Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

Independent Film Financing Is Inherently Unpredictable: This project is not backed by a major studio, and relies on independent financing, equity crowdfunding, and potential state tax incentives. If anticipated funding milestones are not reached, production timelines may be delayed or downsized.

Market Success Is Uncertain Despite Cultural Appeal: While *Queen of Austin* is based on a beloved Austin icon, there is no guarantee of commercial success or distribution deals. Audience response, critical reception, and platform interest (festivals, streamers, etc.) may not meet projections.

Key Personnel May Be Working Part-Time: Some members of the leadership team, including producers or creatives, may not be full-time on the project throughout its development. This could impact speed, responsiveness, or continuity in decision-making.

Dependence on Texas Incentive Legislation: The project's financial structure assumes the availability of the SB-22 film incentive program in Texas. If the program is reduced, repealed, or delayed, the projected rebate (up to 31%) may not be realized.

Delays Due to External Production Factors: As with all film productions, unforeseen events such as weather, location issues, labor strikes, or permit complications could impact scheduling, increase costs, or alter the film's creative plan.

Cameo and Credit Perks: Certain high-level investor perks (e.g., cameos, producer credits, "Presented by" title) are contingent on final creative, legal, and distributor approval. If fulfillment of any such perk is restricted or prohibited by union rules, contractual obligations, or distributor requirements, Producer will provide a reasonably equivalent alternative of comparable value and visibility, so that Investors receive the full substantive benefit of the perk.

Additional Financing Required: The funds raised in this Offering may not be sufficient, standing alone, to complete, market, and distribute the Picture. Producer currently anticipates that total costs will exceed \$50,000. As a result, Producer will need to secure additional

exceed \$50,000. As a result, the issuer will need to secure additional financing from other sources, such as senior debt, equity offerings, pre-sales, or gap financing. There is no assurance that such additional financing will be available on favorable terms, or at all. If adequate financing cannot be obtained, production and distribution of the Picture may be delayed, scaled back, or abandoned, which could materially and adversely affect the return, if any, on Investor's investment.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

Stefan Djordjevic is a part-time officer. As such, it is likely that the company will not make the same progress as it would if that were not the case.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is required to be identified.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$50,000**

Use of Proceeds: 20% Script Clearance & Legal, 20% Producer Attachments, 20% Casting, 15% Visual Materials, 10% Outreach, 7.9% Wefunder Fees, 7.1% Contingency

If we raise: **\$1,235,000**

Use of Proceeds: 34.3% Production, 17.2% Upgrades & Enhancements, 10% Contingency, 8.3% Post-Production, 7.9% Wefunder Fees, 6.3% Pre-Production & Admin, 6.3% Distribution & Festivals, 5% Development Reimbursement, 4.7% Legal & Insurance

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an Investor's transaction and deliver securities to the investor.

1. Investor Commitment. The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the Investor's electronic signature.
2. Acceptance of the Investment. If the Investor Agreement is complete, the Investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the Investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter-signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.
3. Investor Transfer of Funds. Upon receiving confirmation that an investment has been accepted, the Investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.
4. Progress of the Offering. The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the "My Investments" screen when the target offering amount is met.
5. Closing: Original Deadline. Unless we meet the target offering amount early, Investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.
6. Early Closings. If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.
7. Book Entry. Investments may be in book entry form. This means that the Investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each Investors' "My Investments" screen. The Investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen. At the option of the Company, you may receive an electronic certificate.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it

may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

Film Financing Waterfall Agreement: **120% return on principal (130% for Early Bird) + sharing in 45% of profits (then 40% after 5 years time) after all expenses have been recouped.**

RECOUPMENT. Provided that Producer has completed the Offering,

and Investor is not in breach of this Agreement, Producer agrees to repay to Investor the Financing Amount, together with a tiered premium thereon as described below ("Investor Recoupment"), solely from Gross Receipts (if any) in accordance with this Paragraph 5. "Gross Receipts" as used herein shall mean all non-returnable, non-forfeitable sums derived by, or credited to, Producer from the distribution, exhibition, and other exploitation of the Picture (but not any sequel), any merchandising, publishing, soundtrack and other allied and/or ancillary rights relating thereto and any other funds received by or credited to Producer from the exploitation of the Picture. For clarity, any governmental rebates, incentives, and tax credits are included in Gross Receipts only when cash is received in the collection account, only net of all related costs, discounts, and lender or broker fees, and may first be applied to repay or service any financing secured by such incentives or credits. Investor acknowledges Producer may later close senior financing, including a Regulation D round. All such senior financing, with all related fees, interest, discounts, and costs, will be paid before any amounts due to Investor, and Investor will execute any reasonable subordination or intercreditor confirmation to give effect to that priority. Provided, however, that (a) the aggregate principal amount of any such senior financing that subordinates Investor payments shall not exceed the greater of (i) 150% of the total amount raised in this Offering, or (ii) up to \$5,000,000 if such financing is specifically allocated to secure the services of a Recognized Screen Actor of meaningful commercial stature (including but not limited to performers with material prior credits in theatrically released motion pictures, premium television series, or equivalent media with demonstrable market value); and (b) proceeds of any such senior financing shall be used primarily for Picture production, marketing, or distribution, and not for general corporate purposes or management compensation.

A. First, to the payment of the following:

i. Any actual third party, out-of-pocket sales fees and sales expenses payable to the sales agents engaged to sell the Picture and other third party distribution fees and expenses (including but not limited to reasonable outside attorney fees) actually incurred and not otherwise recouped by Company relating directly to the Picture, ongoing third party, out-of-pocket accounting costs and expenses incurred by Company in connection with the processing of payments to profit participants on the Picture;

ii. All other costs, expenses and charges actually incurred and paid by the Company (or any affiliated or related entities) in connection with the production, post-production of the Picture or any rights therein, including, but not limited to, actual, out of pocket third party delivery costs and expenses (exclusive of the budgeted delivery costs), actual, out of pocket third party reasonable festival expenses (e.g., publicist, accommodations for producers, etc.), guild royalties, residuals, the gross amount (net of any insurance proceeds in connection therewith) paid for the settlement of any claims or lawsuits, including all expenses, court costs and attorneys' fees in connection with any such claim or litigation; but only to the extent any of the foregoing have not previously been paid or assumed by the Picture's distributor;

iii. Third party, out-of-pocket expenses incurred by Company in connection with the ongoing ownership of the Picture, including but not limited to (e.g., insurance premiums, the preservation and storage of negatives and master prints of the Picture, and copyrighting of the Picture) and maintenance and filing fees required to maintain Company in good standing; taxes and other fees; and any amounts required to be withheld by law, if any; and

B. Next, to the payment of any loans, plus reasonable interest

thereon;

C. Next, to the Investor and any additional investors (whether they participated in the Offering or through a prior or future private or other capital raise), pro rata and pari passu in accordance with the funds they provided, until all investors, including the Investor, have received one hundred percent (100%) of their respective Financing Amount

D. Next, only for those investors investing the first Two Hundred and Fifty Thousand Dollars (\$250,000) in this Offering, a premium of thirty percent (30%) of such investors' Financing Amount; and then twenty percent (20%) for investors investing thereafter in this Offering, provided that:

i. In the event an investor's Financing Amount falls into more than one category in this subsection, his/her premium payment under this subsection is calculated based on the portion of his/her Financing Amount falling into each category and the premium rate of each category;

ii. After the premium payment under this subsection is fully satisfied once for an investor, the investor is no longer entitled to any additional premium payment under this subsection.

E. Next, for the payment of any actual Deferments, which deferments shall not exceed 20% of the final budget of the Picture. As used herein, "Deferments" shall mean arrangements for the deferral of some or all of the costs of goods and/or services in the Production Budget provided by the supplier of such goods and/or services; and

F. Finally, to Net Receipts. "Net Receipts," as used herein, shall mean all Gross Receipts remaining after the payments of all amounts set forth in the sections above. Producer shall receive fifty-five percent (55%) of Net Receipts for a period of five (5) years, starting from the first receipt of Gross Receipts, after which Producer shall receive sixty percent (60%) of Net Receipts ("Producer's Net Receipts") and, during such five (5) year period, the other forty-five percent (45%) of Net Receipts shall be "Investor's Net Receipts" and after the expiration of such five (5) year period, the Investor's Net Receipt shall be forty percent (40%). Investor shall receive such percentage of Investor's Net Receipts equal to the percentage that his/her Financing Amount advanced to Producer relative to the total financing amount advanced to Producer by all investors.

See exact security attached as Appendix B, Investor Contracts.

14. Do the securities offered have voting rights?

- ☐ Yes
☒ No

15. Are there any limitations on any voting or other rights identified above?

- ☒ Yes: No Voting Rights
☐ No:

16. How may the terms of the securities being offered be modified?

The terms of the securities being offered may be modified by mutual agreement between the issuer and investors, subject to compliance with applicable securities laws. Any material changes will be disclosed to investors, and if required, investors will be given the option to reconfirm or withdraw their investment before such changes take effect.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING

OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

----------	-------------	---------

Describe any other rights:

N/A

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

Because the Investor holds no voting rights in the company, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering). These decisions could affect gross revenues and diminish payments made to Investors. Based on the risk that the company may never realize revenues or face a Default Event, the Investor may never see any returns. Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the unitholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the unitholders** may change the terms of the operating agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The unitholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The unitholders have the right to redeem their securities at any time. **Unitholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional units, an Investor's interest will typically also be diluted.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The value of the promissory notes will be determined by the Company's senior management in accordance with U.S. generally accepted accounting principles. For example, the notes may be valued based on principal plus anticipated interest payments over the course of the term of the note.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the

Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Management, and the Investor will have no independent right to name or remove an officer or member of the Management of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company to manage the Company so as to maximize value for unitholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company. If the Management of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the

duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

None.

INSTRUCTION TO QUESTION 24: name the creditor, amount owed, interest rate, maturity date, and any other material terms.

25. What other exempt offerings has the issuer conducted within the past three years?

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

1. any director or officer of the issuer;
2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer;
4. or any immediate family member of any of the foregoing persons.

☐ Yes
☒ No

INSTRUCTIONS TO QUESTION 26: The term transaction includes, but is not limited to, any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) or any series of similar transactions, arrangements or relationships.

Beneficial ownership for purposes of paragraph (2) shall be determined as of a date that is no more than 120 days prior to the date of filing of this offering statement and using the same calculation described in Question 6 of this Question and Answer format.

The term "member of the family" includes any child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the person, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Compute the amount of a related party's interest in any transaction without regard to the amount of the profit or loss involved in the transaction. Where it is not practicable to state the approximate amount of the interest, disclose the approximate amount involved in the transaction.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

The Company is producing a narrative feature film titled Queen of Austin, based on the life of Leslie Cochran — a beloved and controversial Austin icon known for his activism, eccentricity, and three campaigns for mayor.

Milestones

QUEEN OF AUSTIN FILM LLC was organized in the State of Texas in December 2024.

Since then, we have:

- 1990s Time Capsule in Every Frame
- 100% Austin-Based Production
- The Spirit of 16mm Film, Recreated
- Potential Festival Darling in the Making
- Award-winning team (15+ festivals)

The Company is subject to risks and uncertainties common to early-stage companies. Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future.

Historical Results of Operations

Our company was organized in December 2024 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended December 31, 2024, the Company had revenues of \$0.
- *Assets.* As of December 31, 2024, the Company had total assets of \$0, including \$0 in cash.
- *Net Income.* The Company has had net income of \$0 through December 31, 2024.
- *Liabilities.* The Company's liabilities totaled \$0 through December 31, 2024.

Liquidity & Capital Resources

To date the Company has been funded through approximately \$15,000 in capital contributions from the production team.

\$15,000 in capital contributions from the production team.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 24 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 6 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

QUEEN OF AUSTIN FILM LLC cash in hand is \$60, as of September 2025. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$1,000/month, for an average burn rate of \$1,000 per month. Our intent is to be profitable in 24 months.

Since our last financials, we've begun pre-production on Queen of Austin, including legal documents, insurance, casting, and business development. Our operational expenses have increased as a result.

We do not expect to generate revenue in the next 3 to 6 months. Estimated short-term expenses are \$1,000,000.00 to cover pre production and initial production costs. We expect to become revenue generating 24 months after release through sales, licensing, and festival distribution.

We are not currently profitable. Approximately \$1,500,000.00 in total funding is needed to complete production and reach profitability. This includes \$1,000,000.00 to make the film and \$500,000.00 for needle drops, Schedule Fs, casting, contingency, and marketing. We expect profitability 24 months after release, based on comparable indie film performance.

We've contributed other outside capital and are in talks with additional angel investors. Short-term burn will be covered by a mix of personal capita and in-kind contributions from partners.

All projections in the above narrative are forward-looking and not guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business and how quickly the issuer anticipates using its available

the timing of the security and not giving the issuer any proceeds during its business cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.
