Moxie For Kids, Inc.

Transcript prepared from the final video caption file.

00:00:00.840

Every child deserves the opportunity to build social and emotional

00:00:04.740

strength. Welcome to Moxie.

00:00:08.460

When families first open Moxie, we begin by getting to know their child.

00:00:13.020

From there, Moxie creates a personalized strength path

00:00:16.960

designed around each child's age, developmental stage,

00:00:21.410

and emotional growth goals, making every experience

00:00:24.900

meaningful from the very beginning.

00:00:27.880

Each day, families receive one short experience

00:00:31.420

designed to fit naturally into everyday life.

00:00:34.900

In just a few minutes, parents and children build practical,

00:00:38.580

social, and emotional skills they can learn,

00:00:42.040

practice, and use together. Every journey

00:00:45.220

begins with one simple concept. Children

00:00:48.920

discover a new social or emotional skill through engaging,

00:00:53.380

age-appropriate guidance

00:00:55.600

while parents learn alongside them, creating a shared language they

00:00:59.440

can use long after the activity ends.

00:01:03.260

Learning becomes meaningful through play.

00:01:06.620

Interactive activities help children recognize emotions,

00:01:10.580

build social and emotional vocabulary, and practice

00:01:14.060

self-regulation in ways that feel fun, natural, and

00:01:18.020

engaging. More importantly, they create positive moments of

00:01:21.520

connection between parent and child.

00:01:25.640

But Moxie was never designed to keep families on a screen.

00:01:29.160

It's designed to help them carry these skills into everyday life

00:01:33.100

during the moments that matter most.

00:01:35.400

Whether it's after school, during bedtime, or

00:01:39.120

navigating a difficult conversation,

00:01:41.860

social and emotional growth happens together.

00:01:46.800

One of the things that makes Moxie unique is that it

00:01:50.440

supports parents too.

00:01:53.040

Guided coaching helps caregivers recognize their own stress,

00:01:57.380

respond more intentionally,

00:01:59.820

and model the very emotional skills they're helping their children build.

00:02:04.680

Reflection is where practice becomes habit.

00:02:07.880

Families celebrate small wins, reinforce what they've learned,

00:02:12.500

and prepare to apply those skills the next time life presents a challenge.

00:02:17.840

Over time, these small moments become something much bigger:

00:02:21.620

growing confidence, stronger family routines,

00:02:25.440

healthier relationships, and social and emotional skills that

00:02:29.440

children will carry with them for years to come.

00:02:32.620

At Moxie, we believe social and emotional strength is built one

00:02:36.620

small moment at a time because confident kids grow

00:02:40.620

up with Moxie.
