Name of issuer:

Broth Bomb LLC

Legal status of issuer:

Form:

Limited Liability Company

Jurisdiction of Incorporation/Organization:

FL

Date of organization:

2/14/2019

Physical address of issuer:

502 East Main Street
Lakeland, FL 33801

Website of issuer:

https://brothbomb.store

Name of intermediary through which the offering will be conducted:

Wefunder Portal LLC

CIK number of intermediary:

0001670254

SEC file number of intermediary:

007-00033

CRD number, if applicable, of intermediary:

283503

Amount of compensation to be paid to the intermediary, whether as a dollar amount or a percentage of the offering amount, or a good faith estimate if the exact amount is not available at the time of the filing, for conducting the offering, including the amount of referral and any other fees associated with the offering:

7.9% of the offering amount upon a successful fundraise, and be entitled to reimbursement for out-of-pocket third party expenses it pays or incurs on behalf of the Issuer in connection with the offering.

Any other direct or indirect interest in the issuer held by the intermediary, or any arrangement for the intermediary to acquire such an interest:

No

Type of security offered:

- ☐ Common Stock
- ☐ Preferred Stock
- ☐ Debt
- ☑ Other

Describe the security offered:

Simple Agreement for Future Equity (SAFE)

Target number of securities to be offered:

20,000

Price:

$1.00

Method for determining price:

Pro-rated portion of the total principal value of $20,000; interests will be sold in increments of $1; each investment is convertible to one unit as described under Item 13.

Target offering amount:

$20,000.00

Oversubscriptions accepted:

- ☑ Yes

☐ No

Disclose how oversubscriptions will be allocated:

☐ Pro-rata basis
☐ First-come, first-served basis
☑ Other

Describe how oversubscriptions will be allocated:

As determined by the issuer

Maximum offering amount (if different from target offering amount):

$120,000.00

Deadline to reach the target offering amount:

4/30/2027

NOTE: If the sum of the investment commitments does not equal or exceed the target offering amount at the offering deadline, no securities will be sold in the offering, investment commitments will be canceled and committed funds will be returned.

Current number of employees:

1

	Most recent fiscal year-end:	Prior fiscal year-end:
Total Assets:	$91,320.00	$147,301.00
Cash & Cash Equivalents:	$80,837.00	$121,623.00
Accounts Receivable:	$0.00	$0.00
Current Liabilities:	$72,149.00	$73,039.00
Non-Current Liabilities:	$0.00	$0.00
Revenues/Sales:	$103,053.00	$315,788.00
Cost of Goods Sold:	$36,000.00	$110,500.00
Taxes Paid:	$0.00	$0.00
Net Income:	($52,039.00)	$5,813.00

Select the jurisdictions in which the issuer intends to offer the securities:

AL, AK, AZ, AR, CA, CO, CT, DE, DC, FL, GA, HI, ID, IL, IN, IA, KS, KY, LA, ME, MD, MA, MI, MN, MS, MO, MT, NE, NV, NH, NJ, NM, NY, NC, ND, OH, OK, OR, PA, RI, SC, SD, TN, TX, UT, VT, VA, WA, WV, WI, WY, B5, GU, PR, VI, 1V

Offering Statement

Respond to each question in each paragraph of this part. Set forth each question and any notes, but not any instructions thereto, in their entirety. If disclosure in response to any question is responsive to one or more other questions, it is not necessary to repeat the disclosure. If a question or series of questions is inapplicable or the response is available elsewhere in the Form, either state that it is inapplicable, include a cross-reference to the responsive disclosure, or omit the question or series of questions.

Be very careful and precise in answering all questions. Give full and complete answers so that they are not misleading under the circumstances involved. Do not discuss any future performance or other anticipated event unless you have a reasonable basis to believe that it will actually occur within the foreseeable future. If any answer requiring significant information is materially inaccurate, incomplete or misleading, the Company, its management and principal shareholders may be liable to investors based on that information.

THE COMPANY

1. Name of issuer:

Broth Bomb LLC

COMPANY ELIGIBILITY

2. ☑ Check this box to certify that all of the following statements are true for the issuer.

- Organized under, and subject to, the laws of a State or territory of the United States or the District of Columbia.
- Not subject to the requirement to file reports pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934.
- Not an investment company registered or required to be registered under the Investment Company Act of 1940.
- Not ineligible to rely on this exemption under Section 4(a)(6) of the Securities Act as a result of a disqualification specified in Rule 503(a) of Regulation Crowdfunding.
- Has filed with the Commission and provided to investors, to the extent required, the ongoing annual reports required by Regulation Crowdfunding during the two years immediately preceding the filing of this offering statement (or for such shorter period that the issuer was required to file such reports).
- Not a development stage company that (a) has no specific business plan or (b) has indicated that its business plan is to engage in a merger or acquisition with an unidentified company or companies.

3. Has the issuer or any of its predecessors previously failed to comply with the ongoing reporting requirements of Rule 202 of Regulation Crowdfunding?

☐ Yes
☑ No

DIRECTORS OF THE COMPANY

4. Provide the following information about each director (and any persons occupying a similar status or performing a similar function) of the issuer.

Director	Principal Occupation	Main Employer	Year Joined
Andrew Dundas Laurent	Entrepreneur	Broth Bomb LLC	2019

For three years of business experience, refer to Appendix D: Director & Officer Work History.

OFFICERS OF THE COMPANY

5. Provide the following information about each officer (and any persons occupying a similar status or performing a similar function) of the issuer.

Officer	Positions Held	Year Joined
Andrew Dundas Laurent	CEO	2019

For three years of business experience, refer to Appendix D: Director & Officer Work History.

PRINCIPAL SECURITY HOLDERS

6. Provide the name and ownership level of each person, as of the most recent practicable date, who is the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power.

Name of Holder	% of Voting Power Prior to Offering
Andrew Dundas Laurent	50%+

Business and Anticipated Business Plan

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

Please review your Wefunder profile carefully to ensure it provides all material information, is not false or misleading, and does not omit any information that would cause the information included to be false or misleading.

For a description of our business and our business plan, please refer to the attached Appendix A, Business Description & Plan.

RISK FACTORS

8. Discuss the material factors that make an investment in the issuer speculative or risky:

A crowdfunding investment involves risk. Investors should not invest any funds unless they can afford to lose the entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt from registration.

Broth Bomb LLC was incorporated in 2019 and remains in an early growth stage with very limited cash reserves. We have not yet achieved profitability and have a limited operating history upon which investors can evaluate our business model and future prospects. Our fizzy seasoning product line represents a novel approach in the food seasoning market, and we cannot assure investors that our products will achieve sustained market acceptance or generate sufficient revenue to become profitable. The cost of scaling our manufacturing operations, expanding our distribution channels, and building brand awareness will be substantial, and there is no assurance that we will be successful in executing our business plan or achieving positive cash flow.

Broth Bomb LLC currently operates with zero employees, meaning the business depends entirely on the efforts of the founder and potentially independent contractors or consultants. The loss of the founder's services or the inability to attract and retain qualified personnel as we attempt to grow would have a material adverse effect on our operations, product development, sales, and overall business prospects. We do not maintain key person life insurance on the founder or any other individuals critical to our operations. Our planned use of funds includes hiring new personnel, but there can be no assurance that we will successfully recruit, train, and retain the talent necessary to execute our growth strategy, particularly given our limited financial resources and early stage status.

Broth Bomb LLC generates revenue primarily through direct-to-consumer sales via our online store, supplemented by farmers market sales and a developing wholesale program. This heavy reliance on e-commerce exposes us to numerous risks including website downtime, cybersecurity threats, payment processing failures, and changes to third-party platform policies or fee structures. We depend on third-party service providers for website hosting, e-commerce functionality, payment processing, and digital marketing, and any disruption in these services could materially harm our ability to generate sales. Additionally, our success depends on our ability to drive traffic to our website through digital marketing, search engine optimization, and social media, areas where we compete against companies with substantially greater resources and expertise. The back orders noted on our website indicate that we have experienced challenges meeting demand, which could result in customer dissatisfaction and harm to our reputation.

Our business plan contemplates expanding from our current small-scale manufacturing operation to a new facility and increasing production to supply retail partners. This growth strategy presents substantial operational risks. We have limited experience operating at scale, and the transition to larger production volumes may reveal unforeseen challenges in quality control, production efficiency, inventory management, and fulfillment. The planned use of proceeds includes funding for a new manufacturing facility, but we have no assurance that we can successfully complete the build-out, obtain necessary permits and certifications, or operate the facility profitably. Manufacturing food products at scale requires specialized equipment, trained personnel, and rigorous quality control systems, all of which require capital investment and operational expertise that we may lack. Any failure to successfully scale our operations could result in our inability to meet customer demand, loss of retail partnerships, or production of substandard products.

The Company may never receive a future equity financing or elect to convert the Securities upon such future financing. In addition, the Company may never undergo a liquidity event such as a sale of the Company or an IPO. If neither the conversion of the Securities nor a

liquidity event occurs, the Purchasers could be left holding the Securities in perpetuity. The Securities have numerous transfer restrictions and will likely be highly illiquid, with no secondary market on which to sell them. The Securities are not equity interests, have no ownership rights, have no rights to the Company's assets or profits and have no voting rights or ability to direct the Company or its actions.

The production of our fizzy seasoning bombs requires specialized ingredients, including components that create the effervescent effect, as well as herbs, spices, and other flavoring agents. We also require specific packaging materials to maintain product quality and shelf life. We likely depend on a small number of suppliers for these critical inputs, and we may not have long-term supply contracts or alternative sources readily available. Disruptions in our supply chain due to supplier financial difficulties, quality issues, natural disasters, transportation challenges, or global supply chain disruptions could result in production delays, increased costs, or our inability to fulfill customer orders. The back orders referenced on our website suggest we have already experienced supply or production constraints. Any extended inability to source necessary materials could force us to reformulate products, seek alternative suppliers at higher costs, or temporarily cease production, any of which could materially harm our business and reputation.

Broth Bomb LLC currently has very limited cash reserves and will require significant additional funding beyond this offering to fully develop our business, expand manufacturing capacity, hire personnel, build inventory, and support retail distribution. We have no commitments for additional financing, and there can be no assurance that we will be able to obtain additional capital on acceptable terms, if at all. Our ability to raise additional funds will depend on various factors, including our operating performance, market conditions, and investor appetite for early-stage food companies. If we are unable to secure additional financing when needed, we may be forced to delay, reduce, or eliminate planned expenditures, which could include postponing the new manufacturing facility, limiting hiring, reducing inventory purchases, or curtailing marketing efforts. In a worst-case scenario, insufficient capital could force us to cease operations entirely. Even if we do secure additional financing, it will likely be on terms that are dilutive to existing investors.

We will need to raise additional capital through future equity financings to fund our operations and growth plans. Any such future issuances of equity securities will dilute the ownership percentage of existing investors, potentially substantially. New investors may negotiate terms that are more favorable than those offered in this offering, including liquidation preferences, anti-dilution protections, or other rights that could adversely affect the value of securities purchased in this offering. The securities offered in this round may not include protective provisions against dilution, meaning investors could see their ownership stake reduced significantly in future financing rounds. Additionally, the need to raise capital may force us to accept unfavorable terms or lower valuations, further diluting existing investors and potentially affecting the company's ability to achieve favorable outcomes for early investors.

The market for food seasonings, cooking ingredients, and meal preparation solutions is highly competitive and dominated by large, well-established companies with significant financial resources, established distribution networks, strong brand recognition, and extensive marketing budgets. Competitors include major spice and seasoning brands, meal kit companies, bouillon and broth manufacturers, and private label products sold by major retailers. These competitors can leverage economies of scale to offer products at lower prices, invest heavily in product development and marketing, and secure premium shelf space in retail stores. While our fizzy seasoning bomb format may be novel, competitors could easily replicate the concept or develop alternative products that serve the same consumer need. We also face competition from consumers' existing cooking habits and traditional seasoning methods. Our ability to compete effectively will depend on factors including product quality, price, convenience, brand awareness, and distribution reach, many of which favor larger, established competitors. There can be no assurance that we will be able to compete successfully or gain meaningful market share.

Our fizzy seasoning bombs represent a novel delivery format for seasonings and broth bases. While we have received positive customer testimonials and experienced some demand, we have not yet demonstrated that this product format will achieve broad market acceptance or sustained consumer demand at scale. Consumers may be hesitant to adopt a new approach to seasoning and broth preparation, particularly if they are satisfied with existing products and methods. The effervescent format may be perceived as gimmicky, unnecessary, or not worth a price premium compared to traditional seasonings or bouillon cubes. Additionally, our target market of home cooks seeking convenient meal preparation solutions is served by numerous existing products and may not perceive sufficient differentiation or value in our offerings. Seasonal demand patterns, changing consumer preferences, food trends, and economic conditions could all affect demand for our products. If we are unable to achieve and maintain sufficient consumer demand, we will not generate adequate revenue to sustain operations.

As a food manufacturing company, Broth Bomb LLC is subject to extensive federal, state, and local regulations governing food safety, labeling, manufacturing practices, and facility operations. We must comply with regulations enforced by the Food and Drug Administration (FDA), including the Food Safety Modernization Act (FSMA), Current Good Manufacturing Practices (cGMP), and Hazard Analysis and Critical Control Points (HACCP) requirements. We must also comply with state and local health department regulations in Florida and any other jurisdictions where we manufacture or sell products. Our planned expansion to a new manufacturing facility will require obtaining appropriate permits, licenses, and certifications, and passing inspections by regulatory authorities. Any failure to comply with applicable food safety regulations could result in warning letters, product recalls, facility shutdowns, fines, penalties, or legal action, any of which could be costly and severely damage our reputation and business. Changes to food safety regulations or the adoption of new requirements could increase our compliance costs and require modifications to our manufacturing processes, formulations, or labeling.

Our business depends in part on proprietary formulations for our fizzy seasoning bombs, including the specific combinations of ingredients and the processes used to create the effervescent effect. We rely primarily on trade secrets and confidential know-how to protect these formulations, as we have not disclosed whether we hold any patents or registered trademarks. Trade secret protection is inherently uncertain, as it depends on maintaining confidentiality and can be lost if the information becomes publicly known or is independently developed by competitors. We may not have adequate confidentiality agreements in place with employees, contractors, suppliers, or other parties who have access to our proprietary information. Competitors could potentially reverse-engineer our products, develop similar formulations, or create alternative products that achieve similar results without infringing any intellectual property rights we may hold. Additionally, we could face claims that our products or processes infringe on intellectual property rights held by others, which could result in costly litigation, licensing fees, or the need to reformulate our products. We may lack the financial resources to adequately defend our intellectual property or defend against infringement claims brought by others.

As a food manufacturer, we face the risk of product liability claims if our products cause illness, injury, or allergic reactions, or if they are alleged to be contaminated, adulterated, or mislabeled. Even if such claims are without merit, defending against them could be costly and time-consuming. We may not maintain adequate product liability insurance coverage, and any claims that exceed our coverage limits or fall outside our policy terms could result in significant financial liability. A food safety incident, product recall, or even negative publicity regarding our products could severely damage our brand reputation, result in loss of customers and retail partnerships, and materially harm our business. The food industry is subject to intense scrutiny, and social media can rapidly amplify concerns about food safety or quality issues. Given our limited financial resources, even a single significant product liability claim or recall could threaten our ability to continue operations.

Our products are discretionary consumer goods that may be perceived as premium or non-essential compared to basic seasonings and cooking ingredients. During economic downturns, periods of inflation, or times of financial uncertainty, consumers typically reduce

spending on discretionary items and may trade down to lower-priced alternatives. Our target customers may choose to purchase traditional seasonings, bouillon cubes, or other less expensive options rather than our fizzy seasoning bombs. Additionally, economic pressures could reduce the frequency of home cooking or lead consumers to seek even more economical meal solutions. Changes in consumer confidence, employment levels, disposable income, or food prices could all negatively affect demand for our products. As a small company with limited financial reserves, we have little ability to weather extended periods of reduced sales, and a significant or prolonged economic downturn could force us to cease operations.

An investment in Broth Bomb LLC securities is highly speculative and involves a high degree of risk. Investors should not invest any funds in this offering unless they can afford to lose their entire investment. The company has very limited cash reserves, has not achieved profitability, operates in a highly competitive market, and faces numerous operational and financial challenges. There is no assurance that the company will successfully execute its business plan, achieve profitability, or generate any return for investors. The company may fail and cease operations, in which case investors would lose their entire investment. Even if the company survives, there is no guarantee that it will achieve sufficient success to provide any return to investors or that investors will be able to recoup their initial investment. Prospective investors should carefully consider their financial situation and risk tolerance before investing.

There is currently no public market for the securities being offered, and none is expected to develop in the foreseeable future. The securities have not been registered under the Securities Act of 1933 or any state securities laws, and they may not be sold or transferred except in compliance with applicable securities laws, which will significantly restrict transferability. Investors will be subject to a one-year holding period during which they cannot sell the securities except in very limited circumstances. Even after the holding period expires, there will likely be no market for the securities, meaning investors may be unable to find buyers or may be forced to sell at a significant discount to their purchase price, if they can sell at all. Investors should expect to hold these securities indefinitely and should be prepared to bear the financial risks of this investment for an extended period, potentially until the company is sold or liquidated, which may never occur. The lack of liquidity means investors will have no ability to access their invested capital when needed.

Investors in this offering will hold a minority position and will have no ability to influence or control company decisions, including decisions regarding business strategy, operations, future financings, executive compensation, sale of the company, or dissolution. The founder and existing ownership will retain control over all major decisions affecting the company and investors' interests. Investors will have limited information rights compared to investors in registered securities or traditional venture capital investments, and the company is not required to provide regular financial statements, hold annual meetings, or provide the level of disclosure required of public companies. The company's disclosure obligations under Regulation Crowdfunding are limited, and investors may not receive timely or complete information about the company's financial condition, operations, or material developments. Additionally, as previously disclosed, the company has entered into contractual agreements providing certain former members with rights to receive a percentage of net sale proceeds in the event of an acquisition, which could reduce the proceeds available to equity investors in a sale transaction.

In connection with this offering, the founder has designated themselves as the lead investor who will sign documents and make certain decisions on behalf of all investors in the special purpose vehicle. This arrangement creates a significant and inherent conflict of interest because the founder simultaneously holds positions representing the company's interests as an operator and decision-maker while also purporting to represent the investors' interests as their designated representative. The founder will have access to material non-public information about the company's operations, financial condition, and prospects that other investors do not have, and may make decisions in their capacity as investor representative that benefit the company or the founder personally at the expense of other investors. There is no independent third-party investor advocate or representative to protect the interests of crowdfunding investors or to provide a check on potential conflicts of interest. Decisions regarding investor rights, amendments to investment documents, waivers of company obligations, or responses to company actions will be made by the founder, who has every incentive to favor the company's interests over those of minority investors. Investors will have no ability to replace the investor representative or to challenge decisions made on their behalf, even if such decisions are detrimental to their interests.

The Offering

USE OF FUNDS

9. What is the purpose of this offering?

The Company intends to use the net proceeds of this offering for working capital and general corporate purposes, which includes the specific items listed in Item 10 below. While the Company expects to use the net proceeds from the Offering in the manner described above, it cannot specify with certainty the particular uses of the net proceeds that it will receive from this Offering. Accordingly, the Company will have broad discretion in using these proceeds.

10. How does the issuer intend to use the proceeds of this offering?

If we raise: **$20,000**

Use of Proceeds: If only the minimum target amount is raised, Broth Bomb expects to use proceeds approximately as follows: 36% Manufacturing Facility Buildout and Lease, 41% Broth Bomb Inventory Production, 15.1% Direct-to-Consumer E-Commerce Operations, and 7.9% Wefunder fee and related offering expenses. Management intends to prioritize facility and inventory needs but may adjust allocations based on actual lease terms, production costs, and online sales demand.

If we raise: **$120,000**

Use of Proceeds: If the maximum offering amount is raised, including any oversubscriptions, Broth Bomb expects to use proceeds approximately as follows: 18% Manufacturing Facility Buildout and Lease, 32% Retail and Wholesale Inventory Supply, 27% Staffing and Professional Agency Services, 15.1% Direct-to-Consumer E-Commerce Operations, and 7.9% Wefunder fee and related offering expenses. Management expects to allocate excess proceeds toward hiring and retail expansion but may adjust priorities based on retailer demand, staffing availability, and working capital needs.

DELIVERY & CANCELLATIONS

11. How will the issuer complete the transaction and deliver securities to the investors?

Book Entry and Investment in the Co-Issuer. Investors will make their investments by investing in interests issued by one or more co-issuers, each of which is a special purpose vehicle ("SPV"). The SPV will invest all amounts it receives from investors in securities issued by the Company. Interests issued to investors by the SPV will be in book entry form. This means that the investor will not receive a certificate representing his or her investment. Each investment will be recorded in the books and records of the SPV. In addition, investors' interests in the investments will be recorded in each investor's "Portfolio" page on the Wefunder platform. All references in this Form C to an Investor's investment in the Company (or similar phrases) should be interpreted to include investments in a SPV.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met. If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline.

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be canceled and the committed funds will be returned.

An Investor's right to cancel. An Investor may cancel his or her investment commitment at any time until 48 hours prior to the offering deadline.

If there is a material change to the terms of the offering or the information provided to the Investor about the offering and/or the Company, the Investor will be provided notice of the change and must re-confirm his or her investment commitment within five business days of receipt of the notice. If the Investor does not reconfirm, he or she will receive notifications disclosing that the commitment was cancelled, the reason for the cancellation, and the refund amount that the investor is required to receive. If a material change occurs within five business days of the maximum number of days the offering is to remain open, the offering will be extended to allow for a period of five business days for the investor to reconfirm.

If the Investor cancels his or her investment commitment during the period when cancellation is permissible, or does not reconfirm a commitment in the case of a material change to the investment, or the offering does not close, all of the Investor's funds will be returned within five business days.

Within five business days of cancellation of an offering by the Company, the Company will give each investor notification of the cancellation, disclose the reason for the cancellation, identify the refund amount the Investor will receive, and refund the Investor's funds.

The Company's right to cancel. The Investment Agreement you will execute with us provides the Company the right to cancel for any reason before the offering deadline.

If the sum of the investment commitments from all investors does not equal or exceed the target offering amount at the time of the offering deadline, no securities will be sold in the offering, investment commitments will be cancelled and committed funds will be returned.

Ownership and Capital Structure

THE OFFERING

13. Describe the terms of the securities being offered.

To view a copy of the SAFE you will purchase, please see Appendix B, Investor Contracts. The main terms of the SAFEs are provided below.

The SAFEs. We are offering securities in the form of a Simple Agreement for Future Equity ("SAFE"), which provides Investors the right to **Preferred Units** in the Company (**"Preferred Units"**), when and if the Company sponsors an equity offering that involves **Preferred Units**, on the standard terms offered to other Investors.

Conversion to Preferred Equity. Based on our SAFEs, when we engage in an offering of equity interests involving **Preferred Units**, **Investors will receive a number of shares of Preferred Units** calculated using the method that results in the greater number of **Preferred Units**:

i. the total value of the Investor's investment, divided by
   a. the price of **Preferred Units** issued to new Investors
ii. if the valuation for the company is more than **$2,500,000.00** (the "Valuation Cap"), the amount invested by the Investor divided by the quotient of
   a. the Valuation Cap divided by
   b. the total amount of the Company's capitalization at that time.

Additional Terms of the Valuation Cap. For purposes of option (ii) above, the Company's capitalization calculated as of immediately prior to the Equity Financing and (without double-counting, in each case calculated on an as-converted to Common Units basis):

- Includes all shares of Capital Units issued and outstanding;
- Includes all Converting Securities;
- Includes all (i) issued and outstanding Options and (ii) Promised Options; and
- Includes the Unissued Option Pool, except that any increase to the Unissued Option Pool in connection with the Equity Financing shall only be included to the extent that the number of Promised Options exceeds the Unissued Option Pool prior to such increase.

Liquidity Events. If the Company has an initial public offering or is acquired by, merged with, or otherwise taken over by another company or new owners prior to Investors in the SAFEs receiving **Preferred Units**, Investors will receive

- proceeds equal to the greater of (i) the Purchase Amount (the "Cash-Out Amount") or (ii) the amount payable on the number of shares of Common Units equal to the Purchase Amount divided by the Liquidity Price (the "Conversion Amount")

Liquidity Priority. In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard nonparticipating Preferred Units. The Investor's right to receive its Cash-Out Amount is:

i. Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Units);
ii. On par with payments for other Safes and/or Preferred Units, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other Safes and/or Preferred Units, the applicable Proceeds will be distributed pro rata to the Investor and such other Safes and/or Preferred Units in proportion to the full payments that would otherwise be due; and
iii. Senior to payments for Common Units.

Securities Issued by the SPV

Instead of issuing its securities directly to investors, the Company has decided to issue its securities to the SPV, which will then issue interests in the SPV to investors. The SPV is formed concurrently with the filing of the Form C. Given this, the SPV does not have any financials to report. The SPV is managed by Wefunder Admin, LLC and is a co-issuer with the Company of the securities being offered in this offering. The Company's use of the SPV is intended to allow investors in the SPV to achieve the same economic exposure, voting power, and ability to assert State and Federal law rights, and receive the same disclosures, as if they had invested directly in the Company. While the Issuer may be required to pay an annual administrative fee for the maintenance of the SPV, investors should note the Company's use of the SPV will not result in any additional fees being charged to investors.

The SPV has been organized and will be operated for the sole purpose of directly acquiring, holding and disposing of the Company's securities, will not borrow money and will use all of the proceeds from the sale of its securities solely to purchase a single class of securities of the Company. As a result, an investor investing in the Company through the SPV will have the same relationship to the Company's securities, in terms of number, denomination, type and rights, as if the investor invested directly in the Company.

Voting Rights

If the securities offered by the Company and those offered by the SPV have voting rights, those voting rights may be exercised by the investor or his or her proxy. The applicable proxy is the Lead Investor, if the Proxy (described below) is in effect.

Proxy to the Lead Investor

The SPV securities have voting rights. With respect to those voting rights, the investor and his, her, or its transferees or assignees (collectively, the "Investor"), through a power of attorney granted by Investor in the Investor Agreement, has appointed or will appoint the Lead Investor as the Investor's true and lawful proxy and attorney (the "Proxy") with the power to act alone and with full power of substitution, on behalf of the Investor to: (i) vote all securities related to the Company purchased in an offering hosted by Wefunder Portal, and (ii) execute, in connection with such voting power, any instrument or document that the Lead Investor determines is necessary and appropriate in the exercise of his or her authority. Such Proxy will be irrevocable by the Investor unless and until a successor lead investor ("Replacement Lead Investor") takes the place of the Lead Investor. Upon notice that a Replacement Lead Investor has taken the place of the Lead Investor, the Investor will have five (5) calendar days to revoke the Proxy. If the Proxy is not revoked within the 5-day time period, it shall remain in effect.

Restriction on Transferability

The SPV securities are subject to restrictions on transfer, as set forth in the Subscription Agreement and the Limited Liability Company Agreement of Wefunder SPV, LLC, and may not be transferred without the prior approval of the Company, on behalf of the SPV.

14. Do the securities offered have voting rights?

- ☐ Yes
- ☑ No

15. Are there any limitations on any voting or other rights identified above?

See the above description of the Proxy to the Lead Investor.

16. How may the terms of the securities being offered be modified?

Any provision of this Safe may be amended, waived or modified by written consent of the Company and either:

i. the Investor or

ii. the majority-in-interest of all then-outstanding Safes with the same "Post-Money Valuation Cap" and "Discount Rate" as this Safe (and Safes lacking one or both of such terms will be considered to be the same with respect to such term(s)), provided that with respect to clause (ii):

   A. the Purchase Amount may not be amended, waived or modified in this manner,

   B. the consent of the Investor and each holder of such Safes must be solicited (even if not obtained), and

   C. such amendment, waiver or modification treats all such holders in the same manner. "Majority-in-interest" refers to the holders of the applicable group of Safes whose Safes have a total Purchase Amount greater than 50% of the total Purchase Amount of all of such applicable group of Safes.

Pursuant to authorization in the Investor Agreement between each Investor and Wefunder Portal, Wefunder Portal is authorized to take the following actions with respect to the investment contract between the Company and an investor:

A. Wefunder Portal may amend the terms of an investment contract, provided that the amended terms are more favorable to the investor than the original terms; and

B. Wefunder Portal may reduce the amount of an investor's investment if the reason for the reduction is that the Company's offering is oversubscribed.

Restrictions on Transfer of the Securities Being Offered:

The securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred:

1. to the issuer;
2. to an accredited investor;
3. as part of an offering registered with the U.S. Securities and Exchange Commission; or
4. to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term "accredited investor" means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term "member of the family of the purchaser or the equivalent" includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term "spousal equivalent" means a cohabitant occupying a relationship generally equivalent to that of a spouse.

Description of Issuer's Securities

17. What other securities or classes of securities of the issuer are outstanding? Describe the material terms of any other outstanding securities or classes of securities of the issuer.

Class of Security	Authorized	Outstanding	Voting rights
Common Units	10000000	1000000	☑

Class of Security	Total Pool
Warrants	None
Options	None

Describe any other rights:

The company has not yet authorized preferred units, which investors in the SAFE (if converted) will receive. Preferred units have liquidation preferences over common units.

---

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

The holders of a majority-in-interest of voting rights in the Company could limit the Investor's rights in a material way. For example, those interest holders could vote to change the terms of the agreements governing the Company's operations or cause the Company to engage in additional offerings (including potentially a public offering).

These changes could result in further limitations on the voting rights the Investor will have as an owner of equity in the Company, for example by diluting those rights or limiting them to certain types of events or consents.

To the extent applicable, in cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional equity, an Investor's interest will typically also be diluted.

Based on the risk that an Investor's rights could be limited, diluted or otherwise qualified, the Investor could lose all or part of his or her investment in the securities in this offering, and may never see positive returns.

Additional risks related to the rights of other security holders are discussed below, in Question 20.

---

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer?

No.

---

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

As holders of a majority-in-interest of voting rights in the Company, **the unitholders** may make decisions with which the Investor disagrees, or that negatively affect the value of the Investor's securities in the Company, and the Investor will have no recourse to change these decisions. The Investor's interests may conflict with those of other investors, and there is no guarantee that the Company will develop in a way that is optimal for or advantageous to the Investor.

For example, **the unitholders** may change the terms of the operating agreement for the company, change the terms of securities issued by the Company, change the management of the Company, and even force out minority holders of securities. **The unitholders** may make changes that affect the tax treatment of the Company in ways that are unfavorable to you but favorable to them. They may also vote to engage in new offerings and/or to register certain of the Company's securities in a way that negatively affects the value of the securities the Investor owns. Other holders of securities of the Company may also have access to more information than the Investor, leaving the Investor at a disadvantage with respect to any decisions regarding the securities he or she owns.

The unitholders have the right to redeem their securities at any time. **Unitholders** could decide to force the Company to redeem their **securities** at a time that is not favorable to the Investor and is damaging to the Company. Investors' exit may affect the value of the Company and/or its viability.

In cases where the rights of holders of convertible debt, SAFES, or other outstanding options or warrants are exercised, or if new awards are granted under our equity compensation plans, an Investor's interests in the Company may be diluted. This means that the pro rata portion of the Company represented by the Investor's securities will decrease, which could also diminish the Investor's voting and/or economic rights. In addition, as discussed above, if a majority-in-interest of holders of securities with voting rights cause the Company to issue additional units, an Investor's interest will typically also be diluted.

---

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The offering price for the securities offered pursuant to this Form C has been determined arbitrarily by the Company, and does not necessarily bear any relationship to the Company's book value, assets, earnings or other generally accepted valuation criteria. In determining the offering price, the Company did not employ investment banking firms or other outside organizations to make an independent appraisal or evaluation. Accordingly, the offering price should not be considered to be indicative of the actual value of the securities offered hereby.

The initial amount invested in a SAFE is determined by the investor, and we do not guarantee that the SAFE will be converted into any particular number of **units**. As discussed in Question 13, when we engage in an offering of equity interests involving **Preferred Units**, Investors may receive a number of **Preferred Units** calculated as either (i) the total value of the Investor's investment, divided by the price of the **Preferred Unit** being issued to new Investors, or (ii) if the valuation for the company is more than the Valuation Cap, the amount invested divided by the quotient of (a) the Valuation Cap divided by (b) the total amount of the Company's capitalization at that time.

Because there will likely be no public market for our securities prior to an initial public offering or similar liquidity event, the price of the **Preferred Units** that Investors will receive, and/or the total value of the Company's capitalization, will be determined by our **management**. Among the factors we may consider in determining the price of **Preferred Units** are prevailing market conditions, our financial information, market valuations of other companies that we believe to be comparable to us, estimates of our business potential, the present state of our development and other factors deemed relevant.

In the future, we will perform valuations of our **units** that take into account, as applicable, factors such as the following:

- unrelated third party valuations;
- the price at which we sell other securities in light of the relative rights, preferences and privileges of those securities;
- our results of operations, financial position and capital resources;
- current business conditions and projections;
- the marketability or lack thereof of the securities;
- the hiring of key personnel and the experience of our management;
- the introduction of new products;
- the risk inherent in the development and expansion of our products;
- our stage of development and material risks related to our business;
- the likelihood of achieving a liquidity event, such as an initial public offering or a sale of our company given the prevailing market conditions and the nature and history of our business;
- industry trends and competitive environment;

- trends in consumer spending, including consumer confidence;
- overall economic indicators, including gross domestic product, employment, inflation and interest rates; and
- the general economic outlook.

We will analyze factors such as those described above using a combination of financial and market-based methodologies to determine our business enterprise value. For example, we may use methodologies that assume that businesses operating in the same industry will share similar characteristics and that the Company's value will correlate to those characteristics, and/or methodologies that compare transactions in similar securities issued by us that were conducted in the market.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

An Investor in the Company will likely hold a minority position in the Company, and thus be limited as to its ability to control or influence the governance and operations of the Company.

The marketability and value of the Investor's interest in the Company will depend upon many factors outside the control of the Investor. The Company will be managed by its officers and be governed in accordance with the strategic direction and decision-making of its Management, and the Investor will have no independent right to name or remove an officer or member of the Management of the Company.

Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured.

The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

23. What are the risks to purchasers associated with corporate actions, including additional issuances of securities, issuer repurchases of securities, a sale of the issuer or of assets of the issuer or transactions with related parties?

Additional issuances of securities. Following the Investor's investment in the Company, the Company may sell interests to additional investors, which will dilute the percentage interest of the Investor in the Company. The Investor may have the opportunity to increase its investment in the Company in such a transaction, but such opportunity cannot be assured. The amount of additional financing needed by the Company, if any, will depend upon the maturity and objectives of the Company. The declining of an opportunity or the inability of the Investor to make a follow-on investment, or the lack of an opportunity to make such a follow-on investment, may result in substantial dilution of the Investor's interest in the Company.

Issuer repurchases of securities. The Company may have authority to repurchase its securities from unitholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the Investor to sell its securities to the Company concurrently.

A sale of the issuer or of assets of the issuer. As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the Investor will rely upon the executive management of the Company to manage the Company so as to maximize value for unitholders. Accordingly, the success of the Investor's investment in the Company will depend in large part upon the skill and expertise of the executive management of the Company. If the Management of the Company authorizes a sale of all or a part of the Company, or a disposition of a substantial portion of the Company's assets, there can be no guarantee that the value received by the Investor, together with the fair market estimate of the value remaining in the Company, will be equal to or exceed the value of the Investor's initial investment in the Company.

Transactions with related parties. The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its unitholders. By acquiring an interest in the Company, the Investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

24. Describe the material terms of any indebtedness of the issuer:

Loan
Amount: $8,105.00
Outstanding principal plus interest: $8,105.00 as of 11/24/2026
Tax Liability / Installment Agreement | Lender: Internal Revenue Service | Legacy federal payroll tax liability carried on balance sheet at $7,642.75 | actual payoff balance including penalties and interest is $8,105.77. Company has back-filed Form 944 and is processing an In-Business Installment Agreement with the IRS to retire this balance in full.

Loan
Amount: $41,864.00
Outstanding principal plus interest: $41,864.00 as of 11/24/2026
Current liabilities obligation | Derived from balance sheet current liabilities for the completed fiscal year.

INSTRUCTION TO QUESTION 24: name the creditor, amount owed, interest rate, maturity date, and any other material terms.

25. What other exempt offerings has the issuer conducted within the past three years?

Offering date	Exemption	Security type	Amount sold	Use of proceeds
No exempt offerings.				

26. Was or is the issuer or any entities controlled by or under common control with the issuer a party to any transaction since the beginning of the issuer's last fiscal year, or any currently proposed transaction, where the amount involved exceeds five percent of the aggregate amount of capital raised by the issuer in reliance on Section 4(a)(6) of the Securities Act during the preceding 12- month period, including the amount the issuer seeks to raise in the current offering, in which any of the following persons had or is to have a direct or indirect material interest:

1. any director or officer of the issuer;
2. any person who is, as of the most recent practicable date, the beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, calculated on the basis of voting power;
3. if the issuer was incorporated or organized within the past three years, any promoter of the issuer;
4. or any immediate family member of any of the foregoing persons.

☐ Yes
☑ No

For each transaction specify the person, relationship to issuer, nature of interest in transaction, and amount of interest.

In connection with restructuring the Company into a 100% single-member LLC, two former minority holders surrendered their combined 4%

economic membership interests back to the Company. In exchange, the Company entered into contractual Membership Interest Relinquishment and Contingent Payout Agreements.

Under these agreements, each party holds a non-voting, non-equity contractual right to receive 2% (4% total) of Net Sale Proceeds solely in the event that Broth Bomb LLC or substantially all of its assets are acquired by a third party. These rights do not convert into equity, convey zero voting or governance rights, generate no ongoing debt service, and create no dilution in future equity financing rounds.

FINANCIAL CONDITION OF THE ISSUER

27. Does the issuer have an operating history?

Yes

28. Describe the financial condition of the issuer, including, to the extent material, liquidity, capital resources and historical results of operations.

Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview of the Business and Financial Condition

Broth Bomb LLC is a disability-owned company that manufactures and sells fizzy seasoning mixes designed to make cooking soups, stews, and broths easy and flavorful. The company supports food desert and multi-cultural causes while offering convenient meal prep solutions through their effervescent seasoning bombs.

We are an early-stage company and have incurred operating losses and negative cash flows from operations since inception. We expect to continue to incur operating losses in the near term.

As of October 26, 2026, we had cash and cash equivalents of approximately $8,188.

Our ability to continue operations is dependent on managing our expenses and, if necessary, obtaining additional financing.

This discussion should be read in conjunction with the financial statements and related notes included in this offering statement.

Business and Operating Uncertainty

Our business operates in an environment subject to various risks, uncertainties, and changing conditions, which makes it difficult to evaluate our business, financial condition, and prospects and may limit the comparability of our results of operations from period to period.

Financial Condition

As of December 31, 2025, our total assets were $91,320 and our current and non-current liabilities, as reflected in available financial statement fields, were $72,149.

Our financial statements reflect an early-stage company with limited operating history. Investors should not place undue reliance on historical financial information given the company's limited operating history and the likelihood that future results will differ from historical results.

Liquidity and Capital Resources

As of December 31, 2025, we had cash and cash equivalents of approximately $80,837.

Based on our current operations, we have a monthly net cash burn of approximately $1,500.

Our monthly net cash burn or profit may vary significantly from month to month due to the timing of receipts and expenditures and other short-term factors. As a result, period-to-period comparisons may not be meaningful.

Based on our current plan, we do not expect to have sufficient cash to fund operations for at least the next 12 months. The main drivers of our limited runway include:

- The Company operates on an asset-light, capital-efficient structure and does not face an existential insolvency risk over the next 12 months. All manufacturing equipment, proprietary formulas, and brand assets are owned 100% debt-free.

If the Company did not raise outside capital, operations would resume via a licensed shared/commissary kitchen rather than signing a long-term dedicated lease. Production would be financed non-dilutively through direct-to-consumer pre-orders mobilized across our existing audience of 35,000 past customers and followers that capitalize on the holiday season online sales. Because product unit economics historically produce gross margins exceeding 65% during these months, customer pre-orders directly fund raw material inputs (COGS) and hourly assembly, generating positive operating cash flow and owner compensation without depleting core reserves.

To date, our operations have been funded through minimal cash resources and have not included any external financing.

Liquidity Assumptions

Our assessment of our liquidity and ability to fund operations is not a projection and is based on current assumptions regarding operating expenses, cash requirements, and capital needs. These assumptions may change, and actual results may differ materially due to changes in operating conditions, timing of receipts and payments, and other factors.

Dependence on Additional Financing

There can be no assurance that additional financing will be available on acceptable terms, or at all. If we are unable to raise additional capital when needed, we may be required to materially reduce or suspend operations.

Indebtedness and Capital Structure

As of the date of this offering statement, we had total outstanding indebtedness consisting of 2 loans and approximately $49,969.77 in aggregate principal obligations. The material terms of such indebtedness are described in Item 24 of this Form C.

(For the avoidance of doubt, SAFEs are not treated as indebtedness.)

We have not conducted any exempt offerings or raised capital in the past three years.

Known Trends, Events, and Uncertainties

Management is not currently aware of any known trends, events, or uncertainties that are reasonably likely to have a material adverse effect on our financial condition or results of operations over the next 12 months.

The absence of a discussion of any particular trend, event, or uncertainty should not be interpreted to mean that such matters do not exist; rather, it reflects management's judgment based on information currently available.

Changes Since the Date of the Financial Statements

Since December 31, 2025, there were material changes in our operations and financial condition, including a material decrease in revenue. The Company also resolved all partnership restructuring matters, resulting in the founder regaining 100% sole ownership of Broth Bomb LLC, free of any ongoing equity claims or operating encumbrances.

Following this restructuring, active commercial operations and retail marketing were intentionally paused throughout 2026 while the founder evaluated strategic options for the brand, including the possibility of a full business acquisition or strategic buyout. After assessing market opportunities and sustained consumer demand for the product line, the founder decided to retain full ownership, reactivate production, and scale the business independently.

During this dormant period, operating overhead was reduced, preserving core assets, proprietary formulations, manufacturing equipment, and brand trademarks. The Company is now actively securing light-industrial space to resume commercial manufacturing in Q4 2026.

Impact of This Offering

The proceeds from this offering are expected to be used for a new small manufacturing facility, new hires, and professional agencies. The timing and extent of our use of proceeds will depend on the amount of proceeds raised and future operating conditions. Additional detail regarding our planned use of proceeds is provided in Item 10 of this Form C.

There can be no assurance that the proceeds of this offering will be sufficient to fund our operations or achieve our business objectives.

Certain information relevant to understanding our financial condition and liquidity is presented elsewhere in this offering statement, including in the financial statements, related notes, and the sections describing indebtedness and prior financings.

Forward-Looking Statements

This discussion contains forward-looking statements that are based on management's current expectations and assumptions. Actual results may differ materially from those expressed or implied by these statements.

FINANCIAL INFORMATION

29. Include financial statements covering the two most recently completed fiscal years or the period(s) since inception, if shorter:

Refer to Appendix C, Financial Statements.

I, **Andrew Dundas Laurent**, certify that:

(1) the financial statements of Broth Bomb LLC included in this Form are true and complete in all material respects; and

(2) the tax return information of Broth Bomb LLC included in this Form reflects accurately the information reported on the tax return for Broth Bomb LLC filed for the most recently completed fiscal year.

STAKEHOLDER ELIGIBILITY

30. With respect to the issuer, any predecessor of the issuer, any affiliated issuer, any director, officer, general partner or managing member of the issuer, any beneficial owner of 20 percent or more of the issuer's outstanding voting equity securities, any promoter connected with the issuer in any capacity at the time of such sale, any person that has been or will be paid (directly or indirectly) remuneration for solicitation of purchasers in connection with such sale of securities, or any general partner, director, officer or managing member of any such solicitor, prior to May 16, 2016:

(1) Has any such person been convicted, within 10 years (or five years, in the case of issuers, their predecessors and affiliated issuers) before the filing of this offering statement, of any felony or misdemeanor:

i. in connection with the purchase or sale of any security? ☐ Yes ☑ No
ii. involving the making of any false filing with the Commission? ☐ Yes ☑ No
iii. arising out of the conduct of the business of an underwriter, broker, dealer, municipal securities dealer, investment adviser, funding portal or paid solicitor of purchasers of securities? ☐ Yes ☑ No

(2) Is any such person subject to any order, judgment or decree of any court of competent jurisdiction, entered within five years before the filing of the information required by Section 4A(b) of the Securities Act that, at the time of filing of this offering statement, restrains or enjoins such person from engaging or continuing to engage in any conduct or practice:

i. in connection with the purchase or sale of any security? ☐ Yes ☑ No
ii. involving the making of any false filing with the Commission? ☐ Yes ☑ No
iii. arising out of the conduct of the business of an underwriter, broker, dealer, municipal securities dealer, investment adviser, funding portal or paid solicitor of purchasers of securities? ☐ Yes ☑ No

(3) Is any such person subject to a final order of a state securities commission (or an agency or officer of a state performing like functions); a state authority that supervises or examines banks, savings associations or credit unions; a state insurance commission (or an agency or officer of a state performing like functions); an appropriate federal banking agency; the U.S. Commodity Futures Trading Commission; or the National Credit Union Administration that:

i. at the time of the filing of this offering statement bars the person from:
   A. association with an entity regulated by such commission, authority, agency or officer? ☐ Yes ☑ No
   B. engaging in the business of securities, insurance or banking? ☐ Yes ☑ No
   C. engaging in savings association or credit union activities? ☐ Yes ☑ No
ii. constitutes a final order based on a violation of any law or regulation that prohibits fraudulent, manipulative or deceptive conduct and for which the order was entered within the 10-year period ending on the date of the filing of this offering statement? ☐ Yes ☑ No

(4) Is any such person subject to an order of the Commission entered pursuant to Section 15(b) or 15B(c) of the Exchange Act or Section 203(e) or (f) of the Investment Advisers Act of 1940 that, at the time of the filing of this offering statement:

i. suspends or revokes such person's registration as a broker, dealer, municipal securities dealer, investment adviser or funding portal? ☐ Yes ☑ No
ii. places limitations on the activities, functions or operations of such person? ☐ Yes ☑ No
iii. bars such person from being associated with any entity or from participating in the offering of any penny stock? ☐ Yes ☑ No

(5) Is any such person subject to any order of the Commission entered within five years before the filing of this offering statement that, at the time of the filing of this offering statement, orders the person to cease and desist from committing or causing a violation or future violation of:

i. any scienter-based anti-fraud provision of the federal securities laws, including without limitation Section 17(a)(1) of the Securities Act, Section 10(b) of the Exchange Act, Section 15(c)(1) of the Exchange Act and Section 206(1) of the Investment Advisers Act of 1940 or any other rule or regulation thereunder? ☐ Yes ☑ No
ii. Section 5 of the Securities Act? ☐ Yes ☑ No

(6) Is any such person suspended or expelled from membership in, or suspended or barred from association with a member of, a registered national securities exchange or a registered national or affiliated securities association for any act or omission to act constituting conduct inconsistent with just and equitable principles of trade? ☐ Yes ☑ No

(7) Has any such person filed (as a registrant or issuer), or was any such person or was any such person named as an underwriter in, any registration statement or Regulation A offering statement filed with the Commission that, within five years before the filing of this offering statement, was the subject of a refusal order, stop order, or order suspending the Regulation A exemption, or is any such person, at the time of such filing, the subject of an investigation or proceeding to determine whether a stop order or suspension order should be issued? ☐ Yes ☑ No

(8) Is any such person subject to a United States Postal Service false representation order entered within five years before the filing of the information required by Section 4A(b) of the Securities Act, or is any such person, at the time of filing of this offering statement, subject to a temporary restraining order or preliminary injunction with respect to conduct alleged by the United States Postal Service to constitute a scheme or device for obtaining money or property through the mail by means of false representations? ☐ Yes ☑ No

If you would have answered "Yes" to any of these questions had the conviction, order, judgment, decree, suspension, expulsion or bar occurred or been issued after May 16, 2016, then you are NOT eligible to rely on this exemption under Section 4(a)(6) of the Securities Act.

OTHER MATERIAL INFORMATION

31. In addition to the information expressly required to be included in this Form, include:

- (1) any other material information presented to investors; and
- (2) such further material information, if any, as may be necessary to make the required statements, in light of the circumstances under which they are made, not misleading.

The Lead Investor. As described above, each Investor that has entered into the Investor Agreement will grant a power of attorney to make voting decisions on behalf of that Investor to the Lead Investor (the "Proxy"). The Proxy is irrevocable unless and until a Successor Lead Investor takes the place of the Lead Investor, in which case, the Investor has a five (5) calendar day period to revoke the Proxy. Pursuant to the Proxy, the Lead Investor or his or her successor will make voting decisions and take any other actions in connection with the voting on Investors' behalf.

The Lead Investor is an individual that is chosen to act in the role of Lead Investor on behalf of Investors that have a Proxy in effect. The Lead Investor will be chosen by the Company and approved by Wefunder Inc. and the identity of the initial Lead Investor will be disclosed to Investors before Investors make a final investment decision to purchase the securities related to the Company.

The Lead Investor can quit at any time or can be removed by Wefunder Inc. for cause or pursuant to a vote of investors as detailed in the Lead Investor Agreement. In the event the Lead Investor quits or is removed, the Company will choose a Successor Lead Investor who must be approved by Wefunder Inc. The identity of the Successor Lead Investor will be disclosed to Investors, and those that have a Proxy in effect can choose to either leave such Proxy in place or revoke such Proxy during a 5-day period beginning with notice of the replacement of the Lead Investor.

The Lead Investor will not receive any compensation for his or her services to the SPV. The Lead Investor may receive compensation if, in the future, Wefunder Advisors LLC forms a fund ("Fund") for accredited investors for the purpose of investing in a non-Regulation Crowdfunding offering of the Company. In such circumstances, the Lead Investor may act as a portfolio manager for that Fund (and as a supervised person of Wefunder Advisors) and may be compensated through that role.

Although the Lead Investor may act in multiple roles with respect to the Company's offerings and may potentially be compensated for some of its services, the Lead Investor's goal is to maximize the value of the Company and therefore maximize the value of securities issued by or related to the Company. As a result, the Lead Investor's interests should always be aligned with those of Investors. It is, however, possible that in some limited circumstances the Lead Investor's interests could diverge from the interests of Investors, as discussed in section 8 above.

Investors that wish to purchase securities related to the Company through Wefunder Portal must agree to give the Proxy described above to the Lead Investor, provided that if the Lead Investor is replaced, the Investor will have a 5-day period during which he or she may revoke the Proxy. If the Proxy is not revoked during this 5-day period, it will remain in effect.

Tax Filings. In order to complete necessary tax filings, the SPV is required to include information about each investor who holds an interest in the SPV, including each investor's taxpayer identification number ("TIN") (e.g., social security number or employer identification number). To the extent they have not already done so, each investor will be required to provide their TIN within the earlier of (i) two (2) years of making their investment or (ii) twenty (20) days prior to the date of any distribution from the SPV. If an investor does not provide their TIN within this time, the SPV reserves the right to withhold from any proceeds otherwise payable to the Investor an amount necessary for the SPV to satisfy its tax withholding obligations as well as the SPV's reasonable estimation of any penalties that may be charged by the IRS or other relevant authority as a result of the investor's failure to provide their TIN. If applicable, the Company may also be required to pay Wefunder certain fees for the preparation of tax filings. Such fees and the Company's obligation to deliver required tax documents are further specified in the related Tax Services Agreement ("TSA").

Investors should carefully review the terms of the SPV Subscription Agreement for additional information about tax filings.

Potential Dissolution of the SPV. The Company has agreed that it will pay an administrative fee and / or certain tax fees to Wefunder, in addition to delivering required tax information in the manner prescribed by the TSA, where applicable. Failure to pay such fees or provide Wefunder with required tax information could result in the dissolution of the SPV (an "SPV Dissolution Event"). Subsequent to an SPV Dissolution Event, the securities held by the SPV would be distributed directly and proportionally to the individual investors. This could create administrative complexities, as investors would need to manage the securities themselves rather than having them held and administered by the SPV. Additionally, the unplanned distribution of securities may not align with investors' intended investment strategy or asset allocation.

Upon an SPV Dissolution Event, the Investor hereby consents to and agrees to accept direct assignment of the SPV's rights and obligations under any investment agreements between the SPV and the Company that is located in the Form C or C/A offering materials. The Investor acknowledges they will be bound by all terms and conditions of such agreements as if they were an original party thereto.

ONGOING REPORTING

32. The issuer will file a report electronically with the Securities & Exchange Commission annually and post the report on its website, no later than:

120 days after the end of each fiscal year covered by the report.

33. Once posted, the annual report may be found on the issuer's website at:

https://brothbomb.store/invest

The issuer must continue to comply with the ongoing reporting requirements until:

1. the issuer is required to file reports under Exchange Act Sections 13(a) or 15(d);
2. the issuer has filed at least one annual report and has fewer than 300 holders of record;
3. the issuer has filed at least three annual reports and has total assets that do not exceed $10 million; or
4. the issuer or another party purchases or repurchases all of the securities issued pursuant to Section 4(a)(6), including any payment in full of debt securities or any complete redemption of redeemable securities; or the issuer liquidates or dissolves in accordance with state law.

Wefunder Portal will review the information you provide before we agree to submit a Form C to the SEC. Our review is designed to assess whether the information you have provided is complete and not inaccurate, misleading or otherwise fraudulent. Despite our review, the company submitting this Form C may be held responsible for all information provided through it, and for ensuring that the information it submits is not false or misleading in any material way and does not omit any information that would cause the information included to be false or misleading. By submitting your Form C to us, you acknowledge this. You also agree to provide any additional information or clarification we may request from you so that the Form C we submit on your behalf, in our reasonable, good faith review, does not contain incorrect information. Wefunder Portal will not submit a Form C that we believe, in our sole discretion, omits material information or contains false or misleading information. As a result, there is no guarantee that we will submit a Form C on your behalf.

Intentional misstatements or omissions of facts constitute federal criminal violations. See 18 U.S.C. 1001.

The issuer certifies that it has established means to keep accurate records of the holders of the securities it would offer and sell through the Form C.

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100 et seq.), the issuer certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form C and has duly caused this Form to be signed on its behalf by the duly authorized undersigned.

I authorize Wefunder Portal to submit a Form C to the SEC based on the information I provided through this online form and my company's Wefunder profile.

As an authorized representative of the company, I appoint Wefunder Portal as the company's true and lawful representative and attorney-in-fact, in the company's name, place and stead to make, execute, sign, acknowledge, swear to and file a Form C, any future non-material Form C-A, any future Form C-U, and any future Form C-W on the company's behalf. This power of attorney is coupled with an interest and is irrevocable. The company hereby waives any and all defenses that may be available to contest, negate or disaffirm the actions of Wefunder Portal taken in good faith under or in reliance upon this power of attorney.

Before you click on the button below, please review the information you have provided carefully.

We strongly recommend you have your company's lawyer review the information as well. The company submitting this Form C is responsible for all information provided through it, and for ensuring that the information it submits is not false or misleading in any material way and does not omit any information that would cause the information included to be false or misleading.

☑ I verify the Form C is 100% accurate

☑ I agree to the Wefunder Listing Agreement

☑ I agree to Wefunder Tax Service Agreement

☑ I agree to the Investor Representative Proxy Agreement

☑ I agree to the Rule 3a-9 Undertakings Agreement

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100 et seq.), the issuer certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form C and has duly caused this Form to be signed on its behalf by the duly authorized undersigned.

Broth Bomb LLC

By

Andrew Laurent

Founder & CEO

Pursuant to the requirements of Sections 4(a)(6) and 4A of the Securities Act of 1933 and Regulation Crowdfunding (§ 227.100 et seq.), this Form C and Transfer Agent Agreement has been signed by the following persons in the capacities and on the dates indicated.

Andrew Laurent

Founder & CEO
11/23/2026

The Form C must be signed by the issuer, its principal executive officer or officers, its principal financial officer, its controller or principal accounting officer and at least a majority of the board of directors or persons performing similar functions.
