Hey Danny,

Just sent you a docusign with the SAFE for \$5k to become our lead investor on the Wefunder round. This basically dictates that you have all the voting rights of everyone who invests via Wefunder. The docusign matches the terms of the deal for the early birds, as soon as you can sign, I'll upload it and we'll have that step complete! Here's the info:

#### Who is your Lead Investor?

To raise on Wefunder, you must choose an investor to be your Syndicate Lead. The Lead will represent your Wefunder investors going forward. For example, if you need to authorize a corporation action like converting a SAFE, you would only need your Lead's signature, not every Wefunder investor.

Requirements:

- The Lead **must** invest at least **\$5,000** through Wefunder, or off-Wefunder on the same terms.
- The Lead **cannot** be a **related party** (employee or a family member of employee)
