Frontier Bio: Exploring a New Community Round

Hi {{First Name}},

I'm reaching out to share an update on Frontier Bio and to let you know that we are exploring the possibility of launching a Regulation Crowdfunding offering in the near future.

As many of you know, I founded Frontier Bio to address two significant challenges in medicine: the global organ shortage and the limitations of traditional animal-based research models. Our team applies tissue engineering and stem cell expertise to develop human-relevant biological platforms.

We have reached a major turning point. Unlike many deep tech companies that stay in the lab for years without a commercial product, Frontier Bio is already in the market. We have generated \$5.5 million in cumulative sales to date, with customers that include organizations like Mayo Clinic and Intuitive Surgical.

As we consider opening a community round under Regulation Crowdfunding, we are conducting a "Testing the Waters" campaign to gauge interest from friends, family, and early supporters.

If you would like to learn more or indicate non-binding interest, you can visit our campaign page here: <https://wefunder.com/frontier.bio> (under construction)

If you have any questions, I would love to chat. Just reply to this email and I'll share my availability.

Best,

Eric Bennett  
CEO | Frontier Bio

*Frontier Bio Corporation is "testing the waters" to gauge investor interest in an offering under Regulation Crowdfunding. No money or other consideration is being solicited. If sent, it will not be accepted. No offer to buy securities will be accepted. No part of the purchase price will be received until a Form C is filed and only through Wefunder's platform. Any indication of interest involves no obligation or commitment of any kind.*

Frontier Bio Corporation, 3515 Breakwater Ave, Hayward CA 94545
