## COMPANY OVERVIEW

Tatleaux Solar Group, LLC (“Tatleaux”) develops and constructs commercial solar electricity generating systems expressly for residential customers. The company offers some of the highest electricity discounts in the industry. The company’s projects average 15 to 20 acres in size so can be developed and built start to finish in 1 to 1 1/2 years versus the average solar system that requires 2 1/2 to 10 years. The Company currently has approx. 50 small commercial projects under development generating clean, highly discounted electricity for approx. 50,000 homes.

Tatleaux typically sets up individual project companies to develop, construct and own the community solar projects. The single asset project company, TATLEAUX BURLINGTON BROWNFIELD SOLAR LLC, (“NJ Brownfield Community Solar Project”, the Project, Issuer, Company) is the issuer of the securities being offered. The Project Company is 100% owned by Tatleaux. Tatleaux, at this time, plans to maintain ownership of the Company once it is operating. The location of the project is 192 City Line Road, Pemberton Township, Burlington County, NJ

Tatleaux projects generally include workforce training programs and the opportunity for graduates to be hired for Tatleaux projects.

### Company History

Founded in 2012, the Tatleaux Solar Group, LLC (“Tatleaux”) decided to focus on the community solar sector in 2018. Community solar is the fastest growing sector in energy, expected to grow at least 50% per year for the next 5 to 10 years. Solar energy is a highly regulated industry. Over the past 7 years, the company has achieved all approvals and registrations required in the industry. The only remaining permits and approvals are for the Company’s individual solar electricity systems. The primary obstacle to a successful community solar company is the ability to sell electricity effectively to residential customers. Tatleaux’s track record in selling to residential customers, we believe, is by far the highest in the industry. The company has zero salespersons or business development staff. All our potential solar systems have been brought to us by word of mouth between public officials and senior executives.

The NJ Brownfield Community Solar Project is to be built on a remediated Superfund brownfield site. This will transform what has been a contaminated and unused property into a solar generation facility

and a community asset. The Project is a .974 MW DC system that will provide clean energy and reduced cost electricity to community members. The Project plans for at least 51% of the electricity (kwh) to be purchased by low to moderate income (LMI) subscribers, with an average reduction in electricity cost of 30%.

Most development work has been completed for this project to start construction.

- Site Lease
- Engineering - Designs, site evaluation and plan, surveys
- Interconnection evaluation - estimate included in budgeting
- Most Permitting and Approvals - e.g., zoning, local land use, environmental
- Participation in NJ Community Solar program
- Subscriber Management in progress

The Project Co has applied for SRECs. Given its location on a superfund site and LMI subscriber plan, they feel their approval is likely.

The Project will seek to hire from graduates of the Tattleaux training program.

The site lease has been secured, engineering is complete, and permitting is underway. Construction is expected to begin early Fall 2026 with project completion targeted for Spring 2027, ahead of the December 31, 2027 federal ITC deadline.

### Key Persons of Issuer

Below is a list of the key officers of the Issuer along with their principal occupation, office, date of joining, and responsibilities for the past three years.

#### JOSEPH CORTES

Title: Owner

Work History: 10 years as an investment banker and senior development executive in renewable and alternative energy projects in the 1980s to 1990s. CEO of two consumer products companies running sales, marketing, operations and financial departments. Founder and CEO of Tattleaux Solar Group which develops, constructs and operates solar electricity generating systems/projects.

Biography: In founding Tattleaux Solar Group, I formulated a business model focused on small commercial solar projects that would sell most of its electricity to residential customers as opposed to selling it back to the grid. This solar sub-sector is called "community solar" and only a handful of states have true community solar programs that incentivize the sales of clean electricity to residential customers. This sector is growing more rapidly than any other renewable or traditional energy sector. Today, electricity rates throughout the US have risen to record levels. Tattleaux's electricity discounts are the highest in the industry at a minimum of 30% up to 50%. Tattleaux's projects are almost all in low income counties. We conduct town hall meetings to sell our electricity and residential customers' attendance has been strong. Tattleaux has achieved the most success in selling to residential customers than any other commercial solar firm. Thus, Tattleaux provides two key benefits to communities: making available clean solar energy and providing this clean energy at the lowest costs in the US.

*There are no other officers (or persons occupying a similar status or performing a similar function) of the Issuer.*

## ANTICIPATED BUSINESS PLAN

The investors' investments will allow the Company to complete the solar system's capitalization along with our parent company's funds in order to complete the development and construction of the solar electricity generating system, currently scheduled for the fall of 2026. At this point, the project will start generating electricity revenues.

Below is a summary of the Company's expected use of funds. Funds raised in this offering will be used in descending priority order.

## **RISK FACTORS**

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

### **You Might Lose Your Money**

When you buy a certificate of deposit from a bank, the Federal government (through the FDIC) guarantees you will get your money back. Buying a Note is not like that at all. The ability of the Company to make the payments you expect, and ultimately to give you your money back, depends on a number of factors, including many beyond our control.

### **Competition**

The market in which we operate is highly competitive. The Company competes with many other businesses, both large and small, on the basis of quality and price of products, location and customer experience. Changes in customer preference away from the Company's core business or the inability to compete successfully against other competitors could negatively affect the Company's financial performance.

### **Licensing Risk**

The Company may face changes in the state and federal laws in connection to any licensing required for the sale of its products. Such changes would require the dedication of Company resources to address or amend its current operations which may adversely affect its business strategy or profitability.

### **Interest Rate Might Not Adequately Compensate For Risk**

Theoretically, the interest rate paid by a company should compensate the creditor for the level of risk the creditor is assuming. There is no certainty that the interest rate on your Note will compensate you adequately for the level of risk.

### **No Right to Participate in Management**

As the owner of a Note, you will not have the right to control the Company in any way or to participate in its management. You should invest (buy a Note) only if you are willing to rely completely on the Company's management team.

### **Reliance On Management Team**

Like almost all small businesses, the Company relies exclusively on the abilities of its management team. Should any of them die, leave the Company, or become ill for a long period of time, the Company would be damaged and might not repay your Note.

### **Limited Products And Services**

Most small, local businesses sell only one or two products or services, making them vulnerable to changes in technology and/or customer preferences.

### **Supplier Risk**

The Company relies on third-party suppliers for the materials used in the manufacture of its products. If any of these suppliers changes the pricing, distribution, terms of service, or relationship with the Company, this could materially affect its business and/or profitability. Factors outside of the Company's control, including general market conditions, may affect its relationship with these suppliers. In addition, its ability to meet the obligations of its customers may be adversely affected if its suppliers fail to comply with agreed-upon services or quality standards in a cost-effective or timely manner.

### **Risk of Economic Downturn**

The products the Company sells are luxuries, not necessities. In the event of a recession or other economic downturn, customers might curtail their purchase of our products.

### **Environmental Risk**

The Company is subject to the risk of environmental liability and limitations on operations due to environmental laws and regulations. The Company is subject to extensive federal, state, and local environmental, health and safety regulations. The risks of substantial costs and liabilities related to compliance with these laws and regulations is an inherent part of the Company's business. Future conditions may develop or be discovered that create substantial environmental compliance or remediation liabilities and costs.

### **Price Risk**

The Company competes in an industry with a commodity product where the Company may not have control of the prices it will receive for its product or the prices it must pay for inputs. Price uncertainty may negatively impact the Company's business and financial situation.

### **Use of Funds Risk**

At the discretion of the Company's executive management team, funds raised in this offering may be used differently than specifically outlined in this document's Use of Funds section.

### **Personnel Risk**

The Company uses human personnel to produce its product. Accidents, illnesses, death, divorce, or lack of productivity could negatively impact the ability of personnel and, therefore, the business.

### **Lack Of Accounting Controls**

Larger companies typically have in place strict accounting controls. Smaller companies like the Company lack these controls, exposing themselves to additional risk.

### **Reputation Risk**

The success of the Company depends on the reputation of its brand. Adverse publicity concerning the Company's products or the Company itself could negatively impact the future of its business.

### **The Company Might Need More Capital**

The Company might need to raise more capital in the future to expand its operations, buy property and equipment, hire drivers and other personnel, market its products and services, pay overhead and general administrative expenses, or a variety of other reasons. There is no assurance that additional capital will be available when needed, or that it will be available on terms that are not adverse to your interests as an investor. If the Company is unable to obtain additional funding when needed, it could be forced to delay its business plan or even cease operations altogether.

### **Future Investors Might Have Superior Rights**

If the Company needs more capital in the future, it might borrow money and/or sell stock, and the new investors might have rights superior to those of an investor owning a Note. For example, they might have the right to be paid before you are, to receive larger distributions, to have a greater voice in management, or otherwise.

### **Inability To Sell Your Note**

The law prohibits you from selling your Note (except in certain very limited circumstances) for one year after you acquire it. Even after that one-year period, a host of Federal and State securities laws may limit or restrict your ability to sell your securities. Even if you are permitted to sell, you will likely have difficulty finding a buyer because there will be no established market. Given these factors, you should be prepared to hold your Note for its full term.

### **Limitation of Individual Rights in Event of Default**

In the event of a default under the Notes, an individual investor will not have the right to enforce his, her or its rights – for example, by bringing a lawsuit. Instead, the investors will appoint a representative using a procedure set forth in the Note Purchase Agreement. It's possible that the investors as a group will appoint a representative you don't like, or that the representative will do things you believe are wrong or misguided. Once a default has occurred and a representative has been appointed, all the expenses of the representative must be paid before any further payments are made with respect to the Notes.

### **Lack of Key Man Insurance**

Although dependent on key personnel, the Company does not have any key man life insurance policies on any such people. In the event that such personnel die or become disabled, the Company will not receive compensation to assist for their absence and the loss of such person could negatively affect the Company.

### **The Owners Could Be Bad People Or Do Bad Things**

The owners of the Company could be dishonest and take your money. Even people who are very honest sometimes do dishonest things in desperate situations – for example, when their company is on the line, or they're going through a divorce or other stressful life event. It is possible that the management of the Company, or an employee, would steal from or otherwise cheat the Company, and you.

### **Uninsured Losses**

Although the Company will carry some insurance, we might not buy enough insurance to guard against all the risks of our business. Also, there are some kinds of risks that are simply impossible to insure against, at least at a reasonable cost. Therefore, we could incur an uninsured loss that could damage our business.

### **Conflict Of Interest**

In many ways your interests and the interests of the Company's management team will coincide: you all want the Company to be as successful as possible. However, your interests might be in conflict in other important areas, including these:

- You might want to keep the compensation of managers low, while managers want to make as much as they can.
- You might want the Company to act conservatively to conserve its cash, while the management team might want to grow more quickly.
- You might want the Company to look out for your interests, while the management team might subordinate your interests to the interests of employees, other investors, or others.
- The lawyers who prepared the legal documents represent the interests of the Company, not the interests of investors.

### **No Registration Under Securities Laws**

The Notes will not be registered with the SEC or the securities regulator of any State. Hence, neither the Company nor the Notes are subject to the same degree of regulation and scrutiny as if they were registered.

### **Incomplete Offering Information**

Title III does not require us to provide you with all the information that would be required in some other kinds of securities offerings, such as a public offering of shares (for example, publicly-traded firms must generally provide investors with quarterly and annual financial statements that have been audited by an independent accounting firm). Although Title III does require extensive information, as described above, it is possible that you would make a different decision if you had more information.

### **Lack Of Ongoing Information**

The Company will be required to provide some information to investors for at least one year following the offering. However, this information is far more limited than the information that would be required of a publicly-reporting company; and the Company will be allowed to stop providing annual information in certain circumstances.

### **The Company is Not Subject to the Corporate Governance Requirements Of National Securities Exchanges**

Any company whose securities are listed on a national stock exchange (for example, the New York Stock Exchange) is subject to a number of rules about corporate governance that are intended to protect investors. For example, the major U.S. stock exchanges require listed companies to have an audit committee made up entirely of independent members of the board of directors (i.e., directors with no material outside relationships with the company or management), which is responsible for monitoring the company's compliance with the law. The Company will not be required to implement these and other investor protections.

### **Cost of Enforcement**

If the Company defaulted, investors would have to engage lawyers and possibly other third parties to enforce their rights. The cost of enforcement could be prohibitive.

### **Other Lenders Could Have Superior Rights**

The Company will take out other loans. In itself this is not risky, but these lenders will likely have a claim to collateral superior to the collateral claimed by the Note. For example, the lenders might have a claim to the future cash flows or equity ownership of the Company, or the equipment owned by the Company whereas the Note has a claim to the equipment purchased with its own proceeds. Moreover, the lenders might have clauses in their lending agreements with the Company that compel the Company to pay them first over other lenders. If the Company runs out of cash, and has a choice to pay the other lenders or the Holders of the Note, it might decide (or be required) to pay its other lenders first.

### **Project Specific Risks**

The Project has advanced beyond early-stage development and has secured key site, permitting, and regulatory approvals; however, investors should be aware of the following risks inherent in completing the development, constructing, operating, and financing a community solar project.

### **Development Completion and Construction Risk**

The Project has advanced beyond early-stage development and has secured key site control, permitting, and regulatory approvals; however, the Project has not yet been fully constructed or placed into commercial operation. Delays or cost overruns during final development activities, construction, or commissioning could postpone the start of revenue generation or increase project costs. While the Company has completed substantial development work, unforeseen issues related to labor availability, equipment delivery, permitting conditions, or site conditions could delay completion or affect project economics.

### **Interconnection and Utility Risk**

Although the Project has applied for interconnection and has advanced in the interconnection process, the timing and cost of final interconnection approval are subject to utility review and requirements. Delays, required system upgrades, or changes in utility policies could increase costs or postpone commercial operation.

### **Regulatory and Program Risk**

The Project relies on existing regulatory frameworks and utility programs applicable to community solar projects. Changes in laws, regulations, tariffs, or program rules—whether at the federal, state, or utility level—could affect the Project's ability to generate expected revenues or participate in applicable programs.

### **Revenue and Subscription Risk**

Revenues from the Project depend on subscriber enrollment, retention, and ongoing participation in the applicable community solar program. While the Company expects to enroll sufficient subscribers, there can be no assurance that subscriber demand will meet expectations or that subscribers will remain enrolled for the life of the Project.

### **Operating Performance Risk**

Once operational, the Project's financial performance will depend on system output, equipment reliability, maintenance practices, and weather conditions. Actual energy production may differ from forecasts due to factors beyond the Company's control, including variability in solar irradiance, equipment performance, or operational disruptions.

### **Financing and Capital Structure Risk**

The Project may require additional capital to complete construction or operate as planned. While the Company intends to fund the Project through a combination of equity and debt, there can be no assurance that additional capital, if needed, will be available on acceptable terms. The failure to obtain such capital could delay or limit the Project's completion or operation.

### **Limited Recourse and Project-Level Risk**

The Notes are obligations of the Project company only and are secured by project-related assets. Investors do not have recourse to the assets of any parent or affiliated entities. As a result, repayment depends on the successful completion and operation of the Project and the cash flows it generates.

## **TRANSACTION MECHANICS**

The following describes the process to invest in Tattleaux Burlington Brownfield Solar LLC and how an investor's transaction and delivery of securities will be completed.

- a. *Investor Commitment:* Through the Honeycomb Portal, an investor will submit a requested investment amount. As a part of this process, an investor will execute an investment contract with Tattleaux Burlington Brownfield Solar LLC ("Note Purchase Agreement") by way of the investor's electronic signature.

- b. *Acceptance of Investment:* Upon completion of the investment commitment, the investor will receive via email a confirmation of their transaction detailing the amount, terms, and date of execution.
- c. *Investor Transfer of Funds:* Upon receiving confirmation that an investment has been accepted, the investor will transfer funds to the escrow account of a third-party bank managed by Honeycomb Portal.
- d. *Early Closings:* If the target offering amount is met prior to the original deadline date, we may close the offering earlier, but no less than 21 days after the date on which the Form C is posted on the Honeycomb Portal.
- e. *Book Entry:* All investments will be in book entry form. This means that the Investor will not receive a certificate representing their investment. Each investment will be recorded by Honeycomb Portal and visible by the investor through their Investor Dashboard.

Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met.

If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

The Qualified Third Party of the Offering is Thread Bank.

**Note:** For more information about the investment and cancellation process, see Honeycomb's Education Materials.

### **Details of Security Being Offered**

---

The securities being offered to investors are promissory notes, which we refer to as "Notes." The Notes are governed by a separate document called a Note Purchase Agreement, which you can view on the "Investor Info" tab of the campaign page.

This section summarizes the principal features of the Note Purchase Agreement. However, this is only a summary. Before investing, you should read the Note Purchase Agreement in their entirety.

- The principal amount of your Note will be the amount you invest.
- The Company must pay the accrued interest on a quarterly basis (every three months), starting 30-days after the closing date of the offering.
- The Company must repay your principal (the amount you invested) 36months from the close of the offering, or, if sooner, the date that the Company is sold or otherwise experiences a “change of control.” The Company may also prepay the Note. Any prepayments will first be applied to accrued interest, then to principal.
- All communications from the Company, including but not limited to all tax forms, will be via electronic delivery.
- All payments will be made in U.S. dollars as Automated Clearing House (ACH) deposits into an account you designate. If you don’t authorize the Company to make such ACH distributions into a designated account, payments will be made by check and mailed to you after deducting a \$50 processing fee.
- Once you pay for your Note, you will have no obligation to contribute more money to the Company, and you will not be personally obligated for any debts of the Company.
- If there is a default under your Note, you may not take collection action personally. Instead, you and the other investors will together appoint a single representative to represent all of you. This Administrative Agent will have the power to take any action against the Company that he or she believes is appropriate. The fees and any expenses of the Administrative Agent will be the responsibility of the Company, but the Administrative Agent will be paid before any additional amounts are paid to you or other investors.
- If you want to sell your Note, you must first offer to sell it back to the company – a so-called “first right of refusal.” If the Company doesn’t buy it, the Company may impose restrictions on the transfer. For example, the Company may require a legal opinion that the transfer is allowed under the securities laws.
- The Note offered does not have any voting rights.
- The Terms of the Note being offered may not be modified or amended.

#### **Restrictions on Transfer of the Securities Being Offered**

The Note will be illiquid (meaning you might not be able to sell it) for four reasons:

- The Note Purchase Agreement prohibits the sale or other transfer of Notes without the Company’s consent.
- If you want to sell your Note, the Company will have the first right of refusal to buy it, which could make it harder to find a buyer.

- Even if a sale were permitted, there is no ready market for Notes as there would be for a publicly-traded company.
- For a period of one year, you will not be allowed to transfer the Note except (i) to the Company itself, (ii) to an “accredited” investor, (iii) to a family or trust, or (iv) in a public offering of the Company’s shares.

As a result, you should plan to hold your Note until maturity.

#### **ADDITIONAL MATTERS RELATED TO THE SECURITY**

*1. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?*

The Company does not have the right to change the terms of the promissory notes or the Note Purchase Agreement. However, it does have the right to create additional classes of securities, both equity securities and debt securities. Some of these additional classes of securities could have rights that are superior to those of the promissory notes. For example, the Company could issue promissory notes that are secured by specific property of the Company.

*2. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?*

The owners of the promissory notes will not have the right to share in the profits of the company or participate in the management of the company.

*3. How could the exercise of rights held by the principal shareholders affect the purchasers of the securities being offered?*

The principal shareholders could make decisions that are bad for the company and thereby adversely affect the economic interests of investors holding promissory notes. They could also issue other classes of securities with rights superior to those of investors holding promissory notes.

*4. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.*

The value of the Notes is determined by the face amount of the note payable to be issued. The terms of the Notes were determined by the Owner based on the Owner’s opinion about the value of the project.

The Owner does not expect there to be any reason to place a value on the Notes in the future. In the event that future valuation is required, any value given the notes by the company will be determined in accordance with U.S. generally accepted accounting principles.

5. *What are the risks to purchasers of the securities relating to minority ownership in the issuer?*

n/a

6. *What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?*

The company could issue securities with rights superior to those of the promissory notes.

If the company is sold, the owners of the promissory notes have the right to receive all of the principal and accrued interest.

Transactions with related parties – for example, the payment of excessive compensation – could reduce the amount of money available to make payments with respect to the promissory notes.

7. *What other exempt offerings has the issuer conducted within the past three years?*

n/a

8. *The issuer or any entities controlled by or under the common control with the issuer was not a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:*

1. *any director or officer of the issuer;*
2. *any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;*
3. *if the issuer was incorporated or organized within the past three years, any promoter of the issuer;*
4. *or (4) any immediate family member of any of the foregoing persons.*

None

## STAKEHOLDER ELIGIBILITY

With respect to the issuer, any predecessor of the issuer, any affiliated issuer, any director, officer, general partner or managing member of the issuer, any beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, any promoter connected with the issuer in any capacity at the time of such sale, any person that has been or will be paid (directly or indirectly) remuneration for solicitation of purchasers in connection with such sale of securities, or any general partner, director, officer, or managing member of any such solicitor, prior to May 16, 2016:

Whenever any payment is due on a day that is not a business day, such payment will be due on the next following business day. 2.5 Maximum Lawful Rate.

In no event shall Issuer be obligated to pay interest on the Note to the extent it exceeds the highest rate of interest that may be lawfully contracted for, charged or received by such Holder, and in such event the Issuer shall pay such Holder interest at the highest rate permitted by applicable law.

2.6 No Right to Cancel.

Each Holder acknowledges and agrees that this is a commercial transaction and that the Holder has no right to cancel its subscription or rescind this Agreement. Once the Holder signs this Agreement, electronically or otherwise, the Holder is obligated to purchase the Note on the terms and conditions set forth in this Agreement and as described in the Disclosure Document, including, but not limited to, instances where the principal amount of the Note is reduced consistent with the Disclosure Document.

2.7 Issuer's Right to Reject Subscription.

Each Holder acknowledges and agrees that Issuer has the right to reject the Holder's subscription for any reason or for no reason by returning the money provided to the Issuer to the applicable Holder's Designated Account whose subscription has been rejected.

Upon the occurrence and during the continuance of an Event of Default in Section 6.1(a)-(f), then the Required Holders may instruct the Administrative Agent to declare all amounts owed under the Notes to be immediately due and payable. Upon the occurrence of an Event of Default in Section 6.1(g), all amounts owed under the Notes shall automatically be accelerated and become immediately due and payable without prior written notice or demand. - 6.3 No Individual Right of Action. Each Holder acknowledges and agrees that no Holder has an individual right of action to enforce its Note or any of the Loan Documents against the Issuer and is bound by the decision and instructions provided to the Administrative Agent by the Required Holders consistent with the terms of this Agreement.
- 6.4 Force Majeure. An Event of Default shall not be deemed to have occurred if a breach or failure by the Issuer is caused by Acts of God, government restrictions (including the denial or cancellation of any export, close of business or other extraordinary measures), wars, insurrections and/or any other cause beyond the reasonable control of the Issuer; provided that the Administrative Agent shall give Holders written notice describing the force majeure in reasonable detail given the information presently available. Performance under the Notes is suspended for the period of time in which the force majeure is in effect, plus thirty (30) days thereafter (the "Force Majeure Period"). The Force Majeure Period may be extended further in the discretion of the Administrative Agent with the consent of the Required Holders pursuant to the procedures outlined in Section 5.3 of this Agreement. Any payments made by any Issuer during the Force Majeure Period are not subject to refund. The term length of the Note shall not be adjusted if the Force Majeure is put into effect.

## ARTICLE VII

### MISCELLANEOUS

- 7.1 LIMITATIONS ON DAMAGES. NEITHER ISSUER NOR ADMINISTRATIVE AGENT WILL BE LIABLE TO ANY HOLDER FOR ANY LOST PROFITS OR SPECIAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES, EVEN IF HOLDER DISCLOSES IT MIGHT INCUR THOSE DAMAGES. The maximum liability the Issuer or Administrative Agent may have to any Holder is the amount of such Holder's investment as evidenced by the Note.

7.2 NO CLASS ACTION CLAIMS. NO LAWSUIT SHALL PROCEED ON A CLASS, REPRESENTATIVE, OR COLLECTIVE BASIS. No party may join, consolidate, or otherwise bring claims for or on behalf of two or more individuals or unrelated corporate entities in the same lawsuit unless those persons are parties to a single transaction. An award shall determine the rights and obligations of the named parties only, and only with respect to the claims in the lawsuit, and shall not (i) determine the rights, obligations, or interests of anyone other than a named party, or resolve any claim of anyone other than a named party, or (ii) make an award for the benefit of, or against, anyone other than a named party. No administrator or arbitrator shall have the power or authority to waive, modify, or fail to enforce this paragraph, and any attempt to do so, whether by rule, policy, arbitration decision or otherwise, shall be invalid and unenforceable. Any challenge to the validity of this paragraph shall be determined exclusively by a court and not by the administrator or any arbitrator. If this paragraph shall be deemed unenforceable, then any proceeding in the nature of a class action shall be handled in court, not in arbitration

7.3 Consent to Jurisdiction and Service of Process; Waiver of Jury Trial.

(a) Issuer and each Holder hereby: (i) irrevocably submits to the jurisdiction of the Court of Common Pleas of Allegheny County, Pennsylvania and to the jurisdiction of the United States District Court for the Western District of Pennsylvania for the purposes of any action or proceeding arising out of or relating to any of this Agreement or the Notes or the subject matter thereof and brought by the Administrative Agent on behalf of the Holder; (ii) waives and agrees not to assert, by way of motion, as a defense or otherwise, in any such action or proceeding, any claim that (A) it is not personally subject to the jurisdiction of such courts, (B) the action or proceeding is brought in an inconvenient forum or (C) the venue of the action or proceeding is improper; and (iii) agrees that, notwithstanding any right or privilege it may possess at any time, such party and its assets are subject to suit on account of the obligations assumed by it hereunder.

(b) THE PARTIES WAIVE THE RIGHT TO A TRIAL BY JURY IN ANY ACTION OR PROCEEDING ARISING OUT OF OR RELATING TO ANY OF THE TRANSACTION DOCUMENTS OR THE SUBJECT MATTER THEREOF AND BROUGHT BY ANY OTHER PARTY.

(c) The Holders acknowledge that this is a commercial transaction, that the foregoing provisions for consent to jurisdiction, service of process and waiver of jury trial have been read, understood and voluntarily agreed to by them and that by agreeing to such provisions they are waiving important legal rights. The obligations of the parties under this Section will survive any termination of this Agreement.

7.4 Creditor-Debtor Relationship. The relationship between each Holder, on the one hand, and the Issuer, on the other hand, is solely that of creditor and debtor.

- 7.5 Expenses. Each party shall be responsible for its own expenses, including without limitation all attorney's fees which arise out of or relate to the documentation of this Agreement or the Notes. Upon the occurrence of an Event of Default or commencement of an Enforcement Proceeding, the costs and expenses incurred by the Administrative Agent on behalf of the Holders, including reasonable attorneys' fees and costs, shall be added to and become a part of the obligations owed by the Issuer under this Agreement.
- 7.6 Notices. All notices, consents, requests, demands and other communications required or permitted hereunder: (a) will be in writing; (b) will be sent by electronic delivery, including all tax forms, to the email address provided by the Holder on the Site and shall be deemed transmitted when sent. Notices to the Administrative Agent and the Issuer may be sent electronically to the email addresses provided in their respective signature blocks.
- 7.7 Amendments. This Agreement and the Notes may be amended only by a writing signed by the Issuer on the one hand and by the Administrative Agent on behalf of the Holders on the other hand, and any such amendment will be effective only to the extent specifically set forth in such writing.
- 7.8 Confidentiality. Each of the Holders shall maintain in confidence in accordance with its customary procedures for handling confidential information, all written information that the Issuer, furnishes to Holders ("Confidential Information"), other than any such Confidential Information that become generally available to the public other than as a result of a breach by the Holders of its obligations hereunder or that is or becomes available to the Holders from a source other than the Issuer, and that is not, to the actual knowledge of the recipient thereof, subject to obligations of confidentiality with respect thereto.
- 7.9 Miscellaneous. This Agreement and the Notes: (a) may not be assigned, pledged or otherwise transferred, whether by operation of law or otherwise, without the prior consent of the Issuer; (b) may be executed in electronically and in counterparts by the parties, which shall be deemed effective as an original and will constitute one and the same instrument; (c) contain the entire agreement of the parties with respect to the transactions contemplated hereby and thereby and supersede all prior written and oral agreements, and all contemporaneous oral agreements, relating to such transactions; (d) are governed by, and will be construed and enforced in accordance with, the laws of the Commonwealth of Pennsylvania without giving effect to any conflict of laws rules; and (e) are binding upon, and will inure to the benefit of, the parties and their respective successors and permitted assigns. The waiver by a party of any breach or violation of any provision of this Agreement will not operate or be construed a waiver of any subsequent breach or violation hereof. Any provision of this Agreement which is prohibited or unenforceable in any jurisdiction will, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining portions hereof or affecting the validity or enforceability of such provision in any other jurisdiction.

Debtor will keep such insurance in full force and in effect at all times. In the event that Debtor fails to pay any such insurance premiums when due, Secured Party may but is not required to pay such premiums and add the costs thereof to the amounts due Secured Party under the Notes. Debtor hereby assigns to Secured Party any returned or unearned premiums which may be due upon cancellation of any such policies for any reason whatsoever and directs the insurers to pay Secured Party any amount so due, subject only to the rights of any lender through whom Debtor has financed the payment of such premiums to receive same; and

- (iii) complying with any provision of any statute, regulation or treaty of the United States as to any Collateral if compliance with such provision is a condition to attachment, perfection or priority of, or ability of the Secured Party to enforce, the Secured Party's security interest in such Collateral,
- (iv) obtaining governmental and other third party waivers, consents and approvals in form and substance satisfactory to Secured Party, including, without limitation, any consent of any licensor, lessor or other person obligated on Collateral,

- (vi) taking all actions under any earlier versions of the Uniform Commercial Code or under any other law, as reasonably determined by the Secured Party to be applicable in any relevant Uniform Commercial Code or other jurisdiction, including any foreign jurisdiction.

**5. Use of Collateral; Casualty.** Until the occurrence of an Event of Default, Debtor may sell and use the Collateral in the ordinary course of its business, consistent with past practices, and accept the return of and repossess goods constituting the Collateral. Immediately upon the loss, damage or destruction of any Collateral, Debtor will deliver to Secured Party an amount equal to the greater of Debtor's (a) actual cost or (b) replacement cost of the Collateral so lost, damaged or destroyed, less the amount of any insurance proceeds thereon anticipated to be collected and retained by Secured Party.

**6. Event of Default.** The occurrence of any one or more of the following will be an "Event of Default" hereunder:

- (a) The failure of Debtor at any time to observe or perform any of its warranties, representations or agreements contained in this Agreement and such failure is not cured within ten (10) days following notice from the Collateral Agent;
- (b) Debtor's or Debtor's default under the terms of the Notes, the NPA, or any other Loan Document (as defined in the NPA);
- (c) The subjection of the Collateral or any rights therein to or the threat of any judicial process, condemnation or forfeiture proceedings;
- (d) The insolvency of Debtor, the commencement of a voluntary or involuntary case in bankruptcy against Debtor, the consenting of Debtor to the appointment of a receiver or trustee of any of its property or any part thereof, or the entry of any order of relief against Debtor in any case.

**7. Secured Party's Rights and Remedies.** Upon or after the occurrence of any Event of Default, Secured Party may do any or all of the following, all of which rights and remedies shall be cumulative and any and all of which may be exercised from time to time and as often as Secured Party shall deem necessary or desirable:

- (a) Exercise any and all rights, privileges and remedies available to Secured Party under this Agreement, the NPA, the Notes, and under the UCC, or any other applicable law, including without limitation the right to require the Debtor to assemble the Collateral and make it available to Secured Party at a designated place reasonably convenient for disposition;
- (b) If applicable, notify Debtor's lessees, renters and account Debtors to make all payments directly to Secured Party and to surrender, at the termination of any lease of any Collateral, the item or items of Collateral so leased or to pay the sale option price, if any, directly to Secured Party;
- (c) Cure any default in any reasonable manner and add the cost of any such cure to the amount due under the Notes and NPA;
- (d) Retain all of Debtor's Books and Records;
- (e) Upon ten (10) days prior written notice to Debtor, which notice Debtor acknowledges is sufficient, proper and commercially reasonable, Secured Party may sell, lease or otherwise dispose of the Collateral, at any time and from time to time, in whole or in part, at public or private sale, without advertisement or notice of sale, all of which are hereby waived, and apply the proceeds of any such sale:
  - (i) first, to the expenses of Secured Party in preparing the Collateral for sale, selling and the like, including without limitation reasonable attorneys' fees and expenses incurred by Secured Party (including fees and expenses of any litigation incident to any of the foregoing);
  - (ii) second, to the payment in full of all sums owing to Holders under the Notes consistent with the terms of the NPA and the satisfaction of all of the Debtor's and Debtor's obligations under the Notes and NPA; and
  - (iii) any excess shall be paid to Debtor.

The waiver of any Event of Default, or Secured Party's failure to exercise any right or remedy hereunder, shall not be deemed a waiver of any subsequent Event of Default or of the right to exercise that or any other right or remedy available to Secured Party.

**8. Expenses of Enforcement.** The Debtor will pay all reasonable expenses of the Collateral Agent, including attorneys' fees, incurred by the Collateral Agent in enforcing its rights and remedies hereunder. If the Collateral Agent brings suit (or files any claim in any bankruptcy, reorganization, insolvency or other proceeding) to enforce any such rights or remedies and shall be entitled to judgment (or other recovery) in such action (or other proceeding) then the Collateral Agent may recover, in addition to all other amounts payable hereunder, its reasonable expenses in connection therewith, including attorneys' fees, and the amount of such expenses shall be included in such judgment (or other form of award).

**9. Termination of Security Interest.** When and only when all amounts due under the Notes, the Note Indenture, and this Agreement shall have been paid in full, then the Security Interest granted to the Collateral Agent pursuant to this Agreement shall terminate and, at the request and expense of the Debtor, the Collateral Agent will execute and deliver to the Debtor such written evidence thereof, including termination statements, and take such other action as the Debtor may reasonably request.

## Community Solar Project

Solar energy shouldn't require owning a home — or a rooftop. Community solar lets anyone subscribe to a local solar project and receive the savings directly on their utility bill, no installation needed.

More than 20 states and Washington, D.C. have already launched community solar programs, and the market is growing fast. As rooftop solar becomes harder to access for many households, community solar fills the gap. Whether you rent, have a shaded roof, or simply don't want the hassle of installation, community solar is built for you.

Tatleaux Solar Group develops commercial solar projects designed to deliver electricity directly to local communities, with a focus on low-to-moderate income neighborhoods. At least 51% of power generated from this project goes directly to LMI (low and middle income) households, a minimum of 25% off their standard utility bill with some early subscribers seeing up to 50%.

While the rest of the solar industry takes 4 to 8 years to build a project, Tatleaux's model works to complete megawatt-producing infrastructure in less than 18 months.

To achieve this, Tatleaux deliberately limits its projects to 5MW or smaller. This guarantees quicker permitting, simplified interconnection, construction, and fewer environmental approvals while also working collaboratively with local authorities and politicians to navigate bureaucratic timelines that paralyze larger, more corporate projects.

# Highlights

- Built on a remediated Superfund site in Pemberton Township, NJ. This transforms a contaminated, blighted property into a community asset generating clean energy for local residents at discounted rates.
- \$15.4M in projected lifetime revenue from a 40-year PPA at \$.175/kWh with a 2% annual escalator, backed by NJ's Community Solar Program.
- At least 51% of power generated goes directly to LMI (low and middle income) households, at a minimum of 25% off their standard utility bill with some subscribers seeing up to 50%.
- Site lease secured, engineering complete, permitting is underway. Construction will begin early Fall 2026 with project completion targeted for Spring 2027, ahead of the December 31, 2027 federal ITC deadline.
- Workforce Training into Job Development: Tattleaux recruits and trains local residents for solar installation and operations, then prioritizes graduates for its own project construction.
- Investment is in the project company that owns the assets of the project, and secured by those assets.

# The Mission

Tatleaux Solar Group develops community solar projects in New Jersey that deliver meaningful electricity savings and renewable energy to residential customers. The Lang Superfund site in Pemberton NJ is a formerly contaminated property that sat idle for decades. Federally designated Superfund sites tend to become permanently unusable to the communities they share a fence with, but Tatleaux's model targets this kind of land to rewrite its future. For the people of Pemberton, this project means turning that hostile wasteland into a generator of affordable electricity.

The Burlington Brownfield Solar Project is a 1 MW community solar project in Pemberton Township, NJ, expected to serve approximately 250 households.

Tatleaux's projects are almost all located in low-income communities bolstering its competitive advantage to sell electricity to actual residents, rather than back to the grid, something most commercial solar developers do not have the infrastructure to do

Each project includes a workforce training program designed to recruit residents from the surrounding area, train them in solar installation and operations, and then offer them jobs on Tatleaux's own construction projects.

This offering is an investment in Tatleaux Burlington Brownfield LLC, the project company that owns the assets of the Project, and a wholly owned subsidiary project company of Tatleaux Solar Group.

# Use of Funds Raised

All capital raised through this offering will be applied entirely to the Final Solar Project Development for the Burlington Brownfield Community Solar Project: completing the remaining permitting, engineering finalization, and pre-construction work needed to move the project into construction. Tattleaux Solar Group, the parent company, will contribute additional capital alongside investor funds to complete development and construction, currently scheduled for completion by Spring of 2027.

# Meet the Team

**JOSEPH CORTES**

Owner

Joseph Z. Cortes is the Founder and Chief Executive Officer of Tattleaux Solar Group, which he established in 2012. An immigrant founder, Mr. Cortes brings experience spanning renewable energy development, finance, and operating leadership. During the 1980s and 1990s, Mr. Cortes worked as an investment banker and senior development executive supporting renewable and alternative energy projects, including co-generation, hydroelectric, biomass, and waste-to-energy; across these efforts. He later served as CEO of two consumer products companies, where he led sales, marketing, operations, and financial functions. With the increased climate change concerns and governmental support for renewables, Mr. Cortes returned to the sector. Since founding Tattleaux Solar Group in 2012, Mr. Cortes has guided the company's evolution toward a focused community solar strategy aligned with the growth of state-level programs that enable residential customers to access locally generated solar power, developing community and net-metered solar projects—typically under 5 megawatts—in partnership with municipalities, school districts, public agencies, and community-based organizations, and leading efforts in project origination, stakeholder engagement, and bringing community solar opportunities to market.

## Founder's Story

Tattleaux Solar Group

# Why Community Solar?

Community solar is one of the only clean energy mechanisms that reach renters, low-income families, and people for whom alternative energy represents an undue upfront investment. Rather than requiring households to install anything, subscribers simply sign up to receive a share of the project's output credited to their utility bill.

To achieve this, Tattleaux deliberately limits its projects to 5MW or smaller. This guarantees quicker permitting, simplified interconnection, construction, and fewer environmental approvals while also working collaboratively with local authorities and politicians to navigate bureaucratic timelines that paralyze larger, more corporate projects.

## History

Founded in 2012, Tattleaux Solar Group shifted to community solar in 2018, focusing on projects that deliver clean, discounted electricity directly to residential customers. Prior to this, the company developed 51 solar projects totaling 74 MW.

Tattleaux specializes in smaller, community-scale systems that can be deployed more quickly, helping bring energy savings to residents sooner. The company works closely with municipalities, schools, and nonprofits to develop projects, engage local subscribers, and expand access to solar—particularly in low- and moderate-income communities.

Through a community-driven approach and workforce partnerships, Tattleaux aims to increase access to clean energy while supporting local economic opportunity.

## Future

The Company's growth will primarily be geographical into new state markets. The company's development, construction and operations are easily scalable, especially because many solar construction and engineering firms are national. Large hedge funds currently finance most of our solar systems. Tattleaux is now keeping ownership of select projects to build its balance sheet. The Burlington Brownfield Project is one of those.

## Your Earnings Potential

A \$1,000 investment earns \$1,162 (\$1,000 in principal + \$162 in interest) after fees by the end of the investment term, if the business pays as agreed. As an amortizing loan, investors receive principal back over time, so interest is earned at a 10% annual rate but on a declining balance.
