Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

RISK FACTORS

8. Discuss the material factors that make an investment in the issuer speculative or risky:

A crowdfunding investment involves risk. Investors should not invest any funds unless they can afford to lose the entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

> The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

> Woodson Spirits Inc was incorporated in 2022 and has a limited operating history upon which investors can evaluate our business and prospects. We are in the growth stage of our business and have not yet demonstrated that we can successfully operate a profitable spirits company at scale. We have limited cash reserves and have incurred losses since inception. We expect to continue to incur losses for the foreseeable future as we invest in product development, marketing, distribution expansion, and building brand awareness in the highly competitive premium bourbon market. There is no assurance that our products will achieve sufficient market acceptance to generate the revenue necessary to achieve or sustain profitability. If we are unable to generate adequate revenue or manage our expenses effectively, we may never become profitable and investors could lose their entire investment.

> Woodson Spirits Inc currently has zero employees and relies entirely on the efforts of our founders and a small group of key personnel to manage all aspects of our business operations, including product development, marketing, sales, distribution, regulatory compliance, and financial management. The loss of services of any key personnel, particularly our celebrity founder Charles Woodson whose name and reputation are central to our brand identity, could have a material adverse effect on our business. We do not maintain key person life insurance on any of our key personnel. As we grow, we will need to attract, hire, train, and retain qualified employees across multiple functional areas. There can be no assurance that we will be successful in building an effective team or that we will have the financial resources to hire the personnel necessary to successfully scale our operations. Our inability to build an adequate team could significantly

resources to hire the personnel necessary to successfully scale our operations. Our inability to build an adequate team could significantly impair our ability to execute our business plan and compete effectively in the market.

Woodson Spirits Inc was founded by NFL Hall of Famer Charles Woodson, and our brand identity, marketing strategy, and customer appeal are substantially dependent on his name, image, reputation, and ongoing involvement with the company. Any negative publicity, controversy, or reputational damage involving our founder could materially harm our brand image and negatively impact sales. Additionally, if our founder were to reduce his involvement with the company, terminate his relationship with us, or become unable to participate in promotional activities due to health issues or other commitments, our ability to market our products effectively and maintain customer loyalty could be significantly impaired. We may have limited or no contractual protections to ensure our founder's continued involvement, and we cannot guarantee that his celebrity status will translate into sustained commercial success for our products. Our dependence on a single individual's personal brand creates concentration risk that could adversely affect our business if that relationship changes or if consumer interest in our founder diminishes over time.

Our business strategy relies significantly on strategic partnerships with major sports institutions, including the Pro Football Hall of Fame and the University of Michigan. These partnerships provide us with licensing rights, marketing opportunities, and brand credibility that are important to our limited edition product releases and overall market positioning. We may have limited control over these partnerships, and there is no guarantee that these arrangements will continue, be renewed on favorable terms, or be renewed at all. The loss of any key partnership could limit our ability to produce certain limited edition products, reduce our brand appeal to sports fans and collectors, and negatively impact our revenue. Additionally, our partners may impose restrictions on how we use their intellectual property, limit our distribution channels, or require us to meet certain sales or quality standards. If we fail to maintain these partnerships or if our partners' own reputations suffer damage, our business could be materially harmed.

A significant portion of our business strategy involves releasing limited edition bourbon products, including hand-numbered collectible bottles tied to sports partnerships and commemorative events. This business model requires us to continuously develop new limited edition concepts, secure partnerships for special releases, and maintain consumer interest in collectible spirits. There is no assurance that we can sustain consumer demand for limited edition releases or that collectors will continue to value our products. The limited edition market may be subject to changing consumer preferences, economic conditions affecting discretionary spending on premium collectibles, and competition from other spirits brands pursuing similar strategies. If we are unable to generate compelling limited edition concepts, if production costs for small-batch releases become prohibitive, or if consumer interest in collectible bourbon diminishes, our revenue and growth prospects could be materially adversely affected. Additionally, our focus on limited editions may limit our ability to build a stable base of recurring customers for standard product lines.

The premium bourbon and whiskey market is highly competitive and dominated by large, well-established spirits companies with substantially greater financial resources, production capacity, distribution networks, marketing budgets, and brand recognition than Woodson Spirits Inc. Our competitors include major distillers and spirits conglomerates that have been operating for decades or even centuries, as well as other celebrity-backed spirits brands and craft distilleries. These competitors have the ability to outspend us in marketing and promotional activities, offer more favorable pricing, secure premium retail shelf space and distribution agreements, and respond more quickly to changing market conditions. Many competitors also have diversified product portfolios that allow them to cross-promote products and absorb losses in ways that we cannot. We may be unable to differentiate our products sufficiently to compete effectively, and we may be forced to reduce prices or increase marketing expenditures in ways that harm our profitability. If we cannot successfully compete against established players, our ability to gain market share and achieve our business objectives will be significantly impaired.

Woodson Spirits Inc does not own or operate its own distillery and relies on third-party distillers and suppliers to produce our Kentucky Straight Bourbon Whiskey. We are dependent on these partners for the quality, consistency, and timely production of our products. We may have limited control over our suppliers' operations, production schedules, quality control processes, and capacity allocation. Disruptions in our supply chain due to our suppliers' financial difficulties, operational problems, capacity constraints, quality issues, natural disasters, or other factors could result in product shortages, delays in fulfilling customer orders, or inconsistent product quality. Additionally, bourbon production requires significant aging time, and any disruption in the production pipeline could affect our ability to meet demand for extended periods. We may also face challenges in sourcing specialty components such as cognac staves used in our finishing process. If we are unable to maintain reliable relationships with quality suppliers, if our suppliers prioritize other customers over us, or if we need to find alternative suppliers, our business operations and reputation could be materially harmed. We may also face increased costs if suppliers raise prices or if we need to secure alternative sources of supply.

Our bourbon products are positioned in the premium segment of the spirits market and are priced accordingly, with limited edition releases commanding even higher price points. Demand for premium alcoholic beverages is sensitive to economic conditions and discretionary consumer spending. During economic downturns, recessions, or periods of financial uncertainty, consumers may reduce spending on premium spirits and shift to lower-priced alternatives. Additionally, our limited edition collectible bottles appeal to consumers with disposable income to spend on luxury goods and collectibles. Economic factors such as unemployment, inflation, reduced consumer confidence, stock market volatility, or changes in tax policy could negatively impact our target customers' willingness and ability to purchase our products. Because we are a small company with limited product diversification and no lower-priced product lines, we may be more vulnerable to economic downturns than larger competitors with diverse portfolios. A sustained reduction in consumer spending on premium spirits could materially harm our revenue, profitability, and growth prospects.

The production, distribution, marketing, and sale of alcoholic beverages in the United States is subject to extensive regulation by federal authorities, including the Alcohol and Tobacco Tax and Trade Bureau (TTB), as well as state and local alcohol beverage control agencies in each jurisdiction where we sell our products. These regulations govern numerous aspects of our business, including production standards, labeling requirements, advertising and marketing restrictions, distribution methods, licensing, taxation, age verification, and shipping limitations. Alcohol regulations vary significantly from state to state, and we have noted that territory exclusions apply to certain of our products, indicating existing regulatory constraints on our distribution. Compliance with these complex and often inconsistent regulations requires significant time, effort, and expense. Changes to existing laws or the adoption of new regulations could increase our compliance costs, restrict our ability to market or sell our products in certain jurisdictions, require us to modify our business practices or product formulations, or otherwise adversely affect our operations. Additionally, we sell products directly to consumers through e-commerce, which is subject to varying state laws regarding direct-to-consumer alcohol shipments, age verification requirements, and shipping restrictions. Failure to comply with applicable alcohol beverage laws and regulations could result in warning letters, fines, penalties, license suspensions or revocations, product recalls, restrictions on our ability to conduct business, or criminal liability. Any such enforcement actions could materially harm our business, reputation, and financial condition.

A portion of our business involves direct-to-consumer sales of bourbon through our e-commerce platform. Direct-to-consumer alcohol sales are subject to a complex patchwork of state laws and regulations that vary widely across jurisdictions. Many states prohibit or significantly restrict direct shipment of spirits to consumers, require special licenses or permits, impose volume limitations, mandate the use of licensed carriers, or require registration and tax collection in each state where we ship products. We must implement robust age

verification procedures to ensure that purchasers are at least 21 years old and that deliveries are made only to adults. We also face operational challenges related to shipping logistics, including the need to use specialized carriers, navigate carrier restrictions on alcohol shipments, ensure proper packaging and handling, and manage the risk of damaged or lost shipments. Changes in state laws could further restrict our ability to ship to consumers in certain states or increase our compliance costs. Additionally, our e-commerce operations depend on third-party technology platforms, payment processors, and shipping carriers, and any disruptions in these services could impair our ability to fulfill customer orders. If we fail to comply with applicable laws governing direct-to-consumer alcohol sales, we could face regulatory enforcement actions, and if we cannot effectively manage the operational complexities of e-commerce alcohol sales, our revenue and customer satisfaction could be negatively impacted.

Our business depends significantly on our brand identity, trademarks, trade dress, product names, and the goodwill associated with our founder's name and image. We rely on trademark protection, licensing agreements, and other intellectual property rights to protect our brand assets. However, we may not have secured comprehensive trademark registrations for all of our brands, product names, or logos in all relevant jurisdictions, and we may face challenges in enforcing our intellectual property rights. Third parties may claim that our branding, product names, or marketing materials infringe on their intellectual property rights, which could result in costly litigation, require us to rebrand products, or prevent us from using certain names or images. Additionally, our use of our founder's name, image, and likeness may be subject to contractual limitations or right of publicity considerations. We may also rely on trade secrets and proprietary know-how related to our bourbon finishing techniques and product formulations, but we may not be able to prevent others from independently developing similar processes or products. Counterfeit products or unauthorized use of our trademarks could damage our brand reputation and reduce sales. The costs of protecting, defending, or enforcing our intellectual property rights could be substantial, and if we are unable to adequately protect our brand and proprietary assets, our competitive position and business prospects could be materially harmed.

Woodson Spirits Inc has limited cash reserves and will require substantial additional funding to execute our business plan, expand our distribution, increase production capacity, invest in marketing and brand building, hire employees, and support working capital needs. Our use of funds from this offering allocates significant portions to working capital, sales and marketing, and online strategy, but these funds may not be sufficient to achieve our growth objectives or sustain operations until we reach profitability. We do not currently have any commitments for additional financing, and there can be no assurance that additional capital will be available on acceptable terms, if at all. Our ability to obtain financing may be limited by our early stage, lack of profitability, limited operating history, and the risks inherent in the spirits industry. If we are unable to obtain additional financing when needed, we may be forced to delay, reduce, or eliminate planned expenditures, curtail our growth plans, reduce marketing activities, or cease operations entirely. Even if we are able to raise additional capital, it may be on terms that are dilutive to existing investors or that impose restrictive covenants or other limitations on our business operations.

We expect to conduct additional equity financings in the future to fund our operations and growth initiatives. The issuance of additional equity securities, whether through private placements, crowdfunding offerings, or other means, will have a dilutive effect on the ownership percentage of existing investors, including investors in this offering. This means that your percentage ownership in the company will decrease, and the value of your investment may be reduced. We may also issue equity securities with rights, preferences, or privileges that are senior to the securities being offered in this offering. While certain securities may carry anti-dilution protections or other preferential rights, the securities offered in this offering may not have such protections, and there is no guarantee that future issuances will not result in significant dilution to current investors. Additionally, if we issue equity securities at a valuation lower than the valuation at which you invested, the value of your investment will be negatively impacted. We have broad discretion over the terms of future financings, and investors will have little or no ability to prevent or control dilutive issuances.

An investment in Woodson Spirits Inc is highly speculative and involves a high degree of risk. You should invest only if you can afford to lose your entire investment. We are an early-stage company with limited operating history, no employees, limited cash reserves, and we have not demonstrated that we can achieve profitability or sustain operations over the long term. The spirits industry is highly competitive, heavily regulated, and subject to changing consumer preferences. Many early-stage companies in the consumer goods sector fail to achieve their business objectives and ultimately cease operations. There is no assurance that we will be able to successfully execute our business plan, compete effectively against established competitors, maintain key partnerships, comply with complex regulations, or generate sufficient revenue to cover our expenses. If our business fails, you will lose your entire investment, and there will be no recovery or residual value. Investors should carefully consider their financial situation, risk tolerance, and investment objectives before investing, and should not invest funds that they cannot afford to lose.

There is no public market for the securities being offered, and none is expected to develop in the foreseeable future. The securities have not been registered under the Securities Act of 1933 or any state securities laws, and they may not be sold or transferred except in compliance with applicable securities laws, which generally require either registration or an available exemption from registration. Under federal securities laws, investors will be subject to a one-year holding period during which they cannot sell or transfer the securities except in very limited circumstances. Even after the one-year holding period expires, there may be no buyers for the securities, and you may be unable to liquidate your investment. The company is under no obligation to register the securities for resale, list them on any exchange, or facilitate a secondary market. Additionally, any future sale or transfer of the securities may require the company's consent and compliance with applicable securities laws, which may be difficult or impossible to satisfy. Investors should be prepared to hold this investment indefinitely and bear the financial risks for an extended or unlimited period of time. The lack of liquidity may make it difficult or impossible to exit your investment, even in cases of financial need or if the company's prospects deteriorate.

Investors in this offering will hold a minority ownership position in Woodson Spirits Inc and will have little or no ability to influence or control company decisions, operations, or strategy. The company's founders, officers, and directors will retain control over all major decisions, including decisions regarding business strategy, product development, financing, acquisitions, partnerships, executive compensation, dividend policy, and whether and when to sell the company. You will not have the right to elect directors, approve significant transactions, or vote on most matters affecting the company. The company's management will have broad discretion in how they use the proceeds from this offering, and you will have no control over those decisions. Additionally, the securities being offered may have limited or no voting rights, information rights, or other protective provisions. Management may make decisions that you disagree with or that are not in your best interests as a minority investor. The company may also enter into related-party transactions, issue additional securities on terms that are dilutive or unfavorable to you, or take other actions that benefit management or other stakeholders at the expense of minority investors. Your inability to influence company decisions or protect your interests means that you are entirely dependent on management's judgment, integrity, and ability to successfully operate the business.

In this offering, the founder of Inndirectly has been designated as the lead investor responsible for signing documents and making certain decisions on behalf of investors in the special purpose vehicle ("SPV"), as described in the offering materials and applicable SPV documents.

This arrangement may create conflicts of interest because the founder has interests both as an operator of the Company and as the

representative of investors in the SPV. Decisions that benefit the Company or its founders may not always align with the interests of the SPV investors. The founder may also have access to information about the Company's operations, financial condition, and prospects that is not available to all investors at the same time.

Investors may not have an independent third-party representative negotiating or making decisions on their behalf. The scope of the lead investor's authority, duties, and responsibilities will be governed by the applicable offering and SPV documents. Investors should carefully review those documents and consider the potential conflicts and limitations associated with this structure before investing.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **$50,000**

Use of Proceeds: If only the minimum target amount is raised, Woodson Spirits expects to use proceeds approximately as follows: 43% Bourbon Inventory and Production, 29% In-State Sales and Distribution, 21% Online Sales and Social Media, and 7% Wefunder fee and related offering expenses. Management intends to allocate proceeds as described but may adjust priorities based on operational needs, regulatory requirements, and market conditions.

If we raise: **$1,235,000**

Use of Proceeds: If the maximum offering amount is raised, including any oversubscriptions, Woodson Spirits expects to use proceeds approximately as follows: 32% Bourbon Inventory and Production, 26% Multi-State Sales and Distribution, 15% Online Sales and Social Media, 11% Limited Edition and Collectible Releases, 9% Sports Partnership Development, and 7% Wefunder fee and related offering expenses. Management expects to deploy excess proceeds toward expanded distribution and new limited edition releases but may reallocate based on licensing, regulatory, and market factors.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer. Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle ("SPV"). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. In addition, investors' interests in the investments will be recorded in each investor's "Portfolio" page on the Wefunder platform. All references in this Form C to an Investor's investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline.

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be canceled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

To view a copy of the SAFE you will purchase, please see Appendix B, Investor Contracts. The main terms of the SAFEs are provided below.

The SAFEs. We are offering securities in the form of a Simple Agreement for Future Equity ("SAFE"), which provides Investors the right to **Preferred Stock** in the Company ("**Preferred Stock**"), when and if the Company sponsors an equity offering that involves **Preferred Stock**, on the standard terms offered to other Investors.

Conversion to Preferred Equity. Based on our SAFEs, when we engage in an offering of equity interests involving **Preferred Stock**, **Investors will receive a number of shares of Preferred Stock** calculated using the method that results in the greater number of **Preferred Stock**:

i. the total value of the Investor's investment, divided by
   a. the price of **Preferred Stock** issued to new Investors
ii. if the valuation for the company is more than **$7,235,000.00** (the "Valuation Cap"), the amount invested by the Investor divided by the quotient of
   a. the Valuation Cap divided by
   b. the total amount of the Company's capitalization at that time.

Additional Terms of the Valuation Cap. For purposes of option (ii) above, the Company's capitalization calculated as of immediately prior to the Equity Financing and (without double-counting, in each case calculated on an as-converted to Common Stock basis):

- Includes all shares of Capital Stock issued and outstanding;
- Includes all Converting Securities;
- Includes all (i) issued and outstanding Options and (ii) Promised Options; and
- Includes the Unissued Option Pool, except that any increase to the Unissued Option Pool in connection with the Equity Financing shall only be included to the extent that the number of Promised Options exceeds the Unissued Option Pool prior to such increase.

Liquidity Events. If the Company has an initial public offering or is acquired by, merged with, or otherwise taken over by another company or new owners prior to Investors in the SAFEs receiving **Preferred Stock**, Investors will receive

- proceeds equal to the greater of (i) the Purchase Amount (the "Cash-Out Amount") or (ii) the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price (the "Conversion Amount")

Liquidity Priority. In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard nonparticipating Preferred Stock. The Investor's right to receive its Cash-Out Amount is:

i. Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);
ii. On par with payments for other Safes and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other Safes and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the Investor and such other Safes and/or Preferred Stock in proportion to the full payments that would otherwise be due; and
iii. Senior to payments for Common Stock.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to investors. The SPV is formed concurrently with the filing of the Form C. Given this, the SPV does not have any financials to report. The SPV is managed by Wefunder Admin, LLC and is a co-issuer with the Company of the securities being offered in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. While the Issuer may be required to pay an annual administrative fee for the maintenance of the SPV, investors should note the Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

If the securities offered by the Company and those offered by the SPV have voting rights, those voting rights may be exercised by the investor or his or her proxy. The applicable proxy is the Lead Investor, if the Proxy (described below) is in effect.

Proxy to the Lead Investor

The SPV securities have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed or will appoint the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote all securities related to the Company purchased in an offering hosted by Wefunder Portal, and (ii) execute, in connection with such voting power, any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor ("Replacement Lead Investor") takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy. If the Proxy is not revoked within the 5-day time period, it shall remain in effect.

Restriction on Transferability

The SPV securities are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV.

14. Do the securities offered have voting rights?

☐ Yes
☑ No

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

16. How may the terms of the securities being offered be modified?

Any provision of this Safe may be amended, waived or modified by written consent of the Company and either:

i. the Investor or

ii. the majority-in-interest of all then-outstanding Safes with the same "Post-Money Valuation Cap" and "Discount Rate" as this Safe (and Safes lacking one or both of such terms will be considered to be the same with respect to such term(s)), provided that with respect to clause (ii):

   A. the Purchase Amount may not be amended, waived or modified in this manner,

   B. the consent of the Investor and each holder of such Safes must be solicited (even if not obtained), and

   C. such amendment, waiver or modification treats all such holders in the same manner. "Majority-in-interest" refers to the holders of the applicable group of Safes whose Safes have a total Purchase Amount greater than 50% of the total Purchase Amount of all of such applicable group of Safes.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and

B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

Restrictions on Transfer of the Securities Being Offered:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Authorized	Outstanding	Voting rights
Common Stock	10000000	8019243	☑

Class of Security	Total Pool
Warrants	None
Options	275000

Describe any other rights:

The company has not yet authorized preferred stock, which investors in the SAFE (if converted) will receive. Preferred stock has liquidation preferences over common stock.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The shareholders have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

---

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The initial amount invested in a SAFE is determined by the investor, and we do not guarantee that the SAFE will be converted into any particular number of **shares of Preferred Stock**. As discussed in Question 13, when we engage in an offering of equity interests involving **Preferred Stock**, Investors may receive a number of shares of **Preferred Stock** calculated as either (i) the total value of the Investor's investment, divided by the price of the **Preferred Stock** being issued to new Investors, or (ii) if the valuation for the company is more than the Valuation Cap, the amount invested divided by the quotient of (a) the Valuation Cap divided by (b) the total amount of the Company's capitalization at that time.

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the **Preferred Stock** that Investors will receive, and/or the total value of the Company's capitalization, will be determined by our **board of directors**. Among the factors we may consider in determining the price of **Preferred Stock** are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates of our business potential, the present state of our development and other factors deemed relevant.

In the future, we will perform valuations of our **stock (including both common stock and Preferred Stock)** that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those securities;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

---

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

---

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

FINANCIAL CONDITION OF THE ISSUER

27. Does the issuer have an operating history?

Yes

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview of the Business and Financial Condition

Woodson Spirits is a whiskey brand founded by Pro Football Hall of Famer Charles Woodson. Its five products have won awards at the San Francisco World Spirits Competition, and they're sold through retailers including Total Wine, Costco and Kroger. Woodson Spirits LLC was formed in 2022 and was incorporated under the laws of Delaware in 2026.

We are an early-stage company and have incurred operating losses and negative cash flows from operations since inception. We expect to continue to incur operating losses in the near term.

As of November 17, 2026, we had cash and cash equivalents of approximately $30,060.

Our ability to continue operations is dependent on managing our expenses and, if necessary, obtaining additional financing.

This discussion should be read in conjunction with the financial statements and related notes included in this offering statement.

Business and Operating Uncertainty

Our business operates in an environment subject to various risks, uncertainties, and changing conditions, which makes it difficult to evaluate our business, financial condition, and prospects and may limit the comparability of our results of operations from period to period.

Financial Condition

As of December 31, 2025, our total assets were $271,319 and our current and non-current liabilities, as reflected in available financial statement fields, were $935,221.

Our financial statements reflect an early-stage company with limited operating history. Investors should not place undue reliance on historical financial information given the company's limited operating history and the likelihood that future results will differ from historical results.

Liquidity and Capital Resources

As of December 31, 2025, we had cash and cash equivalents of approximately $2,824.30.

Based on our current operations, we have a monthly net cash burn of approximately $21,744.

Our monthly net cash burn or profit may vary significantly from month to month due to the timing of receipts and expenditures and other short-term factors. As a result, period-to-period comparisons may not be meaningful.

Based on our current plan, we do not expect to have sufficient cash to fund operations for at least the next 12 months. The main drivers of our limited runway include:

Woodson Spirits (WS) generates income through bottle sales royalty. Based on this structure, WS is paid after the wholesaler is paid by the distributor. In most cases, the distributor is on 30 day terms to pay the wholesaler. Once the wholesaler is paid, WS is paid the royalty on those sales usually within 30 days. A goal from the investment raise is for WS to gain its Federal Basic Permit and become the wholesaler.

To date, our operations have been funded through minimal cash resources and have not included any external financing.

Liquidity Assumptions

Our assessment of our liquidity and ability to fund operations is not a projection and is based on current assumptions regarding operating expenses, cash requirements, and capital needs. These assumptions may change, and actual results may differ materially due to changes in operating conditions, timing of receipts and payments, and other factors.

Dependence on Additional Financing

There can be no assurance that additional financing will be available on acceptable terms, or at all. If we are unable to raise additional capital when needed, we may be required to materially reduce or suspend operations.

Indebtedness and Capital Structure

As of the date of this offering statement, we had total outstanding indebtedness consisting of approximately $663,938 in aggregate principal obligations. The material terms of such indebtedness are described in Item 24 of this Form C.

(For the avoidance of doubt, SAFEs are not treated as indebtedness.)

We have not conducted any exempt offerings or raised capital in the past three years.

Known Trends, Events, and Uncertainties

Management is aware of the following trends, events, or uncertainties that are reasonably likely to have a material adverse effect on our financial condition or results of operations over the next 12 months:

The majority of our sales occur in Q3 and Q4, due to NCAA Football and NFL season. Historically, we have had lower sales in the "football offseason". A goal is to increase sales in Q1 and Q2.

Woodson Spirits (WS) generates income through bottle sales royalty. Based on this structure, WS is paid after the wholesaler is paid by the distributor. In most cases, the distributor is on 30 day terms to pay the wholesaler. Once the wholesaler is paid, WS is paid the royalty on those sales usually within 30 days. A goal from the investment raise is for WS to gain its Federal Basic Permit and become the wholesaler.

These factors could increase operating costs, reduce liquidity, or require us to raise additional capital earlier than anticipated.

Other than the matters described above, management is not currently aware of any known trends, events, or uncertainties that are reasonably likely to have a material adverse effect on our financial condition or results of operations.

The absence of a discussion of any particular trend, event, or uncertainty should not be interpreted to mean that such matters do not exist; rather, it reflects management's judgment based on information currently available.

Changes Since the Date of the Financial Statements

There have been no material changes in our operations or financial condition since the date of the financial statements included in this offering.

Impact of This Offering

The proceeds from this offering are expected to be used to go towards working capital, in-state sales, marketing, online sales, and social media strategy. The timing and extent of our use of proceeds will depend on the amount of proceeds raised and future operating conditions. Additional detail regarding our planned use of proceeds is provided in Item 10 of this Form C.

There can be no assurance that the proceeds of this offering will be sufficient to fund our operations or achieve our business objectives.

Certain information relevant to understanding our financial condition and liquidity is presented elsewhere in this offering statement, including in the financial statements, related notes, and the sections describing indebtedness and prior financings.

Forward-Looking Statements

This discussion contains forward-looking statements that are based on management's current expectations and assumptions. Actual results may differ materially from those expressed or implied by these statements.

i. any scienter-based anti-fraud provision of the federal securities laws, including without limitation Section 17(a)(1) of the Securities Act, Section 10(b) of the Exchange Act, Section 15(c)(1) of the Exchange Act and Section 206(1) of the Investment Advisers Act of 1940 or any other rule or regulation thereunder? ☐ Yes ☑ No

ii. Section 5 of the Securities Act? ☐ Yes ☑ No

(6) Is any such person suspended or expelled from membership in, or suspended or barred from association with a member of, a registered national securities exchange or a registered national or affiliated securities association for any act or omission to act constituting conduct inconsistent with just and equitable principles of trade? ☐ Yes ☑ No

(7) Has any such person filed (as a registrant or issuer), or was any such person or was any such person named as an underwriter in, any registration statement or Regulation A offering statement filed with the Commission that, within five years before the filing of this offering statement, was the subject of a refusal order, stop order, or order suspending the Regulation A exemption, or is any such person, at the time of such filing, the subject of an investigation or proceeding to determine whether a stop order or suspension order should be issued? ☐ Yes ☑ No

(8) Is any such person subject to a United States Postal Service false representation order entered within five years before the filing of the information required by Section 4A(b) of the Securities Act, or is any such person, at the time of filing of this offering statement, subject to a temporary restraining order or preliminary injunction with respect to conduct alleged by the United States Postal Service to constitute a scheme or device for obtaining money or property through the mail by means of false representations? ☐ Yes ☑ No

If you would have answered "Yes" to any of these questions had the conviction, order, judgment, decree, suspension, expulsion or bar occurred or been issued after May 16, 2016, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and

- (2) such further material information, if any, as may be necessary to make the required statements, in light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an individual that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such circumstances, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. If applicable, the Company may also be required to pay Wefunder certain fees for the preparation of tax filings. Such fees and the Company's obligation to deliver required tax documents are

Wefunder certain fees for the preparation of tax filings. Such fees and the Company's obligation to deliver required tax documents are further specified in the related Tax Services Agreement ("TSA").

Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

Potential Dissolution of the SPV. The Company has agreed that it will pay an administrative fee and / or certain tax fees to Wefunder, in addition to delivering required tax information in the manner prescribed by the TSA, where applicable. Failure to pay such fees or provide Wefunder with required tax information could result in the dissolution of the SPV (an "SPV Dissolution Event"). Subsequent to an SPV Dissolution Event, the securities held by the SPV would be distributed directly and proportionally to the individual investors. This could create administrative complexities, as investors would need to manage the securities themselves rather than having them held and administered by the SPV. Additionally, the unplanned distribution of securities may not align with investors' intended investment strategy or asset allocation.

Upon an SPV Dissolution Event, the Investor hereby consents to and agrees to accept direct assignment of the SPV's rights and obligations under any investment agreements between the SPV and the Company that is located in the Form C or C/A offering materials. The Investor acknowledges they will be bound by all terms and conditions of such agreements as if they were an original party thereto.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

https://woodsonwhiskey.com/invest

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed $10 million; or
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.
