

## **Martin J Grasso Jr Work History**

### **Summary**

Venture investor/asset manager for 35 years. Numerous board positions held over many years in developing/growing companies across a wide range of industries. Presently focused on investments in rapidly growing technology companies in the Personalized Medicine and Health Care industries, assisting entrepreneurs and physicians/scientists in advancing the development of therapeutics and diagnostic tools.

Working on an urgent and important mission to get improved care to patients suffering from rare diseases (especially in the neurodegenerative cohorts) as the Chief Commercial Officer of TMA Precision Health (TMA), a Boston based business, a company that is a spinout of the Brigham and Women's Hospital Translational Medicine Accelerator on whose Board I had the privilege of serving. We are building clinical/genomic patient data sets that inform proprietary Artificial Intelligence models and software that facilitates more precise care paths for patients, better diagnostic tools for physicians, lower costs of care for payers/insurers and more precise and focused data sets for the pharmaceutical industry that yield targeted therapies for patients suffering from the most pernicious neurodegenerative diseases such as pediatric uncontrolled seizure syndrome. We have run a successful pilot program in under resourced patient populations in Latin America, and are bringing our success to the United States to partner with all of the key stakeholders (e.g. patients, providers, payers and pharma) in our urgent mission to help the most underserved cohorts suffering from rare diseases.

I am blessed to be sharing this important mission with a team of brilliant scientists, physicians and software engineers, including the Chief Innovation Officer and the Head of Neuroradiology at MGB (Mass General Brigham), along with the world's most distinguished researchers and patient advocates in the rare disease space.

### **Experience**

#### **TMA Precision Health**

Co-Founder and Chief Commercial Officer  
August 2018 - Present (6 years 11 months)  
Boston, Massachusetts
