Become an owner in EMBioSys!

EMBioSys has developed a novel wearable device called Efinia™ in the form of a women's tank top to treat breast cancer.

We are excited about the milestones that EMBioSys achieved in 2025, and we have even more exciting plans for growth in 2026, with your help!

As we prepare for our upcoming clinical trial for women with triple-negative breast cancer, we have launched a Community Round on Wefunder to fund additional trials and pre-clinical studies for other types of cancer. This allows supporters of our mission to make a reservation for as little as $100 in EMBioSys.

At this stage, we are "testing the waters" to gauge investor interest in our offering under Regulation Crowdfunding. The great thing about Wefunder is that it allows anyone—whether they're an accredited investor or not—to become an investor in our company.

Check out our Wefunder page and make a reservation here: **https://wefunder.com/embiosys.1**

EMBioSys is "testing the waters" to gauge investor interest in an offering under Regulation Crowdfunding. No money or other consideration is being solicited. If sent, it will not be accepted. No offer to buy securities will be accepted. No part of the purchase price will be received until a Form C is filed and only through Wefunder's platform. Any indication of interest involves no obligation or commitment of any kind.
