

INVEST IN POSITIVE POLAR

Join us to support whale conservation and ocean science through expedition cruises

positivepolar.com Tampa, FL 💥 🛅 💽 🛐

Highlights

2

Positive Polar restores the ocean while taking passengers on exhilarating expedition cruises.

Positive Polar's whale biomimicry tech. will convert ship waste so that it supports marine life.

Positive Polar's whale biomimicry tech. and other R&D may generate billions USD in value.

5% or more of guest ticket sale revenues will be invested in Positive Polar's whale biomimicry R&D.

5

Diverse and resilient revenues from ticket sales, cargo deliveries, carbon credit sales, licensing.

7

8

Distinctive experiences, e.g., "Positive Whaler" capturing samples alongside whale scientists.

Operational and scientific team accomplished in generating value from cruising and licensing.

Join the Movement! Unite and feel proud with Positive Polar restoring the oceans while we cruise!

Featured Investors

Follow

"I have known Jenn for over 20 years since we worked at Genentech together, and have always believed in her endeavors. Her career trajectory and success at Genentech, Gilead, and other life science companies validate my conviction. As a VC now, I like Jenn's new venture of combining travel with Science to create a new category of travel, which she called Science Expedition Cruise. I always believe in "doing well by doing good." Positive Polar fits that mission well! Thus, being an early and lead investor for Positive Polar reflects my conviction in Jenn and the company. Wishing Jenn and the team all the best in building this Positive Polar! - Gary https://www.linkedin.com/in/garykyeung/"

Our Team

Jenn Bonilla, PhD President, Co-Founder

Passionate expedition cruiser. Lover of whales and science. 20+ years experience translating biotechnology into profitable businesses in companies such as Roche, Gilead and Genentech. Princeton University Alum.

Hugo Hinrichsen Chief Executive Officer, Captain, Co-Founder.

Staff & Executive Officer, Naval Engineer. Proven track record as Polar Helicopter Pilot & Sailor in rescue operations and working directly with scientists and guests from cruise lines on extreme environments. Master in Strategic Development and Business.

Hans Lagerweij Chief Commercial Officer

Expedition cruise expert and frequent panelist on cruise market trends. Formerly CEO and President of Victory Cruise Lines; President of international businesses of Albatross Travel; Senior Vice President at Four Seasons. MBA and MA Brand Management.

Chris Youngblood Chief Financial Officer

Senior finance leader experienced in maximizing cruise profits through all legal options. 25 vrs experience incl. senior finance roles at Grand

Expeditions, TUI Travel, and Travelopia. Masters Degree in Accounting and is a Certified Public Accountant.

Ground breaking publications in top tier journals on whale recovery and related topics. PI at Calif. Marine Science Foundation. See his work at: MatthewSavocaEcology.weebly.com.

Nikki Baxendale Creative Officer

Award-winning environmental artist and photographer. Led global design teams, collaborated with industry giants Disney, MTV and others. See her Insta to be inspired: @nikkibaxendaleart

Tim Foresman, PhD Product & Programs Senior Leader

NASA Digital Earth Chief Scientist. Creator of PBS movie "Whales that wouldn't die." UN Environmental Program chief scientist.

Shannon Robison Communications Manager

Communications professional with a passion for storytelling, media strategy, and brand elevation. With a foundation in public relations, she has helped various type of companies to find their voice, shape their narratives, and secure meaningful coverage.

Phil Hunter Expedition Director

California native, has a degree in Aquatic Biology at the University of California Santa Barbara. He has logged over 100 trips to the Antarctic & over 80 to the regions of the High Arctic. Extensive experience leading expedition teams in both areas.

Aria Mckenna Public Relations Coordinator

She is a multi-hyphenate filmmaker and strategist who works to build bridges between climate scientists, policy makers, media and the public. Her mission is to use storytelling to break down the cultural barriers that keep us from restoring a safe climate

It's more than an expedition... It's an ocean wildlife adventure on a mission to heal the planet!

PROBLEM

Oceans warming, ecosystems dying, people feel powerless

CONFIDENTIAL | 2

OUR SOLUTION

Restore oceans with whale-inspired tech. and take people on exhilarating expedition cruises to finance essential science

CONFIDENTIAL | 3

LEVERAGE

Positive Polar finances and popularizes whale-tech / ocean restoration by bringing guests and scientists together

Positive Polar invests 5% or more of ticket sale revenue into R&D. Guests will Love and Support What They Experience!

WHALE BIOMIMICRY

The whale pump feeds all marine life; Industrial whaling removed so many that there remains an imbalance in the sea

WHALE BIOMIMICRY REACTOR

Positive Polar will convert waste to mimic what whales do

We will develop the "Whale Biomimicry Reactor" to transform human waste from ships into a positive mixture mimicking whale nutrients to restore marine ecosystems!!

CONFIDENTIAL 1 6

IMPACT THROUGH MERCHANT & CRUISE FLEET

Calculations suggest we may finally restore our environment

If one-third of merchant ships converted their waste to mimic whales, we could restore the environment to pre-industrial levels. Bring Balance Back!

CONFIDENTIAL | 7

PROJECT PLAN

MULTIPURPOSE SHIP

Cruises, cargo, and whale biomimicry housed in one vessel

SCIENCE AND GUEST EXPERIENCE

GUEST EXPERIENCE

Memorable guest programs inspire ocean advocacy

MARKET OPPORTUNITY

Only Positive Polar creates a net positive impact

REVENUE STREAMS

Cruise, cargo, carbon credits, biomimicry IP licensing **Cruise Business Model** Cargo Revenue Positive Polar will generate income with revenue coming from tickets and onboard sales: We will use our multipurpose ships to generate CARGO revenues, e.g., delivering medical and other supplies to hard-to-reach Cruise Revenue = communities and bases we are visiting at: Antarctic Peninsula Passenger Cruise Days X Ticket Price Chilean Fjords + Onboard Sales (e.g., premium Greenland Fjords alcohol, art sales, souvenirs etc) Rarely visited islands LICENSING Potential value of carbon credit market under different scenarios (USD 5555 billion, 2024 prices) USD 45 - 250 br USD 7 - 35 bn USD 1 - 3 bn REVENUES \$\$ CHARGE FOR SERVICES LEASE SPACE OF \$ ply . Low demand, tight supply INTELLECTUAL PROPERTY (IP) OWNED NONE CONFIDENTIAL | 13 POLAR

Future projections are not guaranteed.

Future projections are not guaranteed.

UNICORN POTENTIAL SUSTAINED IN A PREDICTABLE PROFITABLE BUSINESS

Positive Polar upside from licensing the whale biomimicry IP may be worth billions USD, offering a "Unicorn" potential

Future projections are not guaranteed.

PLANNED PROJECTS

Positive Polar's ships and expeditions are a platform for multi-product development

000011CT #0

INVESTOR PERKS

Create a legacy, enjoy art, cabin upgrades, lifetime cruises

Illustrative benefits:

\$1k:

Name featured on our online Supporter Wall

\$25k and multiples: Share a cabin with your partner at no addl cost on a trip from our itinerary

\$100K and multiples: All you can cruise with a partner for 1+ years and name a suite
