

Emails

, did you know that Revolut started with crowdfunding too?

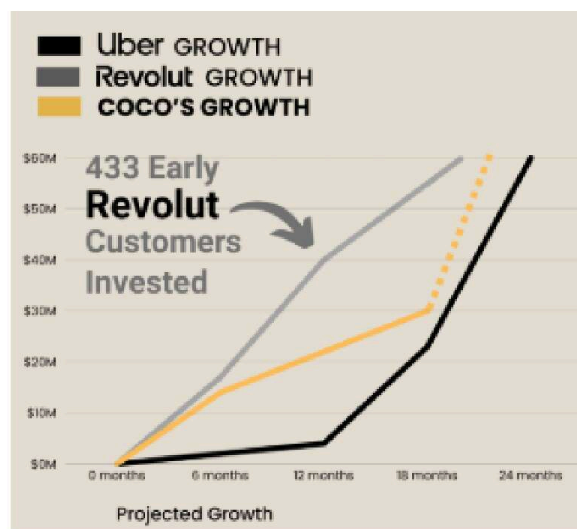

In 2016, one year after launch, **433 early customers** invested around **\$2,800** on average through their **equity crowdfunding deal**.

Now, Revolut is the **biggest private tech company in Europe** valued at **\$45B**, and **all 433 early customers are now millionaires**.

We want to do the **Exact. Same. Thing.**

Just like them, you're also an early supporter of Coco with access to an **exclusive investment opportunity**.

We're **growing at the same rate that Revolut did**, and with **200+ properties**, **150+ investors** in our community, and **6 development projects** under construction, we're on track to become the **#1 lifestyle property developer in the world**.

, 8 years ago, Revolut raised £1 million on Crowdcube. All their early investors can now **retire early**. Today, their shares value have seen a substantial increase of roughly **400X**.

We're following their blueprint exactly to give our early supporters the **same opportunity**.

Why Wefunder?

1. First and largest Equity Fundraising Platform in the US.
2. Fully regulated by the SEC and allows investment from all countries.
3. Facilitated raises for 120+ Y-Combinator startups including:
 - Mercury - \$1.62 billion
 - Zenefits - \$2+ billion
 - ShipBob - \$1 Billion
