To [REDACTED]

Hi [REDACTED] thank you again for coming to learn more about CareNgen. If you still have questions, I am going to be working with John Blake this week to formalize the proforma and go to market strategy and resource planning. I will be able to more succinctly answer your questions.

I am attaching the link to our Wefunder page where you can make your investment if it is less than \$50k. How it works is you make your investment, and the amount comes out of your account and is held in Wefunder until we raise the \$1M through a combination of Wefunder investments and SAFEs. When we close the Wefunder your money converts to an investment and you will get documentation of your investment.
