INDEPENDENT ACCOUNTANT'S REVIEW REPORT

To: TMA, Inc. ,Management

We have reviewed the accompanying financial statements of TMA, Inc. (the Company) which comprise the statement of financial position as of December 31, 2024 and the related statement of operations, statement of changes in shareholders' equity, and statement of cash flows for the period then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements:

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility:

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion:

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter on Going Concern:

As discussed in Note 1, certain conditions and events raise concerns regarding the Company's ability to continue as a going concern in the near term. Management has addressed these matters in Note 1, along with its plans to mitigate the uncertainty. The accompanying financial statements have been prepared on a going concern basis and do not include any adjustments that might result if the Company were unable to continue its operations. Our conclusion is not modified with respect to this matter.

Emphasis of Matter on a Predecessor Entity:

TMAccelerator Company LLC, formed in Delaware on August 23, 2019, is the predecessor to TMA Inc., a Delaware corporation incorporated on October 25, 2024. The company's upcoming crowdfunding campaign, planned for 2025 in conjunction with a Series A Round fundraising ,are being conducted by TMA Inc., that is assuming all of the assets and intellectual property created by the aforementioned TMAccelerator Company LLC in exchange for preferred shares having the same terms for the investors in the crowdfunding campaign as well as the Series A Round.. TMA, Inc. will become the principal operating entity of all of the assets and client relationships/pipeline contributed to it when the total invested capital raised by a combination of the crowdfunding and Series A Rounds reaches or exceeds a threshold total of \$3,000,000.

NOTE 1 – DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

TMA Inc. (the “Company”) is a Delaware C Corporation formed in October 2024 as a successor operating entity and fundraising vehicle, in preparation for a planned crowdfunding campaign under Regulation CF and ongoing Regulation D Series A fundraising campaign. The Company was established by TMAccelerator Company LLC (the “Predecessor Company”), which will continue to operate solely as a holding company for the shares of its founders. All operating personnel of Predecessor Company will become employees TMA Inc., maintaining continuity in operations and advancing the Company’s strategic and commercial objectives

The Predecessor Company, doing business as TMA Precision Health was formed in Delaware in August 2018 and is headquartered in Boston, Massachusetts. It was initially established as an advisory business serving Translational Medicine Departments within large academic medical centers. In response to shifts in the healthcare landscape following the COVID-19 pandemic, the Predecessor Company pivoted its business model to focus on a technology-driven platform designed to engage with health insurance companies and similar entities that assume the fiduciary risk of a patient’s healthcare.

This platform integrates whole genome sequencing, proprietary software, and AI technologies to help care teams achieve faster diagnoses and develop more effective care plans while also enabling health insurance providers to reduce costs. Revenue is generated by delivering treatment insights to care teams treating rare disease patients covered by health plans. Its primary customer base is located in the United States, consisting of health insurance plans of varying sizes, both privately managed and administered by large organizations.

Concentrations of Credit Risks

The Company’s financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. The Company’s management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

Going Concern:

The accompanying balance sheet has been prepared on a going concern basis, which means that the entity expects to continue its operations and meet its obligations in the normal course of business during the next twelve months. However, substantial doubt exists due to the fact that the Company has not yet commenced principal operations and has had no economic activity since its formation. The Company is currently a clean shell and will remain inactive until the successful completion of an initial fundraising milestone, which is intended to trigger the transfer of assets and business operations from the predecessor LLC. Until that threshold is met, the Company is expected to incur organizational and fundraising-related costs that will be covered by its newly raised capital and the revenue generated by activating existing contractual relationships. Management plans to address any uncertainties in its ability to sustain its business by raising additional capital and scaling operations, but there is no guarantee these efforts will succeed. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company's financial statements are prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). The Company's fiscal year ends on December 31. The Company has no interest in variable interest entities and no predecessor entities.

Use of Estimates and Assumptions

In preparing these unaudited financial statements in conformity with U.S. GAAP, the Company's management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Fair Value of Financial Instruments

FASB Accounting Standards Codification (ASC) 820 "*Fair Value Measurements and Disclosures*" establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs in which little or no market data exists, therefore developed using estimates and assumptions developed by us, which reflect those that a market participant would use.

There were no material items that were measured at fair value as of December 31, 2024.

Cash and Cash Equivalents

The Company considers all short-term investments with an original maturity of three months or less when purchased to be cash equivalents. The Company had no cash or cash equivalents as of December 31, 2024.

Revenue Recognition

The Company recognizes revenue from the sale of products and services in accordance with ASC 606, "Revenue Recognition" following the five steps procedure:

Step 1: Identify the contract(s) with customers

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to performance obligations

Step 5: Recognize revenue when or as performance obligations are satisfied

While the Company has not yet commenced economic activity including the generation of revenue, it is expected to operate in the same line of business and follow the same revenue model as its predecessor entity, delivering diagnostic and care path recommendations to rare disease patient care teams whose patients are insured under health plans.

Recent Accounting Pronouncements

The FASB issues Accounting Standards Updates (ASUs) to amend the authoritative literature in ASC. There have been a number of ASUs to date that amend the original text of ASC. Management believes that those issued to date either (i) provide supplemental guidance, (ii) are technical corrections, (iii) are not applicable to us or (iv) are not expected to have a significant impact on our financial statements.

NOTE 3 – RELATED PARTY TRANSACTIONS

The Company follows ASC 850, "Related Party Disclosures," for the identification of related parties and disclosure of related party transactions. No transactions require disclosure.

NOTE 4 – COMMITMENTS, CONTINGENCIES, COMPLIANCE WITH LAWS AND REGULATIONS

The Company is not currently involved with or knows of any pending or threatening litigation against it or any of its officers. Further, the Company is currently complying with all relevant laws and regulations. The Company does not have any long-term commitments or guarantees.

NOTE 5 – LIABILITIES AND DEBT

The Company had no outstanding trade or financing-related debts as of December 31, 2024.

NOTE 6 – EQUITY

The Company is authorized to issue a total of 40,300,000 shares, consisting of 30,000,000 shares of Common Stock, \$0.0001 par value per share, and 10,300,000 shares of Preferred Stock, \$0.0001 par value per share. No shares were issued or outstanding as of December 31, 2024.

NOTE 7 – SUBSEQUENT EVENTS

The Company has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in this report. Such events were evaluated through June 30, 2025, the date these financial statements were available to be issued. No events require recognition or disclosure.
