Firefighter Robotics Company # Investor at LeoTronics Robotics # CEO of the Infoland companies # VC Investor SR-ČR-USA # Partner in the iTrend and US Communication Service # LP at LeoInvest investors club#Orlando FL

Greater Orlando

Summary

I am the owner of several companies in Europe in robotics, real estate, construction, consulting, and tourism areas. I am also the owner of the production of plastic products and the production of building materials, developing the production of robotics in Slovakia.

I actively cooperate as a partner with the American company US Communication Service - production of special fasteners for overhead cables of all types, telecommunications equipment, distribution in the US and Canada of cables of all types that are made in Europe - www.uscomservice.com

By attracting investors and private lenders, I help entrepreneurs in Europe to implement their projects and progressive business ideas. #I am an entrepreneur and investor and I am not looking for a job here :)

Here I want to contact potential investors and partners, private lenders, real estate professionals, owners of similar businesses. I have good and long-term contacts with active entrepreneurs in most European countries, especially in the Czech Republic, Slovakia, Poland, Montenegro, and Ukraine.

I am ready to implement projects that are interesting for me together with you!

I am investor and coordinator in the LeoTronics Robotics
