THE OFFERING AND THE SECURITIES

The Offering

The Issuer is offering a minimum amount of \$75,000.00 (the “**Target Offering Amount**”) and up to a maximum amount of \$1,235,000.00 (the “**Maximum Offering Amount**”) of SAFE (Simple Agreement for Future Equity) (the “**Securities**”) on a best-efforts basis as described in this Form C/A (this “**Offering**”). The Minimum Individual Purchase Amount is \$250.00, and the Maximum Individual Purchase Amount is \$124,000. The Issuer reserves the right to amend the Minimum Individual Purchase Amount and Maximum Individual Purchase Amount, in its sole discretion. In particular, the Issuer may elect to participate in one of the Intermediary’s special investment programs and may offer alternative Minimum Individual Purchase Amounts and Maximum Individual Purchase Amounts to Investors participating in such programs without notice. The Issuer must raise an amount equal to or greater than the Target Offering Amount by April 30, 2026 (the “**Offering Deadline**”). Unless the Issuer receives investment commitments, which are fully paid for and meet all other requirements set by this Offering, in an amount not less than the Target Offering Amount by the Offering Deadline, no Securities will be sold in this Offering, all investment commitments will be canceled and all committed funds will be returned.

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Issuer’s asset value, net worth, revenues or other objectives established criteria of value, and should not be considered indicative of the actual value of the Securities.

In order to purchase the Securities, you must make a commitment to purchase by completing the purchase process hosted by the **Intermediary** (as defined above), including complying with the Intermediary’s know your customer (KYC) and anti-money laundering (AML) policies. **If an Investor makes an investment commitment under a name that is not their legal name, they may be unable to redeem their Security indefinitely, and neither the Intermediary nor the Issuer are required to correct any errors or omissions made by the Investor.**

Investor funds will be held in escrow with a qualified third-party escrow agent meeting the requirements of Regulation CF (“**Escrow Agent**”) until the Target Offering Amount has been met or exceeded and one or more closings occur. Investors may cancel an investment commitment until up to 48 hours prior to the Offering Deadline or an intermediate close, using the cancellation mechanism provided by the Intermediary. **Investors using a credit card to invest must represent and warrant to cancel any investment commitment(s) by submitting a request through the Intermediary at least 48 hours prior to the Offering Deadline, instead of attempting to claim fraud or claw back their committed funds. If the Investor does not cancel an investment commitment before the 48-hour period prior to the Offering Deadline, the funds will be released to the Issuer and the Investor will receive their Securities.**

Investment commitments made in this Offering will be represented by a pro-rata beneficial interest (based on the amount invested) subject to the terms of the Security (attached as Exhibit B), Custody Agreement (attached as Exhibit C), and Omnibus Nominee Trust Agreement (attached as Exhibit D). Securities sold in this Offering will be deposited into a custodial account (“**Custodial Account**”) with BitGo Trust Company, Inc., who will serve as the custodian, nominee, and legal record holder (the “**Custodian**” or “**Nominee**”). In order to receive Securities from this Offering, Investors will be required to establish, or verify that they already have, an account with the Custodian. The legal title to the Securities purchased by the Investor in this Offering will be held in the name of a trust established by and maintained by the Nominee for the purposes of safeguarding the Securities and providing for efficiencies with respect to tax reporting, distributions and estate planning purposes related to the Securities pursuant to the terms and conditions of the Omnibus Nominee Trust Agreement attached hereto as Exhibit D.

The Issuer will notify Investors when the Target Offering Amount has been reached through the Intermediary. If the Issuer reaches the Target Offering Amount prior to the Offering Deadline, it may close the Offering early *provided* (i) the expedited Offering Deadline must be twenty-one (21) days from the time the Offering was opened, (ii) the Intermediary must provide at least five (5) business days’ notice prior to the expedited Offering Deadline to the Investors and (iii) the Issuer continues to meet or exceed the Target Offering Amount on the date of the expedited Offering Deadline.

The Deal Page

A description of our products, services and business plan can be found on the Issuer's profile page on the Intermediary's website under <https://republic.com/pluto7> (the "**Deal Page**"). The Deal Page can be used by prospective Investors to ask the Issuer questions and for the Issuer to post immaterial updates to this Form C/A as well as make general announcements. You should view the Deal Page at the time you consider making an investment commitment. Updates on the status of this Offering can also be found on the Deal Page.

Material Changes

If any material change occurs related to the Offering prior to the current Offering Deadline the Issuer will provide notice to Investors and receive reconfirmations from Investors who have already made commitments. If an Investor does not reconfirm their investment commitment after a material change is made to the terms of the Offering within five (5) business days of receiving notice, the Investor's investment commitment will be canceled, and the committed funds will be returned without interest or deductions.

Intermediate Closings

In the event an amount equal to two (2) times the Target Offering Amount is committed and meets all required terms of the Offering prior to the Offering Deadline on such date or such later time the Issuer designates pursuant to Rule 304(b) of Regulation CF, the Issuer may conduct the first of multiple closings of the Offering early, *provided* (i) the early closing date must be twenty-one (21) days from the time the Offering opened and (ii) that all Investors will receive notice of such early closing date at least five (5) business days prior to such new offering deadline (absent a material change that would require an extension of the Offering and reconfirmation of all investment commitments). Investors who committed on the date such notice is provided or prior to the issuance of such notice will be able to cancel their investment commitment until 48 hours before such an early closing date.

If the Issuer conducts an initial closing (the "**Initial Closing**"), the Issuer agrees to only withdraw seventy percent (70%) of the proceeds that are in escrow and will only conduct such Initial Closing if there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of the Initial Closing. The Issuer may only conduct another close (a "**Subsequent Closing**") before the Offering Deadline if the amount of investment commitments made as of the date of such Subsequent Closing exceeds two times the Target Offering Amount as of the date of the Initial Closing and there are more than twenty-one (21) days remaining before the Offering Deadline as of the date of such Subsequent Closing.

Any investment commitments received after an intermediate closing will be released to the Issuer upon a subsequent closing and the Investor will receive evidence of the Securities via electronic certificate/PDF in exchange for their investment commitment as soon as practicable thereafter.

The Issuer has agreed to return all funds to Investors in the event a Form C-W is ultimately filed in relation to this Offering, regardless of whether multiple closings are conducted.

Investment commitments are not binding on the Issuer until they are accepted by the Issuer, which reserves the right to reject, in whole or in part, in its sole and absolute discretion, any investment commitment. If the Issuer rejects all or a portion of any investment commitment, the applicable prospective Investor's funds will be returned without interest or deduction.

The Securities

We request that you please review this Form C/A and the Security attached as Exhibit B, in conjunction with the following summary information.

Not Currently Equity Interests

The Securities are not currently equity interests in the Issuer and merely provide a right to receive equity at some point in the future upon the occurrence of certain events (which may or may not occur).

Dividends and/or Distributions

The Securities do not entitle Investors to any dividends and/or distributions.

Conversion

Upon the next sale (or series of related sales) by the Issuer of its Capital Stock to one or more third parties resulting in gross proceeds to the Issuer of not less than \$1,000,000 in cash and cash equivalents (each an “**Equity Financing**”), the Securities are automatically convertible into shares of the securities issued in said Equity Financing.

Conversion Upon an Equity Financing Event (Early Investors)

Upon an Equity Financing, each investor who invests during the first tranche of the Offering, which includes the initial purchases amounting up to and including a sum of \$250,000.00 (collectively, “**Early Investors**”), will receive the number of securities equal to the greater of the quotient obtained by dividing the amount the Investor paid for the Securities (the “**Purchase Amount**”) by (a) or (b) immediately below:

(a) the quotient of \$20,000,000 (“**Pre-Money Valuation Cap**”) divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) shares of capital stock reserved and available for future issuance under any Issuer equity incentive or similar equity plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, “**SAFEs**”), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or **SAFEs**;

OR

(b) if the pre-money valuation of the Issuer immediately prior to the Equity Financing is less than or equal to the Early Investors Pre-Money Valuation Cap, the lowest price per share of the securities sold in such Equity Financing.

Such conversion price shall be deemed the “**Equity Financing Price for Early Investors**”.

Conversion Upon an Equity Financing Event (Standard Investors)

Upon an Equity Financing, each investor who invests during the second tranche of the Offering, which includes all purchases from \$250,000.01 to \$1,235,000.00 (collectively, “**Standard Investors**”), will receive the number of securities equal to the greater of the quotient obtained by dividing the Purchase Amount by (a) or (b) immediately below:

(a) the quotient of \$25,000,000 (“**Standard Investors Pre-Money Valuation Cap**”) divided by the aggregate number of issued and outstanding shares of capital stock, assuming full conversion or exercise of all convertible and exercisable securities then outstanding, including shares of convertible preferred stock and all outstanding vested or unvested options or warrants to purchase capital stock, but excluding (i) shares of capital stock reserved and available for future issuance under any Issuer equity incentive or similar equity plan, (ii) convertible promissory notes, (iii) any Simple Agreements for Future Equity, including the Securities (collectively, “**SAFEs**”), and (iv) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or **SAFEs**;

OR

(b) if the pre-money valuation of the Issuer immediately prior to the Equity Financing is less than or equal to the Standard Investors Pre-Money Valuation Cap, the lowest price per share of the securities sold in such Equity Financing.

Such conversion price shall be deemed the “**Equity Financing Price for Standard Investors**”.

Conversion Upon a Liquidity Event

In the case of the Issuer’s undergoing an **IPO** (as defined below) of its Capital Stock (as defined in the Security), a **Direct Listing** (as defined below), or a **Change of Control** (as defined below) of the Issuer (all of these events, a “**Liquidity Event**”), the Investor will automatically be entitled (subject to the liquidation priority set forth in the **SAFE**) to receive a portion of Proceeds, due and payable immediately prior to, or concurrent with, the consummation of such Liquidity Event, equal to the greater of (i) the Purchase Amount (or a lesser amount as set forth in the **SAFE**) or (ii) the amount payable on the number of shares of Common Stock of the Issuer equal to the Purchase Amount (or

a lesser amount as set forth in the SAFE) divided by the quotient of (a) the Early Investors Pre-Money Valuation Cap or Standard Investors Pre-Money Valuation Cap, as applicable, divided by (b) the number, as of immediately prior to the Liquidity Event, of shares of the Issuer's Capital Stock outstanding (on an as-converted basis), assuming the exercise or conversion of all outstanding vested and unvested options, warrants and other convertible securities, but excluding: (w) the Unissued Option Pool; (x) any SAFEs; (y) convertible promissory notes; and (z) any equity securities that are issuable upon conversion of any outstanding convertible promissory notes or SAFEs (as applicable, the "**Cash Out Amount**").

If there are not enough funds to pay the Cash Out Amount to Investors and the holders of other SAFEs (collectively, the "**Cash-Out Investors**") in full, then all of the Issuer's available funds will be distributed based on liquidation priority, with the Security intended to operate like standard non-participating preferred stock.

"**Change of Control**" as used above, means (i) a transaction or series of related transactions in which any person or group becomes the beneficial owner of more than fifty percent (50%) of the outstanding voting securities entitled to elect the Issuer's Board of Directors, (ii) any reorganization, merger or consolidation of the Issuer, in which the outstanding voting security holders of the Issuer fail to retain at least a majority of such voting securities following such transaction or (iii) a sale, lease or other disposition of all or substantially all of the assets of the Issuer.

"**Direct Listing**" means the Issuer's initial listing of its Capital Stock (other than shares of Capital Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Issuer with the SEC that registers shares of existing Capital Stock of the Issuer for resale, as approved by the Issuer's board of directors. For the avoidance of doubt, a Direct Listing will not be deemed to be an underwritten offering and will not involve any underwriting services.

"**IPO**" as used above, means: (A) the completion of an underwritten initial public offering of Capital Stock by the Issuer pursuant to: (I) a final prospectus for which a receipt is issued by a securities commission of the United States or of a province of Canada, or (II) a registration statement which has been filed with the United States Securities and Exchange Commission and is declared effective to enable the sale of Capital Stock by the Issuer to the public, which in each case results in such equity securities being listed and posted for trading or quoted on a recognized exchange; (B) the Issuer's initial listing of its Capital Stock (other than shares of Capital Stock not eligible for resale under Rule 144 under the Securities Act) on a national securities exchange by means of an effective registration statement on Form S-1 filed by the Issuer with the SEC that registers shares of existing Capital Stock of the Issuer for resale, as approved by the Issuer's board of directors, where such listing shall not be deemed to be an underwritten offering and shall not involve any underwriting services; or (C) the completion of a reverse merger or take-over whereby an entity (I) whose securities are listed and posted for trading or quoted on a recognized exchange, or (II) is a reporting issuer in the United States or the equivalent in any foreign jurisdiction, acquires all of the issued and outstanding Capital Stock of the Issuer.

Dissolution

If there is a **Dissolution Event** (as defined below) or a Liquidity Event before the Securities terminate, the Issuer will distribute all proceeds legally available for distribution with the following priority: (i) junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock); (ii) on par with payments for other SAFEs, whether this Series or otherwise, and/or Preferred Stock, and if the applicable proceeds are insufficient to permit full payments to the Investor and such other SAFEs and/or Preferred Stock holders, the applicable proceeds will be distributed pro rata to the Investor and such other SAFEs and/or Preferred Stock holders in proportion to the full payments that would otherwise be due; and (iii) senior to payments to holders of Common Stock.

A "**Dissolution Event**" means (i) a voluntary termination of operations by the Issuer, (ii) a general assignment for the benefit of the Issuer's creditors or (iii) any other liquidation, dissolution or winding up of the Issuer (excluding a Liquidity Event), whether voluntary or involuntary.

Termination

The Securities terminate (without relieving the Issuer of any obligations arising from a prior breach of or non-compliance with the Securities) upon the earlier to occur of: (i) the issuance of Capital Stock to the Investor pursuant to the conversion provisions of the SAFE agreement or (ii) the payment, or setting aside for payment, of amounts due to the Investor pursuant to a Liquidity Event or a Dissolution Event.

Nominee

The title holder of the Securities will be a trust established by and maintained by Nominee for the purposes of safeguarding the Securities and providing for efficiencies with respect to tax reporting, distributions and estate planning purposes related to the Securities. Pursuant to the terms of the Omnibus Nominee Trust Agreement (attached as Exhibit D), Investors are engaging Nominee as its limited agent to safeguard and provide certain limited services with respect to the Securities held in trust. Investors are appointing Nominee to act as nominee for the Investors, to serve in such capacity until the appointment and authority conferred is revoked, for the limited purpose of causing to be held, and holding, in the name of Nominee alone, title to the Securities beneficially owned by the Investors and acquired by Nominee for the benefit of Investors or otherwise conveyed to Nominee in accordance with the directions of the Investors, with power and authority limited to registering and holding the Securities in Nominee's name, and otherwise acting with respect to the Securities in accordance with the instructions of the Investors, as provided in the Omnibus Nominee Trust Agreement or as may be given by the Investors from time to time. The Nominee will have no right or authority to act with respect to the Securities, except upon the instructions of the Investors. An Investor may, at any time, in its absolute discretion, terminate the Omnibus Nominee Trust Agreement in whole or in part; provided, however, that no such termination will be effective with respect to any Securities the transfer of which is restricted by contract, law, edict or otherwise unless consented to by the Issuer thereof (including by blanket consent). Nominee's sole function during the term of the Omnibus Nominee Trust Agreement will be to hold nominal legal title to the Securities for the benefit of the Investors under and subject to the Investor's instructions.

Voting and Control

Neither the Securities **nor the securities issuable upon the conversion** of the Securities have voting rights unless otherwise provided for by the Issuer. In addition, to facilitate the Offering and SAFE Investors being able to act together and cast a vote as a group, to the extent any securities acquired upon conversion of the Securities confer the holder with voting rights (whether provided by the Issuer's governing documents or by law), the Lead will act as proxy on behalf of Investors in respect to instructions related to the Securities. The Lead will vote at the direction of the Chief Executive Officer of the Issuer (the "**Lead**").

The Issuer does not have any voting agreements in place.

The Issuer does not have any shareholder or equity holder agreements in place.

Anti-Dilution Rights

The Securities do not have anti-dilution rights, which means that future equity issuances and other events will dilute the ownership percentage that Investors may eventually have in the Issuer.

Restrictions on Transfer

Any Securities sold pursuant to Regulation CF being offered may not be transferred by any Investor of such Securities during the one-year holding period beginning when the Securities were issued, unless such Securities are transferred: (1) to the Issuer; (2) to an accredited investor, as defined by Rule 501(d) of Regulation D promulgated under the Securities Act; (3) as part of an IPO; or (4) to a member of the family of the Investor or the equivalent, to a trust controlled by the Investor, to a trust created for the benefit of a member of the family of the Investor or the equivalent, or in connection with the death or divorce of the Investor or other similar circumstances. "Member of the family" as used herein means a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother/father/daughter/son/sister/brother-in-law, and includes adoptive relationships. Each Investor should be aware that although the Securities may legally be able to be transferred, there is no guarantee that another party will be willing to purchase them.

In addition to the foregoing restrictions, prior to making any transfer of the Securities or any Capital Stock into which they are convertible, such transferring Investor must either make such transfer pursuant to an effective registration statement filed with the SEC or provide the Issuer with an opinion of counsel reasonably satisfactory to the Issuer stating that a registration statement is not necessary to effect such transfer.

In addition, the Investor may not transfer the Securities or any Capital Stock into which they are convertible to any of the Issuer's competitors, as determined by the Issuer in good faith.

Furthermore, upon the event of an IPO, the Capital Stock into which the Securities are converted will be subject to a lock-up period and may not be lent, offered, pledged, or sold for up to 180 days following such IPO.

If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distributee, as relevant, will be required to sign an Omnibus Nominee Trust Agreement (as defined in the Security).

Other Material Terms

- The Issuer does not have the right to repurchase the Securities.
- The Securities do not have a stated return or liquidation preference.
- The Issuer cannot determine if it currently has enough Capital Stock authorized to issue upon the conversion of the Securities, because the amount of Capital Stock to be issued is based on the occurrence of future events.

COMMISSION AND FEES

Cash Commission

At the conclusion of the Offering, the Issuer shall pay the Intermediary the greater of (A) a cash fee of (1) 0% of any dollar amounts raised in the Offering up to \$100,000, and (2) six percent (6%) of any dollar amounts raised in the Offering exceeding \$100,000.01 but not exceeding \$5,000,000; or (B) a cash fee of fifteen thousand dollars (\$15,000.00).

Other Compensation

The Intermediary will also receive compensation in the form of the Securities equal to two percent (2%) of the total number of the Securities sold in the Offering. The total number of Securities outstanding after the Offering is subject to increase in an amount equal to the Intermediary's fee of two percent (2%) of the Securities issued in this Offering.

RISK FACTORS

Investing in the Securities involves a high degree of risk and may result in the loss of your entire investment. Before making an investment decision with respect to the Securities, we urge you to carefully consider the risks described in this section and other factors set forth in this Form C/A. In addition to the risks specified below, the Issuer is subject to same risks that all companies in its business, and all companies in the economy, are exposed to. These include risks relating to economic downturns, political and economic events and technological developments (such as hacking and the ability to prevent hacking). Additionally, early-stage companies are inherently riskier than more developed companies. Prospective Investors should consult with their legal, tax and financial advisors prior to making an investment in the Securities. The Securities should only be purchased by persons who can afford to lose all of their investment.

Risks Related to the Issuer's Business and Industry

The amount of capital the Issuer is attempting to raise in this Offering may not be enough to sustain the Issuer's current business plan.

In order to achieve the Issuer's near and long-term goals, the Issuer may need to procure funds in addition to the amount raised in the Offering. There is no guarantee the Issuer will be able to raise such funds on acceptable terms or at all. If we are not able to raise sufficient capital in the future, we may not be able to execute our business plan, our continued operations will be in jeopardy and we may be forced to cease operations and sell or otherwise transfer all or substantially all of our remaining assets, which could cause an Investor to lose all or a portion of their investment.

We may face potential difficulties in obtaining capital.

We may have difficulty raising the capital needed in the future as a result of, among other factors, our lack of revenues from sales, as well as the inherent business risks associated with the Issuer and present and future market conditions. Additionally, our future sources of revenue may not be sufficient to meet our future capital requirements. As such, we may require additional funds to execute our business strategy and conduct our operations. If adequate funds are unavailable, we may be required to delay, reduce the scope of or eliminate one or more of our research, development or commercialization programs, product launches or marketing efforts, any of which may materially harm our business, financial condition and results of operations.

The Issuer is currently owned by the Founders, and they will exercise voting control.

Prior to the Offering, Manjunath Devadas and Hemalatha Karveti, the founders of the Issuer (the “Founders”), beneficially own all of the outstanding capital stock of the Issuer and have voting control. Subject to any fiduciary duties owed to other stockholders under California law, the Founders will be able to exercise significant influence over matters requiring stockholder approval, including the election of directors or managers and approval of significant Issuer transactions, and will have significant control over the Issuer’s management and policies. The Founders may have interests that are different from yours. For example, they may support proposals and actions with which you may disagree. The concentration of ownership could delay or prevent a change in control of the Issuer or otherwise discourage a potential acquirer from attempting to obtain control of the Issuer, which in turn could reduce the price potential investors are willing to pay for the Issuer. In addition, the Founders could use their voting influence to maintain the Issuer’s existing management, delay or prevent changes in control of the Issuer, issue additional securities which may dilute you, repurchase securities of the Issuer, enter into transactions with related parties or support or reject other management and board proposals that are subject to stockholder approval.

We may implement new lines of business or offer new products and services within existing lines of business.

As an early-stage company, we may implement new lines of business at any time. There are substantial risks and uncertainties associated with these efforts, particularly in instances where the markets are not fully developed. In developing and marketing new lines of business and/or new products and services, we may invest significant time and resources. Initial timetables for the introduction and development of new lines of business and/or new products or services may not be achieved, and price and profitability targets may not prove feasible. We may not be successful in introducing new products and services in response to industry trends or developments in technology, or those new products may not achieve market acceptance. As a result, we could lose business, be forced to price products and services on less advantageous terms to retain or attract clients or be subject to cost increases. As a result, our business, financial condition or results of operations may be adversely affected.

We rely on other companies to provide services for our products.

We depend on third party vendors to meet our contractual obligations to our customers and conduct our operations. Our ability to meet our obligations to our customers may be adversely affected if vendors do not provide the agreed-upon services in compliance with customer requirements and in a timely and cost-effective manner. Likewise, the quality of our services may be adversely impacted if companies to whom we delegate certain services do not perform to our, and our customers’, expectations. Our vendors may also be unable to quickly recover from natural disasters and other events beyond their control and may be subject to additional risks such as financial problems that limit their ability to conduct their operations. The risk of these adverse effects may be greater in circumstances where we rely on only one or two vendors for a particular service.

We rely on various intellectual property rights, including patents and trademarks, in order to operate our business.

The Issuer relies on certain intellectual property rights to operate its business. The Issuer’s intellectual property rights may not be sufficiently broad or otherwise may not provide us with a significant competitive advantage. In addition, the steps that we have taken to maintain and protect our intellectual property may not prevent it from being challenged, invalidated, circumvented or designed-around, particularly in countries where intellectual property rights are not highly developed or protected. In some circumstances, enforcement may not be available to us because an infringer has a dominant intellectual property position or for other business reasons, or countries may require compulsory licensing of our intellectual property. Our failure to obtain or maintain intellectual property rights that convey competitive advantage, adequately protect our intellectual property or detect or prevent circumvention or unauthorized use of such property, could adversely impact our competitive position and results of operations. We also rely on nondisclosure and noncompetition agreements with employees, consultants and other parties to protect, in part, trade

secrets and other proprietary rights. There can be no assurance that these agreements will adequately protect our trade secrets and other proprietary rights and will not be breached, that we will have adequate remedies for any breach, that others will not independently develop substantially equivalent proprietary information or that third parties will not otherwise gain access to our trade secrets or other proprietary rights. As we expand our business, protecting our intellectual property will become increasingly important. The protective steps we have taken may be inadequate to deter our competitors from using our proprietary information. In order to protect or enforce our intellectual property rights, including our patents and trademarks, we may be required to initiate litigation against third parties, such as infringement lawsuits. Also, these third parties may assert claims against us with or without provocation. The law relating to the scope and validity of claims in the technology field in which we operate is still evolving and, consequently, intellectual property positions in our industry are generally uncertain. These lawsuits could be expensive, take significant time and could divert management's attention from other business concerns. We cannot assure you that we will prevail in any of these potential suits or that the damages or other remedies awarded, if any, would be commercially valuable.

The Issuer's success depends on the experience and skill of its executive officers and key personnel.

We are dependent on our executive officers and key personnel. These persons may not devote their full time and attention to the matters of the Issuer. The loss of all or any of our executive officers and key personnel could harm the Issuer's business, financial condition, cash flow and results of operations.

Although dependent on our executive officers, the Issuer does not have any key person life insurance policies on any such people.

We are dependent on our executive officers in order to conduct our operations and execute our business plan, however, the Issuer has not purchased any insurance policies with respect to those individuals in the event of their death or disability. Therefore, if any of these personnel die or become disabled, the Issuer will not receive any compensation to assist with such person's absence. The loss of such person could negatively affect the Issuer and our operations. We have no way to guarantee key personnel will stay with the Issuer, as many states do not enforce non-competition agreements, and therefore acquiring key man insurance will not ameliorate all of the risk of relying on key personnel.

In order for the Issuer to compete and grow, it must attract, recruit, retain and develop the necessary personnel who have the needed experience.

Recruiting and retaining personnel is critical to our success. These demands may require us to hire additional personnel and will require our existing management and other personnel to develop additional expertise. We face intense competition for personnel, making recruitment time-consuming and expensive. The failure to attract and retain personnel or to develop such expertise could delay or halt the development and commercialization of our product candidates. If we experience difficulties in hiring and retaining personnel in key positions, we could suffer from delays in product development, loss of customers and sales and diversion of management resources, which could adversely affect operating results. Our consultants and advisors may be employed by third parties and may have commitments under consulting or advisory contracts with third parties that may limit their availability to us, which could further delay or disrupt our product development and growth plans.

We need to rapidly and successfully develop and introduce new products in a competitive, demanding and rapidly changing environment.

To succeed in our intensely competitive industry, we must continually improve, refresh and expand our product and service offerings to include newer features, functionality or solutions, and keep pace with changes in the industry. Shortened product life cycles due to changing customer demands and competitive pressures may impact the pace at which we must introduce new products or implement new functions or solutions. In addition, bringing new products or solutions to the market entails a costly and lengthy process, and requires us to accurately anticipate changing customer needs and trends. We must continue to respond to changing market demands and trends or our business operations may be adversely affected.

The development and commercialization of our products is highly competitive.

We face competition with respect to any products that we may seek to develop or commercialize in the future. Our competitors include major companies worldwide. Many of our competitors have significantly greater financial, technical and human resources than we have and superior expertise in research and development and marketing approved products and thus may be better equipped than us to develop and commercialize products. These competitors

also compete with us in recruiting and retaining qualified personnel and acquiring technologies. Smaller or early-stage companies may also prove to be significant competitors, particularly through collaborative arrangements with large and established companies. Accordingly, our competitors may commercialize products more rapidly or effectively than we are able to, which would adversely affect our competitive position, the likelihood that our products will achieve initial market acceptance, and our ability to generate meaningful additional revenues from our products.

Industry consolidation may result in increased competition, which could result in a loss of customers or a reduction in revenue.

Some of our competitors have made or may make acquisitions or may enter into partnerships or other strategic relationships to offer more comprehensive services than they individually had offered or achieve greater economies of scale. In addition, new entrants not currently considered to be competitors may enter our market through acquisitions, partnerships or strategic relationships. We expect these trends to continue as companies attempt to strengthen or maintain their market positions. The potential entrants may have competitive advantages over us, such as greater name recognition, longer operating histories, more varied services and larger marketing budgets, as well as greater financial, technical and other resources. The companies resulting from combinations or that expand or vertically integrate their business to include the market that we address may create more compelling service offerings and may offer greater pricing flexibility than we can or may engage in business practices that make it more difficult for us to compete effectively, including on the basis of price, sales and marketing programs, technology or service functionality. These pressures could result in a substantial loss of our customers or a reduction in our revenue.

The Issuer's business plan is based on numerous assumptions and projections that may not prove accurate.

The Issuer's business plan and potential growth is based upon numerous assumptions. No assurance can be given regarding the attainability of the financial projections. The Issuer's ability to adhere to, and implement, its business plan will depend upon the Issuer's ability to successfully raise funds and a variety of other factors, many of which are beyond the Issuer's control. Likewise, management is not bound to follow the business plan and may elect to adopt other strategies based upon unanticipated opportunities, or changes in circumstances or market conditions. All financial projections contained in the business plan are based entirely upon management's assumptions and projections and should not be considered as a forecast of actual revenues or our liquidity. Actual operating results may be materially different.

Although the Issuer believes the assumptions upon which the Issuer's business and financial projections are based have reasonable bases, the Issuer cannot offer any assurance that its results of operations and growth will be as contemplated. If any of the assumptions upon which these opinions and projections are based prove to be inaccurate, including growth of the economy in general and trends in our industry, these opinions and projections could be adversely affected. Prospective investors should be aware that these opinions and other projections and predictions of future performance, whether included in the business plan, or previously or subsequently communicated to prospective investors, are based on certain assumptions which are highly speculative. Such projections or opinions are not (and should not be regarded as) a representation or warranty by the Issuer or any other person that the overall objectives of the Issuer will ever be achieved or that the Issuer will ever achieve significant revenues or profitability. These opinions, financial projections, and any other predictions of future performance should not be relied upon by potential investors in making an investment decision in regard to this Offering.

The loss of a relationship with Google, along with designation of the Issuer as a Google Cloud Premier Partner, may have a material adverse effect on our operations, results, and business.

The Issuer has been a Google Cloud Premier Partner for ten years and its business model as a Google Cloud Premier Partner is central to its identity. There is no guarantee that the Issuer will be able to maintain its partnership with Google. In such event, the Issuer believes it has access to alternate service providers and platforms which would not cause a major disruption to its business, although it could cause short-term limitations or disruptions. However, it is possible that if the Company is no longer a Google Cloud Premier Partner or unable to use the Google infrastructure, it may have a material adverse effect on the Issuer and its business, operations and financial results.

Damage to our reputation could negatively impact our business, financial condition and results of operations.

Our reputation and the quality of our brand are critical to our business and success in existing markets and will be critical to our success as we enter new markets. Any incident that erodes consumer loyalty for our brand could significantly reduce its value and damage our business. We may be adversely affected by any negative publicity, regardless of its accuracy. Also, there has been a marked increase in the use of social media platforms and similar

devices, including blogs, social media websites and other forms of internet-based communications that provide individuals with access to a broad audience of consumers and other interested persons. The availability of information on social media platforms is virtually immediate as is its impact. Information posted may be adverse to our interests or may be inaccurate, each of which may harm our performance, prospects or business. The harm may be immediate and may disseminate rapidly and broadly, without affording us an opportunity for redress or correction.

We have not prepared any audited financial statements.

The financial statements attached as Exhibit A to this Form C/A have been “reviewed” only and such financial statements have not been verified with outside evidence as to management’s amounts and disclosures. Additionally, tests on internal controls have not been conducted. Therefore, you will have no audited financial information regarding the Issuer’s capitalization or assets or liabilities on which to make your investment decision.

Our business could be negatively impacted by cyber security threats, attacks and other disruptions.

We may face advanced and persistent attacks on our information infrastructure where we manage and store various proprietary information and sensitive/confidential data relating to our operations. These attacks may include sophisticated malware (viruses, worms, and other malicious software programs) and phishing emails that attack our products or otherwise exploit any security vulnerabilities. These intrusions sometimes may be zero-day malware that are difficult to identify because they are not included in the signature set of commercially available antivirus scanning programs. Experienced computer programmers and hackers may be able to penetrate our network security and misappropriate or compromise our confidential information or that of our customers or other third-parties, create system disruptions, or cause shutdowns. Additionally, sophisticated software and applications that we produce or procure from third-parties may contain defects in design or manufacture, including “bugs” and other problems that could unexpectedly interfere with the operation of the information infrastructure. A disruption, infiltration or failure of our information infrastructure systems or any of our data centers as a result of software or hardware malfunctions, computer viruses, cyber-attacks, employee theft or misuse, power disruptions, natural disasters or accidents could cause breaches of data security, loss of critical data and performance delays, which in turn could adversely affect our business.

Security breaches of confidential customer information, in connection with our electronic processing of credit and debit card transactions, or confidential employee information may adversely affect our business.

Our business requires the collection, transmission and retention of personally identifiable information, in various information technology systems that we maintain and in those maintained by third parties with whom we contract to provide services. The integrity and protection of that data is critical to us. The information, security and privacy requirements imposed by governmental regulations are increasingly demanding. Our systems may not be able to satisfy these changing requirements and customer and employee expectations or may require significant additional investments or time in order to do so. A breach in the security of our information technology systems or those of our service providers could lead to an interruption in the operation of our systems, resulting in operational inefficiencies and a loss of profits. Additionally, a significant theft, loss or misappropriation of, or access to, customers’ or other proprietary data or other breach of our information technology systems could result in fines, legal claims or proceedings.

The use of individually identifiable data by our business, our business associates and third parties is regulated at the state, federal and international levels.

The regulation of individual data is changing rapidly, and in unpredictable ways. A change in regulation could adversely affect our business, including causing our business model to no longer be viable. Costs associated with information security – such as investment in technology, the costs of compliance with consumer protection laws and costs resulting from consumer fraud – could cause our business and results of operations to suffer materially. Additionally, the success of our online operations depends upon the secure transmission of confidential information over public networks, including the use of cashless payments. The intentional or negligent actions of employees, business associates or third parties may undermine our security measures. As a result, unauthorized parties may obtain access to our data systems and misappropriate confidential data. There can be no assurance that advances in computer capabilities, new discoveries in the field of cryptography or other developments will prevent the compromise of our customer transaction processing capabilities and personal data. If any such compromise of our security or the security of information residing with our business associates or third parties were to occur, it could have a material adverse effect on our reputation, operating results and financial condition. Any compromise of our data security may materially increase the costs we incur to protect against such breaches and could subject us to additional legal risk.

The Issuer is not subject to Sarbanes-Oxley regulations and may lack the financial controls and procedures of public companies.

The Issuer may not have the internal control infrastructure that would meet the standards of a public company, including the requirements of the Sarbanes Oxley Act of 2002. As a privately-held (non-public) issuer, the Issuer is currently not subject to the Sarbanes Oxley Act of 2002, and its financial and disclosure controls and procedures reflect its status as a development stage, non-public company. There can be no guarantee that there are no significant deficiencies or material weaknesses in the quality of the Issuer's financial and disclosure controls and procedures. If it were necessary to implement such financial and disclosure controls and procedures, the cost to the Issuer of such compliance could be substantial and could have a material adverse effect on the Issuer's results of operations.

Changes in federal, state or local laws and government regulation could adversely impact our business.

The Issuer is subject to legislation and regulation at the federal, state and local levels. New laws and regulations may impose new and significant disclosure obligations and other operational, marketing and compliance-related obligations and requirements, which may lead to additional costs, risks of non-compliance, and diversion of our management's time and attention from strategic initiatives. Additionally, federal, state and local legislators or regulators may change current laws or regulations which could adversely impact our business. Further, court actions or regulatory proceedings could also change our rights and obligations under applicable federal, state and local laws, which cannot be predicted. Modifications to existing requirements or the imposition of new requirements or limitations could have an adverse impact on our business.

We operate in a regulated environment, and if we are found to be in violation of any of the federal, state, or local laws or regulations applicable to us, our business could suffer.

We are also subject to a wide range of federal, state, and local laws and regulations. The violation of these or future requirements or laws and regulations could result in administrative, civil, or criminal sanctions against us, which may include fines, a cease-and-desist order against the subject operations or even revocation or suspension of our license to operate the subject business. As a result, we may incur capital and operating expenditures and other costs to comply with these requirements and laws and regulations.

Changes in employment laws or regulation could harm our performance.

Various federal and state labor laws govern our relationship with our employees and affect operating costs. These laws include minimum wage requirements, overtime pay, healthcare reform and the implementation of the Patient Protection and Affordable Care Act, unemployment tax rates, workers' compensation rates, citizenship requirements, union membership and sales taxes. A number of factors could adversely affect our operating results, including additional government-imposed increases in minimum wages, overtime pay, paid leaves of absence and mandated health benefits, mandated training for employees, increased tax reporting and tax payment requirements for employees who receive tips, a reduction in the number of states that allow tips to be credited toward minimum wage requirements, changing regulations from the National Labor Relations Board and increased employee litigation including claims relating to the Fair Labor Standards Act.

Global crises and geopolitical events, including without limitation, COVID-19 can have a significant effect on our business operations and revenue projections.

A significant outbreak of contagious diseases, such as COVID-19, in the human population could result in a widespread health crisis. Additionally, geopolitical events, such as wars or conflicts, could result in global disruptions to supplies, political uncertainty and displacement. Each of these crises could adversely affect the economies and financial markets of many countries, including the United States where we principally operate, resulting in an economic downturn that could reduce the demand for our products and services and impair our business prospects, including as a result of being unable to raise additional capital on acceptable terms, if at all.

Risks Related to the Offering

The U.S. Securities and Exchange Commission does not pass upon the merits of the Securities or the terms of the Offering, nor does it pass upon the accuracy or completeness of any Offering document or literature.

You should not rely on the fact that our Form C/A is accessible through the U.S. Securities and Exchange Commission's EDGAR filing system as an approval, endorsement or guarantee of compliance as it relates to this Offering. The U.S. Securities and Exchange Commission has not reviewed this Form C/A, nor any document or literature related to this Offering.

The Issuer could potentially be found to have not complied with securities law in connection with this Offering related to a Reservation Campaign (also known as "Testing the Waters")

Prior to filing this Form C/A, the Issuer engaged in a Reservation Campaign (also known as "testing the waters") permitted under Regulation Crowdfunding (17 CFR 227.206), which allows issuers to communicate to determine whether there is interest in the offering. All communication sent is deemed to be an offer of securities for purposes of the antifraud provisions of federal securities laws. Any Investor who expressed interest prior to the date of this Offering should read this Form C/A thoroughly and rely only on the information provided herein and not on any statement made prior to the Offering. The communications sent to Investors prior to the Offering are attached as Exhibit F. Some of these communications may not have included proper disclaimers required for a Reservation Campaign.

Neither the Offering nor the Securities have been registered under federal or state securities laws.

No governmental agency has reviewed or passed upon this Offering or the Securities. Neither the Offering nor the Securities have been registered under federal or state securities laws. Investors will not receive any of the benefits available in registered offerings, which may include access to quarterly and annual financial statements that have been audited by an independent accounting firm. Investors must therefore assess the adequacy of disclosure and the fairness of the terms of this Offering based on the information provided in this Form C/A and the accompanying exhibits.

The Issuer's management may have broad discretion in how the Issuer uses the net proceeds of the Offering.

Unless the Issuer has agreed to a specific use of the proceeds from the Offering, the Issuer's management will have considerable discretion over the use of proceeds from the Offering. You may not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately.

Because the Offering consists of two separate tranches, a single investor may receive different SAFEs with different terms, depending on the timing of the investor's investment commitment.

The Offering is divided into separate tranches for early investors and standard investors. "**Early Investors**", which include investors who invest during the first tranche of the Offering, which includes the initial purchases amounting up to and including a sum of \$250,000.00, will receive a SAFE with preferential terms, namely a reduced pre-money valuation cap (\$20,000,000 instead of \$25,000,000). A SAFE with different terms will be issued to "**Standard Investors**", or investors who invest during the second tranche of the Offering, which includes all purchases from \$100,000.01 to \$1,235,000.00. Accordingly, a single investor may be issued two different SAFEs with different terms, depending on the timing of the investor's investment commitment.

The Intermediary Fees paid by the Issuer are subject to change depending on the success of the Offering.

At the conclusion of the Offering, the Issuer shall pay the Intermediary the greater of (A) a cash fee of (1) 0% of any dollar amounts raised in the Offering up to \$100,000, and (2) six percent (6%) of any dollar amounts raised in the Offering exceeding \$100,000.01 but not exceeding \$5,000,000; or (B) a cash fee of fifteen thousand dollars (\$15,000.00). The compensation paid by the Issuer to the Intermediary may impact how the Issuer uses the net proceeds of the Offering.

The Issuer has the right to limit individual Investor commitment amounts based on the Issuer's determination of an Investor's sophistication.

The Issuer may prevent any Investor from committing more than a certain amount in this Offering based on the Issuer's determination of the Investor's sophistication and ability to assume the risk of the investment. This means that your desired investment amount may be limited or lowered based solely on the Issuer's determination and not in line with

relevant investment limits set forth by the Regulation CF rules. This also means that other Investors may receive larger allocations of the Offering based solely on the Issuer's determination.

The Issuer has the right to extend the Offering Deadline and/or increase the Maximum Offering Amount.

The Issuer may extend the Offering Deadline and/or increase the Maximum Offering Amount beyond what is currently stated herein. This means that your investment may continue to be held in escrow while the Issuer attempts to raise the Target Offering Amount even after the Offering Deadline stated herein is reached. While you have the right to cancel your investment in the event the Issuer extends the Offering Deadline, if you choose to reconfirm your investment, your investment will not be accruing interest during this time and will simply be held until such time as the new Offering Deadline is reached without the Issuer receiving the Target Offering Amount, at which time it will be returned to you without interest or deduction, or the Issuer receives the Target Offering Amount, at which time it will be released to the Issuer to be used as set forth herein. Upon or shortly after the release of such funds to the Issuer, the Securities will be issued and distributed to you. For an increase in the Maximum Offering Amount, this means that additional amounts may be raised by the Company which would also increase the number of shares outstanding and dilute shareholders.

The Issuer may also end the Offering early.

If the Target Offering Amount is met after 21 calendar days, but before the Offering Deadline, the Issuer can end the Offering by providing notice to Investors at least 5 business days prior to the end of the Offering. This means your failure to participate in the Offering in a timely manner, may prevent you from being able to invest in this Offering – it also means the Issuer may limit the amount of capital it can raise during the Offering by ending the Offering early.

The Issuer has the right to conduct multiple closings during the Offering.

If the Issuer meets certain terms and conditions, an intermediate close (also known as a rolling close) of the Offering can occur, which will allow the Issuer to draw down on seventy percent (70%) of Investor proceeds committed and captured in the Offering during the relevant period. The Issuer may choose to continue the Offering thereafter. Investors should be mindful that this means they can make multiple investment commitments in the Offering, which may be subject to different cancellation rights. For example, if an intermediate close occurs and later a material change occurs as the Offering continues, Investors whose investment commitments were previously closed upon will not have the right to re-confirm their investment as it will be deemed to have been completed prior to the material change.

The Issuer Reserves the Right to Change the Escrow Agent at Its Sole Discretion, Which May Result in Delays or Operational Adjustments

The Issuer reserves the right, in its sole discretion, to replace the Escrow Agent at any time during the Offering. In the event of such a change, investor funds held in escrow may be transferred to a new escrow account with a different financial institution. Any such transition will be conducted in compliance with applicable laws and regulations; however, investors should be aware that a change in Escrow Agent may result in processing delays, modifications to administrative procedures, or other operational adjustments that could affect the timing of investment processing and disbursement of funds. The intermediary facilitating this Offering assists in establishing and managing escrow accounts, including communicating with the Escrow Agent via API, and any transition to a new escrow agent may require adjustments to these processes.

Risks Related to the Securities

Investors will not have voting rights, even upon conversion of the Securities and will grant a third-party nominee broad power and authority to act on their behalf.

In connection with investing in this Offering to purchase a SAFE (Simple Agreement for Future Equity), Investors will designate the Lead (as defined herein) to act on behalf as proxy on behalf of Investors in respect to instructions related to the Securities. The Lead will be entitled, among other things, to exercise any voting rights (if any) conferred upon the holder of the Securities or any securities acquired upon their conversion, and to execute on behalf of an investor all transaction documents related to the transaction or other corporate event causing the conversion of the Securities. Thus, by participating in the Offering, investors will grant broad discretion to a third party (the Lead and its agents) to take various actions on their behalf, and investors will essentially not be able to vote upon matters related to the governance and affairs of the Issuer nor take or effect actions that might otherwise be available to holders of the

Securities and any securities acquired upon their conversion. Investors should not participate in the Offering unless he, she or it is willing to waive or assign certain rights that might otherwise be afforded to a holder of the Securities to the Lead and grant broad authority to the Lead to take certain actions on behalf of the investor.

The Custodian shall serve as the legal title holder of the Securities. Investors will only obtain a beneficial ownership in the Securities.

The Issuer and the Investor shall appoint and authorize the qualified third-party Custodian for the benefit of the Investor, to hold the SAFE and any securities that may be issued upon conversion thereof in registered form in the Custodian's name or the name of the Custodian's nominees for the benefit of the Investor and Investor's permitted assigns. The Custodian may take directions from the Lead who will act on behalf of the Investors, and the Custodian may be permitted to rely on the Lead's instructions related to the Securities. Investors may never become an equity holder, merely a beneficial owner of an equity interest.

The Securities will not be freely tradable under the Securities Act until one year from when the securities are issued. Although the Securities may be tradable under federal securities law, state securities regulations may apply, and each Investor should consult with their attorney.

You should be aware of the long-term nature of this investment. There is not now, and it will likely not ever be a public market for the Securities. Because the Securities have not been registered under the Securities Act or under the securities laws of any state or foreign jurisdiction, the Securities have transfer restrictions and cannot be resold in the United States except pursuant to Rule 501 of Regulation CF. It is not currently contemplated that registration under the Securities Act or other securities laws will be effected. Limitations on the transfer of the Securities may also adversely affect the price that you might be able to obtain for the Securities in a private sale. Investors should be aware of the long-term nature of their investment in the Issuer. Each Investor in this Offering will be required to represent that they are purchasing the Securities for their own account, for investment purposes and not with a view to resale or distribution thereof. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distribute, as relevant, will be required to sign a new Omnibus Nominee Trust Agreement (attached as Exhibit D). Additionally, Investors will only have a beneficial interest in the Securities, not legal ownership, which may make their resale more difficult as it will require coordination with the Custodian.

Investors will not become equity holders until there is a qualified equity financing or until there is a change of control or sale of substantially all of the Issuer's assets. The Investor may never directly hold equity in the Issuer.

Investors will not have an ownership claim to the Issuer or to any of its assets or revenues for an indefinite amount of time and depending on when and how the Securities are converted, the Investors may never become equity holders of the Issuer. Investors will not become equity holders of the Issuer unless the Issuer receives a future round of financing great enough to trigger a conversion. Except for a qualified financing, the Issuer is under no obligation to convert the Securities. In certain instances, such as a sale of the Issuer or substantially all of its assets, an initial public offering or a dissolution or bankruptcy, the Investors may only have a right to receive cash, to the extent available, rather than equity in the Issuer. Further, the Investor may never become an equity holder, merely a beneficial owner of an equity interest, as the custodian shall be deemed the legal owner of the SAFE or the securities issuable thereto.

Investors will not have voting rights, even upon conversion of the Securities.

Investors will not have the right to vote upon matters of the Issuer even if and when their Securities are converted (the occurrence of which cannot be guaranteed). Under the terms of the Securities, the Custodian will exercise voting control over the Securities. The Custodian may take direction from the Lead who will act on behalf of the Investors, and the Custodian may be permitted to rely on the Lead's instructions related to voting of the Securities. For example, if the Securities are converted in connection with an offering of Series B Preferred Stock, Investors would beneficially receive securities in the form of shares of Series B-CF Preferred Stock and such shares would be required to be subject to the terms of the Securities that allows the Custodian to vote their shares of Series B-CF Preferred Stock consistent with the terms of the Security. Thus, Investors will essentially never be able to vote upon any matters of the Issuer unless otherwise provided for by the Issuer.

Investors will not be entitled to any inspection or information rights other than those required by law.

Investors will not have the right to inspect the books and records of the Issuer or to receive financial or other information from the Issuer, other than as required by law. Other security holders of the Issuer may have such rights.

Regulation CF requires only the provision of an annual report on Form C-AR and no additional information. Additionally, there are numerous methods by which the Issuer can terminate annual report obligations, resulting in no information rights, contractual, statutory or otherwise, owed to Investors. This lack of information could put Investors at a disadvantage in general and with respect to other security holders, including certain security holders who have rights to periodic financial statements and updates from the Issuer such as quarterly unaudited financials, annual projections and budgets, and monthly progress reports, among other things.

Investors will be unable to declare the Security in “default” and demand repayment.

Unlike convertible notes and some other securities, the Securities do not have any “default” provisions upon which Investors will be able to demand repayment of their investment. The Issuer has ultimate discretion as to whether or not to convert the Securities upon a future equity financing and Investors have no right to demand such conversion. Only in limited circumstances, such as a liquidity event, may Investors demand payment and even then, such payments will be limited up to the amount of cash available to the Issuer.

The Issuer may never undergo an Equity Financing, or a Liquidity Event and Investors may have to hold the Securities indefinitely.

The Issuer may never conduct a future Equity Financing. In addition, the Issuer may never undergo a Liquidity Event such as a sale of the Issuer or an initial public offering. If neither an Equity Financing nor a Liquidity Event occurs, Investors could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. If a transfer, resale, assignment or distribution of the Security should occur prior to the conversion of the Security or after, if the Security is still held by the original purchaser directly, the transferee, purchaser, assignee or distribute, as relevant, will be required to sign a new Omnibus Nominee Trust Agreement (as defined in the Security). The Securities are not equity interests, have no ownership rights, have no rights to the Issuer’s assets or profits and have no voting rights or ability to direct the Issuer or its actions.

Any equity securities acquired upon conversion of the Securities may be significantly diluted as a consequence of subsequent equity financings.

The Issuer’s equity securities will be subject to dilution. The Issuer intends to issue additional equity to employees and third-party financing sources in amounts that are uncertain at this time, and as a consequence holders of equity securities resulting from the conversion of the Securities will be subject to dilution in an unpredictable amount. Such dilution may reduce the Investor’s control and economic interests in the Issuer.

The amount of additional financing needed by the Issuer will depend upon several contingencies not foreseen at the time of this Offering. Generally, additional financing (whether in the form of loans or the issuance of other securities) will be intended to provide the Issuer with enough capital to reach the next major corporate milestone. If the funds received in any additional financing are not sufficient to meet the Issuer’s needs, the Issuer may have to raise additional capital at a price unfavorable to their existing investors, including the holders of the Securities. The availability of capital is at least partially a function of capital market conditions that are beyond the control of the Issuer. There can be no assurance that the Issuer will be able to accurately predict the future capital requirements necessary for success or that additional funds will be available from any source. Failure to obtain financing on favorable terms could dilute or otherwise severely impair the value of the Securities.

In addition, the Issuer has certain equity grants outstanding. Should the Issuer enter into a financing that would trigger any conversion rights, the converting securities would further dilute the equity securities receivable by the holders of the Securities upon a qualifying financing.

Any equity securities issued upon conversion of the Securities may be substantially different from other equity securities offered or issued by the Issuer at the time of conversion.

In the event a conversion occurs, the Issuer will convert the Securities into equity securities that are materially different from the equity securities being issued to new investors at the time of conversion in many ways, including, but not limited to, liquidation preferences, dividend rights, or anti-dilution protection. Additionally, any equity securities issued at the Equity Financing Price (as defined in the SAFE agreement) shall have only such preferences, rights, and protections in proportion to the Equity Financing Price and not in proportion to the price per share paid by new investors receiving the equity securities. Upon conversion of the Securities, the Issuer may not provide the holders of

such Securities with the same rights, preferences, protections, and other benefits or privileges provided to other investors of the Issuer.

The forgoing paragraph is only a summary of a portion of the conversion feature of the Securities; it is not intended to be complete, and is qualified in its entirety by reference to the full text of the SAFE agreement, which is attached as Exhibit B.

There is no present market for the Securities, and we have arbitrarily set the price.

The offering price was not established in a competitive market. We have arbitrarily set the price of the Securities with reference to the general status of the securities market and other relevant factors. The offering price for the Securities should not be considered an indication of the actual value of the Securities and is not based on our asset value, net worth, revenues or other established criteria of value. We cannot guarantee that the Securities can be resold at the offering price or at any other price.

In the event of the dissolution or bankruptcy of the Issuer, Investors will not be treated as debt holders and therefore are unlikely to recover any proceeds.

In the event of the dissolution or bankruptcy of the Issuer, the holders of the Securities that have not been converted will be entitled to distributions as described in the Securities. This means that such holders will only receive distributions once all of the creditors and more senior security holders, including any holders of preferred stock, have been paid in full. No holders of any of the Securities can be guaranteed any proceeds in the event of the dissolution or bankruptcy of the Issuer.

While the Securities provide mechanisms whereby holders of the Securities would be entitled to a return of their purchase amount upon the occurrence of certain events, if the Issuer does not have sufficient cash on hand, this obligation may not be fulfilled.

Upon the occurrence of certain events, as provided in the Securities, holders of the Securities may be entitled to a return of the principal amount invested. Despite the contractual provisions in the Securities, this right cannot be guaranteed if the Issuer does not have sufficient liquid assets on hand. Therefore, potential Investors should not assume a guaranteed return of their investment amount.

There is no guarantee of a return on an Investor's investment.

There is no assurance that an Investor will realize a return on their investment or that they will not lose their entire investment. For this reason, each Investor should read this Form C/A and all exhibits carefully and should consult with their attorney and business advisor prior to making any investment decision.

IN ADDITION TO THE RISKS LISTED ABOVE, RISKS AND UNCERTAINTIES NOT PRESENTLY KNOWN, OR WHICH WE CONSIDER IMMATERIAL AS OF THE DATE OF THIS FORM C/A, MAY ALSO HAVE AN ADVERSE EFFECT ON OUR BUSINESS AND RESULT IN THE TOTAL LOSS OF YOUR INVESTMENT.

FINANCIAL INFORMATION

Please see the financial information listed on the cover page of this Form C/A and attached hereto in addition to the following information. Financial statements are attached hereto as Exhibit A.

Cash and Cash Equivalents

As of December 31, 2025, the Issuer had an aggregate of approximately \$45,000 in cash and cash equivalents, plus approximately \$400,000 in account receivables, leaving the Issuer with approximately 5 months of runway. Runway is calculated by dividing cash-on-hand by average monthly net loss (if any).

Liquidity and Capital Resources

The proceeds from the Offering are essential to our operations. We plan to use the proceeds as set forth above under the section titled “*Use of Proceeds*”, which is an indispensable element of our business strategy.

In addition to the Offering (or to supplement the Offering for any shortfall from the Maximum Offering Amount), the Issuer may concurrently undertake to raise additional capital by offering to sell securities, including but not limited to Common Stock, Series A Preferred Stock, SAFEs (Simple Agreement for Future Equity) and/or Convertible Notes, to accredited investors outside of this Offering.

Capital Expenditures and Other Obligations

The Issuer does not intend to make any material capital expenditures in the near future.

Valuation

The terms of this Offering are based on a pre-money valuation cap of \$20,000,000 for Early Investors and \$25,000,000 for Standard Investors. Although the Securities provide a valuation cap, the Intermediary has ascribed no pre-Offering valuation to the Issuer; the Securities are priced arbitrarily, and the Issuer makes no representations as to the reasonableness of any specified valuation cap.

Trends and Uncertainties

After reviewing this Form C/A, potential Investors should consider whether achievement of the Issuer’s goals will be realistic in their judgment. Potential Investors should also assess the consequences to the Issuer of any delays in achieving these goals and whether the Issuer will need additional financing to accomplish them.

Please see the financial statements attached as Exhibit A for subsequent events and applicable disclosures.

Material Changes and Other Information

This non-material amendment is filed to (A) add an Exhibit F- Testing the Waters Communications; and (B) include a corresponding risk factor in the "Risk Factors" section regarding Testing the Waters Communications.

The Company was rebranded as Pluto7 in 2015 and became a Google Cloud Premier Partner specializing in business and technology transformation by leveraging data, analytics, and Artificial Intelligence (AI) to solve complex challenges, particularly within the supply chain, manufacturing, and retail sectors. Pluto7 generates revenue through a multi-faceted business model that includes building proprietary Service as a Software solutions (such as its "Planning in a Box" suite), providing high-end consulting and systems integration solutions/services, and reselling Google Cloud and Google Workspace licenses. The Company will conduct a crowdfunding campaign under regulation CF in 2026 to raise operating capital.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

Our financial statements are prepared in accordance with U.S. generally accepted accounting principles (“GAAP”). Our fiscal year ends on December 31. The Company has no interest in variable interest entities and no predecessor entities.

Basis of Consolidation – Foreign Operations.

The financials of the Company include its wholly-owned subsidiaries, Pluto7 Consulting Ltd. an entity operating out of Canada, which operates as a near-shore research and development and support pod providing specialized development for Canadian customers and same-time-zone support for North American customers, and Pluto7 Solutions Technology Limited an entity operating out of Dubai, which caters to EU and META customers. All significant intercompany transactions are eliminated. Operations outside the United States are subject to risks inherent in operating under different legal systems and various political and economic environments. Among the risks are changes in existing tax laws, possible limitations on foreign investment and income repatriation, government price or foreign exchange controls, and restrictions on currency exchange. The Company does not engage in hedging activities to mitigate its exposure to fluctuations in foreign currency exchange rates. During 2024 and 2023, the Company reported a gain of \$17,352 and a loss of \$159,930, respectively, in earnings/(losses) from foreign subsidiaries. Dividends received from foreign subsidiaries amounted to \$0 for 2024 and 2023. Net assets of foreign operations was approximately negative \$47, and positive \$61,636 at December 31, 2024 and 2023, respectively.

Foreign Currency Translation

The functional currencies of the Company's foreign operations are the local currencies. The financial statements of the Company's foreign subsidiaries have been translated into U.S. dollars. All balance sheet accounts have been translated using the exchange rates in effect at the balance sheet date. Income statement amounts have been translated using the average exchange rate for the year. Accumulated net translation adjustments have been reported separately in other comprehensive loss in the consolidated financial statements. Foreign currency translation adjustments were immaterial in both 2024 and 2023. Foreign currency transaction gains (losses) resulting from exchange rate fluctuations on transactions denominated in a currency other than the functional currency which were immaterial in 2024 and 2023, and are included in other expense in the accompanying consolidated statements of operations.

Use of Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances, and highly liquid investments with maturities of three months or less when purchased.

Fair Value of Financial Instruments

ASC 820 “*Fair Value Measurements and Disclosures*” establishes a three-tier fair value hierarchy, which prioritizes the inputs in measuring fair value. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market.

These tiers include:

Level 1: defined as observable inputs such as quoted prices in active markets;

Level 2: defined as inputs other than quoted prices in active markets that are either directly or indirectly observable; and

Level 3: defined as unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

Concentrations of Credit Risks

The Company’s financial instruments that are exposed to concentrations of credit risk primarily consist of its cash and cash equivalents. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. The Company’s management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

Revenue Recognition

The Company recognizes revenue from the sale of products and services in accordance with ASC 606, “Revenue Recognition” following the five steps procedure:

Step 1: Identify the contract(s) with customers

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to performance obligations

Step 5: Recognize revenue when or as performance obligations are satisfied

The Company has various revenue streams consisting of the following:

Software Subscriptions (SaaS) - The Company generates revenue from subscription-based access to its proprietary software hosted on the Google Cloud Platform. Subscription fees are billed and collected on a monthly basis over the subscription term. The Company’s primary performance obligation is to provide continuous access to the software, and revenue is recognized ratably over the subscription period as the performance obligation is satisfied.

Professional Services (Consulting and Systems Integration) - The Company generates revenue from professional services related to AI implementation, data migration, solution design, and systems integration. The primary performance obligation is to provide professional services as specified in customer statements of work, and revenue is recognized over time as services are performed, generally based on hours incurred for time-and-materials

arrangements or on a straight-line or milestone basis for fixed-price contracts. The Company acts as the principal in providing these services, and amounts billed for services rendered are non-refundable.

Cloud and License Resale Revenue - The Company generates revenue by reselling licenses for Google Cloud and Google Workspace products. The Company’s performance obligation is to arrange for the provision of the software licenses to end customers, which is satisfied at a point in time when the licenses are provisioned for customer use. The Company is not the primary obligor in these transactions and acts as an agent, as Google is responsible for providing the underlying software. Accordingly, revenue is recognized on a net basis, representing the margin or commission earned.

	Software Subscriptions (SaaS)	Professional Services	Cloud & License Resale Revenue	Discounts and Other	Total Revenue
2024	814,695	185,692	759,113	34,328	1,793,829
2023	962,802	121,195	56,480	31,356	1,171,833

Other Income

The Company generated other income of \$311,853 and \$663,214 in 2024 and 2023, respectively, primarily consisting of \$286,689 and \$609,910 in 2024 and 2023, respectively, earned from incentive and marketing support funds received from Google, which are recognized as income when earned in accordance with the related program terms.

Capitalized Internal-Use Software Costs

We are required to follow the guidance of Accounting Standards Codification 350 (“ASC 350”), Intangibles- Goodwill and Other in accounting for the cost of computer software developed for internal-use and the accounting for web-based product development costs. ASC 350 requires companies to capitalize qualifying computer software costs, which are incurred during the application development stage, and amortize these costs on a straight-line basis over the estimated useful life of the respective asset.

Costs related to preliminary project activities and post implementation activities are expensed as incurred. Internal-use software is amortized on a straight-line basis over its estimated useful life which is determined to be 3 years.

Accounts Receivable

Trade receivables due from customers are uncollateralized customer obligations due under normal trade terms. Trade receivables are stated at the amount billed to the customer. Payments of trade receivables are allocated to the specific invoices identified on the customer's remittance advice or, if unspecified, are applied to the earliest unpaid invoices. Payments are generally collected upfront, but some of the merchants that products are sold through have a delay between collecting from the customer and sending to the Company.

The Company estimates an allowance for doubtful accounts based upon an evaluation of the current status of receivables, historical experience, and other factors as necessary. It is reasonably possible that the Company’s estimate of the allowance for doubtful accounts will change.

Employee Retention Credits

The Company has filed Employee Retention Credit (“ERC”) claims for certain payroll periods through its professional employer organization. As of December 31, 2024, ERC claims with an estimated gross value of approximately \$126,000 remain pending with the Internal Revenue Service. Because the claims have not been approved or refunded as of year end, no receivable has been recorded in the accompanying financial statements.

Advertising Costs

Advertising costs associated with marketing the Company's products and services are generally expensed as costs are incurred.

General and Administrative

General and administrative expenses consist of payroll and related expenses for employees and independent contractors involved in general corporate functions, including accounting, finance, tax, legal, business development, and other miscellaneous expenses.

Equity Based Compensation

The Company accounts for stock options issued to employees under ASC 718 (Stock Compensation). Under ASC 718, share-based compensation cost to employees is measured at the grant date, based on the estimated fair value of the award, and is recognized as an item of expense ratably over the employee's requisite vesting period. The Company has elected early adoption of ASU 2018-07, which permits measurement of stock options at their intrinsic value, instead of their fair value. An option's intrinsic value is defined as the amount by which the fair value of the underlying stock exceeds the exercise price of an option. In certain cases, this means that option compensation granted by the Company may have an intrinsic value of \$0.

The Company measures compensation expense for its non-employee stock-based compensation under ASC 505 (Equity). The fair value of the option issued or committed to be issued is used to measure the transaction, as this is more reliable than the fair value of the services received. The fair value is measured at the value of the Company's common stock on the date that the commitment for performance by the counterparty has been reached or the counterparty's performance is complete. The fair value of the equity instrument is charged directly to expense and credited to additional paid-in capital.

There is not a viable market for the Company's common stock to determine its fair value, therefore management is required to estimate the fair value to be utilized in the determining stock-based compensation costs. In estimating the fair value, management considers recent sales of its common stock to independent qualified investors, placement agents' assessments of the underlying common shares relating to our sale of preferred stock and validation by independent fair value experts. Considerable management judgment is necessary to estimate the fair value. Accordingly, actual results could vary significantly from management's estimates.

The following is an analysis of options to purchase shares of the Company's stock issued and outstanding:

Income Taxes

The Company is subject to corporate income and state income taxes in the state it does business. We account for income taxes under the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements. Under this method, we determine deferred tax assets and liabilities on the basis of the differences between the financial statement and tax bases of assets and liabilities by using enacted tax rates in effect for the year in which the differences are expected to reverse. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in income in the period that includes the enactment date. We recognize deferred tax assets to the extent that we believe that these assets are more likely than not to be realized. In making such a determination, we consider all available positive and negative evidence, including future reversals of existing taxable temporary differences, projected future taxable income, tax-planning strategies, and results of recent operations. If we determine that we would be able to realize our deferred tax assets in the future in excess of their net recorded amount, we would make an adjustment to the deferred tax asset valuation allowance, which would reduce the provision for income taxes. We record uncertain tax positions in accordance with ASC 740 on the basis of a two-step process in which (1) we determine whether it is more likely than not that the tax positions will be sustained on the basis of the technical merits of the position and (2) for those tax positions that meet the more-likely-than-not recognition threshold, we recognize the largest amount of tax benefit that is more than 50 percent likely to be realized upon ultimate settlement with the related tax authority. The Company does not have any uncertain tax provisions. The Company's primary tax jurisdictions are the United States, Canada, UAE, and California. The Company's primary deferred tax assets are its net operating loss (NOL) carryforwards which approximates its retained earnings as of the date of these financials. A deferred tax asset as a result of NOLs have not been recognized due to the uncertainty of future positive taxable income to utilize the NOL. The Company is no longer subject to U.S. federal, state and local, tax examinations by tax authorities for years before 2019.

NOTE 7 – SUBSEQUENT EVENTS

The Company has evaluated events subsequent to December 31, 2024 to assess the need for potential recognition or disclosure in this report. Such events were evaluated through January 29, 2026, the date these financial statements were available to be issued.

The shareholder loan, mentioned in Note 3 – Related Party Transactions, increased by \$130,000.

The Company entered into a payment plan with Google related to an outstanding liability, which provides for installment payments through July 2026.

NOTE 8 – GOING CONCERN

The accompanying balance sheet has been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The entity has realized losses, incurred negative working capital and cash flows from operations, and may continue to generate losses.

During the next twelve months, the Company intends to finance its operations with funds from a crowdfunding campaign and revenue producing activities. The Company's ability to continue as a going concern in the next twelve months following the date the financial statements were available to be issued is dependent upon its ability to produce revenues and/or obtain financing sufficient to meet current and future obligations and deploy such to produce profitable operating results. Management has evaluated these conditions and plans to generate revenues and raise capital as needed to satisfy its capital needs. No assurance can be given that the Company will be successful in these efforts. These factors, among others, raise substantial doubt about the ability of the Company to continue as a going concern for a reasonable period of time. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts and classification of liabilities.

NOTE 9 – CONCENTRATION OF RISK

The Company's operations and revenue are significantly dependent on its relationship with Google and the Google Cloud Platform (GCP). The Company's software products operate exclusively on GCP, and a portion of the Company's revenue is derived from reselling Google Cloud and Google Workspace licenses. Accordingly, changes in Google's partner programs, technology platform, or business strategy could have a material adverse effect on the Company's operations and financial results.

NOTE 10 – MANAGEMENT'S PLAN AND CONSIDERATIONS

Management believes certain factors partially mitigate the conditions giving rise to substantial doubt as discussed in the Going Concern disclosure in NOTE 8. As of December 31, 2024, total liabilities were approximately \$3.0 million, of which approximately \$2.0 million relates to a long-term SBA loan bearing a below-market interest rate of 3.75% with a 30-year maturity. Additionally, revenue increased from approximately \$1.17 million in 2023 to \$1.79 million in 2024 while operating expenses declined from approximately \$2.29 million to \$1.65 million. Management also considers its long-standing strategic relationship with Google and the continued financial support historically provided by founders through related-party funding as factors supporting ongoing operations. While these factors do not alleviate substantial doubt, management believes they support the Company's plan to improve operating performance.

The number of shares of Capital Stock shall equal the quotient obtained by dividing (x) the Purchase Amount by (y) the *Equity Financing Price* for Early Investors or Standard Investors, as applicable to Investor (as defined below).

(b) **Liquidity Event.** If there is a Liquidity Event before the termination of this SAFE (whether pursuant to Sections 1(a), (c) or (e)), the holder of this SAFE will automatically be entitled (subject to the liquidation priority set forth below in Section 1(d)) to receive a portion of Proceeds, due and payable to the holder of this SAFE immediately prior to, or concurrent with, the consummation of such Liquidity Event,

Notwithstanding the foregoing, if the Issuer’s board of directors determines in good faith that delivery of Capital Stock to the holder of this SAFE pursuant to this Section 1(b) would violate applicable law, rule or regulation, then the Issuer shall deliver to the holder of this SAFE in lieu thereof, a cash payment equal to the fair market value of such Capital Stock, as determined in good faith by the Issuer’s board of directors.

(c) **Dissolution Event.** If there is a Dissolution Event (defined below) before termination of this SAFE, this SAFE’s holder will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds (defined below) equal to the Cash-Out Amount, due and payable to the holder of this SAFE immediately before the consummation of the Dissolution Event.

(ii) On par with payments for other SAFEs, whether this Series or otherwise, and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other SAFEs and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the Investor and such other SAFEs and/or Preferred Stockholders in proportion to the full payments that would otherwise be due; and

(iii) Senior to payments for Common Stock.

The holder of this SAFE’s rights to receive their Conversion Amount is (A) on par with payments for Common Stock and other SAFEs (whether this Series of SAFEs or alternative SAFEs) and/or Preferred Stock who are also receiving Conversion Amounts or Proceeds on a similar as-converted to Common Stock basis, and (B) junior to payments described in clauses (i) and (ii) above (in the latter case, to the extent such payments are Cash-Out Amounts or similar liquidation preferences).

(e) **Termination.** This SAFE automatically terminates (without relieving the Issuer or holder of this SAFE of any obligations arising from a prior breach of or non-compliance with this instrument) upon the earlier to occur: (i) the issuance of Capital Stock to the holder of this SAFE pursuant to Section 1(a); or (ii) the payment, or setting aside for payment, of amounts due to the holder of this SAFE pursuant to Section 1(b) or Section 1(c) as subject to Section 1(d).

(a) The Issuer is a corporation duly incorporated, validly existing and in good standing under the laws of the state of its incorporation, and has the power and authority to own, lease and operate its properties and carry on its business as now conducted.

(c) The execution, delivery and performance by the Issuer of this instrument is within the power of the Issuer and, other than with respect to the actions to be taken when equity is to be issued to Investor, has been duly authorized by all necessary actions on the part of the Issuer. This instrument constitutes a legal, valid and binding obligation of the Issuer, enforceable against the Issuer in accordance

- (3) TRANSACTIONS IN VIRTUAL CURRENCY MAY BE IRREVERSIBLE, AND, ACCORDINGLY, LOSSES DUE TO FRAUDULENT OR ACCIDENTAL TRANSACTIONS MAY NOT BE RECOVERABLE;
- (4) SOME VIRTUAL CURRENCY TRANSACTIONS SHALL BE DEEMED TO BE MADE WHEN RECORDED ON A PUBLIC LEDGER, WHICH IS NOT NECESSARILY THE DATE OR TIME THAT THE CUSTOMER INITIATES THE TRANSACTION;
- (5) THE VALUE OF VIRTUAL CURRENCY MAY BE DERIVED FROM THE CONTINUED WILLINGNESS OF MARKET PARTICIPANTS TO EXCHANGE FIAT CURRENCY FOR VIRTUAL CURRENCY, WHICH MAY RESULT IN THE POTENTIAL FOR PERMANENT AND TOTAL LOSS OF VALUE OF A PARTICULAR VIRTUAL CURRENCY SHOULD THE MARKET FOR THAT VIRTUAL CURRENCY DISAPPEAR;
- (6) THERE IS NO ASSURANCE THAT A PERSON WHO ACCEPTS A VIRTUAL CURRENCY AS PAYMENT TODAY WILL CONTINUE TO DO SO IN THE FUTURE;
- (7) THE VOLATILITY AND UNPREDICTABILITY OF THE PRICE OF VIRTUAL CURRENCY RELATIVE TO FIAT CURRENCY MAY RESULT IN SIGNIFICANT LOSS OVER A SHORT PERIOD OF TIME;
- (8) THE NATURE OF VIRTUAL CURRENCY MAY LEAD TO AN INCREASED RISK OF FRAUD OR CYBER ATTACK;
- (9) THE NATURE OF VIRTUAL CURRENCY MEANS THAT ANY TECHNOLOGICAL DIFFICULTIES EXPERIENCED BY THE LICENSEE MAY PREVENT THE ACCESS OR USE OF A CUSTOMER'S VIRTUAL CURRENCY; AND
- (10) ANY BOND OR TRUST ACCOUNT MAINTAINED BY THE LICENSEE FOR THE BENEFIT OF ITS CUSTOMERS MAY NOT BE SUFFICIENT TO COVER ALL LOSSES INCURRED BY CUSTOMERS.

(c) CLIENT ACKNOWLEDGES THAT USING DIGITAL ASSETS AND ANY RELATED NETWORKS AND PROTOCOLS, INVOLVES SERIOUS RISKS. CLIENT AGREES THAT IT HAS READ AND ACCEPTS THE RISKS LISTED IN THIS SECTION 1.6, WHICH IS NON-EXHAUSTIVE AND WHICH MAY NOT CAPTURE ALL RISKS ASSOCIATED WITH CLIENT'S ACTIVITY. IT IS CLIENT'S DUTY TO LEARN ABOUT ALL THE RISKS INVOLVED WITH DIGITAL ASSETS AND ANY RELATED PROTOCOLS AND NETWORKS. CUSTODIAN MAKES NO REPRESENTATIONS OR WARRANTIES REGARDING THE VALUE OF DIGITAL ASSETS OR THE SECURITY OR PERFORMANCE OF ANY RELATED NETWORK OR PROTOCOL.

- (d) Risks in Relation to Securities Transactions. SUBJECT TO THE TERMS OF THIS AGREEMENT, THE CLIENT MAY TRANSFER SECURITIES FROM ITSELF, AN EXTERNAL PROVIDER, OR OTHER THIRD PARTIES TO A CUSTODIAL ACCOUNT. THE CLIENT WILL BEAR THE SOLE RISK AND EXPENSE ASSOCIATED WITH THE TRANSFER OF SECURITIES, INCLUDING ANY DELAYS OR INABILITY TO ACHIEVE FINAL SETTLEMENT AS REQUIRED BY THIS AGREEMENT. THE CUSTODIAN WILL FOLLOW ESTABLISHED INDUSTRY PRACTICES AND RELEVANT REGULATIONS TO FACILITATE THE TIMELY SETTLEMENT OF SECURITIES TRANSACTIONS. HOWEVER, THE CUSTODIAN WILL NOT BE LIABLE FOR ANY DELAYS OR FAILURES IN SETTLEMENT ARISING FROM CIRCUMSTANCES BEYOND ITS REASONABLE CONTROL OR THAT ARE ATTRIBUTABLE TO THE ACTIONS OR OMISSIONS OF THIRD PARTIES INVOLVED IN THE SETTLEMENT PROCESS. THE CLIENT ACKNOWLEDGES THAT THE SETTLEMENT OF SECURITIES MAY INVOLVE INTERMEDIARY ENTITIES, SUCH AS CLEARINGHOUSES, DEPOSITORY, OR TRANSFER AGENTS, AND THAT THE CUSTODIAN'S ROLE IS LIMITED TO THE CUSTODY, AND TRANSFER, AND PROVISION OF OTHER SERVICES WITH RESPECT TO OF THE SECURITIES AS INSTRUCTED BY THE CLIENT.

2. CUSTODIAL ACCOUNT.

2.1. Registration; Authorized Persons

- (a) To use the Custodial Services, Client must create a Custodial Account by providing Custodian with all information requested. Custodian may, in its sole discretion, refuse to allow Client to establish a Custodial Account, limit the number of Custodial Accounts, and/or decide to subsequently terminate a Custodial Account.
- (b) Client will maintain an updated and current list of Authorized Persons at all times on the Company Site and will immediately notify Custodian of any changes to the list of Authorized Persons by updating the list on the Company Site, including for termination of employment, or otherwise. Client shall make available all necessary documentation and identification information, as reasonably requested by Custodian to confirm: (i) the identity of each Authorized Person; (ii) that each Authorized Person is eligible to be deemed an "Authorized Person" as defined in this Agreement; and (iii) the party(ies) requesting the changes in the list of Authorized Persons have valid authority to request changes on behalf of Client.

- 2.2. General.** The Custodial Services allow Client to deposit supported Assets to Client's Account, and to withdraw supported Assets from Client's Custodial Account to an external location, in each case, pursuant to Instructions Client provides through the Company Site (each such transaction is a "Custody Transaction"). The Assets stored in Client's Custodial Account will not be commingled with other Assets without express action taken by Client and will be held in custody pursuant to the terms of this Agreement. Custodian reserves the right to refuse to process or to cancel any pending Custody Transaction: as required by Applicable Law; to enforce transaction, threshold, and condition limits; or if Custodian reasonably believes that the Custody Transaction may violate or facilitate the violation of any Applicable Law, regulation or rule of a governmental authority or self-regulatory organization. Custodian cannot reverse a Custody Transaction which has been broadcast to a Digital Asset network.

2.3. Instructions.

- (a) Custodian acts upon instructions ("Instructions") given by Authorized Persons that are received and verified by Custodian in accordance with its procedures and this Agreement.
- (b) Instructions will be required for any action requested of the Custodian. Instructions shall continue in full force and effect until canceled (if possible) or executed.
- (c) The Custodian shall be entitled to rely upon any Instructions it receives from an Authorized Person (or from a person reasonably believed by the Custodian to be an Authorized Person) pursuant to this Agreement.
- (d) The Custodian may assume that any Instructions received hereunder are not in any way inconsistent with the provisions of organizational documents of the Client or of any vote, resolution, or proper authorization and that the Client is authorized to take the actions specified in the Instructions.
- (e) Client must verify all transaction information prior to submitting Instructions to the Custodian. The Custodian shall have no duty to inquire into or investigate the validity, accuracy or content of any Instructions.
- (f) If any Instructions are ambiguous, incomplete, or conflicting, Custodian may refuse to execute such Instructions until any ambiguity, incompleteness, or conflict has been resolved. Custodian may refuse to execute Instructions if, in its sole opinion, such Instructions are outside the scope of its duties under this Agreement or are contrary to any Applicable Law.
- (g) Client is responsible for Losses (as defined below) resulting from inaccurate Instructions (e.g., if Client provides the wrong destination address for executing a withdrawal transaction). Custodian does not guarantee the identity of any user, receiver, requestee, or other party to a Custody Transaction. Custodian shall have no liability whatsoever for failure to perform pursuant to such Instructions except in the case of Custodian's gross negligence, fraud, or willful misconduct.
- (h) Unless otherwise directed by Client and confirmed by Custodian in writing, Client expressly acknowledges and agrees that the Platform Provider shall constitute an Authorized Person. Any and all Instructions received by the Custodian, whether electronically or otherwise, from the Platform Provider will be deemed as proper Instructions.

2.4. Digital Asset Deposits and Withdrawals.

- (a) Prior to initiating a deposit of Digital Assets to Custodian, Client must confirm that Custodian offers Custodial Services for that specific Digital Asset. The list of supported Digital Assets is currently available at: <https://www.bitgo.com/resources/coins>. The foregoing list or foregoing URL may be updated or changed from time to time in Custodian's sole discretion. By initiating a deposit of Digital Assets to a Custodial Account, Client attests that Client has confirmed that the Digital Asset being transferred is supported by Custodian.
- (b) Client must initiate any withdrawal request through Client's Custodial Account to a Client wallet address. Custodian will process withdrawal requests for amounts under \$250,000, either in a single transaction or aggregated in a series of transactions, during a rolling 24 hour period without video verification, to a Client-whitelisted address which has been previously used to which Client has made a withdraw to at least once. The time of such a request shall be considered the time of transmission of such notice from Client's Custodial Account. Custodian reserves the right to request video verification for any transaction or series of transactions under the threshold of \$250,000. Custodian will require video verification for withdrawal requests greater than \$250,000 or requests

made to a new address, either in a single transaction or aggregated in a series of transactions, during a rolling 24 hour period; provided, Custodian can require video calls for amounts less than \$250,000 if it deems necessary for security, compliance, or any other purposes in its sole discretion. The initiation of the 24 hour time period to process the withdrawal request shall be considered at the time at which client completes video verification.

- (c) As further set forth in Section 3.5, Client must manage and keep secure any and all information or devices associated with deposit and withdrawal procedures, including YubiKeys and passphrases or other security or confirmation information. Custodian reserves the right to charge or pass through network fees (e.g. miner fees or validator fees) to process a Digital Asset transaction on Client's behalf. Custodian will notify Client of the estimated network fee at or before the time Client authorizes the transaction.

2.5. Access Time.

- (a) Custodian requires up to 24 hours (excluding weekends and US federal holidays) between any request to withdraw Digital Assets or Securities from Client's Custodial Account and submission of Client's withdrawal to the applicable Digital Asset network.
- (b) Custodian reserves the right to take additional time beyond the 24 hour period if such time is required to verify security processes for large or suspicious transactions. Any such processes will be executed reasonably and in accordance with Custodian documented protocols, which may change from time to time at the sole discretion of Custodian.
- (c) Custodian makes no representations or warranties with respect to the availability and/or accessibility of the Digital Assets or Securities. Custodian will make reasonable efforts to ensure that Client initiated deposits are processed in a timely manner, but Custodian makes no representations or warranties regarding the amount of time needed to complete processing of deposits which is dependent upon factors outside of Custodian's control.

2.6. Supported Digital Assets. The Custodial Services are available only in connection with those Digital Assets that Custodian supports (list currently available at <https://www.bitgo.com/resources/coins>). The Digital Assets that Custodian supports may change from time to time in Custodian's discretion. Custodian assumes no obligation or liability whatsoever regarding any unsupported Digital Asset sent or attempted to be sent to it, or regarding any attempt to use the Custodial Services for Digital Assets that Custodian does not support. Custodian may, from time to time, determine types of Digital Assets that will be supported or cease to be supported by the Custodial Services. Custodian will use commercially reasonable efforts to provide Client with thirty (30) days' prior written notice before ceasing to support a Digital Asset, unless Custodian is required to cease such support sooner to comply with Applicable Law or in the event such support creates an urgent security or operational risk in Custodian's reasonable discretion (in which event Custodian will provide as much notice as is practicable under the circumstances). Under no circumstances should Client attempt to use the Custodial Services to deposit or store any Digital Assets that are not supported by Custodian. Depositing or attempting to deposit Digital Assets that are not supported by Custodian will result in such Digital Asset being unretrievable by Client and Custodian.

2.7. Advanced Protocols. Unless specifically announced on the Custodian or Company website, Custodian does not support airdrops, side chains, or other derivative, enhanced, or forked protocols, tokens, or coins which supplement or interact with a Digital Asset supported by Custodian (collectively, "Advanced Protocols"). Client shall not use its Custodial Account to

attempt to receive, request, send, store, or engage in any other type of transaction involving an Advanced Protocol. Custodian assumes absolutely no responsibility whatsoever in respect to Advanced Protocols.

2.8. Operation of Digital Asset Protocols.

- (a) Custodian does not own or control the underlying software protocols which govern the operation of Digital Assets supported on the Custodian platform. By using the Custodial Services, Client acknowledges and agrees that (i) Custodian is not responsible for operation of the underlying protocols and that Custodian makes no guarantee of their functionality, security, or availability; and (ii) the underlying protocols are subject to sudden changes in operating rules (a.k.a. “forks”), and (iii) that such forks may materially affect the value, function, and/or even the name of the Digital Assets that Client stores in Client’s Custodial Account. In the event of a fork, Client agrees that Custodian may temporarily suspend Custodian operations with respect to the affected Digital Assets (with or without advance notice to Client) and that Custodian may, in its sole discretion, decide whether or not to support (or cease supporting) either branch of the forked protocol entirely. Client acknowledges and agrees that Custodian assumes absolutely no liability whatsoever in respect of an unsupported branch of a forked protocol or its determination whether or not to support a forked protocol.
- (b) Client agrees that all “airdrops” (free distributions of certain Digital Assets) and forks will be handled by Custodian pursuant to its fork policy (the “Fork Policy”) (currently available at www.bitgo.com/resources/bitgo-fork-policy). Client acknowledges that Custodian is under no obligation to support any airdrops or forks, or handle them in any manner, except as detailed above and in the Fork Policy. Client further acknowledges that Custodian, at its sole discretion, may update the Fork Policy from time to time and/or the URL at which it is available and Client agrees that Client is responsible for reviewing any such updates. Client is under no obligation to provide notification to Client of any modification to the Fork Policy.

2.9. Account Statements.

- (a) Custodian will provide Client with an electronic account statement every calendar quarter. Each statement will be provided via the Custodian’s website and notice of its posting will be sent via electronic mail.
- (b) The Client will have forty-five (45) days to file any written objections or exceptions with the Custodian after the posting of a Custodial Account statement online. If the Client does not file any objections or exceptions within a forty-five (45) day period, this shall indicate the Client’s approval of the statement and will preclude the Client from making future objections or exceptions regarding the information contained in the statement. Such approval by the Client shall be full acquittal and discharge of Custodian regarding the transactions and information on such statement.
- (c) To value Digital Assets held in the Client’s account, the Custodian will electronically obtain USD equivalent prices from digital asset market data with amounts rounded up to the seventh decimal place to the right. Custodian cannot guarantee the accuracy or timeliness of prices received and the prices are not to be relied upon for any investment decisions for the Client’s account.

- 2.10. Independent Verification.** If Client is subject to Rule 206(4)-2 under the Investment Advisers Act of 1940, Custodian shall, upon written request, provide Client’s authorized independent public accountant confirmation of, or access to, information sufficient to confirm (i) Client’s

Digital Assets as of the date of an examination conducted pursuant to Rule 206(4)-2(a)(4), and (ii) Client's Digital Assets are held either in a separate account under Client's name or in accounts under Client's name as agent or trustee for Client's clients.

2.11. Support and Service Level Agreement. Custodian will use commercially reasonable efforts: (i) to provide reasonable technical support to Client, by email or telephone, during Custodian's normal business hours (9:30 AM to 6 PM ET); (ii) to respond to support requests in a timely manner; (iii) resolve such issues by providing updates and/or workarounds to Client (to the extent reasonably possible and practical), consistent with the severity level of the issues identified in such requests and their impact on Client's business operations; (iv) abide by the terms of the Service Level Agreement currently made available at <https://www.bitgo.com/resources/bitgo-service-level-agreement> (as Service Level Agreement or the URL at which it is made available may be amended from time to time); and (vii) to make Custodial Accounts available via the internet 24 hours a day, 7 days a week.

2.12. Clearing and Settlement Services.

- (a) Custodian may offer clearing and settlement services (the "Settlement Services") that facilitate the settlement of transactions of Digital Assets, Securities, or Fiat Currency between Client and Client's trade counterparty that also has a Custodial Account with Custodian ("Settlement Partner"). Client acknowledges that the Settlement Service is an API product complemented by a Web user interface (UI). Clients may utilize the Settlement Services by way of settlement of one-sided requests with counterparty affirmation or one-sided requests with instant settlement; and two-sided requests with reconciliation. Client understands that the Assets available for use within the Settlement Services may not include all of Client's Assets under custody. For the avoidance of doubt, use of the API product is subject to the terms and conditions set forth in Section 1.4 of this Agreement.
- (b) The Settlement Services allow Client to submit, through the Custodian's settlement platform, a request to settle a purchase or sale of Assets with a Settlement Partner. Client authorizes Custodian to accept Client's cryptographic signature submitted by way of the Settlement Services API. When a cryptographic signature is received by way of the Settlement Services along with the settlement transaction details, Client is authorizing Custodian to act on Client's direction to settle such transaction.
- i. A one-sided request with counterparty affirmation requires Client to submit a request, including its own cryptographic signature on the trade details, via API calls. Custodian will notify the Settlement Partner and lock funds of both parties while waiting for the Settlement Partner to affirm the request. Custodian will settle the trade immediately upon affirmation and the locked funds will be released.
 - ii. A one-sided request with instant settlement requires one side of the trade to submit a request, including cryptographic signatures of both parties to the trade, via API calls. Custodian will settle the trade immediately.
 - iii. A two-sided request with reconciliation requires that both Client and Settlement Partner submit requests via API calls, with each party providing their own cryptographic signatures. Custodian will reconcile the trades and settle immediately upon successful reconciliation.
 - iv. In any one-sided or two sided request, the Settlement Partner must be identified and selected by Client prior to submitting a settlement request.

- v. Client may submit a balance inquiry through the settlement platform, to verify that Settlement Partner has a sufficient balance of the applicable Asset(s) to be transacted before the Parties execute a transaction. This balance inquiry function is to be utilized only for the purpose of executing a trade transaction to ensure the Settlement Partner has sufficient Assets to settle the transaction. Client hereby expressly authorizes and consents to Custodian providing access to such information to Client's Settlement Partner in order to facilitate the settlement.
 - vi. Client and Settlement Partner's Custodial Accounts must have sufficient Assets prior to initiating any settlement request. The full amount of assets required to fulfill a transaction are locked until such order has been completed. All orders are binding on Client and Client's Custodial Account. Custodian does not guarantee that any settlement will be completed by any Settlement Partner. Client may not be able to withdraw an offer (or withdraw its acceptance of an offer) prior to completion of a settlement and Custodian shall not be liable for the completion of any order after a cancellation request has been submitted.
 - vii. Client acknowledges and accepts responsibility for ensuring only an appropriate Authorized Person of its Custodial Account has access to the API key(s).
 - viii. Client further understands and agrees that Client is solely responsible for any decision to enter into a settlement by way of the Settlement Services, including the evaluation of any and all risks related to any such transaction and has not relied on any statement or other representation of Custodian. Client understands that Custodian is a facilitator and not a counterparty to any settlement; and, as a facilitator, Custodian bears no liability with respect to any transaction and does not assume any clearing risk.
 - ix. Any notifications that Client may receive regarding the Settlement Services are Client's responsibility to review in a timely manner.
- (c) Upon execution of the settlement, the Settlement Services shall provide Client, by electronic means, a summary of the terms of the transaction, including: the type of Digital Asset or Securities purchased or sold; the delivery time; and the purchase or sale price. Settlement of a transaction is completed in an omnibus account by way of offsetting ledger transactions.
 - (d) Custodian reserves the right to refuse to settle any transaction, or any portion of any transaction, for any reason, at its sole discretion. Custodian bears no responsibility if any such order was placed or active during any time the Settlement Services system is unavailable or encounters an error; or, if any such order triggers certain regulatory controls.
 - (e) Client understands and agrees that Custodian may charge additional fees for the Settlement Services furnished to Client as indicated in the Fee Schedule attached as Schedule A and any amendments to Schedule A.
 - (f) Clearing and settlement transactions shall be subject to all Applicable Law.

3. USE OF SERVICES.

- 3.1. Company Site and Content.** Custodian hereby grants Client a limited, nonexclusive, non transferable, revocable, royalty-free license, subject to the terms of this Agreement, to access and

use the Company Site and related content, materials, information (collectively, the “Content”) solely for using the Services in accordance with this Agreement. Any other use of the Company Site or Content is expressly prohibited and all other right, title, and interest in the Company Site or Content is exclusively the property of Custodian and its licensors. Client shall not copy, transmit, distribute, sell, license, reverse engineer, modify, publish, or participate in the transfer or sale of, create derivative works from, or in any other way exploit any of the Content, in whole or in part. “www.bitgo.com,” “BitGo,” “BitGo Custody,” and all logos related to the Custodial Services or displayed on the Company Site are either trademarks or registered marks of Custodian or its licensors. Client may not copy, imitate or use them without Custodian’s prior written consent in each instance.

- 3.2. Website Accuracy.** Although Custodian intends to provide accurate and timely information on the Company Site, the Company Site (including, without limitation, the Content, but excluding any portions thereof that are specifically referenced in this Agreement) may not always be entirely accurate, complete, or current and may also include technical inaccuracies or typographical errors. In an effort to continue to provide Client with as complete and accurate information as possible, such information may be changed or updated from time to time without notice, including without limitation information regarding Custodian policies, products and services. Accordingly, Client should verify all information before relying on it, and all decisions based on information contained on the Company Site are Client’s sole responsibility and Custodian shall have no liability for such decisions. Links to third-party materials (including without limitation websites) may be provided as a convenience but are not controlled by Custodian. Custodian is not responsible for any aspect of the information, content, or services contained in any third-party materials or on any third-party sites accessible from or linked to the Company Site.
- 3.3. Third-Party or Non-Permissioned Users.** Client acknowledges that granting permission to a third party or non-permissioned user to take specific actions on Client’s behalf does not relieve Client of any of Client’s responsibilities under this Agreement and may violate the terms of this Agreement. Client is fully responsible for all activities taken on Client’s Custodial Account (including, without limitation, acts or omissions of any third party or non-permissioned user with access to Client’s Custodial Account). Further, Client acknowledges and agrees that Client will not hold Custodian responsible for, and will indemnify, defend and hold harmless the Custodian Indemnitees (as defined below) from and against any Losses arising out of or related to any act or omission of any party using Client’s Custodial Account (including, without limitation, acts or omissions of any third party or non-permissioned user with access to Client’s Custodial Account). Client must notify Custodian immediately if a third party or non-permissioned user accesses or connects to Client’s Custodial Account by contacting Client’s Custodial Account representative or by emailing security@bitgo.com from the email address associated with Client’s Custodial Account.
- 3.4. Prohibited Use.** Client acknowledges and agrees that Custodian may monitor use of the Services and the resulting information may be utilized, reviewed, retained and or disclosed by Custodian in aggregated and non-identifiable forms for its legitimate business purposes or in accordance with Applicable Law. Client will not use the Services, directly or indirectly via the Developer Application, to: (i) upload, store or transmit any content that is infringing, libelous, unlawful, tortious, violate privacy rights, or that includes any viruses, software routines or other code designed to permit unauthorized access, disable, erase, or otherwise harm software, hardware, or data; (ii) engage in any activity that interferes with, disrupts, damages, or accesses in an unauthorized manner the Services, servers, networks, data, or other properties of Custodian or of its suppliers or licensors; (iii) develop, distribute, or make available the Developer Application in any way in furtherance of criminal, fraudulent, or other unlawful activity; (iv) make the

Services available to, or use any Services for the benefit of, anyone other than Client or end users of the Developer Application; (v) sell, resell, license, sublicense, distribute, rent or lease any Services, or include any Services in a Services bureau or outsourcing offering; (vi) permit direct or indirect access to or use of any Services in a way that circumvents a contractual usage limit; (vii) obscure, remove, or destroy any copyright notices, proprietary markings or confidential legends; (viii) to build a competitive product or service; (ix) distribute the Developer Application in source code form in a manner that would disclose the source code of the Services; or (x) reverse engineer, decrypt, decompile, decode, disassemble, or otherwise attempt to obtain the human readable form of the Services, to the extent such restriction is permitted by applicable law. Client will comply with the restrictions set forth in Appendix 1.

3.5. Security; Client Responsibilities.

- (a) Client is responsible for maintaining adequate security and control of any and all Client Keys, IDs, passwords, hints, personal identification numbers, non-custodial wallet keys, API keys, yubikeys, 2-factor authentication devices or backups, or any other codes that Client uses to access the Services. Any loss or compromise of the foregoing information and/or Client's personal information may result in unauthorized access to Client's Custodial Account by third parties and the loss or theft of Assets. Client is responsible for keeping Client's email address and telephone number up to date in Client's profile in order to receive any notices or alerts that Custodian may send Client. Custodian assumes no responsibility for any loss that Client may sustain due to compromise of login credentials due to no fault of Custodian and/or failure to follow or act on any notices or alerts that Custodian may send to Client. In the event Client believes Client's Custodial Account information has been compromised, Client will contact Custodian Support immediately at security@bitgo.com.
- (b) Client will ensure that all Authorized Persons will be adequately trained to safely and securely access the Services, including understanding of general security principles regarding passwords and physical security of computers, keys, and personnel.
- (c) Client will immediately notify Custodian of any unauthorized access, use or disclosure of Client's Account credentials, or any relevant breach or suspected breach of security (including breach of Client's systems, networks or developer applications). Client will provide Custodian with all relevant information Custodian reasonably requests to assess the security of the assets, Custodial Accounts and wallets.

3.6. Taxes. The Client will, for all tax purposes, be treated as the owner of all Assets held by the Custodian pursuant to this Agreement. It is the Client's sole responsibility to determine whether and to what extent Taxes and Tax reporting obligations may apply to the Client with respect to its Assets, Custodial Accounts, and transactions, and the Client will timely pay all such taxes and will file all returns, reports, and disclosures required by Applicable Law. Client is solely responsible for any taxes applicable to any deposits or withdrawals Client conducts through the Custodial Services, and for withholding, collecting, reporting, and/or remitting the correct amount of taxes to the appropriate tax authorities. Client's deposit and withdrawal history is available by accessing Client's Custodial Account through the Company Site or by contacting Custodian directly. If Custodian or an affiliate of Custodian has a legal obligation to pay or collect taxes for which Client is responsible, Client will be invoiced for the relevant amount and Client will pay that amount unless Client provides the Custodian or relevant affiliate of Custodian with a valid tax exemption certificate authorized by the appropriate taxing authority.

3.7. Third Party Providers. Client acknowledges and agrees that the Services may be provided from time to time by, through or with the assistance of affiliates of or vendors to Custodian, including

BitGo Inc. as described above. Custodian shall remain liable for its obligations under this Agreement in the event of any breach of this Agreement caused by such affiliates or any vendor.

3.8. Developer Applications.

- (a) Subject to Custodian's acceptance of Client as a developer, and subject to Client's performance of its obligations under this Agreement, Custodian grants Client a nonassignable, non-transferrable, revocable, personal and non-exclusive license under Custodian's applicable intellectual property rights to use and reproduce the Custodian software development kit for Developer Applications.
- (b) Client agrees that all end users of any Developer Application will be subject to the same use restrictions that bind Client under this Agreement (including under Section 3.4 (Prohibited Use) and Appendix 1).
- (c) Client is solely responsible and has sole liability for Client's end users that access or use the Services via the Developer Application and all acts or omissions taken by such end users will be deemed to have been taken (or not taken) by Client. Client is responsible for the accuracy, quality and legality of Developer Application content and user data. Client will comply with, and ensure that Client's Developer Application and end users comply with all Applicable Law.

4. CUSTODIAN OBLIGATIONS.

- 4.1. Insurance.** Custodian will obtain and/or maintain insurance coverage in such types and amounts as are commercially reasonable for the Custodial Services provided hereunder. Client acknowledges that any insurance related to theft of Digital Assets will apply to Custodial Services only (where keys are held by Custodian) and not Wallet Services for non-custodial accounts (where keys are held by Client).
- 4.2. Standard of Care.** Custodian will use commercially reasonable efforts in performing its obligations under this Agreement. Subject to the terms of this Agreement, Custodian shall not be responsible for any loss or damage suffered by Client as a result of the Custodian performing such duties unless the same results from an act of gross negligence, fraud, or willful misconduct on the part of the Custodian. Custodian shall not be responsible for the title, validity or genuineness of any of the Assets (or any evidence of title thereto) received or delivered by it pursuant to this Agreement.
- 4.3. Business Continuity Plan.** Custodian has established a business continuity plan that will support its ability to conduct business in the event of a significant business disruption ("SBD"). This plan is reviewed and updated annually, and can be updated more frequently, if deemed necessary by Custodian in its sole discretion. Should Custodian be impacted by an SBD, Custodian aims to minimize business interruption as quickly and efficiently as possible. To receive more information about Custodian's business continuity plan, please send a written request to security@bitgo.com.

5. TERM; TERMINATION.

- 5.1. Initial Term; Renewal Term.** This Agreement will commence on the Effective Date and will continue for one (1) year, unless earlier terminated in accordance with the terms of this Agreement (the "Initial Term"). After the Initial Term, this Agreement will automatically renew for successive one-year periods (each a "Renewal Term"), unless either party notifies the other of its intention not to renew at least sixty (60) days prior to the expiration of the then-current Term. "Term" means the Initial Term and any Renewal Term.

5.2. Termination for Breach. Either party may terminate this Agreement if the other party breaches a material term of this Agreement and fails to cure such breach within thirty (30) calendar days following written notice thereof from the other party.

5.3. Suspension, Termination, or Cancellation by Custodian.

(a) Custodian may suspend or restrict Client's access to the Custodial Services and/or deactivate, terminate or cancel Client's Custodial Account if:

- i. Custodian is so required by a facially valid subpoena, court order, or binding order of a government authority;
- ii. Custodian reasonably suspects Client of using Client's Custodial Account in connection with a Prohibited Use or Prohibited Business, as set forth in Appendix 1 to this Agreement;
- iii. Custodian perceives a risk of legal or regulatory non-compliance associated with Client's Custodial Account activity or the provision of the Custodial Account to Client by Custodian (including but not limited to any risk perceived by Custodian in the review of any materials, documents, information, statements or related materials provided by Client after execution of this Agreement);
- iv. Custodian service partners are unable to support Client's use;
- v. Client takes any action that Custodian deems as circumventing Custodian's controls, including, but not limited to, opening multiple Custodial Accounts, abusing promotions which Custodian may offer from time to time, or otherwise misrepresenting of any information set forth in Client's Custodial Account;
- vi. Client fails to pay fees for a period of 90 days; or
- vii. Client's Custodial Account has no Digital Assets, Fiat Currency, or Securities for 180 consecutive days.

(b) If Custodian suspends or restricts Client's access to the Custodial Services and/or deactivates, terminates or cancels Client's Custodial Account for any reason, Custodian will provide Client with notice of Custodian's actions via email unless prohibited by Applicable Law. Client acknowledges that Custodian's decision to take certain actions, including limiting access to, suspending, or closing Client's Custodial Account, may be based on confidential criteria that are essential to Custodian's compliance, risk management, or and security protocols. Client agrees that Custodian is under no obligation to disclose the details of any of its internal risk management and security procedures to Client.

(c) If Custodian terminates Client's Custodial Account, this Agreement will automatically terminate on the later of (i) the effective date of such cancellation or (ii) the date on which all of Client's funds are withdrawn.

5.4. Effect of Termination. APPENDIX 2: ACH TRANSFER TERMS & CONDITIONS

1.1 Introduction. These Terms and Conditions (“ACH Transfer Terms”) apply to your use of a designated bank account for any transfers you may make to BitGo Trust Company, Inc. (“BitGo”). These ACH Transfer Terms also apply to any transfers you may request from BitGo’s designated bank account, including those related to the return of U.S. Dollars that result from the sale of your Digital Assets (as defined in the Agreement executed between you and BitGo). Please read and keep these ACH Transfer Terms.

If you choose to use a bank account as your transfer method, you accept and agree to these ACH Transfer Terms on the date of each transfer.

BitGo’s external transfer services allow you to transfer funds to your eligible accounts held at BitGo and from other eligible accounts held by you at other U.S. financial institutions, and to eligible accounts held by a third party at BitGo or other U.S. financial institutions. External transfers may only be requested:

- If the transfer is permitted by your or a third party’s external financial institution, as applicable; and
- If the transfer is permitted by law.

BitGo reserves the right to obtain such additional information as we deem reasonably necessary. You agree to promptly update your records if your email address or other information changes.

1.2 Information. You authorize BitGo to validate the external accounts through the use of a test transaction, in which one or more low value payments will be both credited to and debited from the account. The test credit will always be of the same or less amount, so that the balance in any of your accounts will never be less than the actual balance. BitGo may not use test transactions with respect to its relationship with you.

Once the test transaction is complete, we may ask you to access your account to tell us the amount of the test credit or debit or any additional information reported by your bank. We may also verify your external accounts by requiring you to submit proof of ownership of the account. Other account verification methods may also be employed at the sole discretion of BitGo.

1.3 Accounts. By using BitGo external transfer service, you represent and warrant to BitGo that you have the right to authorize and permit us to process such funds transfers or for any other purpose authorized by this agreement, and you assure us that by disclosing and authorizing us to use such information you are not violating any third-party rights. You warrant and represent that the information you are providing us is true, current, correct and complete. You hereby authorized and permit BitGo to use information submitted by you to accomplish these purposes and to configure the service to be compatible with the accounts.

You understand and agree that at all times your relationship with each account provider is independent of BitGo and your use of this service. BitGo will not be responsible for any acts or omissions by the financial institution or other provider of any account, including without limitation any modification, interruption or discontinuance of any account by such provider.

Not all types of accounts are eligible for this service. Be sure to check with your financial institution for restrictions regarding transfers among your retirement, savings, trusts, custodial, business, corporate and other account types. BitGo is not responsible for any costs or losses incurred from transfers that are not permitted under such restrictions by the provider of your account or those imposed by applicable law.

1.4 Transfer Limitations. You may use the external transfer service to transfer funds to or from an eligible BitGo account and another account held by you or a third party at another U.S. financial institution. Transfers may be scheduled to occur one time, for a future date, or on a specific recurring basis.

We reserve the right to impose and/or change transfer limits on your account from time to time in our sole discretion. We reserve the right to suspend or restrict access to use the external transfer service immediately and without prior written notice to you. You understand and agree that such action is reasonable for us to take in order to protect ourselves from loss.

1.5 Initiating and Scheduling Transfers. The cut off time for same business day transfers is [4:45 pm ET]. Any transfer initiated after the applicable cut off time will be considered as being initiated on the next business day. Any transfer initiated on Saturday, Sunday or on a bank holiday will be considered as being initiated on the next business day.

Transfer can be scheduled on either a one time or recurring basis. Processing of one-time transfers may be initiated immediately or scheduled for initiation on a future date. Recurring transfers may be used when a set amount is transferred at regular intervals.

Your transfer must be payable in U.S. dollars. Transfers that we process using your bank account will be identified as “BitGo Trust Company, Inc.” (or similar identifier) on the statement issued by your bank or other financial institution holding your account.

All questions relating to any transactions made using your bank account by us should be initially directed to us, but may also require involvement of your bank.

1.6 Recurring Transfers. In addition to authorizing one-time transfers, you can request that BitGo facilitate recurring periodic transfers from your designated bank account on a daily, weekly or monthly basis. If you have established a weekly recurring transfer, then your transfer will be scheduled to occur on the same day of each week as the initial transfer in such recurring transfer (for example, every Wednesday). If you have established a monthly recurring transfer, then your transfer will be scheduled to occur on either the first or the fifteenth day of each month, based on your election when you initiate the recurring transfer. Your initial recurring transfer will not occur until you have submitted your recurring ACH transfer request and BitGo has had a reasonable amount of time to act upon it.

Any termination or cancellation of your recurring ACH transfer instructions will be effective as soon as BitGo has received your request and had a reasonable amount of time to act upon it.

BitGo may terminate any future recurring transfer without notice at any time for any reason.

1.7 Processing Time. When setting up a new external transfer account, please allow 3 business days to process validation of the test transaction.

Once the test transaction is completed for an external account, you should allow up to 3 business days for processing a transfer.

Please note the receiving financial institution could place a hold on the funds or delay availability. With respect to withdrawals, contact the receiving financial institution for information on their funds availability policy.

1.8 Errors. You understand that we must rely on the information provided by you and you authorize us to act on any instruction which has been or reasonably appears to have been requested by you, to submit

transfer instructions on your behalf. You understand that financial institutions receiving the transfer instructions may rely on such information. We are not obliged to take any further steps to confirm or authenticate such instructions and will act on them without getting further confirmation. You understand that if you provide us with incorrect information or if there is any error in your instructions we will make all reasonable efforts to reserve or delete such instructions, but you accept full responsibility for losses resulting from any of your errors, duplications, ambiguities or fraud in the information that you provide. You agree not to impersonate any person or use a name that you are not authorized to use. If any information you provide is untrue, inaccurate, not current or incomplete, without limiting other remedies, BitGo reserves the right to recover from you any costs or losses incurred as a direct or indirect result of the inaccurate or incomplete information.

We are not responsible for errors, delays and other problems caused by or resulting from the action or inaction of financial institutions holding the account. Although we will use reasonable efforts to try to assist you in resolving any such problems, you understand that any such errors, delays or other problems are the responsibility of the relevant financial institution. Any rights you may have against a financial institution for such errors, delays or other problems are subject to the terms of the agreements you have with such financial institutions, including any time limits during which complaints must be made.

1.9 Unlawful or Prohibited Use.

You warrant to us that you will not use this service for any purpose that is unlawful or not permitted, expressly or implicitly, by the terms of this agreement or by any applicable law or regulation. You further warrant and represent that you will not use this service in any manner that could damage, disable, overburden or impair the service or interfere with any other party's use of the service.

All transfers are subject to the rules and regulations governing the relevant accounts, whether held at BitGo or elsewhere. You agree not to process any transfer from or to an account that is not allowed, under the rules and regulations applicable to such accounts.

1.10 Rejection of Transfers. We reserve the right to decline any transfer, to submit transfer instructions or to carry out change or cancellation requests for any reason. We may, at any time, decline any transfer that we believe may violate applicable law, or where we believe there are not sufficient funds in your account to process any requested transfer. BitGo, in its sole discretion, may require that any or all Digital Assets purchased with funds from an ACH transfer be held in your BitGo Wallet for a period of up to 60 days.

1.11 Electronic Signature and ACH Authorization. You understand that to process your transfer instruction we utilize the Automated Clearing House (ACH), using applicable ACH Rules, to debit one of your accounts and credit another of your accounts. By choosing your bank account as your transfer method, you agree that: (a) you have read, understand and agree to these ACH Transfer Terms, and that this agreement constitutes a "writing signed by you" under any applicable law or regulation, (b) you consent to the electronic delivery of the disclosures contained in these ACH Transfer Terms, (c) you authorize BitGo (or its agent) to make any inquiries we consider necessary to validate any dispute involving your transfer, which may include ordering a credit report and performing other credit checks or verifying the information you provide against third party databases, (d) you authorize BitGo (or its agent) to initiate one or more ACH debit entries (withdrawals) for specified amount(s) from your bank account, and you authorize the financial institution that holds your bank account to deduct such transferred amounts (including any transfers to be made on a recurring basis, as applicable), (e) you authorize BitGo (or its agent) to initiate one or more ACH credit entries (direct deposits) for specified amount(s) to your bank account, and you authorize the financial institution that holds your bank account to credit such transferred amounts, (f) once a sale is complete and an ACH transfer is initiated, the transaction cannot be cancelled; and (g) funds sent to you via ACH typically take two to four business days to reach your financial institution, and BitGo is not responsible for any delays

in the availability of funds, which may vary based on your financial institution's ACH processing procedures and settlement.

If the debit side fails or is returned for any reason and the credit side has been released and cannot be collected, you authorize us to collect from the account to which the credit side of the funds transfer was sent. We reserve the right to resubmit a debit, or a portion of the debit, in the event of an insufficient or uncollected funds return and if we cannot collect the amount credited. To process this collection, you understand and authorize us to debit the credited account or the debited account in either the same dollar amount as the original funds transfer or a portion of the debt. As discussed in more detail below, there may be a fee associated with such collection imposed by the financial institution holding the account.

In the event that a debit to any of your accounts, or any portion of any such debit, has failed and the credit side of such transaction has been released and cannot be collected, and we are unable to debit either the debited or the credited account as set forth above, we reserve the right, and you hereby authorize us, to debit any of your other accounts to the extent necessary to offset any resulting deficiency. We do not undertake to notify you in such event, other than by posting any such transfer or transfers to the applicable account in accordance with this agreement.

1.12 Fees. Because these are electronic transfers, these funds may be withdrawn from your designated bank account immediately. In the case of an ACH debit transaction that is rejected for insufficient funds, you understand that BitGo may at its discretion attempt to process the debit in the amount of the applicable requested transfer again within 30 days and BitGo may separately impose a fee of up to \$25 for each transaction returned for insufficient funds, as permitted by applicable law. You certify that you are an authorized user of your bank account and you will not dispute these scheduled transactions with such bank so long as the transactions correspond to these ACH Transfer Terms and any other applicable agreement related to your accounts with BitGo and its affiliates or such transfer.

You must notify BitGo in writing if you dispute any portion of any fees paid or payable by you under these ACH Transfer Terms or any related agreement. You must provide that written notice to BitGo within 60 days of the applicable charge, and BitGo will work with you to resolve the applicable dispute promptly. If you do not provide BitGo with this written notice of your fee dispute within this 60-day period, you will not be entitled to dispute any fees paid or payable by you.

All amounts and fees stated or referred to in these ACH Transfer Terms are exclusive of taxes, duties, levies, tariffs, and other governmental charges (collectively, "Taxes"). You shall be responsible for payment of all Taxes and any related interest and/or penalties resulting from any transfers made hereunder, other than any taxes based on BitGo's net income.

1.13 Service Changes and Discontinuation. We may modify or discontinue the Service or your use of some or all accounts within the service, with or without notice, without liability to you, any other user or any third-party. We may from time to time make available additional or new features to the service, including but not limited to, a higher dollar limit service. You will be approved or declined for any such additional service at our sole discretion and additional terms and conditions may apply. We reserve the right, subject to applicable law, to terminate your account within the Service and your right to use the service at any time and for any reason, including without limitation if we, in our sole judgment, believe you have engaged in conduct or activities that violate any of the Terms or the rights of BitGo, or if you provide us with false or misleading information or interfere with other users or the administration of the service. We reserve the right to charge a fee for the use of the service and any additional services or features that we may introduce. You understand and agree that you are responsible for paying all applicable fees associated with the use of our services.

1.14 Returned Transactions. You understand and agree that if any previously-initiated debit entry hereunder is returned for any reason (including because of insufficient funds), BitGo will be entitled to exercise remedies in accordance with the Custodial Services Agreement, including freezing your any assets held in any account held with BitGo or any affiliate thereof and reversing any Digital Asset purchases made and delivered to such account.

1.15 Your Liability for Unauthorized Transactions. Federal law limits your liability for any fraudulent, erroneous unauthorized transaction from your bank account based on how quickly you report it to your financial institution. As general rule, you should report any fraudulent, erroneous or unauthorized transactions to your bank within 60 days after the questionable transaction FIRST appeared on your bank account statement. You should contact your bank for more information about the policies and procedures that apply to your account and any unauthorized transactions, including any limits on your liability.

1.16 Our Liability. If we fail to debit or credit your bank account in accordance with these ACH Transfer Terms, in the correct amount or in the correct amount of time, we may be liable for certain losses directly caused by our failure as the law may impose in such cases. However, there are some exceptions. For instance, we will not be liable where: (1) you do not have enough money in your bank account; (2) your bank account is closed or deposits or withdrawals restricted; (3) any terminal or system was not working properly and you were advised of that before you initiated the transfer; (4) the failure was related to circumstances beyond our control (such as flood, fire, power outages, mechanical or system failures); (5) your financial institution refuses to honor an ACH debit or credit; (6) your instructions are lost or delayed in transmission to us; (7) a reasonable security concern, such as unauthorized use, causes us not to honor your instructions; (8) this transfer option has been discontinued or suspended; (9) we advise you that your request will not be processed; (10) you submit a cancellation request with respect to recurring ACH transfer instructions and BitGo is unable to process it prior to your next scheduled transfer and (11) other exceptions are allowed by law.

Except as otherwise required by law, BitGo shall in no event be liable for any other losses and/or damages other than those arising from gross negligence or willful misconduct on our part, and in such case will be limited to actual damages.

You agree that we shall not be liable for any costs, fees, losses or damages of any kind incurred as a result of any charges imposed by any provider of accounts of fund transfers or any funds transfer limitations set by the financial institutions or other providers of the accounts.

1.17 Limitation of Warranty and Liability. You understand and agree that the service is provided “as-is.” Except as otherwise provided in this agreement or as required by law, we assume no responsibility for the timeliness, deletion, mis-delivery or failure to store any user communications. You understand and expressly agree that use of the service is at your sole risk, that any materials and/or data downloaded or otherwise obtained through the use of the service is downloaded or obtained at your own discretion and risk and that you will be solely responsible for any damages, including without limitation damage to your computer system or loss of data that results from the download or the obtaining of such material and/or data. Except as expressly set forth on the BitGo website or in this agreement, we disclaim all warranties of any kind, express or implied, including without limitation any warranty of merchantability, fitness for a particular purpose or non-infringement of intellectual property or third party rights, and we make no warranty or representation regarding the results that may be obtained from the use of the service, the accuracy or reliability of any information obtained through the service, the accuracy of any information retrieved by us from the accounts or that the service will meet any user’s requirements, be uninterrupted, timely, secure or error free. We will not be liable for any direct, indirect, incidental, special, consequential or punitive damages of any kind resulting from the use or the inability to use the service, any inaccuracy of any information or amount retrieved by us from the accounts, any breach of security caused by a third party,

any transactions entered into based on the service, any loss of, unauthorized access to or alteration of a user's transmissions or data or for the cost of procurement of substitute goods and services, including but not limited to damages for loss of profits, use, data or other intangibles, even if we had been advised of the possibility of such damages.

1.18 Agreement Changes. We may in our discretion change these ACH Transfer Terms at any time without notice to you. If any change is found to be invalid, void, or for any reason unenforceable, that change is severable and does not affect the validity and enforceability of any other changes or the remainder of these ACH Transfer Terms. We reserve the right to subcontract any of our rights or obligations under these ACH Transfer Terms.

YOUR CONTINUED USE OF YOUR BANK ACCOUNT AS A METHOD OF MAKING ANY TRANSFER TO OR RECEIVING ANY TRANSFER FROM BITGO (INCLUDING ANY RECURRING TRANSFER) AFTER WE CHANGE THESE ACH TRANSFER TERMS OR ANY OF THE OTHER TERMS INCORPORATED IN THESE ACH TRANSFER TERMS CONSTITUTES YOUR ACCEPTANCE OF THESE CHANGES.

1.19 Communications. If you have registered for this service and wish to withdraw your consent, you must cancel any pending transfer requests and contact our Trust Operations Department at TrustOperations@bitgo.com.

Speaker 1

Hi, my name is Aparna. I lead the customer engineering team at Pluto7. Today, I'm going to showcase **Planning-in-a-box** our enterprise AI platform - built to accelerate your enterprise AI journey with prebuilt AI modules and the GenAI planning assistant - **Pi Agent**.

Businesses today face immense challenges in adapting to shifting customer demand, competition, and geopolitical changes.

Despite vast data collection, deriving insights remains difficult due to siloed operations across different functions.

Our planning in a box Enterprise AI platform tackles this challenge head on, by leveraging the power of Google Cloud's latest AI/ML and LLM Technologies.

Based on our experience working with many customers, I can confidently say that **Planning-in-a-box** can help boost the forecast accuracy and achieve reduction and inventory costs by up to 20 percent.

I'm going to show you how **Planning-in-a-box** can help break the data silos by seamlessly integrating data from multiple sources, and sense demand accurately, position inventory and detect manufacturing defects in real time, using AI.

Planning-in-a-box Enterprise AI platform comes in 3 AI modules.

1. **SCM Krystal for supply chain optimization**
2. **CX sense accents to understand customer behavior and market trends**
3. **Konnect manufacturing for building efficient factories**

Under the hood, we have a robust data Foundation based on Google Cloud Cortex framework. Data can be ingested from various data sources using either Google or partner tools.

We have ML based Solutions based on top of the data foundation enabled with GenAI.

Here is a glimpse of our platform enabled with real-time alerts and control center to ensure right products are available at the right time for the customers.

Solutions are augmented with **Planning intelligence or Pi agent** powered by Google's Gemini for enabling NLP based search for faster and efficient, data-

driven insights.

Demand Forecasting solution generates forecasts with Advanced ML capabilities and based on the forecast inventory levels can be monitored in real time, to proactively identify issues like excess stock shortages, etc.

Planners can analyze and update the decisions taken using a familiar spreadsheet like UI, where users can see the demand, cost, and profit all in one single UI. **Pi Agent** is also available via a mobile application powered by Gemini, where users can ask questions related to demand inventory and defect detection to ensure quality products are manufactured and shipped to the end customers.

With Google Cloud tools like Bigquery, Vertex UI, and Gemini Pro, we are able to accelerate the enterprise Ai journey, enabling businesses to achieve projected annual savings in some cases up to 20 million. Pluto7 has a new way to accelerate supply chain transformation with Ai and GenAi.

Video 2 - Problem & Solution (AI generated)

Hi, I'm Manju Devadas, CEO of Pluto7. For ten years, we've been building the foundation for this exact moment. And today, I'm inviting you to join us as we scale the future of intelligent supply chains.

This isn't a beginning; it is the culmination of a decade of disciplined work.

For the last ten years, we've been on the ground, working side-by-side with our customers. We didn't start with a solution looking for a problem. We invested the time to deeply understand their challenges and to frame the problem right. That decade of deep work wasn't theoretical. It produced the one thing that matters most: a solution that customers don't just use, but champion - Pluto7's Planning-in-a-box & Pi Agent.

Our platform is live, in the market, and delivering results. The ultimate proof of our value comes directly from the customers who endorse our solution every day. With a customer-validated solution in hand, we have arrived at a rare and powerful inflection point—where a prepared company meets a market that is finally ready.

This is why we are here today. The critical elements for massive growth have aligned.

Today, the market is demanding our solution, we have the established Google partnership to deliver it, and we have the proven platform to meet that demand. This investment is the final piece—the fuel for acceleration. We are not raising money to find a market; we are raising money to capture it. This means your investment isn't funding a search for a market. It's funding the solution that a decade of real-world work has already validated.

Join Our Journey

With your investment, we will capture this Ai market that is only growing by the day. This is the moment we ignite our growth. I invite you to join our journey and help us scale the future of intelligent supply chains.

Let's build it together.

The Problem

Enterprise supply chains are breaking under complexity

Much of the industry relies on manual input in spreadsheets, leading to poor inventory visibility, weak demand sensing, and planners being unprepared for volatility. Traditional tools and siloed data make it difficult to integrate signals across the entire supply chain, leaving planners helpless when they're called to simulate scenarios or automate decisions at scale. This drives inefficiency across companies. Lack of automation, leads to about **\$80 billion in lost value each year** in the US alone.

The Opportunity

The Future We're Building

Complex supply chains fall under scale. Alerts pile up, decisions lag, and teams operate in silos. Existing automation only predicts - it doesn't act. Pluto7 has changed this. We are not just AI or consulting - we are an Agentic AI operating layer, enabling enterprises to run autonomously at scale.

Pluto7 aims to capture a significant share of the projected \$1.6 trillion global supply chain and AI-agent market with our patent pending "Planning-in-a-Box" (Piab) platform and "Planning intelligence (Pi) Agent" app.

The image shows a dashboard for "Planning in a Box - Pi Agent". It features three main callouts: "Intelligence embedded in operations", "AI Agents over dashboards", and "Real-time decisions over batch planning". On the right, there is a "Inventory Trend" chart showing a bar graph for months from Mar to Aug. A tooltip for "Observed Inventory" shows a value of 1030. Below the chart, there is a "Recommendation" box with text: "Stock (SKU #123) is overstocked in Region X. Recommended Action: Move specific SKUs to another warehouse ahead of demand spike." The Pi Agent logo is visible in the top right corner.

10x faster Autonomous Supply Chain planning with Agentic AI

Pluto7's platform and Pi Agent, integrated with Google Gemini/Enterprise and endorsed by Google, Gartner, and Forrester, offer a powerful Enterprise AI solution. This smart digital planning assistant unifies data by sitting atop existing ERP systems (like SAP and Oracle) and CRM platforms (like Salesforce), as well as legacy supply chain software. For customers using existing platforms like Databricks or Snowflake, Pluto7 provides a flexible and strong alternative.

By productizing and scaling the enterprise-ready Pi Agent, Pluto7 plans to leverage its deep Google partnerships and multi-year customer relationships to expand AI agent use across industries and geographies.

- Recommending concrete actions, like moving specific SKUs from one warehouse to another, ahead of a demand spike

Pluto7's Planning-in-a-Box Platform - Pi Agent is an agentic supply chain planning platform designed for autonomous decision-making, delivering up to 10x faster planning outcomes. The AI-powered platform is built on three core pillars:

- **Agentic AI:** Recommends and automates planner tasks with clear, actionable insights.
- **Predictive AI:** Simulates thousands of scenarios using unified enterprise data to enable superior forecasting.
- **Data Foundation Moat:** A unified data platform that ingests and normalizes all data sources—including flat files, documents, and images—using Pluto7's Glassbox methodology [More](#)

How do I earn a return?	We are using Republic's SAFE security. Learn how this translates into a return on investment here .
What is a custodian and what is a custodial account?	A custodian is a qualified third-party entity that acts as a legal holder of securities. An investor will open a custodial account with the qualified custodian, which is used to hold investments, namely the securities in a company. A custodial account allows you to name a beneficiary and accept payments such as dividends distributions or cash payouts. Custodial accounts are not managed or held by Republic; instead, they are managed by the custodian who works with the issuer raising on the platform. The custodian of this offering is BitGo Trust Company. Companies will utilize a custodian to ensure that all securities they offer in their campaign are in one place. This means if a liquidity event or any other material event in respect to the securities occurs, the company can look to the custodian to service the securities, rather than each individual investor.
Why use a custodial account?	For investors, utilizing a custodian safeguards their investment, or security interest, with a qualified financial institution. Having a custodial account allows for easier transfers and creates additional layers of protection for your securities. For companies, it can increase efficiency by reducing their cap table management costs and creating a single-line item, making future funding rounds easier. Yes, since the company is utilizing a custodian, all investors in the offering will be required to create a custodial account with BitGo Trust Company and enter into an omnibus nominee agreement.
Will I have to set up a custodial account?	
What is the process?	The custodial account creation process is hosted in our investment checkout system, meaning you will commit your investment and establish your account with BitGo all at once. During investment checkout, you will be automatically prompted to review and sign certain custodial documents with BitGo. In addition, you may be asked to provide certain information to verify your identity. Once completed, you will receive an email confirming your investment commitment.
I'm being told my custody account is in manual review, what should I do?	BitGo reviews accounts that require manual review on a daily basis. Please expect to receive confirmation of your account being opened or to hear further guidance from our team within 24-48 hours.
Does it cost me anything to open a custodial account with BitGo Trust Company?	<ul style="list-style-type: none"> • Right now, there are no costs for investors to open a custodial account. • Custodial accounts do sometimes have a low annual cost to maintain; however, such costs are covered for the investor in this offering at this time.
Why would a company use a custodian like BitGo?	<ul style="list-style-type: none"> • Companies will utilize a custodian to ensure that all securities they offer in their campaign are in one place.
