Advancing X, Inc.

Dear Dr. Eduardo Diaz,

I am excited to learn about the remarkable growth AdvancingX is experiencing and the significant milestones you have achieved over the past year. Your progress, particularly with the patent pending status for the Autonomous Structural Assembly Platform, the partnership with Woodland Community College, and the negotiation of high-value space artifacts for your museum laboratory, is truly inspiring.

I appreciate the innovative approach you are taking by considering a community investment round. This initiative not only allows companies like mine, who have supported AdvancingX from the beginning, to participate in your future success but also reinforces the strong community connection that is vital for sustainable growth.

I am interested in expressing my current intent to invest in AdvancingX during this potential community round. Please find my intended investment amount below:

Amount Willing to Invest: \$30,000 USD\_\_
