about the company's performance and prospects that could influence decisions made on behalf of investors. The founder may also face conflicts when negotiating terms of future financings, considering acquisition offers, or making other significant decisions that affect both the company and investor returns. Unlike typical investment structures where an independent third party represents investor interests, you will have no independent advocate looking out for your interests as a minority investor. This structure significantly increases the risk that investor interests may be subordinated to the interests of the company and its founders, and you will have limited recourse if you disagree with decisions made on your behalf.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **$10,000**

Use of Proceeds: If only the minimum target amount is raised, Licensed to Glow expects to use proceeds approximately as follows: 41% Paid Social Advertising (TikTok & Meta), 23% Content Production & Influencer Partnerships, 18% Sales & Operations Hiring, 10.1% Working Capital & General Operations, and 7.9% Wefunder fee and related offering expenses. Management intends to allocate proceeds as described but may adjust priorities based on membership growth rates, market conditions, and other factors outside its control.

If we raise: **$124,000**

Use of Proceeds: If the maximum offering amount is raised, including any oversubscriptions, Licensed to Glow expects to use proceeds approximately as follows: 32% Paid Social Advertising (TikTok & Meta), 18% Content Production & Influencer Partnerships, 18% Sales & Operations Hiring, 13% Geographic Market Expansion (NYC, DMV), 11.1% Technology & Platform Development, and 7.9% Wefunder fee and related offering expenses. Management expects to deploy excess proceeds toward geographic expansion and platform development but may reallocate among categories based on membership demand, salon partner availability, and operational needs.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer. Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle ("SPV"). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. In addition, investors' interests in the investments will be recorded in each investor's "Portfolio" page on the Wefunder platform. All references in this Form C to an Investor's investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline.

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's

investment commitment will be canceled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

To view a copy of the SAFE you will purchase, please see Appendix B, Investor Contracts. The main terms of the SAFEs are provided below.

The SAFEs. We are offering securities in the form of a Simple Agreement for Future Equity ("SAFE"), which provides Investors the right to **Preferred Stock** in the Company ("**Preferred Stock**"), when and if the Company sponsors an equity offering that involves **Preferred Stock**, on the standard terms offered to other Investors.

Conversion to Preferred Equity. Based on our SAFEs, when we engage in an offering of equity interests involving **Preferred Stock**, **Investors will receive a number of shares of Preferred Stock** calculated using the method that results in the greater number of **Preferred Stock**:

i. the total value of the Investor's investment, divided by
   a. the price of **Preferred Stock** issued to new Investors multiplied by
   b. the **discount rate** (80%), or
ii. if the valuation for the company is more than **$20,000,000.00** (the "Valuation Cap"), the amount invested by the Investor divided by the quotient of
   a. the Valuation Cap divided by
   b. the total amount of the Company's capitalization at that time.

Additional Terms of the Valuation Cap. For purposes of option (ii) above, the Company's capitalization calculated as of immediately prior to the Equity Financing and (without double-counting, in each case calculated on an as-converted to Common Stock basis):

- Includes all shares of Capital Stock issued and outstanding;
- Includes all Converting Securities;
- Includes all (i) issued and outstanding Options and (ii) Promised Options; and
- Includes the Unissued Option Pool, except that any increase to the Unissued Option Pool in connection with the Equity Financing shall only be included to the extent that the number of Promised Options exceeds the Unissued Option Pool prior to such increase.

Liquidity Events. If the Company has an initial public offering or is acquired by, merged with, or otherwise taken over by another company or new owners prior to Investors in the SAFEs receiving **Preferred Stock**, Investors will receive

- proceeds equal to the greater of (i) the Purchase Amount (the "Cash-Out Amount") or (ii) the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price (the "Conversion Amount")

Liquidity Priority. In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard nonparticipating Preferred Stock. The Investor's right to receive its Cash-Out Amount is:

i. Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);
ii. On par with payments for other Safes and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other Safes and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the Investor and such other Safes and/or Preferred Stock in proportion to the full payments that would otherwise be due; and
iii. Senior to payments for Common Stock.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to investors. The SPV is formed concurrently with the filing of the Form C. Given this, the SPV does not have any financials to report. The SPV is managed by Wefunder Admin, LLC and is a co-issuer with the Company of the securities being offered in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. While the Issuer may be required to pay an annual administrative fee for the maintenance of the SPV, investors should note the Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

If the securities offered by the Company and those offered by the SPV have voting rights, those voting rights may be exercised by the investor or his or her proxy. The applicable proxy is the Lead Investor, if the Proxy (described below) is in effect.

Proxy to the Lead Investor

The SPV securities have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed or will appoint the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote all securities related to the Company purchased in an offering hosted by Wefunder Portal, and (ii) execute, in connection with such voting power, any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor ("Replacement Lead Investor") takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy. If the Proxy is not revoked within the 5-day time period, it shall remain in effect.

Restriction on Transferability

The SPV securities are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV.

14. Do the securities offered have voting rights?

- ☐ Yes
- ☑ No

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

16. How may the terms of the securities being offered be modified?

Any provision of this Safe may be amended, waived or modified by written consent of the Company and either:

i. the Investor or

ii. the majority-in-interest of all then-outstanding Safes with the same "Post-Money Valuation Cap" and "Discount Rate" as this Safe (and Safes lacking one or both of such terms will be considered to be the same with respect to such term(s)), provided that with respect to clause (ii):

   A. the Purchase Amount may not be amended, waived or modified in this manner,

   B. the consent of the Investor and each holder of such Safes must be solicited (even if not obtained), and

   C. such amendment, waiver or modification treats all such holders in the same manner. "Majority-in-interest" refers to the holders of the applicable group of Safes whose Safes have a total Purchase Amount greater than 50% of the total Purchase Amount of all of such applicable group of Safes.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and

B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

Restrictions on Transfer of the Securities Being Offered:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Authorized	Outstanding	Voting rights
Common Stock	14000000	5091401	☑
Series Seed-1 Preferred (PS1) Stock	685535	464394	☑
Series Seed-2 Preferred (PS2) Stock	69108	69108	☑
Series Seed-3 Preferred (PS3) Stock	1623903	1623903	☑
Series Seed-4 Preferred (PS4) Stock	909386	909386	☑

Class of Security	Total Pool
Warrants	None
Options	1871834

Describe any other rights:

The Company has two classes of stock: Common Stock and Series Seed Preferred Stock (Series Seed-1 through Seed-4), and the rights of

the Common Stock are subject to the senior rights of the Preferred Stock. Common holders receive one vote per share, while Preferred holders vote on an as-converted basis, and both classes generally vote together as a single class, including in electing directors. However, a majority of the Preferred must separately approve certain major actions, including a sale, merger or liquidation of the Company, adverse charter amendments, the creation of senior or equal-ranking stock, and most dividends or redemptions. In a liquidation or sale of the Company, the Preferred is paid first, with each share receiving the greater of 1x its original issue price (between $0.3079 and $0.9044 per share, depending on the series) or its as-converted value, before any proceeds go to Common holders. The Preferred also has conversion rights, anti-dilution protection and dividend participation rights that the Common Stock does not have.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

---

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

---

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The shareholders have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

---

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The initial amount invested in a SAFE is determined by the investor, and we do not guarantee that the SAFE will be converted into any particular number of **shares of Preferred Stock**. As discussed in Question 13, when we engage in an offering of equity interests involving **Preferred Stock**, Investors may receive a number of shares of **Preferred Stock** calculated as either (i) the total value of the Investor's investment, divided by the price of the **Preferred Stock** being issued to new Investors, or (ii) if the valuation for the company is more than the Valuation Cap, the amount invested divided by the quotient of (a) the Valuation Cap divided by (b) the total amount of the Company's capitalization at that time.

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the **Preferred Stock** that Investors will receive, and/or the total value of the Company's capitalization, will be determined by our **board of directors**. Among the factors we may consider in determining the price of **Preferred Stock** are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates of our business potential, the present state of our development and other factors deemed relevant.

In the future, we will perform valuations of our **stock (including both common stock and Preferred Stock)** that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those securities;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;

- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

---

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

---

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

None.

INSTRUCTION TO QUESTION 24: name the creditor, amount owed, interest rate, maturity date, and any other material terms.

---

25. What other exempt offerings has the issuer conducted within the past three years?

Offering date	Exemption	Security type	Amount sold	Use of proceeds
2/2025	Regulation D	SAFE	$270,000	General operations
2/2025	Regulation D	SAFE	$50,000	General operations
3/2025	Regulation D	SAFE	$1,000,000	General operations
2/2026	Regulation D	Priced Round	$1,750,000	General operations

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12- month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

1. any director or officer of the issuer;
2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer;
4. or any immediate family member of any of the foregoing persons.

☐ Yes
☑ No

For each transaction specify the person, relationship to issuer, nature of interest in transaction, and amount of interest.

FINANCIAL CONDITION OF THE ISSUER

27. Does the issuer have an operating history?

Yes

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview of the Business and Financial Condition

Licensed To Glow is a beauty and wellness membership platform that helps users save money on beauty services. The platform appears to offer discounted access to beauty treatments like blowouts, nails, and other salon services through a membership model.

We are an early-stage company and have generated operating income and positive cash flows from operations in recent periods. There can be no assurance that we will continue to be profitable in future periods.

As of October 30, 2026, we had cash and cash equivalents of approximately $400,000.

Our ability to continue operations is dependent on managing our expenses and, if necessary, obtaining additional financing.

This discussion should be read in conjunction with the financial statements and related notes included in this offering statement.

Business and Operating Uncertainty

Our business operates in an environment subject to various risks, uncertainties, and changing conditions, which makes it difficult to evaluate our business, financial condition, and prospects and may limit the comparability of our results of operations from period to period.

Financial Condition

As of December 31, 2025, our total assets were $954,284.73 and our current and non-current liabilities, as reflected in available financial statement fields, were $955.06.

Our financial statements reflect an early-stage company with limited operating history. Investors should not place undue reliance on historical financial information given the company's limited operating history and the likelihood that future results will differ from historical results.

Liquidity and Capital Resources

As of December 31, 2025, we had cash and cash equivalents of approximately $835,888.51.

Based on our current operations, we have a monthly net profit of approximately $20,000.

Our monthly net cash burn or profit may vary significantly from month to month due to the timing of receipts and expenditures and other short-term factors. As a result, period-to-period comparisons may not be meaningful.

Based on our current plan, we expect to have sufficient cash to fund operations for at least the next 12 months.

Our historical operations have been funded primarily through external financing.

Liquidity Assumptions

Our assessment of our liquidity and ability to fund operations is not a projection and is based on current assumptions regarding operating expenses, cash requirements, and capital needs. These assumptions may change, and actual results may differ materially due to changes in operating conditions, timing of receipts and payments, and other factors.

Dependence on Additional Financing

There can be no assurance that additional financing will be available on acceptable terms, or at all. If we are unable to raise additional capital when needed, we may be required to materially reduce or suspend operations.

Indebtedness and Capital Structure

As of the date of this offering statement, we did not have any outstanding indebtedness.

(For the avoidance of doubt, SAFEs are not treated as indebtedness.)

During the past three years, we have conducted exempt offerings, resulting in the issuance of securities in aggregate amounts of approximately $3,070,000.

Known Trends, Events, and Uncertainties

Management is not currently aware of any known trends, events, or uncertainties that are reasonably likely to have a material adverse effect on our financial condition or results of operations over the next 12 months.

The absence of a discussion of any particular trend, event, or uncertainty should not be interpreted to mean that such matters do not exist; rather, it reflects management's judgment based on information currently available.

Changes Since the Date of the Financial Statements

There have been no material changes in our operations or financial condition since the date of the financial statements included in this offering.

Impact of This Offering

The proceeds from this offering are expected to be used to Paid social (TikTok/Meta), content production, and influencer partnerships to drive membership sign-ups at scale. Hiring for sales and operations. The timing and extent of our use of proceeds will depend on the amount of proceeds raised and future operating conditions. Additional detail regarding our planned use of proceeds is provided in Item 10 of this Form C.

There can be no assurance that the proceeds of this offering will be sufficient to fund our operations or achieve our business objectives.

Certain information relevant to understanding our financial condition and liquidity is presented elsewhere in this offering statement, including in the financial statements, related notes, and the sections describing indebtedness and prior financings.

Forward-Looking Statements

This discussion contains forward-looking statements that are based on management's current expectations and assumptions. Actual results may differ materially from those expressed or implied by these statements.

If you would have answered "Yes" to any of these questions had the conviction, order, judgment, decree, suspension, expulsion or bar occurred or been issued after May 16, 2016, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and

- (2) such further material information, if any, as may be necessary to make the required statements, in light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on

Investors' behalf.

The Lead Investor is an individual that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such circumstances, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. If applicable, the Company may also be required to pay Wefunder certain fees for the preparation of tax filings. Such fees and the Company's obligation to deliver required tax documents are further specified in the related Tax Services Agreement ("TSA").

Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

Potential Dissolution of the SPV. The Company has agreed that it will pay an administrative fee and / or certain tax fees to Wefunder, in addition to delivering required tax information in the manner prescribed by the TSA, where applicable. Failure to pay such fees or provide Wefunder with required tax information could result in the dissolution of the SPV (an "SPV Dissolution Event"). Subsequent to an SPV Dissolution Event, the securities held by the SPV would be distributed directly and proportionally to the individual investors. This could create administrative complexities, as investors would need to manage the securities themselves rather than having them held and administered by the SPV. Additionally, the unplanned distribution of securities may not align with investors' intended investment strategy or asset allocation.

Upon an SPV Dissolution Event, the Investor hereby consents to and agrees to accept direct assignment of the SPV's rights and obligations under any investment agreements between the SPV and the Company that is located in the Form C or C/A offering materials. The Investor acknowledges they will be bound by all terms and conditions of such agreements as if they were an original party thereto.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

https://licensedtoglow.com/invest

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed $10 million; or
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.

Our review is designed to assess whether the information you have provided is complete and not inaccurate, misleading or otherwise fraudulent. Despite our review, the company submitting this Form C may be held responsible for all information provided through it, and for ensuring that the information it submits is not false or misleading in any material way and does not omit any information that would cause the information included to be false or misleading. By submitting your Form C to us, you acknowledge this. You also agree to provide any additional information or clarification we may request from you so that the Form C we submit on your behalf, in our reasonable, good faith review, does not contain incorrect information. Wefunder Portal will not submit a Form C that we believe, in our sole discretion, omits material information or contains false or misleading information. As a result, there is no guarantee that we will submit a Form C on your behalf.

Intentional misstatements or omissions of facts constitute federal criminal violations. See 18 U.S.C. 1001.

The issuer certifies that it has established means to keep accurate records of the holders of the securities it would offer and sell through the Form C.

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100 et seq.), the issuer certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form C and has duly caused this Form to be signed on its behalf by the duly authorized undersigned.

I authorize Wefunder Portal to submit a Form C to the SEC based on the information I provided through this online form and my company's Wefunder profile.

As an authorized representative of the company, I appoint Wefunder Portal as the company's true and lawful representative and attorney-in-fact, in the company's name, place and stead to make, execute, sign, acknowledge, swear to and file a Form C, any future non-material Form C-A, any future Form C-U, and any future Form C-W on the company's behalf. This power of attorney is coupled with an interest and is irrevocable. The company hereby waives any and all defenses that may be available to contest, negate or disaffirm the actions of Wefunder Portal taken in good faith under or in reliance upon this power of attorney.

Before you click on the button below, please review the information you have provided carefully.

We strongly recommend you have your company's lawyer review the information as well. The company submitting this Form C is responsible for all information provided through it, and for ensuring that the information it submits is not false or misleading in any material way and does not omit any information that would cause the information included to be false or misleading.

☑ I verify the Form C is 100% accurate
