RISK FACTORS

Risks Related to the Company's Business and Industry

To date, we have not generated revenue, do not foresee generating any revenue in the near future and therefore rely on external financing.

We are a startup Company, and our business model currently focuses on product development, market entry, and establishing the necessary infrastructure for sustainable growth rather than generating revenue. While we intend to generate revenue in the future, we cannot assure you when or if we will be able to do so.

We rely on external financing to fund our operations. We anticipate, based on our current proposed plans and assumptions relating to our operations (including the timetable of, and costs associated with, new product development) that, if the minimum amount of \$15,000.00 (the “Minimum Amount”) is raised in this Offering, it will be sufficient to satisfy our contemplated cash requirements through approximately January 2026, assuming that we do not accelerate the development of other opportunities available to us, engage in an extraordinary transaction or otherwise face unexpected events, costs or contingencies, any of which could affect our cash requirements. One of our founders may contribute personal funds to support operations if necessary; however, there is no formal commitment to do so, and any such funding may not be available when needed or in the amounts required.

We expect capital outlays and operating expenditures to increase over the next several years as we expand our infrastructure, commercial operations, development activities and establish offices.

Our future funding requirements will depend on many factors, including but not limited to the following:

- * The cost of expanding our operations;
- * The financial terms and timing of any collaborations, licensing or other arrangements into which we may enter;
- * The rate of progress and cost of development activities;
- * The need to respond to technological changes and increased competition;
- * The costs of filing, prosecuting, defending and enforcing any patent claims and other intellectual property rights;
- * The cost and delays in product development that may result from changes in regulatory requirements applicable to our products;
- * Sales and marketing efforts to bring these new product candidates to market;
- * Unforeseen difficulties in establishing and maintaining an effective sales and distribution network; and
- * Lack of demand for and market acceptance of our products and technologies.

We may have difficulty obtaining additional funding, and we cannot assure you that additional capital will be available to us when needed, if at all, or if available, will be obtained on terms acceptable to us. If we raise additional funds by issuing additional debt securities, such debt instruments may provide for rights, preferences or privileges senior to the Securities. In addition, the terms of the debt securities issued could impose significant restrictions on our operations. If we raise additional funds through collaborations and licensing arrangements, we might be required to relinquish significant rights to our technologies or product candidates, or grant licenses on terms that are not favorable to us. If adequate funds are not available, we may have to delay, scale back, or eliminate some of our operations or our research development and commercialization activities. Under these circumstances, if the Company is unable to acquire additional capital or is required to raise it on terms that are less satisfactory than desired, it may have a material adverse effect on its financial condition.

We have no operating history upon which you can evaluate our performance, and, accordingly, our prospects must be considered in light of the risks that any new company encounters.

We were incorporated under the laws of Nevada on October 14, 2024. Accordingly, we have no history upon which an evaluation of our prospects and future performance can be made. Our proposed operations are subject to all business risks associated with a new enterprise. The likelihood of our creation of a viable business must be considered in light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the inception of a business, operation in a competitive industry, and the continued development of advertising, promotions, and a corresponding client base. We anticipate that our operating expenses will increase for the near future. There can be no assurances that we will ever operate profitably. You should consider the Company's business, operations and prospects in light of the risks, expenses and challenges faced as an early-stage company.

We may face potential difficulties in obtaining capital.

We may have difficulty raising needed capital in the future as a result of, among other factors, our lack of an approved product and revenues from sales, as well as the inherent business risks associated with our company and present and future market conditions. Our business currently does not generate any sales, and future sources of revenue may not be sufficient to meet our future capital requirements. We may require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

Our management team has limited experience in the beverage industry and has not managed a business with similar risks and challenges specific to our business.

Members of our management team may make decisions detrimental to our business and/or be unable to successfully manage our operations. Ineffective management of our business may have a negative effect on our results of operations.

The development and commercialization of our products is highly competitive.

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved products and thus may be better equipped than us to develop and commercialize products. These competitors also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early-stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which may adversely affect our competitive position, the likelihood that our products will achieve initial market acceptance and our ability to generate meaningful additional revenues from our products.

In general, demand for our products and services is highly correlated with general economic conditions.

A substantial portion of our revenue is derived from discretionary spending by individuals, which typically falls during times of economic instability. Declines in economic conditions in the U.S. or in other countries in which we operate may adversely impact our consolidated financial results. Because such declines in demand are difficult to predict, we or the industry may have increased excess capacity as a result. An increase in excess capacity may result in declines in prices for our products and services.

The Company's success depends on the experience and skill of the board of directors, its executive officers and key employees.

In particular, the Company is dependent on Mark Penway, Larry G. Swets, Jr. and Tao Zrafi who are Director, Secretary, and Treasurer; Director; and Director and President of the Company, respectively. The loss of Mark Penway, Larry G. Swets, Jr., and Tao Zrafi or any member of the board of directors or executive officer may harm the Company's business, financial condition, cash flow and results of operations.

We rely on various intellectual property rights, including licenses, in order to operate our business.

Such intellectual property rights, however, may not be sufficiently broad or otherwise may not provide us a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, may adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights.

As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our patent rights, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. The law relating to the scope and validity of claims in the technology field in which we operate is still evolving and, consequently, intellectual property positions in our industry are generally uncertain. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

From time to time, third parties may claim that one or more of our products or services infringe their intellectual property rights.

Any dispute or litigation regarding patents or other intellectual property could be costly and time-consuming due to the uncertainty of intellectual property litigation and could divert our management and key personnel from our business operations. A claim of intellectual property infringement could force us to enter into a costly or restrictive license agreement, which might not be available under acceptable terms or at all, could require us to redesign our products, which would be costly and time-consuming, and/or could subject us to an injunction against development and sale of certain of our products or services. We may have to pay substantial damages, including damages for past infringement if it is ultimately determined that our products infringe on a third party's proprietary right. Even if these claims are without merit, defending a lawsuit takes significant time, may be expensive and may divert management's attention from other business concerns. Any public announcements related to litigation or interference proceedings initiated or threatened against us could cause our business to be harmed. Our intellectual property portfolio may not be useful in asserting a counterclaim, or negotiating a license, in response to a claim of intellectual property infringement. In certain of our businesses, we rely on third party intellectual property licenses, and we cannot ensure that these licenses will be available to us in the future on favorable terms or at all.

Although dependent on certain key personnel, the Company does not have any key man life insurance policies on any such people.

The Company is dependent on Mark Penway, Larry G. Swets, Jr., and Tao Zrafi in order to conduct its operations and execute its business plan; however, the Company has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of Mark Penway, Larry G. Swets, Jr., and Tao Zrafi die or become disabled, the Company will not receive any compensation to assist with such person's absence. The loss of such person may negatively affect the Company and its operations.

We have not prepared any audited financial statements.

Therefore, you have no audited financial information regarding the Company's capitalization or assets or liabilities on which to make your investment decision. If you feel the information provided is insufficient, you should not invest in the Company.

We are not subject to Sarbanes-Oxley regulations and lack the financial controls and safeguards required of public companies.

We do not have the internal infrastructure necessary, and are not required, to complete an attestation about our financial controls that would be required under Section 404 of the Sarbanes-Oxley Act of 2002. There can be no assurance that there are no significant deficiencies or material weaknesses in the quality of our financial controls. We expect to incur additional expenses and diversion of management's time if and when it becomes necessary to perform the system and process evaluation, testing and remediation required in order to comply with the management certification and auditor attestation requirements.

The Company has indicated that it has engaged in certain transactions with related persons.

Please see the section of this Memorandum entitled "Transactions with Related Persons and Conflicts of Interest" for further details.

The Company's business operations may be materially adversely affected by a pandemic such as the Coronavirus (COVID-19) outbreak.

The Company's business, financial condition, and results of operations could be materially adversely affected by pandemics, epidemics, or other public health crises, such as the Coronavirus (COVID-19) pandemic. Health emergencies of this nature can result in a wide range of disruptions, including but not limited to: workforce availability issues due to illness, quarantine, or caregiving responsibilities; limitations on employee and consultant travel; reduced productivity associated with remote work; decreased customer engagement; and supply chain disruptions such as delays in receiving raw materials, manufacturing slowdowns, and increased shipping costs. In particular, COVID-19 triggered a global health crisis that led to economic instability, business closures, and restrictions on commerce.

The extent to which a pandemic or other health crisis may affect the Company in the future is inherently unpredictable and will depend on numerous uncertain factors, including the severity of the outbreak, the duration of associated restrictions, the effectiveness of containment or treatment efforts, and the impact on consumer demand and global financial markets. Any significant recurrence or emergence of a similar global health emergency could materially impact the Company's supply chain, workforce, customer demand, and overall business performance, including its ability to raise capital or meet operational goals.

Risks Related to the Securities

The Common Stock will not be freely tradable until one year from the initial purchase date. Although the Common Stock may be tradable under federal securities law, state securities regulations may apply, and each Purchaser should consult with his or her attorney.

You should be aware of the long-term nature of this investment. There is not now and likely will not be a public market for the Common Stock. Because the Common Stock have not been registered under the Securities Act or under the securities laws of any state or non-United States jurisdiction, the Common Stock have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effectuated. Limitations on the transfer of the Common Stock may also adversely affect the price that you might be able to obtain for the Common Stock in a private sale. Purchasers should be aware of the long-term nature of their investment in the Company. Each Purchaser in this Offering will be required to represent that it is purchasing the Securities for its own account, for investment purposes and not with a view to resale or distribution thereof.

Neither the Offering nor the Securities have been registered under federal or state securities laws, leading to an absence of certain regulation applicable to the Company.

No governmental agency has reviewed or passed upon this Offering, the Company or any Securities of the Company. The Company also has relied on exemptions from securities registration requirements under applicable state securities laws. Investors in the Company, therefore, will not receive any of the benefits that such registration would otherwise provide. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering on their own or in conjunction with their personal advisors.

No Guarantee of Return on Investment

There is no assurance that a Purchaser will realize a return on its investment or that it will not lose its entire investment. For this reason, each Purchaser should read the Form C and all Exhibits carefully and should consult with its own attorney and business advisor prior to making any investment decision.

A portion of the proceeds from the Offering will be used to pay the accrued and unpaid expenses of Taology Group Inc.

These proceeds will not be available for the ongoing operations of the Company but will instead be paid to these insiders as repayment for expenses incurred prior to the Offering and owed to them by the Company.

A majority of the Company is owned by a small number of owners.

Prior to the Offering the Company's current owners of 20% or more beneficially own 65.0% of the Company. Subject to any fiduciary duties owed to our other owners or Investors under Nevada law, these owners may be able to exercise significant influence over matters requiring owner approval, including the election of directors or managers and approval of significant Company transactions, and will have significant control over the Company's management and policies. Some of these persons may have interests that are different from yours. For example, these owners may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Company or otherwise discourage a potential acquirer from attempting to obtain control of the Company, which in turn could reduce the price potential investors are willing to pay for the Company. In addition, these owners could use their voting influence to maintain the Company's existing management, delay or prevent changes in control of the Company, or support or reject other management and board proposals that are subject to owner approval.

The Company has the right to extend the Offering deadline.

The Company may extend the Offering deadline beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Company attempts to raise the Minimum Amount even after the Offering deadline stated herein is reached. Your investment will not be accruing interest during this time and will simply be held until such time as the new Offering deadline is reached without the Company receiving the Minimum Amount, at which time it will be returned to you without interest or deduction, or the Company receives the Minimum Amount, at which time it will be released to the Company to be used as set forth herein. Upon or shortly after release of such funds to the Company, the Securities will be issued and distributed to you.

The Company has the right to end the Offering early.

The Company may also end the Offering early. If the Offering reaches the Minimum Amount after 30 calendar days but before the Offering deadline, the Company can end the Offering with five business days' notice. This means your failure to participate in the Offering in a timely manner may prevent you from being able to participate – it also means the Company may limit the amount of capital it can raise during the Offering by ending it early.

There is no present market for the Securities, and we have arbitrarily set the price.

We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The Offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our net worth or prior earnings. We cannot assure you that the Securities could be resold by you at the Offering price or at any other price.

Your ownership of the Common Stock will be subject to dilution.

Owners of the Common Stock do not have preemptive rights. If the Company conducts subsequent Offerings of shares of its common stock or securities convertible into its common stock, issues shares of its common stock pursuant to a compensation or distribution reinvestment plan or otherwise issues additional shares of its common stock, Investors who do not participate in those other issuances of shares of common stock will experience dilution in their percentage ownership of the Common Stock. Furthermore, Investors may experience a dilution in the value of their Common Stock depending on the terms and pricing of any future share issuances and the value of the Company's assets at the time of future share issuances.

The Securities will be equity interests in the Company and will not constitute indebtedness.

The Securities will rank junior to all existing and future indebtedness and other non-equity claims on the Company with respect to assets available to satisfy claims on the Company, including in a liquidation of the Company. Additionally, unlike indebtedness, for which principal and interest would customarily be payable on specified due dates, there will be no specified payments of dividends with respect to the Securities and dividends will be payable only if, when and as authorized and declared by the Company and depend on, among other matters, the Company's historical and projected results of operations, liquidity, cash flows, capital levels, financial condition, debt service requirements and other cash needs, financing covenants, applicable state law, federal and state regulatory prohibitions and other restrictions and any other factors the Company's board of directors deems relevant at the time. In addition, the terms of the Securities will not limit the amount of debt or other obligations the Company may incur in the future. Accordingly, the Company may incur substantial amounts of additional debt and other obligations that will rank senior to the Securities.

There can be no assurance that we will ever provide liquidity to Purchasers through either a sale of the Company or a registration of the Securities.

There can be no assurance that any form of merger, combination, or sale of the Company will take place, or that any merger, combination, or sale would provide liquidity for Purchasers. Furthermore, we may be unable to register the Securities for resale by Purchasers for legal, commercial, regulatory, market-related or other reasons. In the event that we are unable to effectuate a registration, Purchasers may be unable to sell their Securities unless an exemption from registration is available.

The Company does not anticipate paying any cash dividends for the foreseeable future.

The Company currently intends to retain future earnings, if any, for the foreseeable future, to repay indebtedness and to support its business. The Company does not intend in the foreseeable future to pay any dividends to holders of the Common Stock.

The Company has the right to conduct multiple "rolling" closings during The Offering.

If the Company meets certain terms and conditions, an Intermediate Close of the Offering can occur, which will allow the Company to draw down on the proceeds of the Offering committed and captured during the relevant period. The Company intends to engage in rolling closings after the Minimum Offering Amount and other conditions are met. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an Intermediate Closes occurs and later a material change occurs as the Offering continues, Investors previously closed upon will not have the right to re-confirm or withdraw their investment as it will be deemed completed. In addition, our initial closings will cover the tranches of shares with lower purchase prices, so as we conduct rolling closings, your ability to purchase shares at purchase price will be reduced and you may be required to pay a higher price for the Securities you elect to purchase.

In addition to the risks listed above, businesses are often subject to risks not foreseen or fully appreciated by the management. It is not possible to foresee all risks that may affect us. Moreover, the Company cannot predict whether the Company will successfully effectuate the Company's current business plan. Each Purchaser is encouraged to carefully analyze the risks and merits of an investment in the Securities and should take into consideration when making such analysis, among other factors, the Risk Factors discussed above.

THE SECURITIES OFFERED INVOLVE A HIGH DEGREE OF RISK AND MAY RESULT IN THE LOSS OF YOUR ENTIRE INVESTMENT. ANY PERSON CONSIDERING THE PURCHASE OF THESE SECURITIES SHOULD BE AWARE OF THESE AND OTHER FACTORS SET FORTH IN THIS FORM C AND SHOULD CONSULT WITH HIS OR HER LEGAL, TAX AND FINANCIAL ADVISORS PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES. THE SECURITIES SHOULD ONLY BE PURCHASED BY PERSONS WHO CAN AFFORD TO LOSE ALL OF THEIR INVESTMENT.

BUSINESS

Description of the Business

The Company plans to create and distribute ready-to-drink cocktails.

Business Plan

The Company is aiming to redefine the ready-to-drink cocktail industry by delivering a premium, mixologist-crafted experience led by internationally acclaimed mixologist Tao Zrafi. Unlike the majority of ready-to-drink cocktails that are mass-produced and often lack depth or balance, our products are designed to offer the quality and sophistication typically found at a top-tier cocktail bar.

Tao Zrafi has created signature drinks for some of the world's most exclusive hospitality venues. We are now bringing that same elevated level of craftsmanship to the bottled cocktail market, responding to increasing consumer demand for high-quality, portable beverage options.

The Company's Products and/or Services

Product / Service	Description	Current Market
World's Best House Margarita	Bottled Cocktail that has been created but not yet distributed	N/A
World's Best Opera Cake	Bottled Cocktail that has been created but not yet distributed	N/A
World's Best Brown Banana	Bottled Cocktail that has been created but not yet distributed	N/A

The Company has secured key components necessary for its initial supply chain operations, including agreements for bottle sourcing, engagement with a flavor development partner, a co-packing facility, and a third-party fulfillment center. The Company intends to generate revenue through two principal channels: (i) wholesale distribution to retail partners and (ii) direct-to-consumer e-commerce sales. Upon commencement of operations, the Company's fulfillment partner is expected to enable shipment of its products to customers in 46 U.S. states, allowing for broad geographic reach and direct delivery to end consumers.

The Company intends to use proceeds from this Offering to fund the initial up-front costs associated with scaling production and bottling operations in preparation for market distribution. Production is currently expected to begin in October 2025.

Competition

The Company's primary competitor is "On the Rocks." More broadly, any company that manufactures ready-to-drink cocktails may be considered a competitor.

The markets in which our products will be sold are highly competitive. Our products will compete against similar products of many large and small companies, including well-known global competitors. In many of the markets and industry segments in which we will sell our products, we will compete against other branded products as well as retailers' private-label brands. We believe our competitive edge lies in our product innovation and flavor profile, driven by the creative mind of Tao Zrafi. His expertise brings a unique level of creativity and taste differentiation that sets our brand apart in a crowded marketplace.

Supply Chain and Customer Base

Raw materials essential to our businesses are purchased worldwide in the ordinary course of business from numerous suppliers. In general, these materials are available from multiple sources.

The Company has not yet commenced distribution and therefore does not currently have customers. Upon launch, the Company aims to secure placement in liquor stores and grocery retailers nationwide, while also establishing an online store to reach customers directly.

Intellectual Property

The Company entered into an Intellectual Property Assignment Agreement, under which the Company acquired all rights, title, and interest in Tao Zrafi's recipes.

The Company does have discretion to alter the use of proceeds as set forth above. The Company may alter the use of proceeds under the following circumstances: The Company may change the

Management does not anticipate the Company will achieve profitability within the 12 months following receipt of the Offering proceeds. Instead, the primary business objectives during this

period will focus on product development, market entry, and establishing the necessary infrastructure for sustainable growth.

Liquidity and Capital Resources

The proceeds from the Offering will significantly enhance our operational capacity and liquidity. These funds will enable us to cover key startup and distribution costs, accelerate product development, and support the initial stages of market entry. With improved liquidity, we will be better positioned to execute our go-to-market strategy, scale operations, and lay the foundation for sustainable revenue generation.

After reviewing the above discussion of the steps the Company intends to take, Purchasers should consider whether achievement of each step within the estimated time frame is realistic in their judgment. THE OFFERING AND THE SECURITIES

The Offering

The Company is offering up to 350,000 shares of Common Stock for up to \$350,000.00. The Company is attempting to raise a minimum amount of \$15,000.00 in this Offering (the "Minimum Amount"). The Company must receive commitments from Investors in an amount totaling the Minimum Amount by October 31, 2025 (the "Offering Deadline") in order to receive any funds. If the sum of the investment commitments does not equal or exceed the Minimum Amount by the Offering Deadline, no Securities will be sold in the Offering, investment commitments will be cancelled and committed funds will be returned to Investors without interest or deductions. The Company has the right to extend the Offering Deadline at its discretion. The Company will accept investments in excess of the Minimum Amount up to \$350,000.00 (the "Maximum Amount"), and the additional Securities will be allocated on a first-come, first-served basis.

The price of the Securities does not necessarily bear any relationship to the asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities, you must make a commitment to purchase by completing the Subscription Agreement. Purchaser funds will be held in escrow with North Capital Private

Securities Corporation until the Minimum Amount of investments is reached. Purchasers may cancel an investment commitment until 48 hours prior to the Offering Deadline or a closing, whichever comes first using the cancellation mechanism provided by the Intermediary. The Company will notify Purchasers when the Minimum Amount has been reached. If the Company reaches the Minimum Amount prior to the Offering Deadline, it may close the Offering at least five (5) days after reaching the Minimum Amount and providing notice to the Purchasers.

If any material change (other than reaching the Minimum Amount) occurs related to the Offering prior to the Offering Deadline, the Company will provide notice to Purchasers and receive reconfirmations from Purchasers who have already made commitments. If a Purchaser does not reconfirm his or her investment commitment after a material change is made to the terms of the Offering, the Purchaser's investment commitment will be cancelled, and the committed funds will be returned without interest or deductions. If a Purchaser does not cancel an investment commitment before the Minimum Amount is reached, the funds will be released to the Company upon closing of the Offering and the Purchaser will receive the Securities in exchange for his or her investment. Any Purchaser funds received after the initial closing will be released to the Company upon a subsequent closing and the Purchaser will receive Securities via Electronic Certificate/PDF in exchange for his or her investment as soon as practicable thereafter.

In the event that \$15,000.00 in investments is committed and received by the Escrow Facilitator and more than thirty (30) days remain before the Offering Deadline, the Company may conduct the first of multiple closings of the Offering (an "Intermediate Close"), provided that it is conducted at least 21-days after the time the Offering was opened, and all Investors receive notice, at least five (5) business days prior to the Intermediate Close (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment), that an Intermediate Close will occur and funds will be released to the Company. Investors who committed on or before such notice will have until 48 hours before the Intermediate Close to cancel their investment commitment.

Subscription Agreements are not binding on the Company until accepted by the Company, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any subscription. If the Company rejects all or a portion of any subscription, the applicable prospective Purchaser's funds will be returned without interest or deduction.

The price of the Securities was determined arbitrarily. The minimum amount that a Purchaser may invest in the Offering is \$250.00.

The Offering is being made through Jumpstart Micro, Inc. d/b/a Issuance Express, the Intermediary. The following two fields below set forth the compensation being paid in connection with the Offering.

The Securities

We request that you please review our organizational documents in conjunction with the following summary information.

Authorized Capitalization

At the initial closing of this Offering (if the Minimum Amount is sold), our authorized capital stock will consist of (i) 5,000,000 shares of common stock, par value \$0.01 per share, of which 2,065,000 common shares will be issued and outstanding.

Voting and Other Rights

Holders of Common Stock have one vote per share and may vote to elect the board of directors and on matters of corporate policy. Although shareholders have a vote, given the concentration of ownership by the founders and management, your vote will not in all likelihood have a meaningful impact on corporate matters. Holders of Common Stock are entitled to receive dividends at the election of the board and are subordinated to creditors with respect to rights to distributions in a liquidation scenario. In the event of liquidation, holders of Common Stock have rights to the Company's assets only after creditors (including noteholders, if any) and preferred shareholders have been paid in full in accordance with the terms of their instruments.

Dividend Rights

Holders of Common Stock will share equally in any dividend declared by our board of directors, if any, subject to the rights of the holders of any outstanding preferred stock.

The Company does not currently anticipate declaring or paying dividends in the foreseeable future.

Liquidation Rights

In the event of any voluntary or involuntary liquidation, dissolution or winding up of our affairs, holders of Common Stock would be entitled to share ratably in the Company's assets that are legally available for distribution to shareholders after payment of liabilities. If the Company has any preferred stock outstanding at such time, holders of the preferred stock may be entitled to distribution and/or liquidation preferences. In such case, we must pay the applicable distribution to the holders of our preferred stock before we may pay distributions to the holders of Common Stock.

Other Rights

We have reviewed the accompanying financial statements of the Company which comprise the statement of financial position as of December 31, 2024 and the related statements of operations, statement of changes in equity, and statement of cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of Company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter Regarding Going Concern

As discussed in Note 7, certain conditions indicate substantial doubt that the Company will be able to continue as a going concern. The accompanying financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs.

World's Best Cocktails Inc.
Notes to the Reviewed Financial Statements
Period from October 14, 2024 – December 31, 2024

NOTE 1 – ORGANIZATION AND NATURE OF ACTIVITIES

World's Best Cocktails Inc. ("The Company") was formed in Nevada on October 14, 2024. The Company, led by the creative direction of Tao Zrafi, is in the development phase of launching a line of Ready-to-Drink (RTD) beverages. The Company is focused on creating innovative and high-quality RTD products designed to meet evolving consumer tastes and lifestyle preferences. The Company has not yet begun planned principal operations.

The Company will conduct a crowdfunding campaign under regulation CF in 2025 to raise operating capital.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP). The Company's operations are limited and these statements do not necessarily include all disclosures required for entities with more extensive operations.

Use of Estimates

Management applies judgment in determining estimates and assumptions that affect the reported amounts of assets, liabilities, revenues, and expenses. Actual results could differ from these estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Fair Value of Financial Instruments

The Company measures financial instruments at fair value in accordance with the fair value hierarchy established by relevant accounting standards. The fair value of financial instruments reflects the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value hierarchy classifies financial instruments into three levels based on the inputs used to measure fair value:

- **Level 1:** Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- **Level 2:** Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- **Level 3:** Unobservable inputs for the asset or liability.

Revenue Recognition

Revenue is recognized following the five-step model under ASC 606: identifying the contract, performance obligations, transaction price, allocation, and recognition upon satisfaction of obligations, typically upon product delivery or service completion.

Equity Based Compensation

The Company has no equity-based compensation plan.

Income Taxes

The Company accounts for income taxes using the asset and liability method. Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. A deferred tax asset is recognized only to the extent that it is probable that future taxable income will be available against which the asset can be utilized. The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted at the reporting date. The Company recognizes uncertain tax positions when it is more likely than not that the position will be sustained upon examination by tax authorities. Interest and penalties related to income taxes are recorded in income tax expense.

The company has not filed its 2024 tax return and is in the process of doing so.

NOTE 3 – RELATED PARTY TRANSACTIONS

The Company follows ASC 850 “Related Party Disclosures,” for the identification of related parties and disclosure of related party transactions. As of December 31, 2024, there were no related party transactions that required disclosure.

NOTE 4 – COMMITMENTS, CONTINGENCIES, AND COMPLIANCE WITH LAWS AND REGULATION

The Company is currently not involved with or know of any pending or threatening litigation against the Company or any of its officers. Further, the Company is currently complying with all relevant laws and regulations. The Company does not have any long-term commitments of guarantees.

NOTE 5 – EQUITY

The Company has authorized 5,000,000 shares of common stock with a par value of \$0.01.

As of December 31, 2024, the Company had 1 common share issued and outstanding.

NOTE 6 –SUBSEQUENT EVENTS

Effective January 1, 2025, the Company entered into a consulting agreement with Taology Group Inc. (“Taology”), under which Taology will provide consulting services including, but not limited to, product development, operational strategy, and general business advisory support. This agreement will continue on a month-to-month basis. The monthly fee will be \$20,000 from January 1, 2025, through June 30, 2025. Beginning July 1, 2025, the monthly fee will be reduced to \$15,000. Taology is co-owned by Tao Zrafi, the President and a director of the Company.

In June 2025, the Company acquired all rights, title, and interest in certain recipes previously owned by Taology. The total value of the assignment was \$3,048.79, in exchange for which the Company issued 1,250,002 shares of its common stock.

Also in June of 2025, the Company issued an additional 674,998 shares of common stock to various founders in exchange for \$1,951.

NOTE 7 – GOING CONCERN

The accompanying balance sheet has been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company has not commenced operations and will likely realize losses prior to generating positive working capital for an unknown period of time. During the next twelve months, the Company intends to finance its operations with funds from a crowdfunding campaign. The Company's ability to continue as a going concern in the next twelve months following the date the financials were available to be issued is depending upon its ability to produce revenue and obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results. Management has evaluated these conditions and plans to raise capital as needed to satisfy its capital needs. No assurance can be given that the Company will be successful in these efforts. These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern for a reasonable period of time.

House Margarita, one of the World's Best Cocktails flavor profiles.

Market

We operate in a large and growing market

We're targeting a high-growth, underserved segment within the RTD alcohol category: premium, spirit-based cocktails crafted for quality-conscious consumers. While the global RTD market is projected to reach \$40 billion by 2027, our addressable market is the \$4.3 billion premium RTD segment in the U.S., which is growing at more than 20% CAGR—outpacing the overall category. This surge is driven by changing consumer behavior: younger drinkers are choosing convenience without compromise, seeking bar-quality experiences at home, at events, or on the go. Most current RTD offerings cater to a mass-market audience with low-quality ingredients and artificial flavors. In contrast, our product directly addresses the rising demand for craftsmanship, authenticity, and premiumization, making us one of the few brands positioned to serve this emerging consumer base with a truly differentiated product. (Sources: [Grand View Research](#), [Tech Sci Research](#))

Problem

The ready-to-drink cocktail market is flooded with low-quality, overly sweet, and artificial-tasting products that fail to deliver the authentic, balanced cocktail experience consumers crave. Despite rapid growth in the RTD category, most offerings are designed for mass production and convenience,

sacrificing flavor complexity and craftsmanship. This leaves discerning consumers—especially younger, premium-minded drinkers—frustrated by the lack of true bar-quality options they can enjoy anywhere, anytime.

Solution

Our company solves this by delivering mixologist-crafted, premium cocktails bottled with real spirits and flavor profiles developed to meet the highest standards in the industry—offering consumers an elevated, bar-quality experience in a convenient, ready-to-serve format.

World's Best Brown Banana

Traction

Bold idea to bottled reality

Founded by Tao Zrafi, our company began with a simple idea: to bottle the kind of cocktails people kept asking for—bold, refined, and worthy of the world's best bars. Since inception, we have secured critical components of our supply chain, including premium bottle sourcing, a trusted flavor development partner, a warehouse license, and a co-packing facility—laying the foundation for scalable production and rapid market entry.

for scalable production and rapid market entry. Using capital raised from this offering, we plan on beginning to produce our created products.

The foundation is built. The path to scale is clear.

We've perfected the flavor. Now it's time to deliver.

Competitive Advantage

Where artistry meets accessibility

Our competitive edge is built on the unmatched credibility and craftsmanship of our founder, Tao Zrafi. Whereas most ready-to-drink cocktails are formulated by corporate food scientists, ours are created by a master of the craft who has curated cocktail programs for top-tier venues around the globe. This gives us something no one else can offer: an authentic, high-quality bar experience in every bottle. We didn't cut corners on flavor. Every recipe was refined relentlessly—tweaked and tested until it satisfied Tao's own palate and met the standard he'd demand for any top-tier cocktail menu. The result: bold, balanced cocktails he'd be proud to serve in the world's most acclaimed bar programs—and now, you can enjoy them straight from the bottle.

Positioned at the premium end of a booming RTD market, our brand stands apart with luxury packaging, deep hospitality industry connections, and a scalable production model ready to meet rising consumer demand for quality and convenience. No other brand is pairing this level of artistry with this level of accessibility—and that's our advantage.

Founding Team

Crafted by visionaries with direct industry experience

Our team brings a rare blend of world-class mixology, operational execution, and financial leadership, perfectly aligned to disrupt the premium RTD cocktail space. Tao Zrafi, our founder, is a world class mixologist who has led bar programs for top hospitality groups and luxury venues around the world. His reputation and palate are what mass-market competitors simply can't replicate—he doesn't just know how to make great cocktails, he knows how to build a brand that stands for excellence and authenticity.

Larry G. Swets Jr., a director of the company, is a veteran financial executive and serial entrepreneur who has taken multiple companies public. He brings deep capital markets expertise and a track record of building investor value.

Together, our team combines craft, credibility, and capital strategy in a way few early-stage beverage companies can match.
