Multiple Payment/Financial Companies

Founder & Investor | C-Level Executive

May 2007 - November 2021 (14 years 7 months)

From 2015 to 2021, I had the privilege of founding and serving as the Chief Executive Officer of OME, a digital currency firm that has since become part of Unidef. During this period, I strategically guided OME to invest in top tokens and coins while they were in their nascent stages, ensuring a pioneering position in the digital currency landscape. Prior to this, between 2007 and 2015, I founded and led an online payment service provider, a cash-on-delivery startup, and a full-service marketing agency. Concurrently, I also worked independently with MTN, a leading multinational telecommunications company.
