Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

PRINCIPAL SECURITY HOLDERS

6. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power.

To calculate total voting power, include all securities for which the person directly or indirectly has or shares the voting power, which includes the power to vote or to direct the voting of such securities. If the person has the right to acquire voting power of such securities within 60 days, including through the exercise of any option, warrant or right, the conversion of a security, or other arrangement, or if securities are held by a member of the family, through corporations or partnerships, or otherwise in a manner that would allow a person to direct or control the voting of the securities (or share in such direction or control — as, for example, a co-trustee) they should be included as being "beneficially owned." You should include an explanation of these circumstances in a footnote to the "Number of and Class of Securities Now Held." To calculate outstanding voting equity securities, assume all outstanding options are exercised and all outstanding convertible securities converted.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

UNFIT TOO is a politically charged documentary and its performance upon release may be dependent (at least partly) on the news cycle, and the optimism/pessimism quotient of the electorate. Although we believe the subject of this film will transcend those variables, we cannot know that with certainty.

UNFIT TOO is employing a unique distribution strategy. It will air the film for free. It will air it on a known dependable platform, avoiding platforms who've shown a propensity (and history) of being partisan, undependable and/or capitulating. This strategy will likely increase viewership but necessitate greater revenue dependency on advertising and other creative means, difficult to appraise in advance.

The 2020 film #UNFIT was novel in being the very first to contain opinions and commentary of psychologists, which was a variable that fueled some of its popularity. There is no assurance that in 2026, UNFIT TOO's use of the psychological sciences and experts thereupon will be as great a benefit nor be perceived as uniquely nor operate with as little competition as #UNFIT had.

The 2020 film #UNFIT had enormous support from influencers and celebrities across social media, thus driving revenue-producing traffic. Although the filmmakers' feeds and social media accounts have grown in popularity, there can be no guaranty that support from influencers and celebrities will prove as plentiful or as impactful.

The 2020 film #UNFIT was greatly acclaimed and received many high-profile reviews and viewer comments, which helped drive viewership, and there is no guaranty that this film will be as greatly acclaimed, as widely reviewed, or commented upon as positively.

The success of the film is highly dependent on the raising of funds from this campaign and other investment. People have many options for investment. There is no guaranty that the film will raise the optimal level of funding to produce and release the most desirable and successful film possible.

In general, investment in the film industry is highly speculative and inherently risky. There can be no assurance of the economic success of any motion picture since the revenues derived from the production and distribution of a motion picture depend primarily upon its acceptance by the public, which cannot be predicted, as well as the quality and acceptance of competing films released into the marketplace at or near the same time, general economic factors and other tangible and intangible factors, all of which can change and cannot be predicted with certainty.

The minimum amount needed to complete the film in a manner satisfactory for the type of film it is, is \$350,000. Our Wefunder minimum is set to \$100,000 so it's possible we will not raise all the funds necessary through Wefunder. If we don't raise \$350,000 through Wefunder, we will seek additional outside funding.

Our future success depends on the efforts of a small management team. The loss of services of the members of the management team may have an adverse effect on the company. There can be no assurance that we will be successful in attracting and retaining other personnel we require to successfully grow our business.

Arthur Horan and Dan Partland are part-time officers. As such, it is likely that the company will not make the same progress as it would if that were not the case.

INSTRUCTION TO QUESTION 8: Avoid generalized statements and include only those factors that are unique to the issuer. Discussion should be tailored to the issuer's business and the offering and should not repeat the factors addressed in the legends set forth above. No specific number of risk factors is

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **\$100,000**

Use of Proceeds: 75% on production, 17.1% on editing, and 7.9% Wefunder fee.

If we raise: **\$350,000**

Use of Proceeds: 75% on production, 17.1% on editing the film including licensing of clips and stills, and 7.9% Wefunder fee. Raising the minimum does not do much beyond allowing us to close, ratchet up outreach, and raise more. Each uptick to what we raise allows us to add interviews, clips, effects, polish, superior editing, etc. plus sound edit and color correction.

INSTRUCTION TO QUESTION 10: An issuer must provide a reasonably detailed description of any intended use of proceeds, such that investors are provided with an adequate amount of information to understand how the offering proceeds will be used. If an issuer has identified a range of possible uses, the issuer should identify and describe each probable use and the factors the issuer may consider in allocating proceeds among the potential uses. If the issuer will accept proceeds in excess of the target offering amount, the issuer must describe the purpose, method for allocating oversubscriptions, and intended use of the excess proceeds with similar specificity. Please include all potential uses of the proceeds of the offering, including any that may apply only in the case of oversubscriptions. If you do not do so, you may later be required to amend your Form C. Wefunder is not responsible for any failure by you to describe a potential use of offering proceeds.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

If we reach our target offering amount prior to the deadline, we may conduct an initial closing of the offering early if we provide notice about the new offering deadline at least five business days prior to the new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment). Wefunder will notify investors if we conduct an initial closing. Thereafter, we may conduct additional closings from time to time at our and Wefunder's discretion until the deadline date.

The following describes the process to invest in the Company, including how the Company will complete an Investor's transaction and deliver securities to the investor.

Investor Commitment. The Investor will submit, through Wefunder Portal, a requested investment amount. When doing so, the Investor will also execute an investment contract with the Company ("Investment Agreement"), using the Investor's electronic signature.

Acceptance of the Investment. If the Investor Agreement is complete, the Investor's commitment will typically be recorded within a few minutes. The commitment will also be available on the Investor's "My Investments" screen on the wefunder.com website. After the offering closes, the contract will be counter-signed by the Company. The executed investment contract will then be sent to the investor via email, and is also available to download on the "My Investments" screen.

Investor Transfer of Funds. Upon receiving confirmation that an investment has been accepted, the Investor will be responsible for transferring funds from a source that is accepted by Wefunder Portal into an escrow account held with a third party bank on behalf of issuers offering securities through Wefunder Portal.

Progress of the Offering. The Investor will receive periodic email updates on the progress of the offering, including total amounts raised at any given time, and will be notified by email and through the "My Investments" screen when the target offering amount is met.

Closing: Original Deadline. Unless we meet the target offering amount early, Investor funds will be transferred from the escrow account to the Company on the deadline date identified in the Cover Page to this Form C and the Company's Wefunder Portal Profile.

Early Closings. If the target offering amount is met prior to the original deadline

date, we may close the offering earlier, but no less than 21 days after the date on which information about the Company, including this Form C, is posted on our Wefunder Portal Profile. We will reschedule the offering deadline, and at least five days prior to the new deadline, investors will receive notice of it by email and through the "My Investments" screen. At the time of the new deadline, your funds will be transferred to the Company from the escrow account, provided that the target offering amount is still met after any cancellations.

Book Entry. Investments may be in book entry form. This means that the Investor may not receive a certificate representing his or her investment. Each investment will be recorded in our books and records and will be recorded in each Investors' "My Investments" screen. The Investor will also be emailed the Investment Agreement again. The Investment Agreement will also be available on the "My Investments" screen. At the option of the Company, you may receive an electronic certificate.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be canceled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the investor about the offering and/or the Company, the investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the investor will receive, and refund the investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

Film Financing Agreement: Investors will receive 115% return and then a share of 50% of net receipts.

RECOUPMENT. It is agreed and understood that The Company contemplates initially releasing the film free to the public, without advertising. It is contemplated that the Film will continue to be shown free for some time.

contemplated that the Film will continue to be shown free for some time thereafter, but may seek revenue from advertising or other sources, which revenue shall be included in Gross Receipts. Should the Company decide, in its total and complete discretion, to release the Film on a paying platform, or network platform, any and all streaming revenue received by The Company and/or rights fees received by The Company shall likewise be included in Gross Receipts. Company agrees to repay to Investor the Investment, together with a fifteen percent (15%) premium thereon, solely from Gross Receipts (if any), plus a share of Net Receipts (if any) in accordance with this Paragraph 6. "Gross Receipts" as used herein shall mean all non-returnable, non-forfeitable sums actually received by The Company or any of its affiliated or related parties from any and all distribution, exhibition, and other exploitation of the Picture, any merchandising, publishing, soundtrack and other allied and/or ancillary rights relating thereto, and any other funds received by or credited to The Company or any of its affiliated or related parties from the exploitation of the Picture. Net Receipts are described in subparagraph 6g, below. Gross Receipts of the Picture, if any, shall be allocated in the following order:

- a. First, to the payment of those items constituting usual and customary "Sales and Distribution Costs," if any. These are more fully detailed in Exhibit "A" attached hereto (and includes, for example, sales fees, distribution expenses, delivery costs, insurance premiums, copyright costs, and other filing fees).
- b. Next, to Investor (and any additional Investors on a pro rata pari passu basis in accordance with their respective Investment) until all Investors have received One Hundred Percent (100%) of the Investment.
- c. Next, for the payment of any actual Production Deferments. As used herein, "Production Deferments" shall mean arrangements, if any, for the deferral of some or all the costs of goods and/or services in the Production Budget provided by the supplier of such goods and/or services. Additionally, if the actual total costs of the Picture's production exceed the Production Budget and if a portion of The Company fees and reimbursements were deferred, they will be paid hereupon, on a pro rata basis with all other Deferments.
- d. Next, to the payment to Investor (and any additional Investors) of a fifteen percent (15%) premium on their investment, on a pro rata basis.
- e. Next, to the payment of any verifiable loans and other debt incurred, if any, in connection with the Project, plus reasonable interest thereon.
- f. Finally, to Net Receipts. "Net Receipts," as used herein, shall mean One Hundred Percent (100%) of all Gross Receipts remaining after the payments of all amounts set forth in subparagraphs 6(a) through (f) above. Net Receipts shall be allocated as follows:
 - (i) Up to Fifty Percent (50%) of Net Receipts shall be paid out to all Investors on a pro rata basis determined by the amount of each Investor's Investment ("Investor's Share").
 - (ii) Simultaneously, the balance of Net Receipts NOT paid to Investors shall be paid to The Company ("The Company's Share").
- g. The terms of this Paragraph 6 shall be defined and accounted for on a most favored nations basis with all other WeFunder Investors participating in Gross Receipts.

See exact security attached as [Appendix B, Investor Contracts](#).

14. Do the securities offered have voting rights?

- Yes
 No

15. Are there any limitations on any voting or other rights identified above?

- Yes: No Voting Rights
 No:

16. How may the terms of the securities being offered be modified?

If the Company decides to raise additional funding for an amended release before the midterms, it will not impact the return of investment or upside, but it could impact the revenue sharing component, up or down.

RESTRICTIONS ON TRANSFER OF THE SECURITIES BEING OFFERED:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the

purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

DESCRIPTION OF ISSUER'S SECURITIES

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Securities (or Amount) Authorized	Securities (or Amount) Outstanding	Voting Rights
Voting Company Units	500	500	Yes <input type="button" value="v"/>
Non-voting Company Units	500	500	No <input type="button" value="v"/>

Class of Security	Securities Reserved for Issuance upon Exercise or Conversion	
Warrants:		
Options:	Total Pool: 0	Issued: 0

Describe any other rights:

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The Company does not contemplate issuing any additional or other class of security. The Company is a single purpose entity. Because the Investor holds no voting rights in the Company, the holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way - see the Risk Factors elsewhere on this page.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, the **unitholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, the **unitholders** may change the terms of the operating agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. The **unitholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The **unitholders** have the right to redeem their securities at any time. **Unitholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro-rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional units, an Investor's interest will typically also be diluted.

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

In the future, we will perform valuations of our common units that take into account factors such as the following:

- unrelated third party valuations of our common units;
- the price at which we sell other securities, such as convertible debt or preferred units, in light of the rights, preferences and privileges of our those securities relative to those of our common units;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the lack of marketability of our common units;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Management, and the Investor will have no independent right to name or remove an officer or member of the Management of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed

by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company to manage the Company so as to maximize value for unitholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company. If the Management of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

None.

INSTRUCTION TO QUESTION 24: name the creditor, amount owed, interest rate, maturity date, and any other material terms.

Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations together with our financial statements and the related notes and other financial information included elsewhere in this offering. Some of the information contained in this discussion and analysis, including information regarding the strategy and plans for our business, includes forward-looking statements that involve risks and uncertainties. You should review the "Risk Factors" section for a discussion of important factors that could cause actual results to differ materially from the results described in or implied by the forward-looking statements contained in the following discussion and analysis.

Overview

The primary purpose of Still Unfit LLC is to develop, produce, and distribute film and media content, including documentary films and related projects as outlined in the Company's strategic plan.

Milestones

Still Unfit LLC was organized in the State of Delaware in May 2025.

Since then, we have:

- UNFIT TOO is urgent and timely. Democracy IS on the line. WE THE PEOPLE are a last line of defense
- UNFIT TOO is from the same experienced and award-winning team that produced #UNFIT in 2020
- Proven Record: #UNFIT (2020) reached millions, made a difference, was critical and financial success
- Expert-Driven Content: Interviews and commentary from noted psychologists, historians, and analysts
- Celebrity and Influencer Support: High-profile voices backing and amplifying; adds marketing reach
- Rare Crossover Appeal: Addresses disinformation; maximizes impact; reaches larger potential audience
- Science over politics: Facts over feelings; information before validation; education above emotion

The Company is subject to risks and uncertainties common to early-stage companies. Given the Company's limited operating history, the Company cannot reliably estimate how much revenue it will receive in the future.

Historical Results of Operations

Our company was organized in May 2025 and has limited operations upon which prospective investors may base an evaluation of its performance.

- *Revenues & Gross Margin.* For the period ended December 31, 2025, the Company had revenues of \$0.
- *Assets.* As of December 31, 2025, the Company had total assets of \$17,677, including \$2,547 in cash.
- *Net Loss.* The Company has had net losses of \$7,423 through December 31, 2025.
- *Liabilities.* The Company's liabilities totaled \$25,000 through December 31, 2025.

Liquidity & Capital Resources

To-date the company has been funded through \$25,000 in Film Financing Agreements.

After the conclusion of this Offering, should we hit our minimum funding target, our projected runway is 6 months before we need to raise further capital

Our projected earnings in 6 months before we need to raise further capital.

We plan to use the proceeds as set forth in this Form C under "Use of Funds". We don't have any other sources of capital in the immediate future.

We will likely require additional financing in excess of the proceeds from the Offering in order to perform operations over the lifetime of the Company. We plan to raise capital in 2 months. Except as otherwise described in this Form C, we do not have additional sources of capital other than the proceeds from the offering. Because of the complexities and uncertainties in establishing a new business strategy, it is not possible to adequately project whether the proceeds of this offering will be sufficient to enable us to implement our strategy. This complexity and uncertainty will be increased if less than the maximum amount of securities offered in this offering is sold. The Company intends to raise additional capital in the future from investors. Although capital may be available for early-stage companies, there is no guarantee that the Company will receive any investments from investors.

Runway & Short/Mid Term Expenses

Still Unfit LLC cash in hand is \$4,000, as of April 2026. Over the last three months, revenues have averaged \$0/month, cost of goods sold has averaged \$0/month, and operational expenses have averaged \$2,700/month, for an average burn rate of \$2,700 per month. Our intent is to be profitable in 12 months.

There are no material changes or trends in our finances or operation since the date that our financials cover.

We expect no revenue in the next 3 other 6 months. Over the next 6 months we plan to use the funds we raise to produce the film so our expenses will be near equal to the amount we raise, which will be between \$100-900k. We need to complete production and editing of other film and to do that we need funds. The film will initially be released free with no ads and thereafter we plan to be revenue generating (within 3 to 6 months).

We are not yet profitable. Once we raise the required capital, we can complete production of the Film. We will first release the film free without ads, and 3 to 6 months after release we will add advertiser support. We expect the film to be profitable within 12 months from closing as long as we raise above \$350,000.

We have personal capital to cover short-term burn to take us through the WeFunder campaign.

All projections in the above narrative are forward-looking and not guaranteed.

INSTRUCTIONS TO QUESTION 28: The discussion must cover each year for which financial statements are provided. For issuers with no prior operating history, the discussion should focus on financial milestones and operational, liquidity and other challenges. For issuers with an operating history, the discussion should focus on whether historical results and cash flows are representative of what investors should expect in the future. Take into account the proceeds of the offering and any other known or pending sources of capital. Discuss how the proceeds from the offering will affect liquidity, whether receiving these funds and any other additional funds is necessary to the viability of the business, and how quickly the issuer anticipates using its available cash. Describe the other available sources of capital to the business, such as lines of credit or required contributions by shareholders. References to the issuer in this Question 28 and these instructions refer to the issuer and its predecessors, if any.
