## Summary

Tired of working for someone else's dream? Or feeling trapped in corporate America? Turn your executive experience into financial freedom and work-life balance with franchise ownership.

For 30 years, I've been obsessed with the power of franchising. I've seen it from every angle:

- : I owned and operated multi-unit franchises, experiencing the challenges and rewards firsthand.
- : I helped brands scale nationwide and experience exponential growth.
- : I co-founded a major salon franchise that now boasts over 250 locations, understanding the complexities of building a successful brand.

Now, I leverage this extensive experience to empower our franchisees at CyberGlobal. Striving to have all of our franchisees achieve their goals and be part of a community that they can be proud to call home.

The vision is to be a highly success franchise company but just as important to be one of the most respected franchise companies in the industry.

## Suite Management Franchising

### Franchisor

2011 - 2015 (4 years)

Sarasota, Florida

MY SALON Suite. Start-up franchise company providing real estate/property management opportunity in the salon business. First location opened in 2010 in New Orleans, LA. Started franchising in July of 2012. Currently there are over 250 locations nationwide.

The business model was developed to help salon professionals make the transition of working at a traditional salon, to owning their own salon business.

I had a great experience with MY SALON SUITE to expand my franchise experience as being a franchisor. It was wonderful to see our franchise owners sign their franchise agreements to growing thriving businesses. The experience was incredibly rewarding and better prepared myself to be a professional franchise consultant and advisor.
