Form C

Cover Page

Name of issuer:

Clikyo Inc.

Legal status of issuer:

> **Form:**
>
> Corporation
>
> **Jurisdiction of Incorporation/Organization:**
>
> DE
>
> **Date of organization:**
>
> 12/15/2025

Physical address of issuer:

131 Continental Drive
Newark, DE 19713

Website of issuer:

https://clikyo.com

Name of intermediary through which the offering will be conducted:

Wefunder Portal LLC

CIK number of intermediary:

0001670254

SEC file number of intermediary:

007-00033

CRD number, if applicable, of intermediary:

283503

Amount of compensation to be paid to the intermediary, whether as a dollar amount or a percentage of the offering amount, or a good faith estimate if the exact amount is not available at the time of the filing, for conducting the offering, including the amount of referral and any other fees associated with the offering:

7.9% of the offering amount upon a successful fundraise, and be entitled to reimbursement for out-of-pocket third party expenses it

pays or incurs on behalf of the Issuer in connection with the offering.

Any other direct or indirect interest in the issuer held by the intermediary, or any arrangement for the intermediary to acquire such an interest:

No

Type of security offered:

- ☐ Common Stock
- ☐ Preferred Stock
- ☐ Debt
- ☑ Other

  Describe the security offered:

  Simple Agreement for Future Equity (SAFE)

Target number of securities to be offered:

10,000

Price:

$1.00

Method for determining price:

Pro-rated portion of the total principal value of $10,000; interests will be sold in increments of $1; each investment is convertible to one share of stock as described under Item 13.

Target offering amount:

$10,000.00

Oversubscriptions accepted:

- ☑ Yes
- ☐ No

Disclose how oversubscriptions will be allocated:

- ☐ Pro-rata basis
- ☐ First-come, first-served basis
- ☑ Other

  Describe how oversubscriptions will be allocated:

  As determined by the issuer

Maximum offering amount (if different from target offering amount):

$124,000.00

Deadline to reach the target offering amount:

4/30/2027

NOTE: If the sum of the investment commitments does not equal or exceed the target offering amount at the offering deadline, no securities will be sold in the offering, investment commitments will be canceled and committed funds will be returned.

Current number of employees:

1

	Most recent fiscal year-end:	Prior fiscal year-end:
Total Assets:	$5,200.00	$0.00
Cash & Cash Equivalents:	$5,200.00	$0.00
Accounts Receivable:	$0.00	$0.00
Current Liabilities:	$0.00	$0.00
Non-Current Liabilities:	$0.00	$0.00
Revenues/Sales:	$0.00	$0.00
Cost of Goods Sold:	$0.00	$0.00
Taxes Paid:	$0.00	$0.00
Net Income:	($1,800.00)	$0.00

Select the jurisdictions in which the issuer intends to offer the securities:

AL, AK, AZ, AR, CA, CO, CT, DE, DC, FL, GA, HI, ID, IL, IN, IA, KS, KY, LA, ME, MD, MA, MI, MN, MS, MO, MT, NE, NV, NH, NJ, NM, NY, NC, ND, OH, OK, OR, PA, RI, SC, SD, TN, TX, UT, VT, VA, WA, WV, WI, WY, B5, GU, PR, VI, 1V

Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

THE COMPANY

1. Name of issuer:

COMPANY ELIGIBILITY

2. ☑ Check this box to certify that all of the following statements are true for the issuer.

- Organized under, and subject to, the laws of a State or territory of the United States or the District of Columbia.
- Not subject to the requirement to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.
- Not an investment company registered or required to be registered under the Investment Company Act of 1940.
- Not ineligible to rely on this exemption under Section 4(a)(6) of the Securities Act as a result of a disqualification specified in Rule 503(a) of Regulation Crowdfunding.
- Has filed with the Commission and provided to investors, to the extent required, the ongoing annual reports required by Regulation Crowdfunding during the two years immediately preceding the filing of this offering statement (or for such shorter period that the issuer was required to file such reports).
- Not a development stage company that (a) has no specific business plan or (b) has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

3. Has the issuer or any of its predecessors previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding?

☐ Yes
☑ No

DIRECTORS OF THE COMPANY

4. Provide the following information about each director (and any persons occupying a similar status or performing a similar function) of the issuer.

Director	Principal Occupation	Main Employer	Year Joined
Eddy Brutus	Founder & CEO of Clikyo, Inc.	Clikyo, Inc.	2025

For three years of business experience, refer to Appendix D: Director & Officer Work History.

OFFICERS OF THE COMPANY

5. Provide the following information about each officer (and any persons occupying a similar status or performing a similar function) of the issuer.

Officer	Positions Held	Year Joined
Eddy Brutus	CEO, Secretary, President, Treasurer	2025

For three years of business experience, refer to Appendix D: Director & Officer Work History.

PRINCIPAL SECURITY HOLDERS

6. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power.

Name of Holder	% of Voting Power Prior to Offering
Eddy Brutus	50%+

Business and Anticipated Business Plan

Business and Anticipated Business Plan

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

For a description of our business and our business plan, please refer to the attached Appendix A, Business Description & Plan.

RISK FACTORS

8. Discuss the material factors that make an investment in the issuer speculative or risky:

A crowdfunding investment involves risk. Investors should not invest any funds unless they can afford to lose the entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

> Clikyo is an early-stage startup with limited operating history and no guaranteed revenue. There is no assurance the company will achieve product-market fit or long-term profitability.

> The social media industry is highly competitive, with large established platforms such as Meta, TikTok, and X. Clikyo may face significant challenges in user acquisition, retention, and differentiation.

> As a technology platform, Clikyo depends on reliable infrastructure, cybersecurity, and continuous product development. Technical failures, security breaches, or scaling challenges could negatively impact growth.

> The company operates in a regulated environment involving data protection, privacy laws, and financial reporting obligations. Changes in regulations could increase operational costs or restrict certain features.

> Clikyo is currently led by its founder, Eddy Brutus. The loss or reduced involvement of the founder could materially impact the company's operations and strategic direction.

> Clikyo's success depends on its ability to attract and retain a critical mass of active users. Failure to achieve sustained user growth may limit monetization opportunities and overall company valuation.

> The company may require additional funding beyond the current raise to execute its long-term roadmap. There is no guarantee that future capital will be available on favorable terms, or at all.

> Clikyo Inc. was incorporated in December 2025 and has an extremely limited operating history upon which investors can evaluate our business, financial performance, and prospects. We are at a very early stage of development with minimal market presence and an unclear value proposition based on our current public-facing materials. Our website provides limited information about what our

an unclear value proposition based on our current public-facing materials. Our website provides limited information about what our mobile application does, who our target users are, or how we generate revenue. This lack of clarity and operating history makes it difficult for investors to assess the viability of our business model or our ability to execute our business plan. The company may need to pivot its strategy, modify its product offering, or make other fundamental changes as we learn more about market demand and user needs. There is substantial risk that we will be unable to successfully develop and commercialize our mobile application or achieve sustainable operations.

Clikyo Inc. currently has only one employee, and our success depends entirely on the continued services and efforts of our founder, Eddy Brutus. The loss of our founder's services due to death, disability, resignation, or any other reason would have a severe and immediate adverse effect on our business operations, as there are no other personnel to continue development, operations, or management of the company. We do not maintain key person life insurance on our founder. Additionally, as a single-person operation, we face significant challenges in executing on multiple business functions simultaneously, including product development, marketing, customer support, legal compliance, and financial management. Our ability to grow and scale the business will require us to successfully recruit, hire, train, and retain qualified personnel, and there can be no assurance that we will be successful in attracting the talent we need or that we will have sufficient capital to compensate such personnel competitively.

Based on our current public-facing materials, we have not clearly articulated how Clikyo generates revenue or what specific value proposition our mobile application provides to users. This lack of a clearly defined and validated business model presents substantial risk to investors. We may be operating without a proven path to monetization, and even if we identify potential revenue streams, there is no assurance that users will be willing to pay for our services or that any business model we pursue will be economically viable. We may need to experiment with various monetization strategies, including advertising, subscriptions, in-app purchases, or other models, and each approach carries its own risks and challenges. Without a proven business model, we may be unable to generate sufficient revenue to cover our operating expenses or provide returns to investors.

Our use of proceeds indicates that a substantial portion of the funds raised will be allocated to finalizing core features, including performance optimization, content moderation systems, messaging stability, and user experience refinement. This suggests that our mobile application is not yet feature-complete or market-ready. We face significant technical challenges in developing a stable, scalable, and secure mobile platform that can compete with established applications in our market. Mobile application development is complex and subject to numerous risks, including technical difficulties, software bugs, security vulnerabilities, compatibility issues across different devices and operating systems, and changing platform requirements from Apple's App Store and Google Play Store. We may encounter unforeseen technical obstacles that delay our product launch, require additional capital, or prevent us from delivering the functionality that users expect. There is no guarantee that we will successfully complete product development or that our application will meet market expectations even if we do complete development.

Our business is fundamentally dependent on third-party mobile application platforms, specifically Apple's App Store and Google Play Store, for distribution of our mobile application. These platform providers have complete control over their respective ecosystems and can change their policies, fee structures, technical requirements, or approval processes at any time without notice. If either platform were to reject our application, remove it from their store, or change their terms in ways that are unfavorable to us, our business would be materially and adversely affected. Additionally, we are dependent on various third-party technology providers for hosting, infrastructure, development tools, and other essential services. Any disruption in service from these providers, changes to their pricing or terms of service, or discontinuation of services we rely upon could significantly impact our operations. We have limited ability to negotiate with these large platform and service providers and must accept their terms, which may change to our detriment.

Clikyo Inc. has very limited cash reserves and will require substantial additional funding beyond this offering to fully develop our product, acquire users, and achieve sustainable operations. We do not currently have any commitments or arrangements for additional financing, and there can be no assurance that we will be able to raise additional capital on acceptable terms, if at all. Our

ability to obtain additional financing will depend on numerous factors, including our progress in product development, market conditions, investor sentiment toward early-stage technology companies, and competition for capital. If we are unable to raise sufficient additional capital when needed, we will be forced to delay, reduce the scope of, or eliminate some or all of our development programs and business operations. In such circumstances, we may be unable to continue as a going concern and investors could lose their entire investment.

We are not currently generating meaningful revenue and have likely incurred operating losses since our inception. We expect to continue to incur significant losses for the foreseeable future as we invest in product development, user acquisition, and building our team and infrastructure. Our ability to achieve profitability will depend on numerous factors, many of which are beyond our control, including our ability to attract and retain users, successfully monetize our platform, control our operating expenses, and compete effectively in our market. Even if we do achieve profitability, we may not be able to sustain or increase profitability on a quarterly or annual basis. The mobile application market is highly competitive and many companies in this space have struggled to achieve sustainable profitability. If we are unable to achieve and maintain profitability, the value of our company may decline and investors may lose some or all of their investment.

The mobile application market is intensely competitive and dominated by large, well-established companies with substantially greater financial, technical, marketing, and human resources than we possess. We compete not only with other mobile applications that may offer similar functionality, but also with major technology platforms and social media companies that have massive user bases, brand recognition, and the ability to rapidly develop and deploy competing features. These competitors can leverage their existing user bases, cross-promote their services, and sustain losses for extended periods while they build market share. Many of our potential competitors have the resources to offer their services for free or at prices below cost, making it difficult for us to compete on price. We may be unable to compete effectively against these established players, and competitive pressures may force us to reduce prices, increase spending on marketing and product development, or make other changes that could adversely affect our financial performance and prospects.

Our success depends entirely on our ability to attract and retain a significant user base for our mobile application. The market for mobile applications is crowded and user attention is fragmented across thousands of competing applications. Users have limited time and attention, and convincing them to download, use, and continue engaging with a new application from an unknown company is extremely challenging. Our limited online presence and unclear value proposition may indicate that we have not yet achieved meaningful market traction or validated product-market fit. User acquisition costs in the mobile application market can be substantial, and we may find that the cost of acquiring users exceeds the revenue we can generate from them. Additionally, user preferences and behaviors in the mobile application market change rapidly, and an application that gains initial traction may quickly lose users to newer or more compelling alternatives. If we are unable to attract a substantial user base or if users abandon our application after initial download, our business will fail.

As a mobile application company, we are subject to numerous federal, state, and international laws and regulations governing data privacy, data security, and consumer protection. These include laws such as the California Consumer Privacy Act (CCPA), the European Union's General Data Protection Regulation (GDPR), and various other state and international privacy laws. These regulations impose significant compliance obligations, including requirements related to data collection, use, storage, sharing, and deletion, as well as obligations to provide privacy notices and obtain user consent. The regulatory landscape for data privacy is rapidly evolving, with new laws being enacted and existing laws being amended or interpreted in new ways. Compliance with these regulations requires significant resources and expertise, and we may need to modify our business practices, implement new technical measures, or incur substantial legal and compliance costs. Failure to comply with applicable data privacy regulations could result in significant fines, penalties, lawsuits, reputational harm, and restrictions on our ability to operate our business.

Our business involves the collection, storage, and processing of user data through our mobile application, which makes us a potential target for cyberattacks, hacking attempts, and other security threats. A security breach, data loss incident, or unauthorized access to user information could result in significant harm to our business, including loss of user trust, legal liability,

regulatory penalties, remediation costs, and reputational damage that could be difficult or impossible to repair. As a small company with limited resources and only one employee, we may lack the sophisticated security infrastructure and expertise that larger companies employ to protect against cyber threats. Our use of third-party hosting and technology providers also creates additional security risks, as we are dependent on those providers to maintain adequate security measures. Any security incident could result in costly litigation, regulatory investigations, loss of users, and potentially existential harm to our business. We may also be required to notify affected users and regulatory authorities of any breach, which could result in negative publicity and further damage to our reputation.

Our success depends in part on our ability to protect our proprietary technology, software code, and other intellectual property. However, we may have limited formal intellectual property protection, such as patents or registered trademarks, and we primarily rely on trade secrets, proprietary know-how, and confidential information to protect our competitive position. These forms of protection may be inadequate, particularly given our small size and limited resources to enforce our rights. Additionally, as a mobile application company operating in a crowded market, we face the risk that others may claim that our application infringes their intellectual property rights, including patents, copyrights, trademarks, or trade secrets. Defending against such claims, even if meritless, can be extremely costly and time-consuming, and could divert management attention from operating our business. If we are found to have infringed the intellectual property rights of others, we could be required to pay substantial damages, modify our application, obtain licenses, or cease certain activities, any of which could materially harm our business.

This offering involves Simple Agreements for Future Equity (SAFEs), which are not traditional equity securities and do not represent current ownership in the company. SAFEs are contractual rights to receive equity in the future upon the occurrence of certain triggering events, such as a future priced equity financing or a liquidity event. However, there is no guarantee that any such triggering event will occur, and if no triggering event occurs, investors may never receive equity in the company. The terms upon which the SAFEs will convert into equity, including the valuation of the company at conversion and the resulting ownership percentage investors will receive, are uncertain and will depend on future events and negotiations that are outside of investors' control. While these SAFEs include a valuation cap and discount rate, the actual equity investors receive could be substantially less than anticipated if the company's valuation at the time of conversion is significantly higher than the cap, or if substantial dilution has occurred through other issuances. Additionally, SAFEs have no maturity date and do not pay interest, meaning investors' capital will be tied up indefinitely with no guaranteed return.

An investment in Clikyo Inc. is highly speculative and involves a high degree of risk. Investors should be prepared to lose their entire investment. There is no public market for these securities and none is expected to develop. The securities have not been registered under the Securities Act of 1933 or any state securities laws, and may not be sold or transferred except in compliance with applicable securities laws, which significantly limits their liquidity. Investors will be required to bear the financial risks of this investment for an indefinite period of time, potentially for many years or permanently. Even if the company is successful, there is no guarantee of a liquidity event such as an acquisition or public offering that would allow investors to realize any return on their investment. The company is at a very early stage with an unproven business model, limited operating history, and substantial execution risks. Most early-stage companies fail, and investors should only invest funds that they can afford to lose entirely without affecting their financial well-being.

Investors in this offering will hold SAFE securities that do not provide voting rights or any ability to influence or control company decisions. The founder and management of Clikyo Inc. will have complete control over all business decisions, including decisions regarding product development, hiring, financing, acquisitions, and whether and when to pursue a liquidity event. Investors will have no ability to influence these decisions, even if they disagree with the direction of the company or believe that management is making poor decisions. Additionally, as investors in a private company through a Regulation Crowdfunding offering, investors will have limited information rights compared to investors in public companies or traditional venture capital investors. The company is only required to provide annual reports and limited ongoing disclosure, and investors will not have access to the detailed financial and operational information that would be available for a publicly traded company. This lack of control and limited information makes it difficult for investors to monitor their investment or take action to protect their interests.

makes it difficult for investors to monitor their investment or take action to protect their interests.

In connection with this offering, the founder of Clikyo Inc. has designated himself as the lead investor who will sign documents and make decisions on behalf of all investors through a special purpose vehicle (SPV) structure. This arrangement creates substantial and inherent conflicts of interest because the founder has interests both as the operator and controlling person of the company and as the representative of the investors. Decisions that benefit the company or the founder personally may not align with the interests of crowdfunding investors, and the founder may have access to material non-public information about the company's performance, challenges, and prospects that other investors do not have. In situations where investor interests diverge from company interests—such as negotiations over valuation in a future financing, decisions about whether to pursue a liquidity event, or disputes over company management—the founder will be representing both sides of the negotiation with no independent third party advocating solely for investor interests. This structure provides no independent oversight or investor advocate to protect the interests of crowdfunding investors, and investors will have no recourse if they believe the founder is prioritizing company interests over investor interests in his role as investor representative.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **$10,000**

Use of Proceeds: If only the minimum target amount is raised, Clikyo, Inc. expects to use proceeds approximately as follows: 41% Core App Feature Development, 23% Engineering & Backend Stability, 13% Legal, Compliance & Accounting, 9% Early User Acquisition & Marketing, 6.1% Hosting & Essential Operations, and 7.9% Wefunder fee and related offering expenses. Management intends to allocate proceeds as described but may adjust priorities based on development needs, market conditions, and other factors outside its control.

If we raise: **$124,000**

Use of Proceeds: If the maximum offering amount is raised, including any oversubscriptions, Clikyo, Inc. expects to use proceeds approximately as follows: 32% Scalable Infrastructure & Platform Build, 23% Engineering & Technical Team Expansion, 18% Growth Marketing & User Acquisition, 9% Legal, Compliance & Accounting, 10.1% Hosting, Tools & Operations, and 7.9% Wefunder fee and related offering expenses. Management expects to apply oversubscription proceeds toward growth and scaling initiatives but may reallocate among categories as business needs and circumstances evolve.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer. Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle ("SPV"). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the

SPV. In addition, investors' interests in the investments will be recorded in each investor's "Portfolio" page on the Wefunder platform. All references in this Form C to an Investor's investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline.

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be canceled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

To view a copy of the SAFE you will purchase, please see Appendix B, Investor Contracts. The main terms of the SAFEs are provided below.

The SAFEs. We are offering securities in the form of a Simple Agreement for Future Equity ("SAFE"), which provides Investors the right to **Preferred Stock** in the Company ("**Preferred Stock**"), when and if the Company sponsors an equity offering that

to **Preferred Stock** in the Company (**Preferred Stock**), when and if the Company sponsors an equity offering that involves **Preferred Stock**, on the standard terms offered to other Investors.

Conversion to Preferred Equity. Based on our SAFEs, when we engage in an offering of equity interests involving **Preferred Stock**, **Investors will receive a number of shares of Preferred Stock** calculated using the method that results in the greater number of **Preferred Stock**:

i. the total value of the Investor's investment, divided by
   a. the price of **Preferred Stock** issued to new Investors
ii. if the valuation for the company is more than **$3,000,000.00** (the "Valuation Cap"), the amount invested by the Investor divided by the quotient of
   a. the Valuation Cap divided by
   b. the total amount of the Company's capitalization at that time.

Additional Terms of the Valuation Cap. For purposes of option (ii) above, the Company's capitalization calculated as of immediately prior to the Equity Financing and (without double-counting, in each case calculated on an as-converted to Common Stock basis):

- Includes all shares of Capital Stock issued and outstanding;
- Includes all Converting Securities;
- Includes all (i) issued and outstanding Options and (ii) Promised Options; and
- Includes the Unissued Option Pool, except that any increase to the Unissued Option Pool in connection with the Equity Financing shall only be included to the extent that the number of Promised Options exceeds the Unissued Option Pool prior to such increase.

Liquidity Events. If the Company has an initial public offering or is acquired by, merged with, or otherwise taken over by another company or new owners prior to Investors in the SAFEs receiving **Preferred Stock**, Investors will receive

- proceeds equal to the greater of (i) the Purchase Amount (the "Cash-Out Amount") or (ii) the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price (the "Conversion Amount")

Liquidity Priority. In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard nonparticipating Preferred Stock. The Investor's right to receive its Cash-Out Amount is:

i. Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);
ii. On par with payments for other Safes and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other Safes and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the Investor and such other Safes and/or Preferred Stock in proportion to the full payments that would otherwise be due; and
iii. Senior to payments for Common Stock.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to investors. The SPV is formed concurrently with the filing of the Form C. Given this, the SPV does not have any financials to report. The SPV is managed by Wefunder Admin, LLC and is a co-issuer with the Company of the securities being offered

in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. While the Issuer may be required to pay an annual administrative fee for the maintenance of the SPV, investors should note the Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

If the securities offered by the Company and those offered by the SPV have voting rights, those voting rights may be exercised by the investor or his or her proxy. The applicable proxy is the Lead Investor, if the Proxy (described below) is in effect.

Proxy to the Lead Investor

The SPV securities have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed or will appoint the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote all securities related to the Company purchased in an offering hosted by Wefunder Portal, and (ii) execute, in connection with such voting power, any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor ("Replacement Lead Investor") takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy. If the Proxy is not revoked within the 5-day time period, it shall remain in effect.

Restriction on Transferability

The SPV securities are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV.

---

14. Do the securities offered have voting rights?

- ☐ Yes
- ☑ No

---

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

---

16. How may the terms of the securities being offered be modified?

Any provision of this Safe may be amended, waived or modified by written consent of the Company and either:

i. the Investor or

ii. the majority-in-interest of all then-outstanding Safes with the same "Post-Money Valuation Cap" and "Discount Rate" as this Safe (and Safes lacking one or both of such terms will be considered to be the same with respect to such term(s)), provided that with respect to clause (ii):

   A. the Purchase Amount may not be amended, waived or modified in this manner,

   B. the consent of the Investor and each holder of such Safes must be solicited (even if not obtained), and

   C. such amendment, waiver or modification treats all such holders in the same manner. "Majority-in-interest" refers to the holders of the applicable group of Safes whose Safes have a total Purchase Amount greater than 50% of the total Purchase

Amount of all of such applicable group of Safes.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and

B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

Restrictions on Transfer of the Securities Being Offered:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Authorized	Outstanding	Voting rights
Common Stock	10000000	10000000	☑

Class of Security	Total Pool
Warrants	None
Options	None

Describe any other rights:

All issued and outstanding shares are Common Stock and carry identical rights and privileges. Each share entitles the holder to one vote per share.

At this time, the Company has not issued any preferred stock and there are no special liquidation preferences, dividend rights, or other special rights granted to any class of securities.

The Company has reserved shares under an equity incentive plan for future team members and advisors, which may result in future dilution.

The Company has not yet issued preferred stock, which investors in the SAFE (if converted) will receive. Preferred stock has liquidation preference over common stock.

---

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

---

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

---

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the shareholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the shareholders** may change the terms of the articles of incorporation for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The shareholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The shareholders have the right to redeem their securities at any time. **Shareholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional stock, an Investor's interest will typically also be diluted.

---

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not

necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The initial amount invested in a SAFE is determined by the investor, and we do not guarantee that the SAFE will be converted into any particular number of **shares of Preferred Stock**. As discussed in Question 13, when we engage in an offering of equity interests involving **Preferred Stock**, Investors may receive a number of shares of **Preferred Stock** calculated as either (i) the total value of the Investor's investment, divided by the price of the **Preferred Stock** being issued to new Investors, or (ii) if the valuation for the company is more than the Valuation Cap, the amount invested divided by the quotient of (a) the Valuation Cap divided by (b) the total amount of the Company's capitalization at that time.

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the **Preferred Stock** that Investors will receive, and/or the total value of the Company's capitalization, will be determined by our **board of directors**. Among the factors we may consider in determining the price of **Preferred Stock** are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates of our business potential, the present state of our development and other factors deemed relevant.

In the future, we will perform valuations of our **stock (including both common stock and Preferred Stock)** that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those securities;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;
- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

---

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Board Of Directors, and the Investor will have no independent right to name or remove an officer or member of the Board Of Directors of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

---

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company and the Board of Directors of the Company. If the Board Of Directors of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

---

24. Describe the material terms of any indebtedness of the issuer:

None.

INSTRUCTION TO QUESTION 24: name the creditor, amount owed, interest rate, maturity date, and any other material terms.

---

25. What other exempt offerings has the issuer conducted within the past three years?

Offering date	Exemption	Security type	Amount sold	Use of proceeds
No exempt offerings.				

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of

beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12-month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

1. any director or officer of the issuer;
2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer;
4. or any immediate family member of any of the foregoing persons.

- [ ] Yes
- [x] No

For each transaction specify the person, relationship to issuer, nature of interest in transaction, and amount of interest.

FINANCIAL CONDITION OF THE ISSUER

27. Does the issuer have an operating history?

Yes

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview of the Business and Financial Condition

Clikyo, Inc. runs a social networking app on iOS, Android, and the web. Users post photos and short videos ("reels") to a vertical-scrolling feed and engage through likes, comments, follows, and an explore section for discovering new creators. The company positions it as a professional social platform for creators, entrepreneurs, and brands focused on growth rather than just visibility, and the founder says he built it to fill the gap between entertainment-only platforms and strictly professional networking.

We are an early-stage company and are currently operating at approximately break-even, with no material positive or negative cash flows from operations in recent periods. There can be no assurance that this break-even performance will continue in future periods.

As of November 11, 2026, we had no cash and cash equivalents on hand.

Our ability to continue operations is dependent on managing our expenses and, if necessary, obtaining additional financing.

This discussion should be read in conjunction with the financial statements and related notes included in this offering statement.

Business and Operating Uncertainty

Our business operates in an environment subject to various risks, uncertainties, and changing conditions, which makes it difficult to evaluate our business, financial condition, and prospects and may limit the comparability of our results of operations from period to period.

Financial Condition

As of December 31, 2025, our total assets were $5,200 and our current and non-current liabilities, as reflected in available financial statement fields, were $0.

Our financial statements reflect an early-stage company with limited operating history. Investors should not place undue reliance on historical financial information given the company's limited operating history and the likelihood that future results will differ from historical results.

Liquidity and Capital Resources

As of December 31, 2025, we had cash and cash equivalents of approximately $5,200.

Based on our current operations, we have a monthly net cash burn of approximately $350.

Our monthly net cash burn or profit may vary significantly from month to month due to the timing of receipts and expenditures and other short-term factors. As a result, period-to-period comparisons may not be meaningful.

Based on our current plan, we do not expect to have sufficient cash to fund operations for at least the next 12 months. The main drivers of our limited runway include:

- Whether or when we hire more people
- A one-time cost (legal, settlement, equipment, etc.)
- Cloud infrastructure, AI services, and platform scaling costs.

To date, our operations have been funded through minimal cash resources and have not included any external financing.

Liquidity Assumptions

Our assessment of our liquidity and ability to fund operations is not a projection and is based on current assumptions regarding operating expenses, cash requirements, and capital needs. These assumptions may change, and actual results may differ materially due to changes in operating conditions, timing of receipts and payments, and other factors.

Dependence on Additional Financing

There can be no assurance that additional financing will be available on acceptable terms, or at all. If we are unable to raise additional capital when needed, we may be required to materially reduce or suspend operations.

Indebtedness and Capital Structure

As of the date of this offering statement, we did not have any outstanding indebtedness.

(For the avoidance of doubt, SAFEs are not treated as indebtedness.)

We have not conducted any exempt offerings or raised capital in the past three years. To date, we have primarily been funded through $4,000 in capital contributions from our founder.

Known Trends, Events, and Uncertainties

Management is aware of the following trends, events, or uncertainties that are reasonably likely to have a material adverse effect on our financial condition or results of operations over the next 12 months:

- Higher costs (suppliers, wages, fees, etc.)
- Regulatory or legal costs
- Platform or partner changes
- Dependence on successful user acquisition and future fundraising.

These factors could increase operating costs, reduce liquidity, or require us to raise additional capital earlier than anticipated.

Other than the matters described above, management is not currently aware of any known trends, events, or uncertainties that are reasonably likely to have a material adverse effect on our financial condition or results of operations.

The absence of a discussion of any particular trend, event, or uncertainty should not be interpreted to mean that such matters do not exist; rather, it reflects management's judgment based on information currently available.

Changes Since the Date of the Financial Statements

There have been no material changes in our operations or financial condition since the date of the financial statements included in this offering.

Impact of This Offering

The proceeds from this offering are expected to be used product development and to prepare scalable infrastructure. The timing and

extent of our use of proceeds will depend on the amount of proceeds raised and future operating conditions. Additional detail regarding our planned use of proceeds is provided in Item 10 of this Form C.

There can be no assurance that the proceeds of this offering will be sufficient to fund our operations or achieve our business objectives.

Certain information relevant to understanding our financial condition and liquidity is presented elsewhere in this offering statement, including in the financial statements, related notes, and the sections describing indebtedness and prior financings.

Forward-Looking Statements

This discussion contains forward-looking statements that are based on management's current expectations and assumptions. Actual results may differ materially from those expressed or implied by these statements.

FINANCIAL INFORMATION

29. Include financial statements covering the two most recently completed fiscal years or the period(s) since inception, if shorter:

Refer to Appendix C, Financial Statements.

I, Eddy Brutus, certify that:

(1) the financial statements of Clikyo Inc. included in this Form are true and complete in all material respects; and

(2) the tax return information of Clikyo Inc. included in this Form reflects accurately the information reported on the tax return for Clikyo Inc. filed for the most recently completed fiscal year.

Eddy Brutus

Eddy Brutus
Founder & CEO of Clikyo, Inc.

STAKEHOLDER ELIGIBILITY

30. With respect to the issuer, any predecessor of the issuer, any affiliated issuer, any director, officer, general partner or managing member of the issuer, any beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, any promoter connected with the issuer in any capacity at the time of such sale, any person that has been or will be paid (directly or indirectly) remuneration for solicitation of purchasers in connection with such sale of securities, or any general partner, director, officer or managing member of any such solicitor, prior to May 16, 2016:

(1) Has any such person been convicted, within 10 years (or five years, in the case of issuers, their predecessors and affiliated issuers) before the filing of this offering statement, of any felony or misdemeanor:

i. in connection with the purchase or sale of any security? ☐ Yes ☑ No

ii. involving the making of any false filing with the Commission? ☐ Yes ☑ No

iii. arising out of the conduct of the business of an underwriter, broker, dealer, municipal securities dealer, investment adviser, funding portal or paid solicitor of purchasers of securities? ☐ Yes ☑ No

(2) Is any such person subject to any order, judgment or decree of any court of competent jurisdiction, entered within five years before the filing of the information required by Section 4A(b) of the Securities Act that, at the time of filing of this offering statement, restrains or enjoins such person from engaging or continuing to engage in any conduct or practice:

i. in connection with the purchase or sale of any security? ☐ Yes ☑ No

ii. involving the making of any false filing with the Commission? ☐ Yes ☑ No

iii. arising out of the conduct of the business of an underwriter, broker, dealer, municipal securities dealer, investment adviser, funding portal or paid solicitor of purchasers of securities? ☐ Yes ☑ No

(3) Is any such person subject to a final order of a state securities commission (or an agency or officer of a state performing like functions); a state authority that supervises or examines banks, savings associations or credit unions; a state insurance commission (or an agency or officer of a state performing like functions); an appropriate federal banking agency; the U.S. Commodity Futures Trading Commission; or the National Credit Union Administration that:

i. at the time of the filing of this offering statement bars the person from:

A. association with an entity regulated by such commission, authority, agency or officer? ☐ Yes ☑ No

B. engaging in the business of securities, insurance or banking? ☐ Yes ☑ No

C. engaging in savings association or credit union activities? ☐ Yes ☑ No

ii. constitutes a final order based on a violation of any law or regulation that prohibits fraudulent, manipulative or deceptive conduct and for which the order was entered within the 10-year period ending on the date of the filing of this offering statement? ☐ Yes ☑ No

(4) Is any such person subject to an order of the Commission entered pursuant to Section 15(b) or 15B(c) of the Exchange Act or Section 203(e) or (f) of the Investment Advisers Act of 1940 that, at the time of the filing of this offering statement:

i. suspends or revokes such person's registration as a broker, dealer, municipal securities dealer, investment adviser or funding portal? ☐ Yes ☑ No

ii. places limitations on the activities, functions or operations of such person? ☐ Yes ☑ No

iii. bars such person from being associated with any entity or from participating in the offering of any penny stock? ☐ Yes ☑ No

(5) Is any such person subject to any order of the Commission entered within five years before the filing of this offering statement that, at the time of the filing of this offering statement, orders the person to cease and desist from committing or causing a violation or future violation of:

i. any scienter-based anti-fraud provision of the federal securities laws, including without limitation Section 17(a)(1) of the Securities Act, Section 10(b) of the Exchange Act, Section 15(c)(1) of the Exchange Act and Section 206(1) of the Investment Advisers Act of 1940 or any other rule or regulation thereunder? ☐ Yes ☑ No

ii. Section 5 of the Securities Act? ☐ Yes ☑ No

(6) Is any such person suspended or expelled from membership in, or suspended or barred from association with a member of, a registered national securities exchange or a registered national or affiliated securities association for any act or omission to act constituting conduct inconsistent with just and equitable principles of trade? ☐ Yes ☑ No

(7) Has any such person filed (as a registrant or issuer), or was any such person or was any such person named as an underwriter in, any registration statement or Regulation A offering statement filed with the Commission that, within five years before the filing of this offering statement, was the subject of a refusal order, stop order, or order suspending the Regulation A exemption, or is any such person, at the time of such filing, the subject of an investigation or proceeding to determine whether a stop order or suspension order should be issued? ☐ Yes ☑ No

(8) Is any such person subject to a United States Postal Service false representation order entered within five years before the filing of the information required by Section 4A(b) of the Securities Act, or is any such person, at the time of filing of this offering statement, subject to a temporary restraining order or preliminary injunction with respect to conduct alleged by the United States Postal Service to constitute a scheme or device for obtaining money or property through the mail by means of false representations? ☐ Yes ☑ No

If you would have answered "Yes" to any of these questions had the conviction, order, judgment, decree, suspension, expulsion or bar occurred or been issued after May 16, 2016, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and

- (2) such further material information, if any, as may be necessary to make the required statements, in light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an individual that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such circumstances, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. If applicable, the Company may also be required to pay Wefunder certain fees for the preparation of tax filings. Such fees and the Company's obligation to deliver required tax documents are further specified in the related Tax Services Agreement ("TSA").

Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

Potential Dissolution of the SPV. The Company has agreed that it will pay an administrative fee and / or certain tax fees to Wefunder, in addition to delivering required tax information in the manner prescribed by the TSA, where applicable. Failure to pay such fees or provide Wefunder with required tax information could result in the dissolution of the SPV (an "SPV Dissolution Event"). Subsequent to an SPV Dissolution Event, the securities held by the SPV would be distributed directly and proportionally to the individual investors. This could create administrative complexities, as investors would need to manage the securities themselves rather than having them held and administered by the SPV. Additionally, the unplanned distribution of securities may not align with investors' intended investment strategy or asset allocation.

Upon an SPV Dissolution Event, the Investor hereby consents to and agrees to accept direct assignment of the SPV's rights and obligations under any investment agreements between the SPV and the Company that is located in the Form C or C/A offering materials. The Investor acknowledges they will be bound by all terms and conditions of such agreements as if they were an original party thereto.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

https://clikyo.com/invest

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed $10 million; or
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.

- Series Appendix — Clikyo I
- Wefunder SPV, LLC Agreement

Wefunder Portal will review the information you provide before we agree to submit a Form C to the SEC. Our review is designed to assess whether the information you have provided is complete and not inaccurate, misleading or otherwise fraudulent. Despite our review, the company submitting this Form C may be held responsible for all information provided through it, and for ensuring that the information it submits is not false or misleading in any material way and does not omit any information that would cause the information included to be false or misleading. By submitting your Form C to us, you acknowledge this. You also agree to provide any additional information or clarification we may request from you so that the Form C we submit on your behalf, in our reasonable, good faith review, does not contain incorrect information. Wefunder Portal will not submit a Form C that we believe, in our sole discretion, omits material information or contains false or misleading information. As a result, there is no guarantee that we will submit a Form C on your behalf.

Intentional misstatements or omissions of facts constitute federal criminal violations. See 18 U.S.C. 1001.

The issuer certifies that it has established means to keep accurate records of the holders of the securities it would offer and sell through the Form C.

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100 et seq.), the issuer certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form C and has duly caused this Form to be signed on its behalf by the duly authorized undersigned.

I authorize Wefunder Portal to submit a Form C to the SEC based on the information I provided through this online form and my company's Wefunder profile.

As an authorized representative of the company, I appoint Wefunder Portal as the company's true and lawful representative and attorney-in-fact, in the company's name, place and stead to make, execute, sign, acknowledge, swear to and file a Form C, any future non-material Form C-A, any future Form C-U, and any future Form C-W on the company's behalf. This power of attorney is coupled with an interest and is irrevocable. The company hereby waives any and all defenses that may be available to contest, negate or disaffirm the actions of Wefunder Portal taken in good faith under or in reliance upon this power of attorney.

Before you click on the button below, please review the information you have provided carefully.

We strongly recommend you have your company's lawyer review the information as well. The company submitting this Form C is responsible for all information provided through it, and for ensuring that the information it submits is not false or misleading in any material way and does not omit any information that would cause the information included to be false or misleading.

☑ I verify the Form C is 100% accurate

☑ I agree to the Wefunder Listing Agreement

☑ I agree to the Investor Representative Proxy Agreement

☑ I agree to the Rule 3a-9 Undertakings Agreement

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100 et seq.), the issuer certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form C and has duly caused this Form to be signed on its behalf by the duly authorized undersigned.

Clikyo Inc.

By

Eddy Brutus

Founder & CEO

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100 et seq.), this Form C and Transfer Agent Agreement has been signed by the following persons in the capacities and on the dates indicated.

Eddy Brutus

Founder & CEO
11/11/2026

The Form C must be signed by the issuer, its principal executive officer or officers, its principal financial officer, its controller or principal accounting officer and at least a majority of the board of directors or persons performing similar functions.
